ESCAPED AN OPERATION

By Taking Lydia E. Pinkham's Vegetable Compound. Many Such Cases.

Cairo, Ill.—"Sometime ago I got so bad with female trouble that I thought I would have to be operated on. I had a bad displacement. My right side would pain me and I was so nervous I could not hold a glass of water. Many times I would have to stop my work and sit down or I would fall on the floor in a faint. I consulted several doctors and every one told me the same but I kept fighting to keep from having the operation. I had read so many times of Lydia E. Pinkham's Vegetable Compound and it helped my sister so I began taking it. I have never felt better than I have since then and I keep house and am able to do all my work. The Vegetable Compound is certainly one grand medicine."—Mrs. J. R. MATTHEWS, 3311 Sycamore Street, Cairo, Ill.

Of course there are many serious cases that only a surgical operation will relieve. We freely acknowledge this, but the above letter, and many others like it, amply prove that many operations are recommended when medicine in many cases is all that is needed.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass.

THE ELECTRIC STOVE

THE electric stove is a successful device which prevents the housewife from being overcome by the heat and baked to the dull, reddish brown aspect of the Arapahoe squaw. A woman can stand in front of an electric stove all day and run it with one hand, while beating up a sponge cake with the other, and still remain as

It Does Not Cost Any More to Cook a Thick Beefsteak Than It Does to Buy the Steak in the First Place.

cool and collected as a refrigerator car. In fact, the only person who is liable to become overheated when he looks at one of these stoves is a husband who has just figured the meter rate with a pencil stub and a sinking heart.

Man cannot realize what the introduction of the electric stove means to woman, because he has never posed in front of a soft-coal range for eight hours in succession, trying to prepare enough food to keep a family of eight children from eating the upholstering off of a hair sofa. The old-fashioned cook stove, with sloping legs and concave stomach, has caused thousands of women to regret having given up teaching country school and entering upon matrimony with one eye closed. these stoves on a peaceful summer Nobody has ever determined the number of heat units thrown off by one of day when the air is vibrant with the melody of birds and the thermometer is running around the track with its tongue out. We do know, however, that many a man has come home at noon, only to be greeted by a wife with straight hair and carmine complexion, like unto the over-ripe tomato, all due to a steel range which was not content with trying to cook what it carried inside.

The electric stove does not have to be fed kindling in the form of cobs, but is operated by a simple button, which turns on the heat and the meter at one and the same time. This meter is very fast on its feet, and it is a painful sight for a frugal husband to watch it turn over and devour watts and kilowatts in a reckless and prodigal manner. It does not cost any more to cook a thick beefsteak on an electric stove than it does to buy the steak in the first place, and after the oven has become thoroughly heated it will remain in that condition so long as nobody wants to use the heat.

If some way could be devised to turn back the surplus heat generated by an electric stove into the meter, and get credit at the end of the month, more people would use it without a sense of dark, chilly foreboding.

THE PUP.

He tore the curtains yesterday,
And scratched the paper on the wall;
Her rubbers, too, have gone astray,
Ma says she left them in the hall.
He tugged the table cloth and broke
A fancy saucer and a cup;
Though Bud and I think it a joke
Ma scolds a lot about the pup.

The sofa pillows are a sight,
The rugs are looking somewhat frayed
And there is ruin, left and right,
That little Boston bull has made.
He slept on Buddy's counterpane,
Ma found him there when she woke up.
I think it needless to explain
She scolds a lot about the pup.

And yet he comes and licks her hand
And sometimes climbs into her lap
And there, Bud lets me understand,
He very often takes his nap.
And Bud and I have learned to know
She wouldn't give the rascal up.
She's really fond of him although
She scolds a lot about the pup.

SCHOOL DAYS

Get Close

By GEORGE MATTHEW ADAMS

MANY a General, since Time got to going, has bitterly learned the futility of fighting a battle at long range. Also, many a Business man has learned to his sorrow the disaster back of a distant relationship between himself and his customers.

Step a Step Closer.

Individual supremacy and power result from combat, whether or not it is a Battle at Arms, a Battle in Business, or a Battle with your own Self. And the Closer you get to your Opponent the surer you are of Victory.

Step a Step Closer.

Another thing to remember—Imagination is a powerful factor in Success and the Closer you are to your work or your Opposition, the biggest will be your vision, the more will you See, and the clearer will loom the real purpose back of each effort that you make in life.

Step a Step Closer.

Close quartered you are able to detect defects, and correct them. Close centered there is no lost motion, but power in every stroke. If you will but apply the suggested thoughts back of this little talk, to your work today, larger growth is sure. You will be a bigger man or woman.

MOTHER'S COOK BOOK by Nellie Maxwell

The thing that goes the furthest toward making life worth while,
That costs the least and does the most,
Is just a pleasant smile.
The smile that bubbles from the heart
that loves its fellow men
Will drive away the clouds of gloom and
coax the sun again.
It's full of worth and goodness too, with
manly kindness blent—
Its worth a million dollars and it doesn't
cost a cent.

Seasonable Good Things.

When there are three or more ears of corn left from dinner use them as a luncheon or supper dish. Cut the corn from the cob; add a finely minced or shredded green pepper; put into a saucepan with a little butter or bacon fat, the pepper, and when cooked for five minutes add the corn and stir until well heated through. Serve hot.

Fresh green corn cut from the cob, seasoned and mixed with green pepper, than baked in a casserole is a most dainty dish which is served piping hot from the dish.

Banana Cream Ramekins.

This is a rather unusual hot dessert. Whip two cupfuls of cream, stiff, and beat five eggs without separating. Have ready one cupful of ripe bananas chopped fine. Stir fruit and cream carefully together without destroying the lightness of the cream; add the eggs with half a cupful of sugar; half fill individual ramekins which have been well buttered, and bake in a moderate oven until puffed and a delicate brown. Serve at once at it will soon fall as it cools.

Chicken a la Terrapin.

Melt three tablespoonfuls of butter; add a tablespoonful of flour; stir until blended; add one pint of finely-minced chicken and a cupful of cream. Let stand over hot water and when the mixture is heated add the yolks of three hard-cooked eggs put through a sieve and rubbed smooth with a little cream. Add the whites chopped fine and let the mixture come to the boiling point. Season and serve.

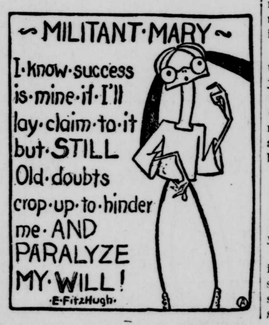

Chestnuts en Casserole.

Remove the shells from three cupfuls of chestnuts, put them into a casserole dish and cover with three cupfuls of highly-seasoned chicken stock. Cover and cook slowly for three hours in a slow oven, then thicken the stock with two tablespoonfuls of butter and one tablespoonful of flour cooked together. Send to the table in the casserole dish.

Ham Toast.

Scald one-half cupful of cream; add the beaten yolk of one egg, stir until it thickens. Add one cupful of boiled ham chopped fine; when hot, season and serve on toast.

Last Night's Dreams —What They Mean

DID YOU DREAM OF FLYING?

TO DREAM that one is flying is a rather common experience and is one of the "typical" or "standard" dreams of the scientists as it manifests itself in practically the same manner to everybody. According to Professor Strumpell of Leipzig, one of the "highbrow" dream investigators, this dream sensation of flying is the result of the dream-mind translating the sensation caused by the rising and falling of the lungs of the dreamer after the skin sensations of the chest have been reduced to insensibility by sleep. This theory, however, is rejected by other scientists for what seem very good reasons—too long to recite here. Doctor Ferden of Vienna and some others interpret the flying dream as erotic dream symbolism, while Professor Freund declares that in spite of the standardization of the dream under consideration, it requires special interpretations in some persons and in all cases arises in the dream-mind or psychic.

The mystics interpret the dream as a favorable omen. According to them it is a prognostication that the dreamer will arrive at a considerable, perhaps a great, fortune, and will be promoted to some high office of state. Also it is a sign that you will be happy as well as fortunate. If you are unmarried and in love, you will marry the one of your choice and will live happily. If you are not in love now you will be soon and a marriage will result. More than that, you will have many children who will be successful in life.

For anyone who dreams of flying there is a journey in store, which journey will result to his great advantage. The "highbrows," of course, deny that there is any prophetic meaning in the dream. So there you are—the "highbrows" and the "lowbrows"—take your choice.

Fresh Chicken.

Tom Cranfill of Texas, prominent in oil circles of late, tells the following on a minister who had discovered oil on some land he owned. The minister invited some of his deacons to go with him to the new field, so that they might share in the opportunities.

They were breakfasting at the local eating house and had decided that they would order chicken.

When the waitress, a calcimined and peroxided miss, came up, the minister inquired: "How is the chicken this morning?"

"All right, kiddo!" she retorted. "How are you?"—Saturday Evening Post.

His Objections.

The popular author entered the publisher's sanctum, seething with indignation.

"What's this I hear—you want some alterations in my manuscript?" he demanded. "I've made some libelous statements, have I? Where?"

"You have," said the publisher calmly. "Here, on page 30, you say your heroine, who lives in Pittsburgh, 'clutched the air convulsively.'"

"Well, what's wrong with that?" demanded the irate writer.

"And then," went on the man who objected, "on page 40 you say the heroine went and washed her hands. It's a libel on Pittsburgh air, sir."

Think twice before you laugh. Then you won't laugh in the wrong place.
