CATS DISRUPTED THE ZOO

Released to Clean Up Despised Rats, They Terrorized Lions, Leopards and Tigers Alike.

An army of cats, turned loose in the zoo at Highland park, Pittsburgh, Pa., to clean out the rats, has shown the fallacy of many tales of ferocity told of wild denizens of the jungle.

Rats had become so numerous at the big zoo that it was found necessary to take some means of ridding the building of the pests, and the head keeper decided on cats—just the plain alley breed. An advertisement brought them in droves, and they were turned loose in the cages, cellars, supply rooms and lofts.

No sooner had the cages been invaded than pandemonium broke loose. Lions, tigers, panthers, pumas and leopards failed to recognize a distant relationship, and many of them went clear frantic with fear. Other animals including the elephants, were not so timorous, but hippo and rhino were only a few seconds in making up their minds that discretion was the better part of valor.

As Told in Greenfield.

Back in the dim distant years when the high cost of living was not an ever present problem and some things were cheap, James Whitcomb Riley walked into a barber shop at Greenfield for a 5-cent shave. The proprietor of the shop was an old negro.

"Well, Sam, how are you getting along?" Mr. Riley asked.

"Mr. Jim, I had a very good day," Sam replied. "If I could make 75 cents between now and quittin' time I'd have $1."

Such is the story as told in Greenfield.—Indianapolis News.

LITTLE ADVICE FOR GROCER

Would-Be Wag Had Picked Out the Wrong Woman on Whom to Exercise His Wit.

There was an expression of melancholy tinged with resentment on Mrs. Brown's face as she entered the grocer's shop.

"I want," she began impressively, "to talk to you about them eggs I had last week. They weren't anything like as fresh as they might have been."

"That's strange," replied the grocer, who fancied himself something of a wag. "We always have an almanac hanging up in the fowl run to keep the hens up to date."

"Oh!" came the retort with crushing emphasis. "Then all I have to say is that somebody with brains about as addled as them eggs has been misleadin' the hens with last year's calendar. Just you hang up a 1920 card, my good fellow, and maybe them chickens 'll start working overtime to catch up to it!"

The Dub's Opinion.

"So you watched Vardon play golf."

"Yes."

"How did he impress you?"

"Not particularly. It's an easy game the way he plays it."

"That so? I thought he was remarkable."

"Remarkable? I didn't see anything remarkable about his game. His ball was always straight down the course, and the second shot always put him on the green. I could do that, too, if it weren't for the trouble I always get into. I'd like to see Vardon shoot the course in par with my slice. Then he'd be doing something."

Just So.

"Can you give me an outside room?"

"I can give you a hammock in the alley or a cot in the yard," said the hotel proprietor.

"I see. All outside rooms."

BAD RISK TO KEEP SICK

Insurance Companies Won't Take a Man Who Suffers Continually From Stomach or Liver Troubles.

Acworth, Ga.—"We have used Black-Draught in our family for years, and can say I never have found a liver medicine that could equal it," writes Mrs. J. A. Millwood, of this place. "It is fine for indigestion, headache and sour stomach," she continues.

"I use it for the family, and certainly feel it has saved me a lot of money.

"I am glad to recommend Black-Draught, and am sure if others would use it they would be as glad as I've been."

Thousands of families keep Thedford's Black-Draught in the house all the time, for use at the first sign of indigestion, constipation, colic, colds and fever, thereby preventing illnesses that might develop seriously.

When you notice that you are bilious, have a bad taste in the mouth, coated tongue, offensive breath, or if you are dizzy at times, restless, sleep poorly—do not neglect your liver. It is calling for prompt treatment. Use Thedford's Black-Draught. Its merit is widely acclaimed from long, satisfactory use.

Parvenu Couldn't Understand Why Musicians Hadn't Come With Instruments Tuned.

Herman Finck, the noted English composer, tells the following amusing story of a somewhat ambitious attempt of a member of the newly rich to grasp matters musical. He said:

"My grandfather used to direct a small orchestra of about half a dozen, which could be hired for dances, parties and weddings, and even (on one occasion only) for funerals, but that's another yarn. Well, the orchestra one night made its appearance at the house of the type of parvenu we should call nowadays a war profiteer. The guests were assembled, and the fiddlers and so on were crowded up in the usual corner with the ferns and things. Suddenly the host approached.

"'Whatever's this horrible noise you're making?' he said. 'Rotten piece, I call it!'

"'This isn't a piece,' replied my grandfather; 'we're tuning up, that's all.'

"'Tuning up? I engaged you over two months ago, and you're tuning up now?'"

HAD HIGH AMBITION FOR SON

Father Wouldn't Be Satisfied Until He Saw Him in a Really Proud Position.

An instructor in the military academy at West Point was once assigned to conduct about the place the visiting parents of a certain cadet.

After a tour of the post, the proud and happy parents joined the crowd assembled to witness evening parade, a most imposing spectacle. The march past aroused the father of the cadet to a high pitch of enthusiasm.

"There!" he exclaimed to his spouse, "isn't that fine? But," he added, reflectively, "I shall not be happy till my boy attains the proud position that leads 'em all." And he pointed in rapt admiration to the drum-major.

HOME TOWN HELPS

LIFE IN SMALL TOWN BEST

Has Many Advantages Compared to the Hurry and Bustle Inflicted on City Dweller.

I do not think that where a man lives has anything to do with his progression, as progression is hereditary and it is not caused by environment, writes a correspondent of the Pittsburgh Dispatch. The idea that a boy must go to the city to acquire fame is becoming a thing of the past, for people of this world are beginning to realize that progression may mean many things—among them progression in tilling the soil as well as progression in politics.

The most progressive men in the world are the men who go to make up the little towns, for they are generally the steady, reliable, sensible fellows, who do not pine for the excitement and the glare of a life in a big city. Small town men are the rock upon which this great country is most securely built. They are the wholesome, true-blue scouts, who are big enough to live the simple, little town life, and their quiet nerves hold our country balanced. The city man is a bunch of nerves compared with the man from the village. His days are spent in dodging automobiles in the streets, hurrying from place to place, trying to beat the other fellow at making money, and after a day of being "on the jump" he goes to the theater and does not get home until morning. Then he sleeps five hours and is ready to go through the same performance again. Little Town Man goes to bed at 10 after an evening at the movie and at 6 is ready to get up and begin his day. The "country Jake" is no longer a person to be laughed at, but a person to be envied, and many of our greatest so-called progressives are going back to the "simple-life."

REASONS FOR OWNING HOME

Advantages Are Many, Quite Apart From the Economic One Declares an Eastern Writer.

There are many upsetting circumstances in the world, against which house ownership is a sort of insurance. If I had not owned my home last fall, and had by any chance been thrown out by the old landlord, it would have been a very serious job to find what I wanted in the present market. I have known men and women to put in weeks in the search. Houses are often sold over one's head. Estates have to be settled. All kinds of things happen. Perhaps your small boy disturbs the landlord, who in turn makes it disagreeable for you. Such possibilities are put to rest by actual ownership. If one has a serious illness in the family, what an assurance it is to know that you cannot be disturbed; that this is your castle.

For such reasons as these, quite apart from the economic ones, I believe every man of settled habits should own his own house, and that this is as a good a time as any to proceed to that happy realization.—Robert Lincoln O'Brien in Boston Herald.

Many City Managers.

United States now has about 180 city managers. The number is growing steadily, and city managership has now established itself as a profession.

One of these managers has advanced step by step from the job of directing a small city in Michigan to taking charge of city matters in Dubuque, Ia., at a salary of $8,000 a year. This is the only instance of three promotions thus far recorded, but three city managers have been advanced at least once.

The highest salary the profession as yet commands is $12,000, paid by Norfolk, Va. Dayton and Akron, O., Grand Rapids, Mich., and Wheeling, W. Va., are among the larger cities now operating under city manager charters.

Earthworms in Lawns.

Earthworms in lawns and gardens can be poisoned with bichloride of mercury poison. Make a stock solution by dissolving one ounce in two gallons of water. To use, dilute two quarts of the stock solution in 50 gallons of water and in the evening sprinkle this over about a thousand square feet of lawn. The ground should be moist when this is done. The worms will come out during the night and will never go back. Bichloride of mercury (corrosive sublimate) is a deadly poison and therefore must be used carefully.

Have Reserve of Grass Seed.

It is a good plan always to have a reserve supply of grass seed on hand to sow when needed, for bare spots may appear throughout the year. If the soil is light and subject to injury from drought, white clover should be sown. It mats together in a short time, providing a closer woven blanket to prevent the evaporation of water from the soil and is considered a better resister of drought than many of the grasses. It is easily started.

Casus Belli.

In an Irish case of a domestic riot involving much injury to person and property, a witness in the course of a vivid narrative swore as follows: "He says to me, 'Is that your father?' And I says to him, 'It is me father.' And he says, 'It is well you told me, for I thought he was an ould gorilly,' and then the fight began, me lord."—From the Argonaut.

What is probably the oldest producing oil well in the world is located at McClintockville, near here, and is owned by Joseph E. Robinson, this city. The well was completed in 1861, and had an initial production of 175 barrels a day. It is still producing at the rate of one-quarter of a barrel a day, which at the present price of Pennsylvania crude, $6.10, makes it still a paying proposition. The year the well was drilled the average price of oil was 52 cents a barrel.—Oil City Correspondence Public Ledger.

EATONIC Users —Do This—Get the Greatest Benefits

Chicago, Ill.—Thousands of reports from people all over the U. S. who have tested eatonic, show the greatest benefits are obtained by using it for a few weeks, taking one or two tablets after each meal.

Eatonic users know that it stops Belching, Bloating, Heartburn, and Stomach Miseries quickly, but the really lasting benefits are obtained by using eatonic long enough to take the harmful excess acids and gases entirely out of the system. This requires a little time, for eatonic takes up the excess acidity and poisons and carries them out of the body and of course, when it is all removed, the sufferer gets well, feels fine—full of life and pep.

If you have been taking an eatonic now and then, be sure and take it regularly for a time and obtain all of these wonderful benefits. Please speak to your druggist about this, so that he can tell others that need this help. Adv.
