LABOR TROUBLES?

No, We Have no Labor Troubles. It is Lack of Labor We Deplore.

The boys on the American Union don't "strike." They have no "grievance" that we have ever heard of but they indulge in "vacational suspensions of labor" at most inopportune and frequent times which keep the work of the shop disorganized and make it practically impossible for the management to accomplish what is undertaken as promptly as one might desire. However we are told by Mr. Wilson and other highbrows that it is "the inalienable right of labor to decide whether it will work or not." So it must be all right and we are praying that our temper don't sour when the enjoyment of their "inalienable rights" by our boys causes us to put the paper to press 3 or 4 columns "shy" on local news, or when we fail to turn out a job of printing on time.

Restaurant For Sale.

A first-class restaurant in the business centre of the town of Harrington. The restaurant has a fine line of trade. It has been lately rebuilt and has all the modern improvements—electric lights, hot and cold water with shower bath. The sleeping rooms are all located on the second floor. Good reason for selling. For further information and terms, apply to John V. Kolph, on the premises or Chas. F. Stevenson, Harrington, Del.

COX KNOCKED LIVE HORNET'S NEST ON OWN PARTY'S HEAD

Charge Regarding Campaign Funds Flares Back and Singes Democrats.

THEY WANTED TEN MILLION.

People Willing to Contribute to Get Rid of Democrats, but Not to Keep Them in Power.

By WILLIAM HOSTER.

"God in everything," sang the poet. And this does not even exclude the campaign speeches of Governor Cox.

As a result of Mr. Cox's allegations of a big Republican Campaign Corruption Fund, certain definite facts have been demonstrated by the sworn testimony of the leaders of Governor Cox's own party. They may be summarized as follows:

It has been demonstrated that whereas, in their most sanguine moods, the Republican managers never contemplated a campaign fund of more than $4,000,000, the Democratic party, at an expense of one-half million dollars, set up the machinery for the collection of a campaign fund of $10,000,000.

It has been demonstrated that the contemplated $10,000,000 fund of the Democrats did not materialize for the sole reason that there aren't a sufficient number of plain people in the United States who want a continuance of Democratic rule, to contribute even one-tenth of $10,000,000.

It has been demonstrated that whereas, the great body of the people—literally thousands of them—have willingly contributed from 50 cents to $1,000 to be rid of the present Democratic administration, and to defeat Governor Cox; on the other hand not thousands and not even hundreds are willing to contribute 5 cents toward a continuance of Wilsonism.

What Records Show.

It has been shown by sworn records that whereas, in despite of Mr. Cox's outraged feelings over the disposition of thousands of ordinary American citizens to help pay the expenses of defeating him in his campaign for the presidency, Mr. Cox in 1914 viewed with complacency the criminal efforts of his campaign managers in Ohio to extort from the Civil Service employees of the state contributions intended to further his personal political fortunes. It has been shown by the testimony of Mr. Cox's own campaign managers that the $4,000,000 which the Republican managers hope to raise for all political purposes this year is not more than can legitimately be expended for this purpose, and that these frank Democratic managers would also like to have a similar amount, but don't see any way of getting it.

It has been shown that the common, ordinary rank and file of the American people, for the first time in American politics, are ready to contribute out of their own pockets to defeat a candidacy which represents all that is repugnant and hostile to American institutions, and that this willingness of the American people to contribute to the expense of defeating the Democracy is the sole basis of Governor Cox's charge of a conspiracy to buy the government of the United States. Incidentally it required the candidacy of Governor Cox to introduce into a national campaign the doctrine that it is possible for the people of the United States to buy their own government, unless Mr. Cox unconsciously means to convey the idea that in this campaign the people are to buy back their government from the autocracy which has seized it and refuses to let go.

Finally it has been conclusively demonstrated that if the Democratic party is to secure any money to waste in a vain effort to achieve a Democratic victory that money must come exclusively from men of the Colonel Deeds' type and the Dayton aircraft Plunderbund, and from the Wall street international financiers, who alone will profit through the participation of the United States in Wilson's League of Nations.

All of these conclusions have been demonstrated by sworn testimony before the Senate Committee with a mathematical precision which would have met the enthusiastic approbation of the late Mr. Euclid. Governor Cox's great expose has petered out. It was a false alarm.

Let's get back to the issues of the campaign.

About 12,000,000 boys and girls, composing nearly half the school population of the United States, are members of the Junior Red Cross, which is helping the children of Europe, while at the same time it is doing an important work here at home. Kaltan Chetwolf, who wears the engaging smile shown in this picture, is the son of an Indian guide and trapper. He is the youngest Junior living in the neighborhood of Juneau, Alaska—and he sends greetings to fellow Juniors of the United States.

The Story the Return Mail Tells

AFTER all it is not the *quantity* of printed matter which is mailed, neither is it necessarily the expense of the job, nor the elaborate manner in which it is printed—IT IS RETURNS ALONE THAT COUNT.

¶ The *return* mail tells the story of the success or failure of a piece of printed advertising.

¶ There is but one way to make the results of the return mail a certainty—and that is by CO-OPERATION between the Printer and his client.

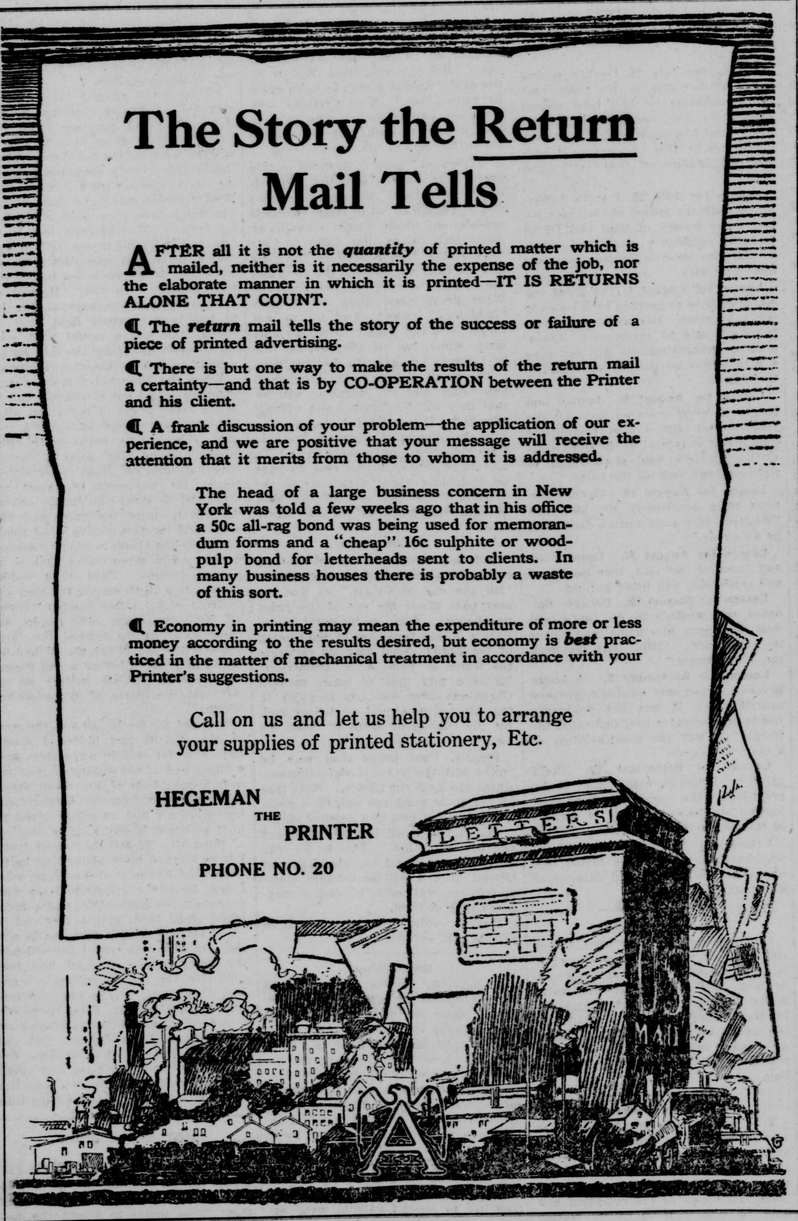

¶ A frank discussion of your problem—the application of our experience, and we are positive that your message will receive the attention that it merits from those to whom it is addressed.

The head of a large business concern in New York was told a few weeks ago that in his office a 50c all-rag bond was being used for memorandum forms and a "cheap" 16c sulphite or woodpulp bond for letterheads sent to clients. In many business houses there is probably a waste of this sort.

¶ Economy in printing may mean the expenditure of more or less money according to the results desired, but economy is *best* practiced in the matter of mechanical treatment in accordance with your Printer's suggestions.

Call on us and let us help you to arrange your supplies of printed stationery, Etc.
