# SIX MONTHS I COULD NOT WORK

**Lydia E. Pinkham's Vegetable Compound Made Me Strong and Able to Work—I Recommend It To All My Friends.**

Bayonne, N. J.—"I had pains in back and legs so that I could not stand caused by female trouble. I felt so tired all the time, had bad headaches, and for six months I could not work. I was treated by a physician and took other remedies but got no relief. A friend told me about Lydia E. Pinkham's Vegetable Compound and it has helped me very much I am well and strong and now able to do my work. I cannot thank you enough and I recommend your medicine to my friends who are sick."—Mrs. SUSIE SACATANSKY, 25 East 17th St., Bayonne, N. J.

It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for over forty years, and today hold a record for such wonderful success as does Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and termed both standard and dependable by every thinking person

# HOME TOWN HELPS

## DIRECTIONS FOR GOOD LAWN

**Good Judgment and Much Work Necessary, But the Results Will Be Found Worth While.**

Success or failure in lawn-making is based on the preparation of the seed bed, which necessarily requires great care and good judgment. The physical condition of the soil may be greatly improved by growing some soil-building crop preparatory to seeding. The land should be turned and sub-soiled to a depth of 6 to 12 inches, and harrowed until it is thoroughly pulverized. Before turning, a liberal applications (6 to 10 tons per acre) of well-decomposed stable manure and 300 pounds of lime should be applied. When a perfect seed bed has been made, apply 600 to 800 pounds of 8-4-4 commercial fertilizer and harrow thoroughly into the first few inches of soil.

The lawn grasses should be carefully selected, and only those grasses or mixtures used that are adapted to that locality and are capable of making a good sod under existing conditions. A mixture of Kentucky blue grass, Bermuda, and white clover is especially suitable to the partially shaded lawn, the blue grass predominating in the shaded portions of the lawn and the Bermuda in the sunny spots while the clover keeps the entire lawn green throughout the winter.

The mixture should be planted during early October, using 30 to 35 pounds of blue grass, four to five pounds of clover, and a proportionate amount of Bermuda roots per acre. The seeding of the blue grass and clover should follow the planting of the Bermuda, which should be planted in rows 18 inches apart, dropping the roots 12 to 15 inches apart and covering three to five inches deep with alternating rows. Separate sowings of blue grass and clover should be made, sowing the seed broadcast by hand or by use of a mechanical seeder. The seed should be covered lightly, brushing lightly or raking into the soil, and this followed by a light rolling.

## BIRD BATH IS GOOD IDEA

**Feathered Creaturs Will Appreciate It, and It Is Recommended as a Gloom Dispeller.**

Anyone who wants a true gloom dispeller right before his eyes all the time has only to fix up a bird bath of some sort on his lawn. No lawn is too small to afford space for one and no city street so congested that sooner or later some feathered neighbor will not seek out the bird bath and make himself its immediate excuse for being.

It is not necessary to have anything elaborate. A fountain of stone or cement may be very tasteful, but little old robin will take the finest bath in the world in any shallow tin pan. A coat of moss-green paint will turn the home-contrived article into a thing of beauty, blending in with the green of the grass around it.

No old swimming hole ever saw more antics than are carried on by the splashing birds, not any more unrestrained delight in the water, nor any more democratic gatherings, nor heard more chattering. If an occasional fight is pulled off, why that's just human and bird nature.

The possessor of a bird bath for his lawn has a long option on the pure joy of life. He will find himself more than repaid for his trouble, and probably astonished at the number and variety of birds common to his neighborhood that he never saw before.—St. Joseph Gazette.

**Twelve Giraffes in America.**

There are only 12 giraffes in this country—eight with circuses and four others in the zoos of New York and Philadelphia. Four of the 12 were raised by a Belgian, named Andrew, in the employ of a circus, who used to be a hunter in Africa. He has made pets of them all, and Mary, who is almost 19 feet high, responds instantly to his call, and is delighted to eat sugar from his hand.

**City Manager System.**

American cities will be interested in the test of the city manager system in Montreal, Canada, with its 475,000 population. On this side Dayton, with 207,000, is the largest city having a city manager, and it has been a stock argument of the opponents of the system that while it may be all right for villages and small towns, it would never do for a great city. Montreal is not afraid of trying the experiment.

**A Flat-Footed Failure.**

While in London, Mary Pickford told Lady Desborough a new story about Charlie Chaplin. At a fair in California a prize was offered to the person who could best imitate the Chaplin walk. Charlie himself entered the competition, minus the usual mustache and boots. He was a flat-footed failure and the judge gave him twentieth place.—Boston Transcript.

**Says Billboards Must Go.**

Billboards, loudly proclaiming the worth of wares from automobile tires down to that "snappy" kind of table mustard, should go, is the decision made by a Philadelphia commission.

**What Really Makes for Success.**

There are a few men and women so circumstanced and handicapped that the only possible success for them is their heroic acceptance of what to others would be failure. But with the great majority the element that is lacking is the hearty taking hold of the work before them.—Exchange.

**Quite Often, in Fact.**

Jud Tunkins says the man who gives three cheers is sometimes offering just as intelligent and convincing an argument as the man who is talking.

# "CORNS"

**Lift Right Off Without Pain**

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

**Unnatural Flavor.**

A girl from Gotham was visiting a friend "up the state," who was trying to run a model chicken farm. The girl was much interested in all that was shown her, particularly a line of incubators, in front of which she made this observation:

"So you have incubators? Very nice, indeed; but I am afraid that artificial chickens can never taste like natural ones."

# MOTHER!

**"California Syrup of Figs" Child's Best Laxative**

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Children love its fruity taste. Full directions on each bottle. You must say "California."—Adv.

**A New Definition.**

"What is a widow?" asked the teacher of a Sunday school class, the subject of the day's lesson being the widow of Ham.

There was silence until she nodded to a little boy on her left, and said: "You know what a widow is, don't you?" for she knew that the little boy's mother was one.

"Yes'm," he answered, "it's a lady what takes in washing!"—Edinburgh Scotsman.

## BOCHEE'S SYRUP

**A Harmless Soothing, Healing Remedy for Coughs and Colds.**

Here is a remedy for coughs, colds, bronchitis, throat irritation, and especially for lung troubles, that has been sold all over the civilized world in many thousands of households for the last fifty-four years. Its merits have stood this test of time and use, and surely no test could be more potent or convincing. It gives the patient with weak and inflamed lungs a good night's rest, free from coughing, with easy expectoration in the morning. Try one bottle, accept no substitute. For sale by all druggists and dealers in medicine everywhere.—Adv.

**Wasted Effort.**

Vice Presidential Candidate Coolidge was commenting on a rival political party. "It reminds me," he said, "of the little boy who hurt his finger.

"'How did you do it?' cried the anxious mother.

"'With a hammer,' sobbed Willie.

"'But I didn't hear you cry.'

"'I didn't know you were in the house,' was the reply."

**"Pape's Diapepsin" Corrects Stomach**

"Pape's Diapepsin" is the quickest, surest relief for Indigestion, Gases, Flatulence, Heartburn, Sourness, Fermentation or Stomach Distress caused by acidity. A few tablets give almost immediate stomach relief and shortly the stomach is corrected so you can eat favorite foods without fear. Large case costs only 60 cents at drug store. Absolutely harmless and pleasant. Millions helped annually. Best stomach corrective known—Adv.

**The Human Dud.**

While he was making his way about his platoon one dark night a sergeant heard the roar of a "G. I Can" overhead and dived into a shell hole. It was already occupied by a private, who was hit full in the wind by the noncom.'s head. A moment's silence—a long, deep breath, and then:

"Good lord, is that you, sarge?"

"That's me."

"Thank heaven! I was just waiting for you to explode!"

Indigestion produces disagreeable and sometimes alarming symptoms. Wright's Indian Vegetable Pills stimulate the digestive processes to function naturally.—Adv.

**The Main Question.**

"Should Lefthook or Plexus win that prize fight?"

"Lefthook should have the best of the argument."

"I am not interested in who has the best of the argument. How about the fight?"—Detroit Free Press.

It isn't necessary to spend money in advertising your troubles; simply tell them to a gossip.

# "LAND OF PLENTY"

**Western Canada a Country of Marvelous Fertility.**

**Literally Hundreds of Miles of Wonderful Grain Fields Delight the Eye —Yields Will Run Well Over a Billion Dollars.**

A trip through the wheat fields of Western Canada may lack the inspiration, such as one may find working insidiously through his being as he traverses the mountain areas of Canada, rich in the variety of color and depth of shades that they cast, wonderful in their magnitude, their grandeur, restful, even although the streams that flow from their sides come down with a swish and a swash creating a noise that makes one's eardrums beat their last beat. Then as we rest beside the lakes in the clouds and see the calm and peace which they enjoy in the midst of nestling hills, we wonder if there's another world. Care has vanished; all we want is to dwell upon the scene. But it was not the intention to speak of mountain scenery, roaring torrents, placid lakes, and restful haunts. Rather, we were about to speak of the other kind of inspiration that is aroused as one traverses Western Canada's immense plains, gridironed with railroads and splendid highways, along whose borders and away back are to be seen the most wonderful grain fields. The crops of wheat, oats, barley, flax, and corn—yes, corn—have just been harvested, the threshing machines are busy, the elevators are ready—the thirty and forty thousand-bushel elevators, with three, four, and five and more at nearly every station along the thousand miles of railway that serve this immense new area of agricultural land. There is not a more inspiring sight than these grain fields. They lead one to pause and reflect, get one into a mental arithmetic strain, and the mind wanders as it gathers the great length of figures that represents the Western Canada grain crop of 1920. A pencil and paper are needed, for the value will run into and over a billion dollars. At least, that is what those who profess to keep themselves posted as to values believe.

The wheat crop alone will run over 250,000,000 bushels, and if you figure this at $2.80 per bushel, the price it is selling at as we write, there you have $700,000,000 alone. Then there is the oat crop, with a yield of one hesitates to say the quantities in bushels, for the threshers are reporting yields of 110 and 120 bushels per acre, where but 80 and 90 bushels were expected, but their value, apart from that of barley and rye and flax, will carry us over the billion dollar mark.

Of course all this means—but we had almost forgotten to speak of the cattle and horses, the sheep and the pigs, the dairy and many other farm products, the increase and production of which this year will bring in many more million dollars—all this means that there will be a rush of buyers to Western Canada this fall, during the winter, and next spring.

A certain amount of satisfaction is derived by those "back home here," whose friends are writing them indorsing the statements that are appearing in the press of wheat yields of thirty, forty, and fifty bushels to the acre; of oats yielding anywhere from sixty to 120 bushels per acre. Districts have not been specially favored. Travel anywhere, eight hundred miles east and west, four hundred miles north and south, and it is the same story, splendid yields, good acreage, excellent prices, easy marketing, but labor a little scarce.—Advertisement.

The best glue in the world is that made from the skins of fish.

**Catarrh Can Be Cured**

Catarrh is a local disease greatly influenced by constitutional conditions. It therefore requires constitutional treatment. HALL'S CATARRH MEDICINE is taken internally and acts through the Blood on the Mucous Surfaces of the System. HALL'S CATARRH MEDICINE destroys the foundation of the disease, gives the patient strength by improving the general health and assists nature in doing its work.
