THE AMERICAN RED CROSS IN PEACE TIME
Aiding Poland

But for the work of American Red Cross agents in all regions of Poland during the last twelve months, hundreds of thousands of people in that tragic country today would be under the sod, victims of hunger, disease and exposure. The job in Poland is one of tremendous proportions and cannot be abandoned for many months to come. Here is a typical scene: A Red Cross worker "at the throttle" of a soup kitchen where hundreds of undernourished women and children are fed daily.

The World's Most Beautiful Volcano!
Nevertheless It Is a Reservoir of Titanic Destructive Powers.

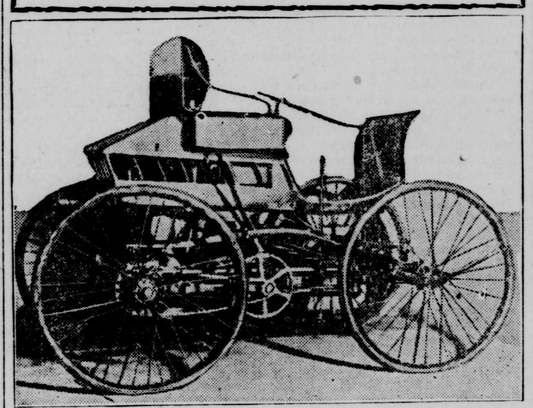

Mayon Volcano, Albay

Mayon Volcano, now quiet, but which in the recent past has taken many lives and destroyed much property. The Philippine Islands are one of the most interesting lands in the world for the American tourist to visit.

Mount Mayon, in the province of Albay, Philippine Islands, is declared to be one of the most beautiful volcanoes in the world. No matter from which side the mountain is viewed, the cone is almost perfectly symmetrical. The setting of the volcano has much to do with its exquisite beauty, as it rises to a height of 7,943 feet from an almost level plain. The peak is visible for more than 60 miles, its regular, bare slopes near the top giving rare reflections from the illumination of the sun, while at its base is one of the most productive and picturesque landscapes to be seen anywhere in the world. A magnificent road, 120 miles in length, circles the mountain at its base, passing through the most varying scenery. Mayon has a history as an active volcano. It has destroyed whole towns. The most destructive eruption was in 1814, when 1,200 persons were killed. It last came to life in 1900, sending a river of lava into the sea at a distance of 8 miles from the crater. Since then it has been quiet.

AMERICA'S PIONEER AUTOMOBILE

WOMAN DRIVER HAS NARROW ESCAPE

The rotting of the roots of a large tree caused it to fall just in front of Mrs. T. G. Nichalson, 4530 Clarendon avenue, Chicago, as she was driving by in her car. Mrs. Nichalson could not stop in time to avoid hitting the tree. A large branch pierced the left mud guard between the wheel and engine hood. After the branch was cut away, Mrs. Nichalson drove the car home. She was uninjured.

Cox Wiggles and Wobbles.

BY SCOTT C. BONE.

Candidate Cox, recklessly charging that the Republican party had set out to corrupt the electorate by raising a fund of $15,000,000 with which to "buy the presidency," has been utterly confuted by the facts.

Instead, it has been completely established that the goal fixed by Chairman Hays was only one-fifth that amount, or $3,000,000, with contributions rigidly limited to $1,000, and that never before has a campaign fund been so free from the taint of corporate, sinister or sordid influences.

That an overtaxed, overburdened and weary country, paying the cost of incompetence, incapacity and extravagance in governmental affairs and maladministration at Washington, would welcome relief at any price legitimately expended may be taken for granted.

But only in the wild dreams of Candidate Cox—who stands committed to Wilsonism and the wastefulness of Wilsonism, with everything that Wilsonism typifies and implies—has any such expenditure as Candidate Cox charged ever been remotely conceived or for a moment contemplated.

Even his foremost newspaper champions—organs of the international banking crowd which favor his candidacy because, with equal rashness, he promises that if elected he will go into the Wilson League of Nations—editorially admit that his slush fund charges have proven groundless.

Candidate Cox's credibility as a witness has similarly been damaged by the wet and dry issue confronting him.

To the indisputable proof that the New Jersey Liquor Dealers' Association is appealing for funds to elect him as a "pronounced wet" he replies that the liquor interests of Ohio never contributed to any of his campaigns.

Yet a sworn statement, signed by the secretary of the Ohio Liquor Dealers' Association and on file in the secretary of state's office, shows that that organization contributed a substantial sum out of its treasury to the Cox campaign of 1916.

And in the face of it all, having withstood for months, in silence, William Jennings Bryan's denunciation of him as a "wet" and unfit to run for president, Candidate Cox, with characteristic audacity, now assures a North Dakota crowd that "I have always voted dry!"

Imagine Boss Murphy, Boss Taggart, Boss Brennan and that Youngstown Apostle of Light and Uplift, Ed Moore, contriving the nomination at San Francisco of a candidate who had "always voted dry!" Imagine it, if you can!

Shade of John Barleycorn! What a spectacle is presented in American politics!

On each account we compound the interest quarterly, adding the interest to the account without any trouble on the part of the depositor. On these savings accounts we pay 4 per cent interest. We recommend this kind of account to persons who have money for which they have no immediate use and which they want kept in a safe place until needed. The compounding of interest is automatic. This money is not idle, but is constantly making more money for you, accumulating for the rainy day or the day of need, when other sources fail. We would be pleased to have you call and open a savings account with us.
