Honest Overhauling

OCCASIONAL overhauling is an important part of the care of your car. There are few mechanisms more delicate than the engine—more responsive to proper attention.

A distrust of the men to whom he must trust his car often leads the motorist to neglect necessary overhauling. It is not so with our patrons. Their confidence in us is a matter of course. It is never abused.

Proper Work Properly Priced

Everything needed is done. Nothing unnecessary is done. Whatever is done is done skillfully and promptly. The result is satisfaction to you.

We welcome any job—any investigation of either our methods or our prices.

We Offer The Best Protection

Life insurance is a means of protecting one's family against want in case of the death of the one who has been its support. But there are other ways also. If you place ONE HUNDRED DOLLARS PER YEAR in this bank on a savings account for twenty years, at five cent interest, compounded semi-annually, you will have at the end of that time an accumulated life insurance of $3,331.10.

Consider also that all of the principal has been available at ANY TIME in case you had needed it. No life insurance company gives you that inducement.

We invite you to open a savings account with this bank, and assure you that we will appreciate your patronage.

Luck and Lack

Messages to Seekers of Success

Don't trust to luck. Luck is untrustworthy. Systematic, scientific striving for any goal is far more likely to bring you success than any mere faith in your success.

Just as changing a single letter changes "Luck" to "Lack," so will the reverses of a single day change plenty to want. But you can insure yourself against this by building your success on the habit of saving.

Save and Win

Be well dressed. Make friends. Increase your influence in your community. Enjoy the respect of all your associates.

These things do not come to those who trust to luck for them. Systematic saving will win them for you. Systematic saving will accumulate for you a small fortune that can safely and readily be expanded to a large one.
