PECULIAR TYPE OF ORATOR

Small Wonder That in This Bombastic Age He Created Something of a Sensation.

The speaker of the occasion was of such unusual appearance that the audience gasped or giggled, according to the preferences of its members, when he came upon the rostrum.

"Ladies and gentlemen," he harshly began, "poverty would be abolished in this country if we could only save and devote to some useful purpose the time we waste in listening to Hons., Chautauqua lecturers, pointers with pride and viewers with alarm, singers who cannot sing, babbling bards, parents of bright children, bearers of messages to the waiting world, and sundry other bores whom it is not necessary to mention at this time."

And peculiar as was his personal appearance, his procedure was more unique, for, having said his say, he bowed grimly and retired from the rostrum.—Kansas City Star.

The Funny Man.

Jones met his friend Stimson in the street the other night.

"Hallo, old fellow!" he exclaimed. "How are you getting on?"

"Pretty well, thank you," answered Stimson; "but," he continued, "I've something to say to you—you'll have to keep your eye open next week."

"How is that?" queried Jones.

"Because you won't be able to see if you don't," and before Jones could kick him he was out of sight.—Edinburgh Scotsman.

THIS BOOKKEEPER LOST OUT

Might Have Known That Request for Raise in Salary Would Not Give Boss Satisfaction.

A labor leader was defending strikes.

"How could men get better pay without striking for it?" he said to a New York reporter. "By asking for it, do you think?

"I once knew a young bookkeeper who went to his boss and asked for a dollar raise. The boss flew into a terrible passion.

"'But,' faltered the bookkeeper, 'there is nothing unreasonable, sir, in my request. Don't you remember promising me a raise after I'd been with you a year?'

"'Yes,' hissed the boss, 'but don't you remember that I made this raise conditional on your giving me every satisfaction?'

"'Oh, dear! Haven't I satisfied you sir?' said the young bookkeeper, pitifully.

"'Satisfied me?' yelled the boss, 'do you think you are satisfying me when you ask me for a raise?'"

This Critical World.

It's impossible to please everybody and if a girl has what we, in our ignorance, consider a good figure the neighbor women say she is bunchy.—Ohio State Journal.

TRAVELING CLINIC ON WHEELS

The traveling clinic on wheels which is touring Alameda county, Cal., under the direction of the Alameda County Tuberculosis association, is said to be the first of its kind in California. The clinic goes mostly into the industrial sections where the people are mostly foreigners and are prone to neglect to have themselves or their children examined. As a result of these examinations, children having traces of tuberculosis are taken out of school and given further treatment. The clinic has all the apparatus for making laboratory tests. It cost $15,000 and was bought from the sale of Red Cross Christmas stamps. The nurses and doctors are supplied by each county and their services are free to the patients.

ROAD COURTESY AIDS MOTORIST

Spirit of Kindly Feeling Adds Greatly to Joy of Motoring in Country.

HELP OUT STRANDED DRIVER

Especial Need of Chivalrous Attitude on Part of Experienced Operator—Women Not Skilled in Coping With Trouble.

One of the big pleasures of modern motoring lies in the fact that whether the trip is for 100 or 1,000 miles, the motorist has every reason to feel sure that he will finish his journey without having to climb out of his car to undertake the disagreeable job of making repairs on the road.

But now and then some mishap occurs, and a courtesy of the road that all motorists can extend with little inconvenience to themselves is an offer of help to a fellow motorist whose car has become stranded. Such an offer is particularly timely if the scene of the mishap is some point whose remoteness from a garage would make it difficult to get assistance.

Owners Caught Unawares.

Even the most careful owners are caught, unawares at times and find themselves far from home and minus some tool that is essential to making a repair. For instance, not so long ago, a man who prides himself on his equipment got a puncture on a lonely country road. He felt he had no cause for worry, for locked on the back of his car were two new tires ready for just such an emergency.

But when he went to get one of these tires he could not find the key to the lock. He was just getting ready to wreck the lock when a car drew up with an offer of assistance. It happened that the good Samaritan had a key that opened the lock, and put an end to the difficulty.

Many Women Unskilled.

With the number of women drivers rapidly increasing, some of them not skilled in coping with tire trouble or bad ignition, there is an especial need of a chivalrous attitude on the part of experienced drivers. The women probably ought not to be driving at all unless they know enough about a car to be able to make simple repairs, but the fact remains that some are without the requisite knowledge. Moreover, equal suffrage has not yet reduced woman to the status of man to the point where the average male would be able to square himself with his conscience if he paid no heed to a woman in distress.

In order to extend an offer to this sort it is not necessary to go through a lot of formality—a mere wave of the hand will frequently serve the purpose. But it is this spirit of kindly courtesy that adds to the joy of motoring and increases the pride of motorists in their class.

IN CASE OF HARD STARTING

Overrichness of Mixture Is Frequently Cause of Trouble—Let Gasoline Evaporate.

A not infrequent cause of hard starting is overrichness of the mixture. When this is suspected the driver had best stop trying to start for a few minutes, when the excess gasoline will have evaporated and very probably the engine will start off at the first pressure of the button or turn of the crank.

In Towing.

Whenever it is necessary for the motortruck to tow another vehicle or itself be towed the driver should be careful to hitch the rope to some part of the frame and not to the axle, which may be bent or broken.

Body Rattles.

By loosening the front and rear pair of bolts holding the body to the frame rattles and squeaks in doors and body will be practically eliminated by clipping a section of brake lining around each of the loosened bolts.

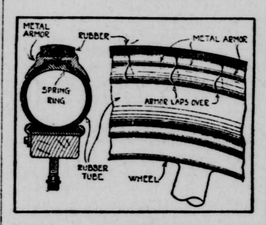

YOU CAN'T PUNCTURE THIS STYLE OF TIRE

Metal Sections About Sides Afford Protection.

Spring Ring in Inner Section Has Considerable Supporting Power as Well as Resiliency—Attachment Not Difficult.

In the collective detail view of this tire, the parts fit together in the order shown and form a complete armored tire having no inner tube. Metal sections or scales extend about the sides of the rubber tube and afford protection against puncture.

The extreme outer section, or part next to the ground, is a solid rubber band or outer tire. The inner section is a spring ring placed within the tubing, the tubing being split for the purpose. As the spring ring has considerable supporting power, as well as resiliency, the pneumatic pressure in the tube can be quite low.

On Account of the Elasticity of the Tire, the Armored Sections Are Made So They Will Glide Over One Another.

The different parts are screwed and clamped in such a way that air at low pressure will not escape. It will be seen that the upper portions of the split tube are squeezed between two metal parts, thereby forming an air-tight juncture. Attachment of the complete tire to the wheel is made by any of the usual clincher methods, there being nothing particularly new in that part of the construction.—Popular Science Monthly.

OH, DEAR! MY BACK!

Merciful Heavens, how my back hurts in the morning!" It's all due to an over-abundance of that poison called uric acid. The kidneys are not able to get rid of it. Such conditions you can readily overcome, and prolong life by taking "Anuric" (anti-uric-acid). This can be obtained at almost any drug store, in tablet form.

When your kidneys get sluggish and clog, you suffer from backache, sick-headache, dizzy spells, or twinges and pains of lumbago, rheumatism or gout; or sleep is disturbed two or three times a night, get Dr. Pierce's Anuric, it will put new life into your kidneys and your entire system. Send Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., ten cents for trial package.

HUNTINGTON, W. VA.—"I will say that the Anuric Tablets are the best I ever tried; they relieve any form of kidney trouble quicker than any medicine I have ever used. I took about one third of the bottle and was greatly benefited. My daughter and son-in-law also were suffering with pain in back so that they could hardly sleep. I gave them the rest and they were entirely relieved. Anuric must be a very efficient remedy as one package helped three persons." — MRS. ED DE FOE, 1944 Fourth Avenue.

HOW DOCTORS TREAT COLDS AND THE FLU

First Step in Treatment Is a Brisk Purgative With Calotabs, the Purified and Refined Calomel Tablets that are Nausealess, Safe and Sure.

Doctors have found by experience that no medicine for colds and influenza can be depended upon for full effectiveness until the liver is made thoroughly active. That is why the first step in the treatment is the new, nausealess colomel tablets called Calotabs, which are free from the sickening and weakening effects of the old style calomel. Doctors also point out the fact that an active liver may go a long way towards preventing influenza and is one of the most important factors in enabling the patient to successfully withstand an attack and ward off pneumonia.

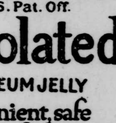

One Calotab on the tongue at bed time with a swallow of water—that's all. No salts, no nausea nor the slightest interference with your eating, pleasure or work. Next morning your cold has vanished, your liver is active, your system is purified, and you are feeling fine, with a hearty appetite for breakfast. Druggists sell Calotabs only in original sealed packages, price thirty-five cents. Your money will be cheerfully refunded if you do not find them delightful.—(Adv.)
