KINDERGARTEN TO BE EXTENDED

Extensive Campaign Planned by National Association.

SEEK TO ENLIST PARENTS

Aims to Establish a Kindergarten in Every Community in the Country—Number of Children Between 4 and 6 Without This Training Is Estimated at 4,000,000—Would Make Children Assets Instead of Liabilities.

In the strong conviction that the lack of universal kindergarten work in the present system of education works a gross injustice to many children, the National Kindergarten association is endeavoring to have the kindergarten made a part of the regular public school system in every community throughout the country.

The association estimates that nearly 4,000,000 children between the ages of 4 and 6, who should be enjoying the benefits of kindergarten experience, are not now getting that training.

Sponsors of Movement.

P. P. Claxton, United States commissioner of education, is among the sponsors of the movement. He is honorary president of the association. The other officers are Major Bradley Martin, president; Mrs. Henry Phipps, first vice president; Mrs. Charles Cary Rumsey, second vice president; Mrs. Roger C. Aldrich, secretary; Miss Bessie Locke, corresponding secretary and Julian M. Gerard, treasurer.

"If all homes were ideal," said Commissioner Claxton recently, "still the broader social life for which Froebel pleaded for the children would need to be supplied by the kindergarten. But, alas, they are not all ideal. In many, grinding poverty and traditional ignorance have done their work all too perfectly. In many there is want of intelligent mother-love. Harshness takes the place of gentleness, filth and negligence of cleanliness and loving care, profanity and vice of the pure speech and simple virtues that should greet the ear and appeal to the heart of every child. For many children the home is on the street. In many homes of wealth and refinement the ignorant nurse is the child's most constant companion.

Our Rightful Heritage.

"When we have done our full duty by providing for our children kindergartens and schools of all grades and kinds, when the forgotten child is remembered, and the 'lost waif' has been housed and redeemed, then shall we enter fully into our rightful heritage, and wealth and honor and power shall be ours beyond what we can now comprehend."

"The effectiveness of kindergarten training," said an officer of the association, "is no longer questioned by well-informed persons. Commissioner Claxton sent a questionnaire to all school superintendents of cities having kindergartens in their schools, and their words of praise for this form of training were practically unanimous, some saying they would as soon think of closing their high schools as their kindergartens.

"The child is still father to the man, you know, and if we are to have loyal, intelligent, industrious men, we must train the little child in right habits of thought and action. The cost to the country of its criminal classes is estimated at $3,500 a day. Why not save this expense in the future by providing for the little children of today the training in integrity, industry and citizenship which make them assets instead of liabilities?"

While reformatories and societies of various kinds labor with the thousands of children committed to their care, the association points out that the city streets are swarming with their little brothers and sisters, many of whom are following in their footsteps toward lives of crime and misery.

MACHINE THAT PULLS FLAX

Device Is Demonstrated That Will Revolutionize the Linen Industry.

An invention which promises to revolutionize the linen industry as the cotton gin did the preparation of cotton for manufacture was demonstrated in a flax field at North Hoosick, N. Y., before a group of New York manufacturers and scientists, Canadian growers and government experts.

The invention is a flax-pulling machine with a quick retting process by which in less than three hours a five-acre field was cleared, work which formerly required nearly 40 persons three days to perform.

The flax was pulled up by the roots and by the process the fibers preserved full length and unbroken. The machine delivered the fiber tied in bundles.

Girl of Twelve Enters College.

For the first time since the opening of Hunter college, New York, in 1884, a twelve-year-old child, considered by the faculty of the institution as possessing an "adult intellect," will be admitted. The child, Helen Koch of the Bronx, who was graduated from school 39 at the head of a class of 170 pupils, will begin her higher studies here this fall. School officials who have taught her and observed her in the elementary school declare the child possesses a "giant intellect."

He Got the Job.

"I want a boy to run errands."

"I kin do that," said the freckle-faced applicant.

"I said 'run.' I don't want you to stroll."

"Yes, sir, I won't stroll, except when I start to leave for the night. That will give you a chance to call me back if you think of anything else you want done."—Birmingham Age-Herald.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. 75c.

What Is Your NET Income?

Better a salary of $10 a week with $1 saved out of it than $50 with expenditures of $55.

The difference between success and failure is just that.

It measures the contrast between living on a part of last month's income and spending next month's before you get it.

You can make ten thousand resolutions to cut expenses and save, but you won't until you get an incentive stronger than the things you have been frittering money away on.

That Powerful incentive is a bank book.

Get one, not next week, but NOW, at this bank.

Messages to Seekers of Success

A Service of Safety

A bank, of course, keeps your money safe. And it just as surely can help you handle your money safely.

For instance, a checking account here is more than a simple convenience. It is a guarantee of security to you in the transmission of funds. It enables you to keep your money instantly accessible without danger of loss.

Checks Protect You

Your checks drawn on this bank carry your money to all parts of the country at the cost to you of a postage stamp. Checking enables you to keep track of your money in a systematic way. The stubs in your check book carry sufficient entries to do this.

The cancelled checks, returned to you each month, are legal receipts for your payments. These and many other benefits are yours if you establish a checking account here. We will be glad to discuss it further with you.
