WE BUILT UP OUR CHILDREN WONDERFULLY WITH HYPO-COD

It Stopped Their Cough, Built Them Up and They Look Fine.

A BLESSING TO LITTLE FOLKS

"My three children, aged 5, 6 and 8 years, were down with the whooping cough and they coughed for months. I felt awfully worried, for all the old-time remedies failed to stop the cough, and they grew weaker and worse-looking every day. We even made a tea out of barks and leaves, but still they coughed. We at first thought the cough would wear away, but as weeks and weeks went by we became alarmed. Every fresh cold aggravated it. We finally heard about Earle's Hypo-Cod and got it at the drug store. Results were wonderful. It stopped the cough in no time, and you could see it building them up day by day. Their appetities came back fine and then they began sleeping good. Then they wanted to play and romp and now you can see yourself what happy, healthy children they are. They look so much better. If we had only known about Earle's Hypo-Cod before we did we could have saved the children a lot of suffering. So I praise this tonic to other mothers all the time. It proved a blessing in our home."

Note:—These same children were given Hypo-Cod as a fall tonic early last winter. They went through the whole winter long without a cold or a cough. Thousands of mothers, once they learn about Hypo-Cod, built up their family just as regular as the seasons roll around and ward off all kinds of sickness with it. Children love to take this splendid tonic, and by reading the formula on a bottle you will see that it contains an excellent combination of medicinal elements.

The lady that gave the above statement is Mrs. H. F. Rabbitt, 472 Maryland Ave., S. W., Washington, D. C. Thousands of mothers swear by this tonic just like Mrs. Rabbitt.

GIVEN HIGH PLACE

International Honors Awarded Western Canada Products.

Proof of What Can Be Done, With Intelligence and Industry, on Good, Low-Priced Land.

The 1920 International Live Stock show at Chicago was probably the best that has ever been held, and as is pointed out by a Canadian newspaper writer, the number and quality of the exhibits "indicated a new milestone on the road of progress." This year it was truly "International." The part that Canada took showed a spirit of friendliness on both sides of the line that was highly pleasing.

Six provinces of Canada were represented in varying degrees, and when the handsome share of the prizes that were carried off by our northern neighbors, achieving phenomenal success in view of tremendous competition, is considered, there is reason to hope that in the minds of these people there will grow an esteem for the International that will be helpful to both countries.

Canada won a number of championships, not the least of which was the sweepstakes carried off by Mr. J. C. Mitchell, of Dahinda, Saskatchewan. In this award may be seen an object lesson, going to show that it is not always the man born with a silver spoon in his mouth to whom the greatest degree of success will attach. It will be interesting to relate that Mr. Mitchell, the recipient of these great honors, came from the manufacturing city of Manchester, England, unacquainted with farming, but with the lure of the land upon him. Because he had been told of the success that followed the tiller of the soil of Western Canada, fifteen years ago he decided to make his home in Canada, and selected as a homestead the land upon which he grew the wheat that has brought him a world's championship. It is true he had his ups and downs, but he continued and is now enjoying the fruits of his labor and the experience gained in a manner of life that was enjoyable. But he is still a simple farmer and will continue growing grains that, with the knowledge he possesses, industry that is essential, and above all, a soil and climate that are favorable, will secure many more world's championships.

Well, then, too, there was born at Stratford, Ontario, a boy named Lucas, now of man's estate. Although a town boy he always had a desire for farming. He moved to Alberta to the neighborhood of Cayley, and those who have had no idea where Cayley is will know now, for Mr. Lucas has placed it "on the map." He had some of his 49.2-lbs.-to-the-bushel oats at the International, and with 240 competitors against him he took the championship and sweepstakes. This was a notable achievement. As has been said, when he was a boy he took a liking to farming, but the greatest obstacle in the way of realization of his dreams was the practical impossibility of a man without a large amount of capital purchasing the high-priced farm lands of the settled parts in the neighborhood he lived in. However, after leaving school he heard of the law-priced lands of Western Canada. This was his opportunity, and he embraced it. Beginning at 15 years of age with 160 acres of virgin prairie, and with no practical farming experience, he has now, by perseverance and industry, increased his holdings to nearly 1,000 acres. Such is the brief history of the man who carried off the championship for the best grown oats, and it is also an example that might well be followed by many who are struggling today against the prices received for the produce grown on high-priced land, or to those who, as was the case with Mr. Lucas, had little means but an abundance of energy and a flood of ambition. Nowhere are there offered inducements such as are offered in Western Canada.

There were 25 prizes offered in the class for hard spring wheats and 20 of them went to Western Canada.—Advertisement.

Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier, and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions.

"Lighting a New One"

New Year's Day in Many Lands

NEW YEAR'S DAY is a time for thanksgiving and mirth and happiness, and in some countries, for the interchange of gifts. It is also a day which, because it is the beginning of another year in one's life, has associated with it a certain sacredness which often takes the form of resolutions to do more and better things than one has ever done before.

It is appropriate that the series of 12 months should open on the first day of January, because this is the period of the winter solstice, the turning point of the year, the time when earth begins to be revivified in anticipation of the coming of spring. The ancients understood this significance and, although several changes in their calendar took place before the present date was made permanent, January 1st has been, we are told, the generally accepted date since the reign of the Roman king Numa Pompilius, 672 B. C. He decreed that the year should begin as it now does, and added two new months to the already existing ten. The first month was named January in honor of the god Janus, who was represented by the Romans as having two faces, this signifying that he was acquainted with both past and future events. On this first day it was the Roman custom to offer to Janus sacrifice upon twelve different altars. Among the offerings was a cake of sifted meal with incense and wine. The people took every precaution to conduct themselves so perfectly that nothing but good might be presaged for the coming year. Latin writers of the time say that all strifes and differences ceased at the New Year. The day was spent in visiting, feasting and exchanging gifts. Indeed, the burden of giving had become so heavy that during the reign of Claudius he felt forced to limit it by a decree.

In Belgium the children are especially active on New Year's. Their greatest fun is obtained by secreting all the keys belonging to the various doors of the house. Then they hide, watching, lynx-eyed, from their vantage ground for the chance to lock up an unsuspecting parent or uncle or aunt. When once caught they are not freed until they promise a certain forfeit of sweetmeats.

In France it is called "le jour de l'an"—the day of the year. Merry-making, calls and gifts reign supreme. Dancing, singing and wine also have prominence. Candy, not usually allowed to French children, is generously given out, January 1st is also the day for family reunions. And in the early morning hours relatives of anyone who has died during the year assemble at the grave for a brief service.

One of the prettiest customs in the world is that observed at Franfort-on-the-Main. Many are the gay parties which gather on New Year's eve, and when the great cathedral clock begins to chime the midnight hour every window of every occupied house is raised. Each person lifts high a glass and with one voice the whole city cries out, "Prosit Neujahr." By the time the twelfth stroke is reached the windows are closed and quiet reigns as the old year draws its last breath.

In rural parts of Russia the children, who have arisen especially early on this holiday, start out on a house-to-house pilgrimage, with pockets brimful of dried peas and wheat. Doors are never locked in Russia, so it is an easy matter to enter. If the occupants of the house thus visited are asleep the children pelt with pens those whom they dislike, and then sprinkle wheat over their friends.

High mass is celebrated on New Year's at Madrid. Many presents are given between friend and friend, and by the rich to the poor.

A Chinese New Year custom is for the people to buy or bake small cakes made of rice, flour and sugar, which, with fruit and dates, they put on plates and place before the image of Buddha. This is the one time of the year when everybody is religious. New door gods are pasted upon the doors, consisting of colored prints of the reputed likenesses of two great warriors of ancient times, who were supposed to be defenders not only of the country but of the home. On the morning of the last day of the year they worship their ancestors and the Buddhas, and on New Year's day they worship the god of wealth for having brought them safely through another year.

THE RESOLUTION TREE.

Behold the resolution tree,
Lugubrious to view;
It stands so straight it backward leans,
And all its leaves are new.

It does not glitter in the gloom,
No cheerful gleam invites,
There is no chance for jollity—
The lid is on its lights.

And though alluring articles
Festoon it round about,
The branches are entirely hung
With things to do without.

WHAT THE NEW YEAR MEANS

THE New Year means new opportunity to every man, woman and child. It challenges the best that is in them and promises unusual reward for effort made. In it is the hope of years to come concerning whatever is for the well-being of society.

THE NEW YEAR

A flower unblown; a book unread;
A tree with fruit unharvested;
A path untrod; a house whose rooms
Lack yet the heart's divine perfumes;
A landscape whose wide border lies
In silent shade 'neath silent skies;
A wondrous fountain yet unsealed;
A casket with its gifts concealed—
This is the year that for you waits
Beyond tomorrow's mystic gates.

Thousands Have Kidney Trouble and Never Suspect It

Applicants for Insurance Often Rejected.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

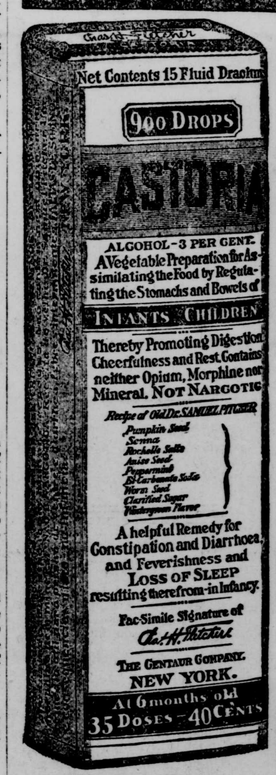

An examining physician for one of the prominent Life Insurance Companies, in an interview on the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease. It is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.
