There are many troubles which you cannot cure by the Bible or hymn book, but which you can cure by systematic exercise and fresh air.—Henry Ward Beecher.

WOMEN! USE "DIAMOND DYES"

Dye Old Skirts, Dresses, Waists, Coats, Stockings, Draperies—Everything.

Each package of "Diamond Dyes" contains easy directions for dyeing any article of wool, silk, cotton, linen, or mixed goods. Beware! Poor dye streaks, spots, fades, and ruins material by giving it a "dyed-look." Buy "Diamond Dyes" only. Druggist has Color Card.—Adv.

Unknown Iceland.

Iceland lying just south of the Arctic circle, in the latitude of central Alaska, Norway, Sweden and Finland, is little known. The people are a sturdy lot or they would not be there. There is possibly no other people who are so uniformly intelligent and well educated. Its mountains, of which there are an abundance, provide it with a great amount of water-power, which its people are just now about to utilize.

Enormous Damage by Rats.

The United States has a rat problem, and some astonishing figures are presented of the annual cost of this pest, says the Nation's Business. India suffers more. For there are large sections of that country where religious scruples prevent the killing of even a rat. Maj. J. C. C. Kunhardt of the Indian medical service has recently published the results of his survey of rat damage in India, and he puts the annual loss at £1,250,000,000, or about one-seventh India's national income.

RUB RHEUMATIC PAIN FROM ACHING JOINTS

Rub Pain right out with small trial bottle of old "St. Jacobs Oil."

Stop "dosing" Rheumatism.

It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain and distress. "St. Jacob's Oil" is a harmless rheumatism liniment which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache and neuralgia.

Limber up! Get a small trial bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment, you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.—Adv.

Eruptions of the Skin Cause Torturous Itching

If you are afflicted with any form of skin disorder, you are well acquainted with the flaming, burning itching that these diseases produce.

Skin diseases are caused by an impurity or disorder in the blood, and there is no real and genuine relief within your reach until such impurities are removed.

S.S.S. has given great satisfaction in the treatment of these disorders, because it is such a thoroughly satisfactory blood purifier. It cleanses the blood of all impurities, and thus counteracts the effects of the germs that attack the skin.

Begin taking S.S.S. today, and if you will write a complete history of your case, our medical adviser will give you expert advice without charge. Address Chief Medical Adviser, 153 Swift Laboratory, Atlanta, Ga.

STILL TO MAKE BATTERY WATER

Simple and Inexpensive Contrivance Can Be Put Together by Any Handy Mechanic.

DETAILS OF CONSTRUCTION

Boiler or Tank in Which Water Is Turned to Steam Is Made of Quart or Half-Gallon Can or Bucket With Rolled Seams.

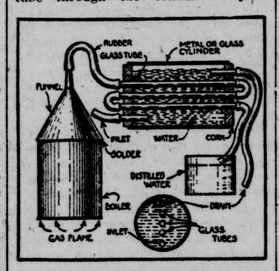

With the greatly increasing use of storage batteries in automobiles the demand for pure or distilled water has increased. It is unnecessary to purchase this water or pay the garage man to put it in the battery. With this simple and inexpensive still any one can distill water for refilling the batteries as the occasion requires.

As shown in the illustration accompanying this article, the boiler or tank in which the water is turned to steam, is made of a quart or half-gallon can or bucket with rolled seams. Be sure they are not soldered at the bottom. The top of the can or bucket is open. Procure a large tin funnel that will fit over the top of the can and then solder firmly and tightly in place as shown. This completes the boiler.

The condenser consists of three lengths of glass tubing each 12 inches in length. These tubes pass through a larger tube or a piece of iron pipe or brass tube of sufficient size to accommodate the tubes with some space between them. Fit a large cork into each end of the large pipe or tube and pass the three glass tubes through the corks. Then into each cork fit a short length of glass tube, one at the bottom, the other near the top of the large tube. Connect the free ends of the long tubes with rubber tubing so that they will form one long continuous tube.

Fill the boiler half full of clean water by submerging, and place it over a gas flame until the water comes to a boil. Connect the top of the funnel with one free end of the glass tube through the condenser by a short length of rubber tube. Slip a short length of rubber tube over the other end of the condenser tube and run it to a clean glass receptacle. Pass a small stream of cold water through the condenser by connecting the lower of the short glass tubes with a hydrant the upper to a drain. Just open the faucet enough to keep a small, easy stream of cold water passing through the condenser and out of the drain hose.

The steam from the boiler passes through the condenser and becomes condensed in the tubes chilled by the flowing water. The pure distilled water is collected in the receptacle as shown.—Francis Dashiell, in Popular Science Monthly.

Emergency Patch.

An ingenious motorist recently discovered that his roll collar, from which the starch had been scrubbed out, made an excellent blowout patch, which carried him home after his tire had failed on the road.

TO PREVENT CREEPING RIMS

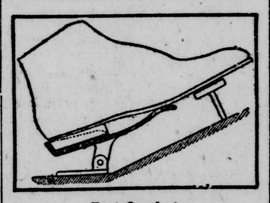

Excellent Plan to Tighten Lugs by Degrees Thereby Avoiding Too Much on One Side.

When the shoulders on the wheel designed to hold the demountable rim become worn, the rim and its tire will creep on the wheel. Naturally this makes the valve stem project at an acute angle and if continued long enough may cut it off. If the valve stem is held firmly by means of a cap the strain falls upon the lower portion of the stem and that part of the inner tube which surrounds it. In this connection it is well to call attention to the needed for tightening the rim lugs by degrees. If they are fully tightened one after the other and all the way around the wheel there is apt to be too much space on one side of the wheel and too little on the other. The proper way is to tighten one lug and then the one nearly opposite it and so on.

FOOT COMFORT FOR DRIVERS

Device Gives Smooth Action on Accelerator and Prevents Choking of Engine on Bad Roads.

A readily adjustable heel support for the foot which operates the accelerator is constructed so that it may be moved forward or backward. Its use is said to give a smooth action on the accelerator and prevent choking of the engine on rough roads, wearing of the heel of one's shoe, wearing holes in the floor mat and wearying of the leg.

Foot Comfort.

LOCATING SQUEAK IN SPRING

All Doubt Can Be Removed by Running Car Over Smooth Road With Ruts in It.

Most everyone knows the noise of a squeaky spring, remarks a contributor of American Motorist.

"But if you doubt whether it actually is that," he continues, "run your car over a smooth road which has a few small holes now and then. Drive over these holes at the rate of about 15 miles an hour. If your car squeaks only when you go over the holes, and rides silent while on the smooth parts, you may be sure that your springs need oiling."

REMOVAL OF TIGHT WHEELS

Simple but Often Effective Expedient Is to Loosen Nut and Drive Car Short Distance.

Sometimes one needs to remove a stuck wheel on an occasion when no wheel puller is available. As a simple but often effective expedient, jack up the wheel in question, put the car in gear, and after removing nut, key, etc., shake the wheel back and forth, pulling at the same time. If this does not work replace the key, drive car a short distance. This method will loosen a wheel even when a puller won't budge it.

VALVES ARE NOT REVERSIBLE

Can Be Inlet on Engine Operated by Piston's Suction Downward—Exhaust Is Mechanical.

An automobile valve cannot be either an inlet or an exhaust. It can be an inlet only on the engine, operated by the piston's suction downward. The exhaust valve must be forced open against pressure of the burned gases in the cylinder and therefore must be mechanically operated.

"SILENT POLICEMAN" IS UNIQUE

Flashing eighty times a minute, day and night, this "silent policeman" equipped with an acetylene lamp directs the traffic in Washington near the southeast gate of the White House. The lamp throws a green light similar to those used along the Panama Canal. The White House can be seen in the background.

Speaking of Noise.

Harry Gardner says: "Some automobile owners neglect their chassis and engine so that if the car is struck by a train at a crossroads they can swear that neither the driver or anyone within a couple of blocks heard the locomotive whistle."

Shifting Gears.

If the owner cannot shift from high to second without rasping the gears he should accelerate his engine slightly at the time of shifting.

Sponge Off Tires.

After driving in wet weather, if the car owner is careful to sponge off the tires when he returns to the garage and then wipe them dry, especially along the beads, he will do much to prevent the formation of rust.

Enough for 500 Miles.

Automobile owners in the United States contributed $65,522,239 in license fees toward good roads in 1919. The money is sufficient to build 500 miles of commercial highway.

THIS YOUNG MOTHER

Tells Childless Women What Lydia E. Pinkham's Vegetable Compound Did for Her

Millston, Wis.—"I want to give you a word of praise for your wonderful medicine. We are very fond of children and for a considerable time after we married I feared I would not have any owing to my weak condition. I began taking Lydia E. Pinkham's Vegetable Compound and now I have a nice strong healthy baby girl. I can honestly say that I did not suffer much more when my baby was born than I used to suffer with my periods before I took Lydia E. Pinkham's Vegetable Compound years ago. I give all the credit to your medicine and shall always recommend it very highly."—Mrs. H. H. Janssen, Millston, Wisconsin.

How can women who are weak and sickly expect or hope to become mothers of healthy children? Their first duty is to themselves. They should overcome the derangement or debility that is dragging them down, and strengthen the entire system, as did Mrs. Janssen, by taking Lydia E. Pinkham's Vegetable Compound and then they will be in a position to give their children the blessing of a good constitution.

HOW DOCTORS TREAT COLDS AND THE FLU

First Step in Treatment Is a Brisk Purgative With Calotabs, the Purified and Refined Calomel Tablets that are Nausealess, Safe and Sure.

Doctors have found by experience that no medicine for colds and influenza can be depended upon for full effectiveness until the liver is made thoroughly active. That is why the first step in the treatment is the new, nausealess colomel tablets called Calotabs, which are free from the sickening and weakening effects of the old style calomel. Doctors also point out the fact that an active liver may go a long way towards preventing influenza and is one of the most important factors in enabling the patient to successfully withstand an attack and ward off pneumonia.

One Calotab on the tongue at bed time with a swallow of water—that's all. No salts, no nausea nor the slightest interference with your eating, pleasure or work. Next morning, your cold has vanished, your liver is active, your system is purified, and you are feeling fine, with a hearty appetite for breakfast. Druggists sell Calotabs only in original sealed packages, price thirty-five cents. Your money will be cheerfully refunded if you do not find them delightful.—(Adv.)

Oil Valuable in Leprosy.

The use of chaulmoogra oil has been known for some time to have some virtue in the treatment of leprosy, and recently it has been discovered that there are a great many points of similarity between the germs of leprosy and those of tuberculosis. This had led to some government experiments in the direction of combating tuberculosis which will be conducted in Hawaii.

If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments; corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcels Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores.—Adv.
