RESULTS REMARKABLE SAYS NEW YORK MAN

Prominent Rochester Citizen Tried Ten Years To Get Relief, But Tanlac Is Only Thing That Helped Him.

One of the latest to testify regarding the powers of Tanlac, the celebrated medicine which has been accomplishing such remarkable results, is James J. Beasley, 102 Elmdort Avenue, Rochester, New York. Mr. Beasley has been chief record keeper for the Department of Water Works, city of Rochester, for thirty years and is a well known and highly respected citizen. In referring to the remarkable recovery of his health by the use of Tanlac, Mr. Beasley said:

"I have been trying for ten years to find relief from a case of dyspepsia. Nothing ever helped me to amount to anything until I got Tanlac. This is saying a great deal, for I did everything it seems that a man could do to find relief. Of course, I was hardly ever sick enough to go to bed and was most always able to keep going, but I just never felt right. At times during those ten years, my stomach would become sour like vinegar. I would have an uncomfortable bloated up feeling after eating that would last for hours. I suffered a great deal from nausea. At times my heart would flutter and palpitate and I would become alarmed over my condition. My nerves were on edge all the time, and I became irritable, nervous and restless. I had no strength or energy to do anything. In fact I wasn't like myself at all. Even a week or two ago it was an effort for me to get out of my chair and I felt as stiff and clumsy as an

'old work horse.'

"It is really remarkable what Tanlac has accomplished in my case. It has relieved me entirely of indigestion. I never have that distressing feeling any more after eating, and I feel perfectly fine in every way. I will always feel grateful for what this wonderful medicine has done for me and I am only too glad to give it my heartiest endorsement."

Tanlac is sold by leading druggists everywhere.—Adv.

Begin Right Now to Conquer Your Rheumatism

If you are going to again rely upon the liniment bottle to try to rub your Rheumatism away, you will be doomed again to nothing but disappointment. A disease that can cause so much pain and suffering is not on the surface of the skin, and cannot be rubbed away.

Many forms of Rheumatism are caused by a tiny disease germ in the blood, and in such cases the only logical treatment is to search out and remove these germs from the blood.

For this purpose there is no more satisfactory remedy than S.S.S., the fine old blood remedy that has been in use for more than fifty years, and has given such general satisfaction for Rheumatism.

Begin taking S.S.S. today, and if you will write a complete history of your case, our medical director will give you expert advice, without charge. Address Chief Medical Director, 160 Swift Laboratory, Atlanta, Ga.

Fredericksburg, Va.—"After I had gone through a very serious operation I could not regain my health and strength. I suffered with pains and aches all over and was also very nervous. Important to all Women Readers of this Paper

Thousands upon thousands of women have kidney or bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the *result* of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer pain in the back, headache and loss of ambition.

Poor health makes you nervous, irritable and may be despondent; it makes any one so.

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

Many send for a sample bottle to see what Swamp-Root, the great kidney, liver and bladder medicine, will do for them. By enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., you may receive sample size bottle by Parcel Post. You can purchase medium and large size bottles at all drug stores.—Adv.

Green Peppers Stuffed With Rice.

Take six small even sized green peppers, cut in halves lengthwise, wash and remove all seeds and white fiber. Scald with boiling water, boil three minutes, then drain. Boil rice in salted water until tender, using one-half cupful. Drain rice, add two tablespoonfuls of butter, one fourth of a teaspoonful of poultry seasoning, one-fourth of a teaspoonful of salt, or more to taste, one egg, and beat and mix well. Fill the pepper shells. Put one-fourth of a cupful of bacon fat, or four slices of bacon in the pan, bake until firm and lightly browned, using the bacon fat for basting. Serve with lamb fricassee.

Hot Water Ginger Bread.

Take one cupful each of sugar and molasses, one-half cupful of melted fat, one egg beaten, a teaspoonful of salt, one teaspoonful of ginger, three cupfuls of sifted flour, and when all are well mixed add a teaspoonful of soda dissolved in one cupful of boiling water. Stir until smooth, pour into a well greased dripping pan and bake 40 minutes in a moderate oven.

Currant Bread.

Take two cupfuls of light bread sponge and work into it one-half cupful of butter and the same of sugar, which have been creamed together. Add one cupful of currants or two tablespoonfuls of caraway seeds. Let rise in a loaf. When light bake in a moderate oven. This is nice to serve with tea.

Buttermilk Custard Pie.

Cream a tablespoonful of butter with one cupful of sugar, add the beaten yolks of three eggs and stir in one cupful of fresh thick buttermilk; add one-half teaspoonful of vanilla and fold in the egg whites beaten stiff. Pour into a deep plate lined with pastry and bake one hour.

Fruit Punch.

Make a sirup of one cupful each of sugar and water, cool and add the juice of an orange, the juice of two lemons, one-half cupful of apricot juice, one-fourth cupful each of prune and cherry juice; add two quarts of water and pieces of ice; garnish with cherries. This recipe makes two and a half quarts.

LIFE.

MAN, thrust upon the world, awakes
from sleep.
Knowing not whence he came nor
how nor why.
His earliest impulse is an infant cry,
His final privilege is that to weep.

A combatant although he sought no
strife,
A guest unwelcome come unwillingly,
Given his vision that he may not
see,
He names this unnamed paradox his
life.

He learns to walk the forest and to
love
Its green and brown, its song and
season's change,
Yet will not taste a berry that is
strange
Or tread a pathway that he knows
not of.

Skeptic and doubter of the flow'r and
tree,
He questions this and that investigates—
Yet drinks the beaker offered by the
fates
And leaves unsolved the greater mystery.

Something to Think About

By F. A. WALKER

CONTENT; DISCONTENT

"The toad beneath the harrow knows
Exactly where each tooth point goes;
The butterfly upon the road
Preaches contentment to that toad."

NOT all of Kipling's best poetry is printed in large type. Some of it appears in the smaller characters when it precedes verses which the author thought were more important.

That is the case with the lines printed above which in the bound volume serve as an introduction to "Pagett, M. P."

But one need not be a butterfly to preach contentment. There is many a man and woman living far from a butterfly life that preach contentment in the most forcible and convincing way, which is by example.

Discontent is very contradictory in its results. It has been responsible for innumerable failures. It has been the most forcible factor in the greatest of the world's revolutions and reformations.

Get a man or a nation thoroughly discontented with surroundings, with laws, with government and there is bound to be a change.

Discontent has played a considerable factor in the history of America.

It was discontent, dissatisfaction means the same thing, with the means of communication with the rest of the world that led Columbus to sail out into the mysteries of the Western oceans.

It was discontent with the religious restriction of their home country that led the Pilgrims to sail for Plymouth.

It was discontent with the laws under which they were living that led the fathers of this country to rid themselves of the English yoke and become a free and independent people.

In any one of these instances contentment would have been the worst thing that could have happened to America, the worst condition that could have obtained. It would have stifled progress and hindered the advancement of the whole world.

* * *

But where discontent is useful once it is harmful a thousand times because it is for the most part badly based.

Are you discontented with your home? Nine times out of ten your home could be made better if you really wanted to exert yourself to make it better.

Are you discontented with your job? Ninety-nine times out of a hundred you are not making half as much of your job as you ought to.

You are not taking interest enough in it.

You are not trying to make yourself and your job bigger and better.

Try it for a few days and see if contentment is not the result.

Are you discontented with your government? Some writer has set down the truth that "every people is as well governed as it deserves to be." In other words, if your government is not right and just and if under it you suffer without reason, then you and others who suffer are to blame for not changing it by proper means and lawful and orderly procedure.

Breaking a law never bettered a law.

Contentment is the world's greatest preventive of gray hair and wrinkles. It is the best preservative of youth and happiness. It is the most wonderful antidote for an ill nature or a crabbed disposition.

Cultivate contentment with every thing good.

Encourage contentment with what is impossible of change.

Be discontented only with what is unjust and do not be contented until the wrong has been righted.

The toad, if he dodges all the harrow's teeth, is after all not so badly off. The exercise doubtless does him good.

How to Succeed—How to Get Ahead
How to Make Good

By JESSIE ROBERTS

WOMEN'S INTERESTS

THERE is perhaps no surer way of discovering just how the interests and the opportunities of woman have broadened in the last very few years than to study the women's magazines.

The business woman is carefully considered today in these publications. Her training, her chances of success, new fields where she may try for positions; these are exploited. There are articles on subjects that would never have been touched upon five or six years ago, or even two or three years ago.

Finance is another department that has shown tremendous development in such magazines. Women are learning to manage their own funds, and when the women's colleges run successful campaigns for great sums, as they do now, and invest and disburse such sums, the day when woman was not supposed to understand the money market is indeed gone.

Naturally the coming of the vote to women has brought a lot of political material into these pages. The work women can do in politics, her responsibilities, clear expositions of what the different political parties stand for, these are some of the directions in which expansion is shown. Women want to know a whole lot of things that they did not, as a class, care about only a short time ago. And what women want, they get.

There is hardly a limit to what the well-trained, clever, ambitious girls may expect of life in the way of service, interesting work, a good income, independence, influence on the future of her country, and a full home life. It is truly, today, up to her.

THE ROMANCE OF WORDS

"RENIG"

USED by whist and euchre players to signify a revoke or failure to play a card of the suit called for, the word "renig" is properly spelled "renege" and is the Old English verb meaning to refuse, renounce or deny. It probably crept into whist from the older game of "spoil—five" which, with its variations of "twenty-five" and "forty-five" is still played in the British army and in many parts of Ireland. In this game the player is permitted to renig (or to deny the suit) when holding certain cards. Here the word retains its original meaning, though its synonym "revoke" is not so easy to trace.

The word "renege" is twice used by Shakespeare, once in "Anthony and Cleopatra" and once in "King Lear" and is occasionally found in the works of other writers of the Sixteenth and Seventeenth centuries. Chaucer uses the form reneys, evidently from the French renier which, in turn, is derived from the Latin renegare, the root-word of "renegade" and other English derivatives.
