Luck and Lack

Messages to Seekers of Success

Don't trust to luck. Luck is untrustworthy. Systematic, scientific striving for any goal is far more likely to bring you success than any mere faith in your success.

Just as changing a single letter changes "Luck" to "Lack," so will the reverses of a single day change plenty to want. But you can insure yourself against this by building your success on the habit of saving.

Save and Win

Be well dressed. Make friends. Increase your influence in your community. Enjoy the respect of all your associates.

These things do not come to those who trust to luck for them. Systematic saving will win them for you. Systematic saving will accumulate for you a small fortune that can safely and readily be expanded to a large one.

Decide on a regular deposit and start depositing NOW.

WHAT THIS MACHINE DOES AND HOW

(Continued from Page 1)

view of the operator and just above and to the left of the keyboard.

These brass matrices are the dies from which the letters are cast. On the back of each matrix is an engravure of a letter, which appears on the face of a slug in a later operation as a letter or type. These engravures have been punched into the brass by hydraulic presses which are very accurate, as the engravure cannot be one-half of one ten-thousandth part of an inch too deep or too shallow or it will cause trouble to the printer in defective printing. The matrices are 1¼ inches long by ¾ inch wide and vary in thickness according to the letter punched thereon from .027 of an inch to ½ inch in thickness.

The operator continues to operate the keyboard until a line of these brass matrices are assembled. He then presses on a lever at the right of the keyboard, raising the assembling elevator six inches, at which point a transfer slide takes the matrices to the left, into the jaws of the first elevator. The operator then proceeds to set another line of matrices.

The first elevator then drops six inches into the vise, at the same time a disk or wheel in front of the vise has made a quarter revolution, bringing a steel mold in place in front of the line of matrices. The mold is then brought forward, engaging the lugs on the matrices and fitting tightly against them.

Back of the mold is a metal pot filled with molten metal at a temperature of 550 degrees fahrenheit. In the front of this pot is a mouthpiece filled with a row of small holes which fit at the back of the mold in which there is a slot. This slot is directly between the row of holes and the line of engravures on the matrices. Next a plunger in the pot is forced down which forces the molten metal into the slot and against the engravures. This metal hardens immediately, leaving the engravures on the face of what is termed a slug, but which is in reality a line-of-type.

The metal pot withdraws, the mold makes a three-quarter revolution and the slug or line-of-type is ejected into a stick for that purpose and is then ready to be put in forms, locked up and printed. We must go back, though to see what becomes of the brass matrices. These are raised twelve inches by the elevator in which they are, transferred at that point to another elevator which takes them clear to the top of the linotype where they are transferred and delivered into a distributor box and from there they slide along a rail by means of three spiral screws and distributed back in their proper places in the magazine by the use of combination notches and are again ready for use.

The machine which The American Union has installed carries two magazines and another one can be added at any time. Each magazine contains ninety-two channels, each channel capable of holding twenty-one matrices. In all there are over 1,400 matrices in each magazine.

In the upper magazine are matrices of 10 point Century Expanded with Cheltenham Bold and capitals of 11 point Bodoni Bold with Bodoni Bold Italic. The other magazine contains the font of matrices used to set the reading matter of the paper, to which has been given the name of 8 point Century Expanded with Century Bold and also contains a set of advertising figures of 18 point Cheltenham Bold Condensed. Samples follow in the order named above:

The American Union was established 65 years ago, taking over the plant of The Pearl. It **has always been run as a Republican Newspaper and is the only one in Caroline County. UNDER THE NEW MANAGEMENT IT IS GOING** ***TO BE PROGRESSIVE AND WILL WORK AT*** all times for the interests of the people of Denton and Caroline County. In order that it may be successful and do the residents of this town and county a service it must receive their **co-operation. The management therefore asks for your co-operation by subscribing at the rate per year of $1.00**

The machine takes up a floor space of approximately 60 square feet and weighs about 3,500 pounds. It is run by a one-third horse power motor having a speed of 800 revolutions per minute and is geared down to a driving pulley running 65 revolutions per minute. At this speed the machine will cast 6½ lines of type per minute. A good operator, however, averages only 150 to 200 lines per hour. This is about five times faster than a good hand compositor can set type and after the type has been used it needs no distribution, as does the hand type, as the slugs are simply thrown into a pot and remelted, ready for use again.

The metal on this machine is heated by electricity which is controlled by a very sensitive mechanism, known as a dynamic thermometer. When the electric current is turned on the electrical heating units proceed to heat the metal to a temperature of 560 degrees fahrenheit. When the temperature reaches that point the dynamic thermometer automatically shuts off the current until the metal has cooled to a temperature of 535 degrees at which time the current is again turned on until the higher point is reached at which time the power is again turned off, and so on.

Mr. Rue has operated these machines in various cities and towns for ten years, excepting two years since being released from the service of the country, when he worked in the "Service Department" of the concern manufacturing the machine in Brooklyn, N. Y., from which city he has moved to Denton.

All patrons of this paper and others interested, are given a cordial invitation to come in and inspect this new machine, which has been the main factor in getting so much local news in The American Union the last three issues. The office is open all day and nearly every evening. Come in and get acquainted.

ORPHANS' COURT

In the Orphans' Court on Tuesday Judges West, Harper and Shawn were present. The following occupied the attention of the court:

Herman D. Horsey, administrator of Zeb Horsey, deceased, filed an account of rent whch was approved by the court.

Edward Cook and William Cook, executors of J. Peter Cook, deceased, filed a release from William Cook, distributee.

Harvey L. Cooper, executor of Mary Detwiler, deceased, filed an inventory and appraisement of the personal property and an order to sell granted.

Renunciation having been filed, on application, letters of administration on the personal estate of William C. Trice, deceased, were granted to Edward E. Nuttle. Bond filed and approved, notice to creditors ordered and W. A. Alford and William Davis were named as appraisers.

In the matter of the estate of Corinne E. Mowbray, deceased, on petition and order of court, Samuel G. Nuttle, executor, was authorized and empowered to sell the real estate of said deceased at private sale.

The last will and testament of Annie E. Merriken, deceased, after having been duly proved was admitted to probate. Georgianna Seeders, the executrix named in the will, qualified by filing an approved bond. Notice to creditors ordered and Benjamin B. Cohee and Harry H. Nuttle were named as appraisers.

In the matter of the estate of Mary Detwiler, on petition and order of court, Harvey L. Cooper, executor was authorized and empowered to sell the real estate of said deceased at public sale.

In the matter of the estate of Susan Collins, deceased, Calvert C. Merriken, trustee, for the sale of the real estate filed his first and final account of Trusteeship and audit which was approved by the court.

On application, letters of administration on the personal estate of Manlius S. Trice, deceased, were granted to Brantly H. Trice. Bond filed and approved, notice to creditors ordered and Edward E. Nuttle and Charles M. Walker were named as appraisers.

Renunciation having been filed, on application, letters of administration on the personal estate of Martin Gniesco, deceased, were granted to Henry R. Lewis and J. Owen Knotts. Bond filed and approved, notice to creditors ordered and J. Spencer Lapham and C. Leslie Walls were named as appraisers.

Mary W. Clark, administratrix of Emily P. Willis, deceased, filed a list of sperate debts and her first and final account of administration and distribution.

Lillian R. Cox and Jerome R. Cox, administrators of Jerome A. Cox, deceased, filed an inventory and appraisement of the personal property and an order to sell was granted.

On application, letters of administration on the personal estate of George A. Bullock, deceased, were granted to Mary C. Bullock. Bond filed and approved, notice to creditors ordered and H. Clay Hobbs and R. Henry Stafford, were named as appraisers.

Mary W. Clark, administratrix of Emily P. Willis, deceased, filed a release from Mary W. Clark, distributee.

COMMUNITY CLUB GIVES $50 TO SALVATION ARMY FUND

The Denton Community Club met last Friday afternoon with Mrs. D. O. George, who was assisted as hostess by Mesdames Deakyne and Saulsbury Garey. During the regular routine of business a donation of $50 was voted on favorably to be given to the local work being taken up by the Salvation Army.

Following the business session a spelling match was held, being conducted by Miss Caroline Redden, followed by solos by Mrs. Hix Long.

The next meeting will be held on May 6th, at the home of Mrs. W. H. Anderson, the subject being, "Town Improvements."

RIDGELY

Mr. and Mrs. Orrell Saulsbury motored to Philadelphia Saturday, returning Sunday evening.

Mrs. T. L. Day was in Easton Monday, spending the night with her sister, Mrs. Walter Barnes, just below Easton.

Miss Mary Laird, teacher of the third primary grade, who has been confined to her bed two weeks past, is improving rapidly, much to the delight of her friends.

The home of Charles Hobbs, recently purchased of Mrs. Della Turner, is receiving a new coat of paint, making it a very attractive residence.

Don't forget the Spring Musical Festival to be held at the High School tonight (Friday), under the skillful management of Miss Margaret Swing, assisted by Denton Choral Club and others. The proceeds are for the benefit of the Ladies Aid Society of the Methodist Episcopal Church.

Mr. and Mrs. Owen Knotts, mother and little daughter, visited friends in Ridgely on Sunday.

Mrs. Charles L. Herzog is in the West visiting her husband for a couple of weeks, being in Indianapolis and other cities as the ball game goes.

The home of Mr. and Mrs. T. G. Saulsbury was the scene of a brilliant occasion on Friday evening last. Saturday at high noon being the weddining day of their son, Keene to Miss Ann Roe, of Greensboro, only relatives and a few close friends of contracting parties enjoyed a dance to the music of an Easton orchestra. The wedding day (Saturday) was the anniversary of the marriage of the father and mother of both bride and bridegroom, which is quite a coincidence. After an extended trip, Mr. and Mrs. Saulsbury will reside in Ridgely.

Mr. and Mrs. Irvin T. Saulsbury left Saturday the 16th for a trip, celebating their wedding anniversary, as they do annually.

Sudlersville baseball team played with Ridgely High School team Tuesday afternoon, the score being 4 to 5 in favor of Ridgely.

The Rev. Leonard White, wife and daughter of Salem M. E. Church, Wilmington, Del., are the guests of the Rev. Frank White and family.

Mrs. C. W. Jackson is spending a few days with her daughter, Mrs. William Jarrell.

Mrs. M. C. Meredith is in Greensboro visiting Mrs. J. C. Smith.

Mrs. Walter Bennington is making a trip to Wilmington and Chester this week.

EASTON CONVENTION

Bishop George W. Davenport of the Diocese of Easton has announced the program of the thirty-third annual convention at Berlin, beginning May 2d. On the first day there will be conferences on women's work, religious education and social service. Rev. Charles C. McAllister of Washington, D. C., will lead the one on religious education and Rev. Charles N. Lathrop secretary of the church department of social service, the one on that topic. The Bishop's address will follow the celebration of Holy Communion on the morning of May 3 and the convention will be organized. At a mass meeting in the evening there will be addresses on "The Program of the Presiding Bishop and Council for 1921-22." by Rev. Charles N. Lathrop. "What the Church Building Fund Commission Has Done for the Church and Can Do for the Diocese of Easton," by Rev. Dr. Charles L. Pardee, secretary, and "Rural Work," by Rev. T. L. Woodward of Virginia.

On the morning of May 4th the convention will hold a business session. This is the first convention under Bishop Davenport.

Retired from Pastorate

The Rev. James L. Elderdice, one of the oldest ministers in the Maryland Conference Methodist Protestant Church, has retired from active service, owing to poor health, and will live near Chestertown.

W. T. Bradley is attending the convention of the Middle Atlantic Photographers' Association at the Southern Hotel, Baltimore this week. This is the largest convention held by this association in the East and it is expected much good will come of it.

Notice of Town Election

Under Section 74, Chapter 730 of the Acts of the General Assembly of Maryland for 1914, notice is hereby given that on the fourth Monday of April, 1921, the same being the twenty-fifth day of the month, between the hours of 2 and 5 of the afternoon, in the office of The Commissioners of Denton, in the Masonic Building, an election will be held for one member of "The Commissioners of Denton," to serve for three years from the second Monday of May.

"Inhabitants of Denton who may vote for members of the General Assembly of Maryland" are entitled to vote.
