Messages to Seekers of Success

Riches—power—happiness. The average man places these as his goal. He dreams about having them.

But the average man is slow to take a practical step towards that goal. He is content to dream about it—and never gets there.

The most practical start is to start a savings account. Rockefeller had to save his first thousand dollars. It earned the rest of his fortune.

Character Earns Credit

Saving men not only have capital for their efforts. In saving, they establish a reputation which will make it easy to secure additional capital when necessary.

A farmer has frequent need for capital if he is striving continually to improve his property. How important it is then that he build up his credit—establish his character.

The easiest and quickest way is to start a savings account.

STATE POLICE SWORN IN AS DEPUTY SHERIFFS

The Maryland State Motorcycle Police force, under the command of State Automobile Commissioner, Colonel E. Austin Baughman, on Monday lift Baltimore on their first trip to tour the counties on the Eastern Shore, where they would be sworn in as deputy sheriffs in every county they visit, thus giving them power to keep the peace and good order and to arrest any and all violators of the law the same as the sheriff of any of the counties can do.

They arrvied in Denton during the rain Wednesday morning, having ridden 175 miles Tuesday and expecting to ride 165 miles on Wednesday. They were received by Sheriff Dulin and Clerk of Court Towers who administered the oath as deputy sheriffs.

Twenty-eight police were here and took the oath. Lieutenant Carl Ward is in charge of the Eastern Shore division comprising six officers with headquarters at Elkton.

No Women Permitted to Vote

One of the first instances in which the woman suffrage amendment has conflicted with local legislation occurred at Sudlersville Monday a week ago when the biennial election of town commissioners was held. Notwithstanding the fact that national legislation has been passed which gives women the same right of participation in elections as men, the charter of Sudlersville was drawn so as to include only the male residents of the town. While no legal opinion has been given on the subject, it is assumed that the charter will have to be amended at the next session of the Maryland legislature before the ladies of Sudlersville will enjoy the same privileges of the ballot that are accorded the men.

The election was one of the most spirited contests held in that town for a number of years. The balloting was particularly brisk, and friends of the candidates worked energetically for the success of their respective favorites. The successful contestants were G. Walter Stevens, J. Wesley McKnett and Joseph M. George.

BIG DOUBLE CIRCUS HAS VAST PROGRAM

Ringling Bros. and Barnum & Bailey to Present New Features

The announcement that the far-famed Ringling Brothers and Barnum & Bailey combined shows are to exhibit at Baltimore Wednesday and Thursday, May 18 and 19 and Friday, May 20, has aroused no end of interest. It would seem as though practically all the youngsters and grown-ups in this section were planning to attend.

Twice each day for almost two months, New York's great Madison Square Garden was packed with those who thronged to see this biggest program in circus history. They saw scores of the jungle's most ferocious beasts, subjugated to such a degree, that these beautiful animals leaped to and rode on the backs of elephants and horses, jumped through hoops of fire, opened their mouths that their men and women trainers might lay their heads and hands inside them, or leaped from pedestal to pedestal like trained dogs. And these marvelous dumb actors are all on tour with the great double circus. The four immense steel arenas in whcih they perform are set up in the mammoth main tent. There is no additional charge—everything is on the one program. And by "everything" is meant not only the wild animal displays, but the entire circus. More than 600 men and women, embracing the world's foremost arenic stars, take part. There are almost 100 clowns. Aside from the ferocious beasts, the program includes thirty trained elephants troupes of companies of trained seals many dogs, bears, monkeys, pigs and pigeons. Fully seventy trained horses and Shetlands are presented. It is the biggest circus program the world has ever seen, given under the largest tent and in connection, is the famous combined Ringling Brothers and Barnum & Bailey menagerie.
