Luck and Lack

Don't trust to luck. Luck is untrustworthy. Systematic, scientific striving for any goal is far more likely to bring you success than any mere faith in your success.

Just as changing a single letter changes "Luck" to "Lack," so will the reverses of a single day change plenty to want. But you can insure yourself against this by building your success on the habit of saving.

Save and Win

Be well dressed. Make friends. Increase your influence in your community. Enjoy the respect of all your associates.

These things do not come to those who trust to luck for them. Systematic saving will win them for you. Systematic saving will accumulate for you a small fortune that can safely and readily be expanded to a large one.

Decide on a regular deposit and start depositing NOW.

YOUNG WOMEN'S BOARDING HOMES

Chain of 29 Social Welfare Stations Provide Home Comforts for Employed Girls.

The Salvation Army has established a chain of 29 boarding homes through the country to provide the girls employed in mills, factories and department stores with good wholesome living conditions at small cost. All of the social amenities of the family are provided.

There are a great number of young women who are deprived of these pleasures for many causes. Eminently respectable and self-supporting though they are, the average earnings in the positions which they occupy are not sufficient to meet their needs if the ordinary methods of living are followed.

With this need before them The Salvation Army met the problem by opening up comfortable and attractive boarding houses in the larger cities that have the home atmosphere introduced and maintained through the presence and supervision of the Salvation Army Matron, who is also a trained nurse and always the kind, loving friend to whom the girls may go with any problem at any time.

The facilities for music, and reading, the privilege of taking care of their own clothes in the laundry and the use of the electric iron to do their pressing, a sewing machine to facilitate their dressmaking and an attractive place where they may receive their young men and women friends, all combine to make these Homes popular and keep them filled to the limit of their capacity.

These are entirely self supporting, though the charge to the girls is far below what they would be required to pay in the average city boarding house.

The very splendid cheery Christian Home in Chicago accommodated 140 girls, at a charge of from $3.50 upward per week for steam heated, outside rooms, with hot and cold water, electric light, use of parlor, laundry and electrical irons and three good meals a day. These prices are about the same in all of the 29 other homes in the United States.

These establishments are simply furnished with an eye to practical comfort rather than showiness and the snowy linens, shining floors and wholesome meals together with the good cheer and safety with which the girls are surrounded, has made for them all a long list of waiting applicants.

In the cheeriest, sun parlor of one of these a brilliant literary woman, now hopelessly crippled through a railway accident, is passing serene and happy days, the pet of the household. Her paper looks out for her monthly rental and she is lavishing all of the love of a lone, friendless shut-in upon the matron and the girls of the Home who brighten her dreary life all they can.

For that job of printing you want. The American Union is prepared to do it in record time.

MATERNITY HOSPITALS

For the suffering womanhood of the world the Salvation Army has established a chain of Maternity Hospitals, where the girls, betrayed, deserted, without money, home and friends, may find a refuge and medical attention. While here, every effort is put forth toward their regeneration—the first step in which is the future care of their babies. When physically fit to go out, they are sent out to situations with their babies, which they are urged to keep and support, or they are sent back to their parents and friends.

During the past year 7103 were received into these homes of whom 6408, or 90 per cent., returned to self sustaining lives of respectability.

Another feature of the Maternity Hospital is that section set apart for the respectable woman of moderate circumstances who may here obtain a room and the attention and nursing during her confinement at a low charge, that she could not possibly afford in the regular hospitals.

The Salvation Army has also created a little club in each Rescue Home and Maternity Hospital by means of which it is able to keep in touch with the girls who have found a haven in these hospitals in their time of great trouble. This is called the 'Out-of-Love-Circle' and its members are the girls whose little nameless babies first saw light of day in a Salvation Army Maternity Hospital.

They meet once a month in each of the 23 cities in this country in which there is located a Salvation Army Rescue Home for women.

All employed in positions, most of which the Army has secured for them, and all making good; they come back to their meetings out of love, they feel for what was done for them, and thus try to show it by helping the inmates of the homes toward getting new hope for the future.

This is one of the reasons why more than 85 per cent. of all the women and girls who are graduates of the Salvation Army's 26 institutions for erring girls are now supporting themselves and their children.
