Cecil Farmers' Day at Elkton, Aug. 20

The eighth annual meeting of the allied farming interests of Cecil county will be held at the Armory, Elkton, Md., under the auspices of the Cecil County Community Council, Saturday, August 20.

Preparations are being made to make this a big day. The attendance has been very large in the past and all signs point toward an increase this year. The following speakers have accepted invitations to be present: The Hon. A. P. Sandles, of Ohio; the Hon. Thad H. Caraway, U. S. Senator from Arkansas. Boys' 'and Girls' Club members will be in attendance in the morning with speakers. Other prominent speakers will be present. There will be music, base ball game and a basket lunch. Exercises will commence at 10 a. m., promptly.

How to Bake a Fruit Pie

Juicy fruit pies present unexpected difficulties to the home cook owing to their tendency to become soft. Specialists in the experimntal kitchen of the United States Department of Agriculture have found, in the course of pastry-baking experiments, that if the undercrust is prebaked until slightly brown, the pie will be much better. Another point brought out in connection with pastry making, especially in warm weather, is that speed in handling is an mportant factor if the housewife does not wish her dough to become soft and consequently difficult to roll and lift.

200 BOYS AND GIRLS ENJOYED CLUB WEEK

(Continued from Page 1)

They were shown through the various buildings of the Department of Agriculture. Some of the interesting features were seeing how moving picture films are made; hearing a phonograph and market report over a wireless telephone, ice cream and butter making and the laboratory for testing diseases and the nutrition of guinea pigs and rabbits.

After their visit to the Department of Agriculture buildings they spent considerable time viewing the wonders of the National Museum, which must be seen to be appreciated. Few, if any, boys and girls left this building without an intense desire to return at some later date to see more of the ancient relics and modern wonders which make this institution so interesting.

Following lunch, which was served on the lawn in front of the National Museum, the whole party boarded a steamer for Mt. Vernon—the old home of George Washington. Visitors are alowed to go through practically all of the buildings which have been preserved, for the most part apparently, just as they were in Washington's day. Naturally, club members and all viewed the various rooms containing the old furnishings with due reverence but considerable curiosity.

Thursday evening tehy had a secret initiation and we don't know what happened to them then, but they reported it was worse than anything that had gone before. Thursday was a trip to Washington and Mt. Vernon, the trip to Washington being in special electric cars. The agricultural buildings and new museum were visited in the morning and lunch was served on the grounds. The trip to Mt. Vernon was splendid and all felt they had a wonderful day.

Friday morning all of the club members left College Park and returned to their respective counties. We hope that their descriptions of the trip may encourage other club members to attend the short course next year.

DOVE SEASON IN THIS STATE OPENS SEPT. 1ST

In response to frequent inquiries, the Bureau of Biological Survey, United States Department of Agriculture, announces that the open season for mourning doves in Maryland under the Migratory Bird Treaty Act Regulations extends from September 1 to December 15, both dates inclusive, and that heavy penalties are prescribed for the hunting or possession of doves during the closed season. September 1st is the earliest date on which the season can be opened, as the treaty between the United States and Great Britain for the protection of migratory birds provides that here must be a closed season on doves and certain other migratory game birds between March 10 and September 1, and that the hunting season must be limited to a period not exceeding 3½ months. The federal law supersedes and renders inoperative the Maryland law which opens the dove season on August 15th.

HELVETIA CO. PAYING MORE FOR 4% MILK

Farmers in the northern part of the county are better pleased since the first of the month at the prices which they are getting for their milk from the Helvetia Milk Condensery.

Notice was posted at that plant that beginning August 1st farmers would be paid $2.20 a hundred for 4 percent test milk instead of the $1.80 which they have been getting for some time.

About 91 percent of the farmers of that section have joined the farmers milk club to get better prices, better tests, etc.

Let the Union do your printing.
