Last Thursday, October 27th, representative agricultural men from practically every county in the state met at the Rennert Hotel, Baltimore, to consider the formation of a State Purchasing Corporation.

Although many objections were raised and discussed at the meeting, practically every one was answered by those who have considered the matter to the satisfaction of the men present. There is no doubt but what the Corporation will become a real organization in the next two or three months.

It is obvious that this organization, properly managed, will be in a position to perform an individual service for the farmers. There is no reason why each individual farmer may not take advantage of the opportunity to buy more cheaply.

The plan is to incorporate the new organization with 25,000 shares at $10 a share. Any farmer may become a member by purchasing one share.

Luck and Lack

Don't trust to luck. Luck is untrustworthy. Systematic, scientific striving for any goal is far more likely to bring you success than any mere faith in your success.

Just as changing a single letter changes "Luck" to "Lack," so will the reverses of a single day change plenty to want. But you can insure yourself against this by building your success on the habit of saving.

Save and Win

Be well dressed. Make friends. Increase your influence in your community. Enjoy the respect of all your associates.

These things do not come to those who trust to luck for them. Systematic saving will win them for you. Systematic saving will accumulate for you a small fortune that can safely and readily be expanded to a large one.
