Taste is a matter of tobacco quality

We state it as our honest belief that the tobaccos used in Chesterfield are of finer quality (and hence of better taste) than in any other cigarette at the price.

Ben Franklin liked books.

Within their covers he found wisdom—the wisdom which when put into practice, earned for him a reputation as a great American.

We observed his birthday on January 17—it having been two hundred and sixteen years since his birth at Boston.

Franklin's philosophy may be summed up in one word—THRIFT.

And the bank book is text book in the study of thrift. It was the book which Franklin heeded most because there, in black and white, was the result of his endeavors.

"Spend less than you make if you would succeed,"—said Franklin's famed "Poor Richard."
