Why Mr. N. Windsor (R. I.) Put Up with Rats for Years

"Years ago I got some rat poison, which nearly killed our fine watch dog. We put up with rats until a friend told me about Rat-Snap. It surely kills rats, though house pets won't touch it." Rats dry up and leave no smell. Prices, 35c, 65c, $1.25.

VERNON

On account of the stormy weather, the Easter service at Prospect was postponed until Sunday evening, April 27. The musical program is fine, under direction of Miss Ellen Hopkins. All are cordially invited.

As his eyes were injured by having some plastering fall into them, J. L. Hopkins has been to the Milford Hospital, but has since returned and is getting along nicely.

The two-headed calf born on the farm of Mr. and Mrs. Wesley Ross, operated by Mrs. Todd, has died, but before it happened large crowds were attracted to see the freak. Mrs. Todd was very proud of it and is thinking of having it preserved.

The Mite Society of Union M. P. Church was pleasantly entertained at the home of Mr. and Mrs. Seldon Raughley, near Greensboro, recently. After the business and social time, refreshments were served.

Mr. and Mrs. John Hennings are entertaining relatives from Canada.

Mrs. Alice H. Ross recently attended the luncheon at Dover in the People's Church with the state president, Mrs. Cleaver, and executive board, and was presented with a sepcial banner for the excellent work done by her school. Rice's, Felton, is the first white organization of the kind in the state, known as the Rice's Junior Workers.

Both the teachers and the pupils are very proud of the emblem, and are going to see that it is well taken care of when Rice's becomes a part of Felton school.

The Mite Society will meet for the month of May with Mrs. Helen Bullock. A delightful time is in store for all, as Mr. and Mrs. Bullock spare no pains to make all their guests as happy as possible.

Mrs. Elmer Bullock and Miss Vaughan attended the P. T. A. convention at Dover. Mesdames Reynolds, Steele, Baynard, and the Misses Paskey, Crane and Brown did also. It is said to be the largest educational convention ever held in the state. The P. T. A. work has grown amazingly, and hundreds of people were there to hear Dr. Cadman, one of the greatest of living orators. He held his audience spell-bound by the magic of his knowledge and eloquence.

Will Hardesty, of Seaford, has been spending several days with Mr. and Mrs. L. Slaughter.

Mr. and Mrs. Roy Disch, of Dover, have been entertaining Mrs. L. Slaughter and daughter, Pearl.

Mrs. Clanser and grandson attended the state P. T. A. at Dover.

Mr. and Mrs. R. Wesley Ross spent part of the Easter holidays with friends at Denton, Farmington and Harrington.

Mrs. Pearl Baynard and Mr. and Mrs. Ray Disch, of Dover, are spending the Easter holidays with Mr. and Mrs. Harold Cain, of Elmer, N. J.

The marriage of Miss Alice Gertrude Coverdale, a nurse at Norristown Hospital, and daughter of Mr. and Mrs. W. C. Coverdale, to Harry R. Van Ormer, a prosperous business man of that place, has been announced. Best wishes are extended.

Mrs. R. Wesley Ross has been a recent guest at the home of Dr. Bringhurst and Rev. Mr. Betts, both of Felton.

Mrs. Baynard will hold another box and shadow social to help pay for the victrola. It is a worthy cause, and should be well patronized. Look out for the date.

Mr. and Mrs. Ernest Watson, of Philadelphia, spent the week end with Mr. and Mrs. Charles Andrews.

Rev. A. W. Betts and family have been supper guests of Mr. and Mrs. Slaughter.

Mr. and Mrs. Blackwell, of Wilmington, spent the week end at the home of B. C. Draper. Will Quillen, of Ellendale, has also been a guest at the Draper home.

Mr. and Mrs. A. C. Warington gave a turkey dinner recently to relatives and friends, among them being Mrs. Mary Lord Henderson, of Seaford.

The Epworth League of Prospect Church is very interesting and entertaining. It is held on Sunday evening and all who can possibly do so should attend. The Christian Endeavor at Union Corner is the same, with a good attendance, and also Wesley's. The friends of White's are in hopes that with spring the Epworth League will resume again.

Eastern Shore Happenings

Easton, Md., April 20.—The State Roads Commission is advertising for bids for the construction of the remainder of the road between here and Claiborne. About two miles of the road is still unfinished. Bids will be opened for this stretch on April 29. When these two miles are built the road from Easton to Claiborne—16 miles—will be all concrete.

The work would have been finished long ago, but the residents of Royal Oak held it up by court proceedings when the State Roads Commission changed the route from Royal Oak across Oak creek.

Owing to the death of Mrs. Emma Nathan, aged 67 years, widow of the late Meyer Nathan, of Cambridge, Md., who died last Saturday night in New York city while visiting her sister, Mrs. Hirschman, the Nathan's stores at Cambridge and Salisbury, Md., and Seaford were closed Monday and Tuesday out of respect for his mother. Her remains were interred Tuesday afternoon in the Baltimore Hebrew cemetery on Belair road.

* * *

The co-operative Canners, Inc., capitalized at $100,000, with headquarters at Seaford, have acquired the plant on Water street of the Seaford Planing Mill Company, and will remodel it into a modern canning house for packing tomatoes and sweet potatoes. The company has also purchased the Allen-Moore Canning Company's house at Blades, and are figuring on purchasing or building a canning house at Coolspring, Sussex county. William S. Allen stated that ultimately the company would operate from ten to fifteen canneries for packing tomatoes and sweet potatoes in Delaware and the Eastern Shore of Maryland. The canneries will be run in units with the plant at Seaford as unit No. 1, and the Blades cannery unit No. 2.

* * *

Dover, April 14.—The State declamation contest will be held at the new Dover Opera House on Friday evening, April 25. The new Opera House, seating over 1,100 people, it is believed, will be of sufficient capacity to accommodate all who care to attend. George M. Schwartz, manager of the theatre, has offered its use to the State Board of Education free of charge, and, as a matter of fact, is bearing all expenses of the contest.

* * *

Wilmington, Del., April 20.—Mrs. Helen Malin, 17-year-old bride, who attempted to end her life at her home in Newark April 11 by taking poison, was dicharged from a hospital here today. The bride, who formerly lived at North East, Md., and who had been marired but three weeks, is said to have taken the poison after a quarrel with her husband.

At another hospital it was stated that the condition of Helen Hobbs, aged 17, who took poison Monday night, was critical. The girl has refused to tell the reason for the act other than that she wanted to die.

Chewing Gum Aids Digestion

By C. Houston Goudiss
National Authority on Nutrition
Publisher of The Forecast—America's Leading Food Magazine

Everyone knows we are given to eating more than we actually need, but when the table is heaped with good food, "what's a feller to do?"

Things are so tempting, and so palatable! Why not enjoy them?

But many a heavy meal which is hugely enjoyed during the process of eating is far from enjoyable during the process of digestion!

Then it is that chewing gum comes to the rescue.

Dr. W. A. Evans, former commissioner of health in Chicago, says in his book, "How to Keep Well":

"To chew gum after a meal aids digestion. Most people do not chew their food long enough to mix saliva with it thoroughly. The chewing of gum adds some saliva to the stomach contents. It is of more service in stimulating the stomach muscle. It is especially serviceable in helping the stomach to empty its contents. If one has overeaten and the stomach is heavy something is gained by chewing gum for half an hour, beginning two hours after eating." And it also helps to keep the teeth clean.

Chicle, the base of chewing gum, is the milky juice which is secreted by the inner bark of a tropical tree known as the Achras Sapota.

Only during the rainy season are the trees "bled."

After being refined and sterilized, the chicle is mixed with sugar and flavoring and moulded into the familiar form which has become so popular.

FEMININE TOPICS

One woman attributes her good health all during the winter season to the fact that she eats onions frequently. People in business hesitate to indulge in them because of their offensive odor, yet business men and women are the very ones who must keep well.

—

By adding vinegar to stove polish, the stove will be made to shine much more brightly.

—

There is nothing better than cream of tartar for removing peach stains—one of the most obstinate of all fruit stains. It is a good idea to paste these little hints in your scrap books before the need for them arises.

—

In preparing a lunch for a journey, bake the bread in empty baking powder cans. After slicing and spreading, replace in the cans, close tightly, and the bread will not dry.

Never use very coarse sugar when making a cake. It is apt to make the cake coarse-grained and tough.

—

In buying furniture, people of moderate means should think twice before having it sent home. They have to live with it a long while and should not run the risk of regrets. It is a good practice to look through a furniture store, then go home and think over the matter of purchase before deciding. Seeing so many pieces is bewildering; and, when they put as much money into a piece as one is obliged to today, she wants a clear head and make a decision only after clear and deliberate thinking.

—

The forty-eight inch coat is to be a feature of the spring dressy models.

—

Very, very tiny vanity cases dangle from rings.

—

A warm milk washing is excellent for dry, rough skin.

—

Four apron tiers that come to a point in the center front add a very attractive touch to a simple afternoon dress of crepe.

—

Silk-and-wool stockings are made in the most attractive colors and shades, and are being trimmed in colorful stripes and checks. They fit as well as silk ones, and as a rule add an interesting and attractive note to sports or street costume.

—

If your coat dress flares when you walk it can be fastened in the middle with a long strip of buttons placed from top to bottom.

—

Even the very sensible woman likes to alter her appearance as often as she possibly can and it is a very good idea to have a dress which you may wear with different collars.

—

Among the smart costumes at a recent fashionable tea was a gown of flannel and Canton crepe. The flannel, of navy embroidered in white silk, formed two wide panels at front and back. The sides and sleeves of the gown were navy Canton.

—

Rhinestones and silver ornaments and monogram effects are among the newest trims for millinery.

—

Colored marabou trims many dance frocks this season. Light shades such as pink, orchid and yellow are used on chiffon of like shades.

—

Jungle scenes, Japanese landscapes, Babylon writing—all these are printed across the spring lingerie of one celebrated actress. The garments are invariably fine white line, but the decorations are in brilliant hues.

"Do Rats Talk to Each Other?" Asks Mr. M. Batty, R. I.

"I got five cakes of Rat-Snap and threw pieces around feed store. Got about half a dozen dead rats a day for two solid weeks. Suddenly, they got fewer. Now we haven't any. Who told them about Rat-Snap." Rats dry up and leave no smell. Three sizes: 35c, 65c, $1.25.
