MORALS RELIGION AND COMMON SENSE

THE BOOK SUPREME

Four hundred and sixty-seven years ago the first book was printed from movable type. That book was the Bible, and it took five years to complete the task. One of these books sold recently for $50,000.00. Today great presses printing for the American Bible Society are turning off copies of the gospels at the rate of 10,000 an hour to be sold anywhere in the whole world for one cent each. In the intervening years the Bible has never been off the press. It has had a steady run for more than four centuries.

It must be said to the credit of the church that a vast work has been done in giving the Bible to the world. In whole or in part the Bible has been translated into 770 languages or dialects during the past decade the Bible has appeared in a new language on an average of every six weeks. In the past century some 550,000,000 copies of the Scriptures have been prepared by the Bible Societies.

Eastern Shore Happenings

Snow Hill, Md., Dec. 14—Apparently little interested in the proceedings that involved his trial for the murder of J. J. Carey, aged recluse, James Baker sat in the crowded Court-house here today and far up into the night, as argument proceeded, glancing idly about the room.

The most interesting feature of the trial thus far has been the question as to the accused's mentality. The report of the State Board of Mental Hygiene was that the prisoner, while not insane, possessed a mentality about the equal of a 10-year-old boy.

* * *

Queen Anne's county water men will be glad to learn that one of the first bills introducted in Congress, when the 69th session was convened last Monday morning, was a measure presented by Representative T. Allan Goldsborough, of the Eastern Shore District, requesting the Secretary of War to make a survey of Kent Island Narrows, with a view of dredging a deeper channel.

The proposed measure is House of Representatives Bill No. 2689, and reads as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled:

That the Secretary of War be, and he is hereby authorized and directed to cause to be made a preliminary examination and survey of Kent Island Narrows, in the State of Maryland.

Watermen from Grasonville to Kent Point, augmented by freight and oyster boat captains from various sections of the Eastern Shore joined forces last year to petition Congressmen T. Alan Goldsborough to have both the Chester river and Eastern Bay sides of The Narrows dredged by the government.

* * *

Salisbury residents who need water for their households are compelled to carry it in buckets, according to a letter received yesterday by the Public Service Commission. The letter, sent by W. R. Dobson, says the situation has become serious and asks the commission to provide relief.

"Salisbury," Mr. Dobson declares, "is dependent on the Salisbury Water Company for its water, but the franchise of the company has nearly expired and for several months our supply has been growing weaker and weaker.

"At present we scarcely have enough for cooking purposes and at times none at all, having to employ buckets and get from other sources than our water system."

* * *

Millington's up-to-date new postoffice in the Community Building was formally opened Thursday morning.

Postmaster George S. Stevens and rural carriers Norman A. Wallen, Jonathan Jones and Paul Harrison, moved into their new quarters Wednesday night, and Thursday morning patrons of the postoffice received their mail from the handsome and convenient new office.

For many years the postoffice was located in the Disharoon Building on Main street, but with the completion of the Community Building, attractive new quarters were leased in this structure.

* * *

Chestertown, Dec. 10—William G. Smythe, secretary of the Kent County Farm Bureau, has announced the program for the annual meeting on Saturday in the courthouse here. Farmers will gather from all sections to discuss topics pertaining to the work of the coming year and to hear reports from the secretary and president of the bureau and from each of the Farm Bureau Councils in the county. The meeting will begin at 10:30 a. m., when the president of the bureau, E. Thomas Massey, of Massey, will read his annual report, which will be followed by the report of the secretary, William G. Smythe, and from the local councils.

* * *

Dover, Del., Dec. 9—Disapproval of any revision of the Volstead act, modification of the Federal and State laws, and so-called light wine and beer measures, was expressed by the Delaware State Grange today in the adoption of the report of the Grange temperance committee.

The committee report was adopted with but little debate after Mrs. A. F. Walker, chairman, had presented it. Its approval was the signal for a demonstration on the floor of the convention, which lasted for more than a minute.

An important action of the convention today was the approval of a resolution for the extension of the Grange educational program and its allied financial plans, that each subordinate Grange lodge pledge $20, or more, annually to the educational fund.

The fund is mainly to supply farmers with money to aid in educating their children. The farmer can obtain a small loan and repay it on easy terms with interest at two per cent. for the first year.

Lewes, Dec. 14—Taking in mistake for a medicine which he had been using for some ailment, John A. Lingo, a member of the General Assembly and well known business man of Rehoboth, died shortly before noon today.

* * *

Lewes, Dec. 14—Taking poison in mistake for a medicine which he had been using for some ailment, John A. Lingo, a member of the General Assembly and well known business man of Rehoboth, died shortly before noon today.

As soon as Lingo had taken the mixture Drs. Walter P. Robinson and Aldrich, of Lewes, were summoned and started with him for the Beebe hospital here. He died on the way.

* * *

Cambridge, Dec. 14—A slight fire in the basement of the Hubbert-Groff Implement Company store this morning caused much excitement. The store is in the heart of the retail business section, where the stores are carrying exceptionally heavy stocks of holiday goods.

An overheated furnace caused the fire, which was extinguished without loss.

* * *

Cambridge, Dec. 14—The oyster business is duller in this section than it has been for years and all of those connected with the industry face heavy losses. During the early season the demand exceeded the supply and the many thousands of people engaged in catching and shipping oysters were making splendid wages, but since Thanksgiving the business had dropped to almost the lowest point ever known. None of those indentified with the business seem able to explain the situation.

* * *

Dover, Dec. 11—The Kent County Grape Growers' Association at its annual meeting in the offices of the State Farm Bureau elected a new board of directors as follows:

Dr. Alfred Smith, W. V. Cosden, S. J. Hall, James H. Hughes and L. J. Rowe. Dr. Smith is president of the association. The new board will meet shortly to elect officers.

A number of reports were made at the meeting by the various committees, including the report of the sales committee, showing considerable success in meeting the marketing problem.

* * *

Berlin, Md., Dec. 10—Four men who gave Lancaster, Pa., as their home address were discovered in the theft of ornamental trees from Harrison's Nurseries here today and were later lodged in the Snow Hill Jail. Two gunners noticed men in the act of sawing valuable spruce trees near the ground. Suspecting theft, they questioned the men who said the trees had been purchased. Not satisfied, the local men telephoned the nursery office, and G. Hale Harrison and [illegible] employees found strangers loading trees on a large truck, well concealed by [illegible] 1,500 from a road. The men admitted cutting the trees for Christmas sale.

Dover, Dec. 9—Local authorities have taken drastic steps to stamp out the increasing number of mysterious fires here. One of their first moves was to arrest Merritt Carty, 20, and hold him pending an investigation.

The police say Carty was seen in at least three places where fires occurred on Wednesday. At one place where the youth was working there were fires in a stable where he stopped, and at his home. Carty denies any connection with the fires.

* * *

Georgetown, Del., Dec. 9—The muskrat season, which opened the first of the month in Lower Delaware, promises to be a profitable one for the trappers, and already large quantities of the animals are being caught for their pelts, which are expected to command high prices before next spring.

The early spring, summer and fall proved very favorable for the propagation of the "rats."

There has been an abundance of feed for them on the Delaware bay and river marshes, as well as Rehoboth and Indian river bays, where large quantities are caught each year.

Cold weather is the best time of the year to trap, because the rats put on a much heavier coat of fur and the pelts are of better grade and bring in more revenue.

Probably two of the best marshes in the eastern section of Sussex county are Broadkin and Prime Hook, where annually thousands of dollars' worth of furs are harvested. Many of the trappers have been known to realize $200 to $300 in a day.

Some farmers living along the bay shores have been known to realize enough from their traps during the muskrat season to pay the original cost of the lands. A farm on the banks of the Broadkiln and Delaware rivers is one of the most valuable in Lower Delaware, especially if the owner cares for trapping and knows how to do it.

I would rather be sick than idle.—Seneca

Great spenders are bad lenders.—Franklin

Your Birthday
Is it this week?

DECEMBER 13 - 19.

If your birthday is this week you have an active, keen intellect and a charming, magnetic personality, which wins for you many friends. You are proud and high-minded—you are fond of show, pomp and splendor, and like to appear well in the eyes of your friends—often living far beyond your means in order to do so.

You are nervous and quick tempered—and have a tendency to become unduly excited and angry over mere trifles. You are very sensitive, and while you never harbor ill-will, you forget an injury.

You are a bright and brilliant conversationalist—are fond of social relaxation and outdoor amusements.

Women born during these dates find their greatest happiness in marriage. They make wonderful entertainers and their tact and assistance contribute much to their husband's success. The men are adapted to any position where executive ability is required—and often become leaders in politics.

We cordially invite you

to join our

Is your boy's eyesight normal?

Bob's parents knew the tremendous importance of normal eyesight to children. So they had Bob's eyes examined. The slight defect revealed was corrected easily (and in time), by the eyeglasses prescribed.

Hence Bob's quick answer—his better report cards.

Have Your Child's Eyes Examined!

Wellsworth Windsor spectacles are sturdy and good looking.
