When you entertain at home—and the sumptuous feast has been greeted with royal praise by the laughing, pledging friends —have a Camel!

WHEN invited guests come in for dinner. And the festive board resounds with joyous words of friendship. When the primest feast ever served is finished—then, how welcome are those words of hospitality—"*Have a Camel!*"

For no other cigarette was ever so fitly smoked and served to others as Camel. Camel goodness insures a fitting climax to every perfect spread, adds of its own fragrant welcome to every home's bright occasions. Camels are made of the choicest tobaccos grown in all the world. They never tire the taste, never leave a cigaretty after-taste. Fragrance and mellowness have made Camel the greatest word in all the history of smoking.

So this night, as you learn anew the joys of giving happiness to others. As after-dinner laughter rings out through all the house—know then the pleasures of smoking and serving the finest. You may be doubly sure that every good feature is rolled into Camels that anyone ever searched for in a cigarette.

Have a Camel!

Into the making of this one cigarette goes all of the ability of the world's largest organization of expert tobacco men. Nothing is too good for Camels. The choicest Turkish and domestic tobaccos. The most skilful blending. The most scientific package. No other cigarette made is like Camels. No finer cigarette can be made. Camels are the overwhelming choice of experienced smokers.

Our highest wish, if you do not yet know Camel quality, is that you try them. We invite you to compare Camels with any cigarette made at any price.

SHORE NEWS

Seaford, Jan. 12—Farmers of the elmarvian peninsula are much cor rned over the prospects of a whit tato crop for the coming seasor ving to the scarcity and very hig rice of seed potatoes. While some of he farmers managed to save some eed potatoes from their last crop, these cases are very rare. Seed potatoes now are said to be bringing from $6 to $10 per bushel, and they are hard to get at even these figures.

The boll weevil is also said to exist in some parts of the peninsula. This insect did considerable damage to last year's crop.

Some farmers in this section say it will cost at least $100 per acre to produce a crop of potatoes the coming season and it is likely many of them will plant only enough for their own use.

* * *

Dover, Jan 12—Walter Morris, retired cashier of the Farmers Bank and one of Dover's best known citizens, died in a Philadelphia hospital today following a brief illness.

Mr. Morris was born in York, Pa., 77 years ago. He entered the banking business as a young man and came to Dover from Philadelphia at the age of 30 years. He was cashier of the Farmers Bank for 45 years, retiring a year ago. He was president of the Elizabeth W. Murphey school here. Mr. Morris was at one time a member of Dover City Council, serving several terms. He was a financial advisor to a number of governors and was active in promoting many civic projects.

Tommy—Paw, what is the Board of Education?

Mr. Figg—In the days when I went to school it was a pine shingle.

About Your Health

Things You Should Know

by John Joseph Gaines, M. D.

MY LADY NICOTINE.

Cancer, one of the most dreaded conditions, may be aroused into activity by excessive smoking; ulcer of the stomach is aggravated if not caused by excessive chewing; high blood-pressure, paralysis, formidable diseases of the heart, palsied nerves—even insanity—are often attributed to the wiles of my lady Nicotine.

Chewing tobacco drains the salivary glands, causes "acid indigestion" and invites ulceration of the stomach. If you have sour stomach, quit chewing. The saliva is a valuable corrective of acidity, and should not be wasted. Smoking poisons the olfactory, cardiac, and respiratory nerves. Nicotine is a subtle drug, and will enter the system from any point of contact. A wet tobacco-leaf, laid on the surface of the body, exerts profound effects upon the nerves beneath. Some of our useful ointments contain oil of tobacco, and their use must be practiced with great caution.

Growth in our young people is interfered with, and mentality is dulled very perceptibly in youthful cigarette-smokers. The man who does not use tobacco in any form, is easier to relieve of his illness than the addict; his system is cleaner, his nervous system more stabile, and he responds to treatment more promptly. Any sort of drug addiction cannot be too strongly condemned—for "moderate indulgence" in any seductive thing is so impossible.

Practical Instructions in HOME SEWING

by Ruth Wyeth Spears

BOX PLAITS

An exceptionally smart effect is gained in the Jenny model I have sketched here at the left. In this dress pairs of the box plaits are held together near the bottom of the skirt with narrow bands of fur applied as shown at A, thus making a kind of double plait. The plait between each of these pairs is left free.

Another unusual and decorative treatment of box plaits is shown in the heavy silk crepe frock at the right. Here the plaits are arranged in points at the top. To do this lay the plaits in the usual way as shown at B. Cut the tops into points as at C. Then slash down about a half inch between the plaits as shown at D. Turn under the raw edges as at E and the skirt portion is ready to be applied to the upper portion of the dress.

a QUIZ

Editor's Note:— Through special arrangement with The Educational Book Co., N. Y., this newspaper now offers its readers this interesting feature, "QUIZ", being extracts from that book, endorsed by Eugene C. Gibney, Director of Extension Activities, New York Board of Education. These puzzles will be found intellectual as well as instructive.

Puzzle No. 32

What is the difference between a gardner and a Chinaman?

Puzzle No. 33

What is the first thing a man sets in his garden?

Puzzle No. 34

In these United States:
Which is the most egotistical state?
The best cereal state?
The most maidenly state?
The highest state?
The impersonal one?

Puzzle No. 35

C—s. Insert a rule and have a cat's weapon of defense.
S—t. Insert a jolly sailor boy and have to begin.
S—k. Insert a small seed food and have to utter.
S—d. Insert a light brown color and have a small table.
W—h. Insert a small rodent animal and have anger.
S—e. Insert a weight and have a rock.
T—b. Insert a buzz and have a part of the body.

Solutions of Last Week's Puzzles:—

Puzzle No. 29—28 men and she had $2.20. Puzzle No. 30, Arrange the numerals thusly; top row—16 512 4
middle row— 8 32 128
bottom row—256 2 64
Puzzle No. 31, Remain, Breathe, Disease, Resign, Doings Centre, Whereat, Smile, Credit.

Send your answers to this newspaper. The first five solutions received to each set of puzzles will receive ten credits; when such winner has obtained 100 credits he will be entitled to a "QUIZ CLUB" button or pin. 500 credits will entitle the winner to receive an attractive prize and also have his name printed on the honor roll.

Negro Woman (applying at the front door for position as cook)—I seen your advertisement in the paper, lady.

Lady (interrupting)—But I advertised for a Scandinavian.

Negress—I know dat, lady. But jess so a pusson can cook, what difference does religion make?

Hall's Catarrh Medicine

Those who are in a "run-down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Combined Treatment, both local and internal, and has been successful in the treatment of Catarrh for over forty years. Sold by all druggists. F. J. Cheney & Co., Toledo, Ohio.
