When it's your favorite table at the restaurant—and with merry friends you chatter and feast in festive revel —have a Camel!

WHEN you sumptuously dine at your favorite cafe. And with joyous talk and laughter you taste the tempting things of earth. When with lilting strains of music and the primest of fine foods you feast your friends joyfully—then how welcome is that friendly saying, "*Have a Camel!*"

For Camel goodness heaps added zest to every festive dinner, shares of its own joyous taste with every delicious flavor. Camels never tire the taste or leave a cigaretty after-taste, because they are the mas r blend of the choicest tobaccos grown. Regardless of price, no other cigarette made is so rich and fragrant, so smooth and mellowy mild as Camel.

So this night as the famed restaurant grows gay with the sounds of merry-making and revelry. As you claim your own rightful share of the bright joys of living, taste then the flavor, the mellow fragrance of the finest, cheeriest cigarette ever made.

Have a Camel!

Into the making of this one cigarette goes all of the ability of the world's largest organization of expert tobacco men. Nothing is too good for Camels. The choicest Turkish and Domestic tobaccos. The most skilful blending. The most scientific package. No other cigarette made is like Camels. No better cigarette can be made. Camels are the overwhelming choice of experienced smokers.

Our highest wish, if you do not yet know Camel quality, is that you try them. We invite you to compare Camels with any cigarette made at any price.

ASK ENGLAND.

GOOD PAY, GOOD WORKERS.

STOP, LOOK, LISTEN.

140 DEATHS, $18,200 PROFITS.

Congress is puzzled by surplus farm products production. Some reckless bolsheviks, or at least socialists, suggest that the Government might interest itself in helping farmers market their surplus abroad.

Charles Williams, who ought to know something about conservatism, says: "No; that problem should be left to farmers without government help." A two-month-old baby might be left to put on his own little undershirt "without mommer's help." The farmers would be as well able to deal with foreign governments, under our Constitution, or with foreign problems, as a baby would be to deal with its own nourishment and clothing.

To learn how farmers can be helped and surplus products sold at a profit, they might find out what the British do with their surplus rubber products. There is a rubber farm surplus. And you notice that they manage to sell it to the United States at about a dollar a pound, when it could be sold profitably at thirty cents a pound. A government that wants to do a thing can do it.

The railroad trainmen, hundreds of thousands of faithful workers, ask for better pay, and ought to get it.

Railroads, protected by government, enjoy prosperity. Steadily increasing, they should divide prosperity with the men that do the work through the nights in cold and rain, when those that collect dividends are asleep.

All Americans, especially business men and money makers, should demand that good workmen get their fair share of national prosperity.

The rich man can get only his share of what the average man has to spend.

Government figures show that from 1920 to 1924, "automobiles killed 60,876 men, women and children."

And in 1924 the "death roll" numbered 15, 528.

Calculated to give the false and damaging impression that the automobile in itself is a dangerous, deadly demon, these figures are NOT true to fact.

Of the sixty-odd thousand killed in five years some were the victims of stupid, reckless or drunken drivers, some of incompetents.

The greater number killed were victims of their own carelessness, commonly described as "jay-walking."

When a man on the railroad track is killed, nobody blames the locomotive or suggests suppressing railroads. The signs read, "Stop, look and listen," and "Keep off the tracks."

The Colorado River, put to work and used, will add hundreds of millions yearly to the wealth of the United States.

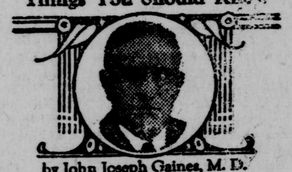

It will supply several Western States with more than a million horsepower, and irrigation sufficient to provide food for tens of millions of human beings.

The real wealth and future happiness of this country will gain from this single project of science and constructive statesmanship more benefit than it would from finding gold mines unlimited.

John Hulbert killed 140 human beings, his total profit on the killings being $18,200. His line is not that of the ordinary holdup man for he is Sing Sing's public executioner, and each time he straps a man into the chair the State pays $130. It seems easy, $130 for work that lasts half an hour. But killing causes strain on the nerves, so Mr. Hulbert retires. Some one else can have the $130 job.

About Your Health

Things You Should Know

by John Joseph Gaines, M. D.

DOCTORING YOURSELF.

I cannot think of anything that is a greater menace to your physical welfare, than the hour when you attempt to diagnose your own disease, and set out to buy a ready-made cure for it. You could hardly assume a task that is fraught with greater danger.

There is little of "magic" in common sense. A human being who does not know how to keep from getting sick, is a mighty poor proposition to take care of his own ailments when he does get sick. Yet there are dozens of people in most communities, who attempt to cure themselves upon that hypothesis, that they know is wrong when they exercise reason.

The profession of medicine is an honorable one, however unscrupulous some of its adherents may be. There are pirates on all seas where easy victims are afloat; and the most villianous is the buccaneer who preys on the sick and afflicted, under the disguise of respectability. And, there are people who are ever ready to sing the praises of "cure-alls" and furnish their photographs to clinch the evidence. Is that any valid reason why the stuff is good for you?

Most any kind of testimony can be bought for the price these days, from the people who sell them. A good thing to remember is, that every ache or pain has a definite cause beneath it. And, unless you know what this cause is, and exactly how to remove it, you had better leave treatment to somebody who does know. Even a good physician when he is sick, and his judgment likely to be erroneus, will call his neighbor physician to help him out. No good doctor will trust his health or that of his family to the mercies of the exploiter of the bottled nostrum. He knows the value of prudence in the vital matter of caring for the sick.

She—I'd hate to be walking tonight.

He—That's what I thought.

He was an American dentist of painless extraction.

"Forgot bathing suit. Rush at once," read telegram from entrant in bathing beauty contest to her father.

"Am sending your bathing suit by carrier pigeon," came the answer.

Hall's Catarrh Medicine

Those who are in a "run-down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions.

HALL'S CATARRH MEDICINE is a Combined Treatment, both local and internal, and has been successful in the treatment of Catarrh for over forty years.

Sold by all druggists.
