Miss Fraser is one of the lecturers and workers on the subject of Americanization in the ranks of the W. C. T. U. After being introduced by the local president, Miss May Fisher, Miss Fraser gave a splendid address on the topic: "What is Americanism?" Herself a native of Scotland, Miss Frazer has adopted the United States, and has given her life and service to furthering the true idea of Americanism. Her work is among the foreigners, trying to teach them how to live to the honor and glory of our country, and among those who supposedly are already Americans, teaching them to appreciate their privileges and duties, and help the foreigners.

Miss Fraser has a most delightful personality. On this occasion she spoke quietly, without hesitation, interspersing facts with true stories of her experiences. Her audience was much pleased and intensely interested and at the close of the service six new members were secured for the local organization.

MUST THE BUYER BEWARE ?

Back in the horse-and-buggy days of storekeeping set prices were unknown. The proprietor demanded as much as he dared and took as much as the customer would give—that form of trade was called bargaining—but the "bargain" often was duplicated by the next customer along—for less money.

When our merchandise arrives it is priced at the very lowest margin of profit and is sold at that price to both "Grandmother" and "Granddaughter" alike.
