

A general display of Spring Styles in every department of Women's Wearing Apparel—Coats, Dresses, Shoes, Dress Goods and Accessories—will occur at this store on

Friday and Saturday, March 12, 13

Not only will we show the newest interpretations of Dresses and Coats for Spring, but many of them will be worn by young Women, thus enabling you to see the actual appearance of each costume most effectively.

In the Dress Goods section, too, a variety of new and charming fabrics may be seen while the latest effects in Footwear and accessories will keep pace with the ready-to-wear apparel.

We invite every woman interested in being well dressed to be present at our store on

FRIDAY AND SATURDAY. MARCH 12 AND 13

Long & Short

Federalsburg, Maryland

This Week

By Arthur Brisbane

IT'S A BIG UNIVERSE.
ADVERTISING PAYS.
NO 100% MEN OR WOMEN.
NON STOP OCEAN TO OCEAN.

Latest scientific statement concerning this universe, in which we are less than microbes, and the earth less than a grain of dust, startles you. Our sun, a million times as big as this earth, is only a speck in what men have called "the universe," which contains endless millions of suns, some a million times bigger than ours. It's hard enough to think of such a universe as that.

And now the wise Dr. Hubble, of Mt. Wilson Observatory, tells the California Institute of Technology that a million "universes" such as ours are visible at horrible distances from the earth.

Examine an atom, and you find a central body around which revolve other bodies as the planets revolve around our sun. These electrons revolve around the nucleus billions of times in a second.

Atoms, of which you could have millions in one corner of your eye without noticing them, are small solar systems.

Our sun and its planets constitute one atom in our universe. That universe in turn is one atom in the entire universe. Where in that overwhelming space are the heaven to which we look forward and the other place that we dread?

Leaving this earth in a straight line, traveling at the speed of light, 186,000 miles a second, it would take you one hundred million years to get beyond the telescopic maze of the universe. No wonder it says in the Bible, "In my Father's house are many mansions."

With common sense Secretary Davis says to the Countess Cathcart, "Come on in."

Strong-minded American women were indignant because Lord Craven was admitted here without question, whereas the Countess Cathcart was shut out. There were the two whose elopement shocked our pure authorities. The double-sex standard proved too much for our clean-minded, strong-minded women.

Observe the power of advertising even when it isn't very good advertising. The Countess lands from Ellis Island with a contract to appear on the stage at a high salary. She wouldn't have got that without the assistance of Uncle Sam.

Professor Raber tells the American Association for Advancement of Science that, "Viewed from the sex angle there are no one hundred per cent men or women." The sex of the human race is "primarily determined by the chromosome content of the egg cell."

With complete respect for Professor Raber, after inspecting the Parisian and American divorce court news, you think those egg cells have done well enough, from the days of Mrs. Potiphar to these modern days.

An Englishman has just flown from London to Cape Town, South Africa, nearly 9,000 miles, in ninety hours. At the same rate, the New York to San Francisco, or Seattle, trip would take about thirty hours—from New York to Chicago, less than ten hours. What speed will be doubled and no-stop flights from ocean to ocean will be made within twenty years!

Washington authorities, by President Coolidge's order, of course, have closed the Mexican border between San Diego and the assorted divest of Tia Juana at 6 p. m. The daylight hours are not the best for dives, and the dive inhabitants are leaving.

Tia Juana owners of gambling houses and similar resorts, a majority of them United States citizens, by the way, petition President Coolidge to cancel his 6 p. m. order. To that President Coolidge will turn a very cold Vermont ear.

About Your Health

Things You Should Know

by John Joseph Gaines, M. D.

SLEEP

It has been said that sleep cures more nerve-disorders than all the drugs prescribed by science, to which statement most educated physicians willingly subscribe. Normal sleep is both preventive and curative for distressing states of the nervous system. Drug sleep is never natural—nor is the stupor caused by over-feeding. For best effects, sleep should be indulged at night.

Observe the new-born babe who sleeps most of his time, except when aroused to take nourishment; he is building a nervous system for many years of active service. His food contains the necessary ingredients, ready-prepared for his appropriation; being too feeble to take exercise, his sole business and occupation are the building of the rudimental nerves along with the "temple" in which they are comfortably housed. Sleep is the ideal condition wherein Nature may accomplish her wonderful ends. Your wakeful, peevish, restless babe is going wrong—and will develop into a nervous, irritable, unhappy and defective youth, unless his course is corrected by the capable nurse or physician in charge. The adult is, in great measure, subject to the same physiologic law.

Sleep is the faithful chaperon of the nervous system, exerting her vigilance as long during life as her requirements are respected. Her approach is gentle—her touch sublime. And, what more delightful than her panorama of bewitching dreams? She is the guardian angel of the voyager on the sea of strenuous effort. To ignore her wilfully and repeatedly is to be forsaken by her—in which event, the penalty is sure, for only the bended knee and the tear of penitence can induce her faltering return.

Next Week:—
"THE SIMPLE LIFE."

ORME'S DOGS AGAIN WINNERS

(Continued from Page 1)

Lewis, won first. Ben Lewis is a professional handler and has shown Mike all down the circuit, surrendering him at Baltimore to T. Dukes Roe, of Denton, to be offered for sale and if not sold to be shipped to his owner.

Champion Comanche Frank's Ghost handled by T. Dukes Roe, won second in the class with Mike. Ghost is one of the finest pointers in the world and was the sensation of 1924-25. The above prize is the only "red" he has ever taken. He made his championship in three shows which is a record as no show gives more than five points and fifteen points are required to make a champion and in order to make the five points, a dog must win everything that can be won at a show which is just next to impossible. Ghost has never taken anything but firsts and specials, his ribbons were sent with him and were exhibited by his handler, T. Dukes Roe.

Mike also took reserve winners which means in the language of the layman, second best pointer in the show.

These two dogs were so well matched that the judge had to call in the secretary of hte show to help him decide which should have the much coveted blue ribbon.

These two dogs were the center of attraction every time they were taken off the bench all eyes were turned toward them. They are both thoroughly trained and have perfect bench manners, when in the ring they stand like statues. It is with greatest regret that Mr. Roe was obliged to return them without more of he home folks geting to see them. They are truly canine aristocrats and the kind heard of but seldom seen. This pair of dogs is valued at more than $2500.

Foreman—How'd you come to leave your last place?

Applicant—I was discharged.

Foreman—Discharged, huh? What for?

Applicant—Doing well.

Foreman—Huh? Where was you?

Applicant—In a hospital, sir.

City sport (to dairy girl)—Good morning. How's the milkmaid?

Kitty—It isn't made. The cow gives it.

Ish—Take a chair, old top.

Jimmie—No, thanks, we have a plenty.
