14 BILLIONS! CHEAP. SOCIALISM DEFINED. SCIENCE USEFUL. ASHES OVER GOLD.

The Bureau of Industrial Technology says it costs the United States FOURTEEN BILLIONS A YEAR to buy automobiles and keep them running.

That's more than the amount lent to Europe during the war and it is also a better investment than the war loan. From Europe for our ten billions we get criticism, the accusation of meanness.

From the automobile for our fourteen billions we get national health, saving of time, much pleasure, millions of families united. At fourteen billions a year the automobile is a bargain.

If you haven't got yours yet, get it NOW, with the opening of Spring.

To use public moneys for the comfort of the prosperous class is "sound conservatism." To use it for the unprosperous class, their wives and children, is SOCIALISM.

We spend thousands on a fine bridle path in a great park, supplying soft footing for the horses or the well-to-do, that's WELL.

But when the Governor of New York suggests using public moneys to solve the housing problem for the poor, providing decent living quarters at reasonable rentals, that is denounced by indignant landlords as "rank Socialism."

The Rev. Dr. Thomas, president of Rutgers University, says all our progress is due to religion—"this nation forges ahead through its faith in God. Science and education have been negligible factors in the progress of America."

The founder of Christianity said: "Render therefore unto Caesar the things which are Caesar's." He would have rendered unto science and education all credit due to science and education. The radio, carrying sermons, including the marvelous Sermon on the Mount, to millions unseen by the speaker would have interested him and the modern methods of protecting mothers and prolonging the lives of children would have delighted the heart of the great defender of children and women.

Religion is the greatest thing in the world, because it deals with the infinite. Science and education are important also.

Eugene C. May, highly educated, has left this earth in disgust. Years ago he learned the location of a schooner sunk in a few fathoms of water on its way from the Australian gold fields with $10,000,000 in gold on board.

Trying to get that gold he fitted out two expeditions, spent all he had, more than $100,000, failed. He opened the veins in his wrists, died, and now his ashes will be scattered on the surface of the Pacific Ocean above the $10,000,000 in gold that he did not get. A good text for sermons.

A British scientist makes this most important announcement concerning cancer. He can detect, by analysis of a few drops of the patient's blood, the presence of cancer in its early stages. Cancer located and treated promptly in the beginning can be permanently eradicated. Cancers that kill are those ignored too long. Report any strange growth to your doctor.

Seven years ago, young J. R. Tucker, of Dartmouth College, owned just one dime and a watch. Now his life is insured for a million. That interests many who think money means happiness. Later Mr. Tucker won't have even the dime, and the worms will have him. But the crowd forgets that.

We have heard an unpleasant story of slave labor. A State is alleged to have made a profit of more than half a million dollars in 1925 by putting convicts to work in the mines as slaves, under conditions of dreadful cruelty.

Conditions are not as bad as they have been formerly, however; not as bad as when English laborers were branded with a red-hot iron on the cheek if they sougnt work outside of their own parish; not as bad as when men sent to the mines by Peter the Great lived and died chained to their wheel-

About your Health

Things You Should Know

by John Joseph Gaines, M. D.

SCIATIC NEURITIS.

Sciatic neuritis is, of course, limited to the sciatic nerve. It is often excruciatingly painful. There is no swelling. Lameness is pronounced. Fever is absent in the majority of cases. Absolute rest is the best treatment, though other measures may go along with benefit. I find it very difficult to convince these people that they do not have rheumatism. Old-time physicians indeed, used to pronounce this disease "sciatic rheumatism" when conditions were not understood as they are now. An aged physician was one of the worst sufferers that I have ever seen. Medicines for rheumatism were absolute failures in his case. A plaster-paris cast which enforced absolute rest for two weeks cured him—without a drop of medicine!

Rheumatism, so-called, is an inflammation of the joints. It is characterized by swelling, pain, limited motion, and fever in acute stages. The correct term is arthritis. Rheumatism is an obsolete name, or should be. Neuritis is an entirely different proposition, and requires entirely different treatment. Blood-disorders and germs cause arthritis. Injuries, over-use, strains, and disease of adjacent organs cause neuritis. A rectal ulcer may cause sciatic neuritis, which treatment of the ulcer cures promptly. Women have sciatic neuritis from causes that escape notice, often the physician himself fails to locate the source. A bit of reflection ought to convince any one of the futility of using medicines for rheumatism in such cases.

f—Stops on signal to receive or discharge passengers.

SHORE NEWS

Chestertown, April 3—April 15 has been selected by District Governor Wirt Fleming for holding the celebration incident to the reception of the Chestertown Rotary club's first charter.

The celebration will assume the nature of a banquet, which will be held in the gymnasium of Washington College.

Women To Serve Dinner

The dinner will be served by the women of the Triangle Club of Christ Methodist Protestant Church under the direction of Commissary King, of the college, and covers will be laid for 200.

Prominent Rotarians from Baltimore, Wilmington, all sections of the Delmarva peninsula and the western part of the state will be in attendance.

District Governor Fleming, who will be master of ceremonies, is arranging an interesting program, features of which will be responses by a number of the most prominent Rotarians in the state.

* * *

Centreville, April 4—Fire which originated in a defective flue destroyed the public school building at Salem Friday morning. The Good Will Fire Company, of Centreville, responded to the alarm, but was unable to save the structure.

Superintendent of Schools T. G. Bennett has made arrangements for the transfer of the twenty-five pupils to Church Hill, and a room in the grammar school there has been assigned to them. They will be in charge of their regular instructor, Miss Dorothy Brown.

* * *

Seaford, April 2—John W. Coulbourn, 71, of Wrights Mill, upper Dorchester county, Maryland, met death Wednesday at Chester, Pa. Coulbourn who is a retired farmer, was on the way to visit his daughter, Mrs. Thomas Craft, of Chester.

In alighting from a train in Chester he got off on the wrong side of the coach and was struck by a southbound express. His body will be brought here tomorrow and taken to Cokesbury Methodist Episcopal Church, where funeral services will be held. Interment will be made in Cokesbury Cemetery. Six children survive.

* * *

Sharptown, April 2—The Sharptown Fire Department has been organized with the following officers: Joseph P. Cooper, Howard S. Bennett, Purnell T. White, William H. Knowles, Homer Fletcher and Walter McWilliams. Papers of incorporation have been approved.

The first step will be to erect a building and then install fire-fighting equipment. The company has joined the county volunteer body and hopes to later affiliate with the state association.

* * *

Delmar, Del., April 2—About 500 guests visited the Masonic Temple when it was first opened to the public. Receiving with Harper K. Wright, worshipful master, were R. C. Sturgis, senior warden; Howard C. Kirk, junior warden; Samuel N. Culver, treasurer; Albert H. Hearn, secretary; Frank E. Lynch, Jr., senior deacon; Eugene R. Wilson, junior deacon; and Marion L. Hastings and Frank Truitt, stewards, and Tyler S. H. Whayland.

At the lodge meeting following the general reception members of the fraternity from six States attended.

The worshipful master was presented with a beautiful past-master's apron.

Many gifts have been presented to the lodge by members of the local chapter and by outsiders.

* * *

Chestertown, April 3—Thomas G. Wroth, who owns a small flock of Rhode Island Red hens, which are kept at his home on Front street, claims to have a hen which lays the largest and heaviest single-yoke eggs of any hen in the state.

Mr. Wroth brought three of the eggs laid by this hen to his office this morning, each of which weighed exactly three ounces and measured six and one-quarter inches at the center circumference.

The hen has been laying the same size egg uniformly throughout the winter. She is 2 years old and weighs nine pounds.

Several weeks ago Kent county came forward with a claim to having produced the largest hog killed in the state last year, when Thomas H. Bryan killed a porker which weighed 1,000 pounds alive.
