—The greatest depth of snow we have had this winter fell on Sunday last. It was about two inches deep but not sufficient for good sleighing, though a number of the lovers of that sport tried hard to enjoy the luxury.

—We would remind our town Commissioners that on Wednesday morning during the fire there was not a public pump in town that would afford a drop of water. Private pumps were availed of and even some of these were frozen over.

At the time of her death she was engaged as teacher at Castle Hall school and boarded in the family of Dr. Hardcastle near by. She retired on Wednesday night in usual good health, but was found next morning a corpse. It is supposed she died from disease of the heart.

At this season of the year, when so many of our people are suffering from colds, we call attention to Ayer's Cherry Pectoral as a sure cure not only for coughs and colds, but all affections of the lungs and throat. Having used it in our family for many years, we can speak from personal knowledge of its efficiency. There may be other remedies that are good, but in all our experience this has proved to be by far the best. Its qualities are uniform and wholly reliable. It is pleasant to take and should be kept at command, by every family, as a protection against a class of compliants which seem harmless in the beginning, but become afflicting and dangerous if neglected. Fire in Denton.

About six o'clock on Wednesday morning our citizens were aroused by the cry of fire on our streets. Hurrying to the scene it was found to be the Academy building located on the east side of the public square. The fire originated in the south east corner of the building, near the front door leading into the passage way and was communicated to the floor and from thence to the frame work and boards from a barrel of ashes left in the corner. Our citizens were promptly on the spot, the spread of the flames prevented and the building saved in a damaged condition. The damage sustained is supposed to be about $100.

The subject of the removal of the building, before it is repaired, to a lot in the suburbs of the town, is being mooted. The present location is too [illegible] for the pupils and interferes with their studies and at the same time the noise of the scholars is a great annoyance to private families in the immediate vicinity. It ought to be removed to a more seclued spot and we hope those having the controll of the matter will give it their attention.

THE following from an exchange is a good illustration of the manner in which many grown up boys are inclined to do business in these times: Two boys were standing before a grocery, when one asked the other, "have you got three cents?" "Yes." "Well, I have got two cents, give me your three cents and I'll buy a five center." "All right," says No. 2, handing out the money. No. 1 enters the store, and procures the cigar, lights it and puffs it with a good deal of satisfaction.—"Come, now give us a pull," says No. 1, "I furnished more than half the money." "I know that," says the smoker, "but then I'm the President, and you being only a stock-holder you can spit."

READY MIXED PAINT.

We call special attention to the excellent testimonials of Mr. C. P. Knight, in reference to Ready Made Paint. Not having used the paint we can't speak from experience, but we feel sure it is to the interest of all our customers, who desire painting, to test the same.

DYSPESIA.

Dyspepsia is the most discouraging and distressing disease man is heir to. Americans are particularly subject to that disease and its effects: such as sour stomach, sick headache, habitual costiveness, heart-burn, water-brash, gnawing and burning pains in the pit of the stomach, coming up of the food, coated tongue, disagreeable taste in the mouth impure blood and all diseases of the Stomach and Liver. Two doses of GREEN'S AUGUST FLOWER will relieve you at once, and there positively is not a case in the United States it will not cure. If you doubt this go to your Druggist, Chas. Stevens or Dr. Fisher, and get a sample bottle for 10 cents and try it. Regular size 75 cents.

WONDERFUL SUCCESS.

Three years ago Dr. Boschee's German Syrup was introduced in the United States from Germany for the cure of Coughs, severe Colds settled on the breast, Consumption and other diseases of the Throat and Lungs. No medicine ever had such a success, 300,000 sample bottles have been distributed every year for three years by Druggists in all parts of the United States, and nearly 10,000 letters from Druggists are now on our files, saying that no other preparation in their stores sells as well and gives such excellent satisfaction. All we ask is for you to go to your Druggist, Dr. Fisher or Chas. Stevens and get a sample bottle for 10 cents and try it. Regular size 75 cents.

Facts

FOR THINKING PEOPLE

There are a few, perhaps half a dozen

Sewing Machines

of real excellence, differing from one another more or less in principle, construction and adaptation; one being suitable for tailoring, another for bootwork, another for family use, &c., &c., the rest are inferior, and by far the greater number

ARE WORTHLESS.

It is note worthy that the sewing machine for which the highest premium was awarded at the World's Fair in New York in 1853, long since sunk into merited oblivion. The past fifteen years has seen numerous machines with high sounding pretensions, rise with a flourish, confound the simple and vanish.—So will it be while credulity lasts.

Time Tries all Things.

Use only furnishes the final test. As the purchase of a Sewing Machine is, or may be, the act of a life-time, care should be taken to get what time and use have approved.

During the past six years the Howe Machine Co. have made and sold over

600,000

SEWING MACHINES,

and to-day, though manufacturing at the rate of one per minute can hardly supply the demand. What better evidence is needed to prove that the public have decided that they are

Testimonials from the Vestry of Mount Calvary Church.

BALTIMORE, August 13th, 1874.

MR. C. P. KNIGHT: *Dear Sir*—We take pleasure in testifying to the excellent qualities of the paint obtained from you, and applied to the exterior of Mount Calvary Church, in this city. It has now been nearly two years since it was put on, and for beauty of color freshness of gloss and durability, it has fulfilled our largest expectations. Respectfully,

BERNARD CARTER, S. C. CHEW, M. D.,
JAS. M. ANDERSON, BENJ. C. BARROLL.

From Mr. Isaac Albertson.

BALTIMORE, December 10th, 1872.

MR. C. P. KNIGHT: *Dear Sir*—It affords me much pleasure to say to you that the Bradley Patent Enamel Paint far exceeds my expectations in economy, beauty, and I have every reason to believe in durability. More than twelve months since, I painted the roof of my house (Mansion House) with the Bradley Patent Enamel Paint, and I was so well pleased with it, I determined to paint the fronts of the "Hotel," and I am most happy to say that it gives me perfect satisfaction. In conclusion, I will say, if this testimonial will be of any advantage to you, you are at liberty to use it. Yours most respectfully,

ISAAC ALBERTSON,
Mansion House Hotel, cor. Fayette and St. Paul Sts., Baltimore.

From Hon. John Wethered.

ASHLYNS, Balt. Co., Md., May 27, 1872.

MR. C. P. KNIGHT: At the recommendation of a friend, I was induced to apply your patent "Bradley's Paint" to my house. I have pleasure in stating that it has proved highly satisfactory, covering more surface than you promised, is more economical, and carries better gloss than ordinary paint, and is freer from disagreeable odor.

Yours Respectfully, JOHN WETHERED.

From James Hall, Esq.

MARYLAND LINE, Baltimore Co., Md., Sept. 24, 1872.

C. P. KNIGHT, Esq., *Agent for Bradley's Patent Enamel Paint, Baltimore:*

Dear Sir—The paint which I purchased from you has given entire satisfaction, so much so that all my neighbors intend to follow my example, and have their houses painted. It is not only durable and cheap, but it looks better after it is put on than any paint I ever saw.

The painter I have employed is delighted with it. He says he can paint twice as fast, and at the same time do a better job with the Enamel Paint than any other he ever used.

I can therefore, without hesitation, recommend it to the public as one of the very best articles of paint ever introduced

Yours very respectfully, JAMES HALL.

The following letter is strong and valuable:

BALTIMORE, Md., Dec. 27, 1871.

C. P. KNIGHT, Esq., *Agent for Bradley's Patent Enamel Paint:*

Dear Sir—The paint we purchased from you we will cheerfully endorse as the best of any kind we have ever used, its covering qualities is everything desired, drying promptly and with a hard gloss, which must, we think, resist the action of all kinds of weather.—This is our experience and we can recommend it with certainty, and intend to use it on all occasions where we desire a good job of work. Very Respectfully,

EMMART & QUARTLEY,
276 W. Baltimore St., House, Sign and Fresco Painters.

MILFORD, September 24, 1872.

MR. C. P. KNIGHT: *Dear Sir*—As I have been usuing Bradley's Patent Enamel Paint, and not finding in one instance where it has failed to give satisfaction. I am therefore frank in recommending it to the public as the best paint in use. It dries promptly, and adheres firmly, and in beauty there is none excels. Yours Truly,

JAMES H. TRUIT,
House and Sign Painter, Milford, Delaware.

From Murray Addison, Esq.

PRINCE GEORGE'S COUNTY, Oct. 24, 1872.

C. P. KNIGHT, Esq., Baltimore: *Dear Sir*—Having given your paint a test of six months, I take pleasure in saying that it comes fully up to your representation, and I think looks as well now as when first applied. It maintains its gloss and color perfectly, and I think will out last any other paint I have ever seen. Very Respectfully,

MURRAY ADDISON.

THE PLAINS, Fauquier Co., Va., Feb. 6 1873.

MR. C. P. KNIGHT: *Sir*—the paint came safely to hand as ordered, two kegs, five gallons each, and three buckets one gallon each. As practice is slack, I did the job myself.—Two weeks not constant work completed the house two coats, the last coat applied thick, and it is now generally conceded that for "Enamel" like hardiness and body and harmony of colors there is not a handsomer job in the place. I saved sixty-five dollars by the operation, which is an item just now with "Southern People." It should be generally adopted in this State; any country lad can apply it. I have never dabbled in such stock as Testimonials, but I feel forcibly the great adaptability of your Enamel Paint to the wants of our people in excellency of material, in beauty of color, and the fact of its being ready-mixed, that I give you full permission, if it is desirable, to make what use you think proper of this letter. Very respectfully and truly,

S. McGILL, M. D.
