"Best Things."

The best theology—a pure and beneficent life.

The best philosophy—a contented mind.

The best law—the golden rule.

The best education—self-knowledge.

The best statesmanship—self-government.

The best medicine—cheerfulnes and temperance.

The best art—painting a smile upon the brow of childhood.

The best science—extracting sunshine from a cloudy way.

The best war—to war against one's weakness.

The best music—the laughter of an innocent child.

The best journalism—printing the true and the beautiful only, on memory's tablet.

The best telegraphing—flashing the ray of sunshine into a gloomy heart.

The best biography—the life which writes charity in the largest letters.

The best mathematics—that which doubles the most joys and divides the most sorrows.

The best navigation—steering clear of the lacerating rocks of personal contention.

The best diplomacy—effecting a treaty of peace with one's own conscience.

The best engineering—building a bridge of faith over the river of death.

The First Carpet.

Seventy years ago carpets were rarely seen in American Families of the middle classes, as they are now rarely found in Germany. Dr. Lyman Beecher gives an amusing account in his autobiography of his first carpet at East Hampton, L. I.—His wife spun a bale of cotton and had it woven. Then she fitted it to the floor, sized it and painted in oils, with a bright border around it, and bunches of roses and and other flowers over the center. She took also some common wooden chairs and painted and cut out figures of guilt paper, glueing them on and varnishing them.—The general effect was very beautiful.

The East Hampton people were quite startled by the novelty. One of the old deacons called at the house; but stopped at the parlor door, as if afraid to enter.

"Walk in, deacon, walk in," said the minister.

"Why I can't 'thout stepping on it," was the answer.

Then surveying it with evident admiration, he gasped out, "D'ye think ye can have all that, and Heaven too?"

A Love Adventure.—A colored man living in Macomb street having long admired a colored widow living on the next block above, but being afraid to come boldly and declare his passion, went to a white man of his acquaintance the other day and asked him to write the lady a letter asking her hand in marriage. The friend wrote, telling the woman in a few brief lines that the size of her feet was the talk of the neighborhood, and asking her if he couldn't pare them down a little. The name of the colored man was signed, and he was to call on her Saturday night for an answer. Yesterday the writer of the letter met the negro limping along the street and asked him what the widow said. The man showed him a bloodshot eye, and scratched nose, a lame leg, and a spot on the scalp where a handful of wool had been violently jerked out, and answered in solemn tones: "she didn't say nuffin, an' I didn't stay morn'n a minit."

Farming in California.—A farm in California, consisting of 20,000 acres, has just been let for five years an at an annual rental of $40,000. The farm is stocked with 1,900 head of cattle, 100 horses, 50 mules, and 1,500 hogs, costing the lessee, with crops, the sum of $74,250. Heavy farming that. But out there they have sheep ranges of 100,000 acres, with flocks numbering from 60,000 to 100,000 head, while there are farmers who boast of wheat crops amounting to 50,000 and 120,000 bushels. Cattle raising, once a prominent interest, is going down. The vineyard and dairy interests are continually growing, both being conducted on the very extensive scale which appears to characterize farming operations in that region. The receipts of wheat at Stockton on one day recently amounted to 1,495 tons.

Work.—Because a young man has a father who is "well off" is no reason that he should not work for himself. No man should idly depend upon another, whatever the relationship between them; and no man in this world will be happy who violates the fundamental law of industry.—You must work if you are going to be a happy man. I know you think it is hard, but if God had meant that you should be a butterfly, you would be born a butterfly.—And as you were not born a moth or a miller, but a man, you must accept the condition of your manhood. And if there is one principle that is more important at the very threshhold of life than another, it is that man is born to work.

Borax for Colds.—A writer in the Medical Record cites a number of cases in which borax has proved a most effectual remedy in certain forms of colds. He states that in sudden hoarseness or loss of voice in public speakers or singers, from colds, relief for an hour or so, as by magic, may be obtained by dissolving and partially swallowing, a lump of borax the size of a garden pea, or about three or four grains held in the mouth for ten minutes before speaking or singing. This produces a profuse secretion or "watering" of the mouth and throat—probably restoring the voice or tone to the dried or vocal cords, just as wetting brings back the missing notes to a flute, when it is too dry.

"Dar's de man, Mister Speaker—dar's de man wot done it," shouted a colored member, rising suddenly from his seat in the Arkansas Legislature, with one hand pointing to a white man in the gallery, and with the other one rubbing the summit of his cranium. "Dat ar cussed white man jes done spit on the top o' my head."

What Am I Good For?

Remember the parable of the talents—one had ten, another five, another two, and another one. So it is among men to-day. Our talents may be compared with money, with education, acquired art, natural gifts, or with an opportunity to do good. If we use our one, two, or five talents to the best of our ability, we shall be accepted, and earn the approval of Him who judges righteously. Are we so living to-day that we can ask or hope for God's blessing on the course we are pursuing? This is our right, our privilege, and our duty. We may count our passing moments as unimportant, as they may appear to be uneventful. But "time flies," and we must fly to keep up, or left behind; each second, like the tick of a clock, makes its record.—We do not realize this until we come into middle life or old age, when if our time has been frittered away, we are punished in a "hell" of regrets, for "lost time and lost opportunity."—*Annual of Prenology and Physiognomy.*

A New Fertilizer.—Indian meal is said to be equal to Peruvian guano as a fertilizer. Like the latter, it will kill the germ of the seed if applied in too large quantities. It may be used in the hill, furrow, or broadcast, in about the same quantities as guano. At 60 cents per bushel, for corn a ton of it costs about $24, or about one-third as much as guano. It acts quickly upon the growing crops and may be applied to wheat in the spring at the time of sowing clover and raked in with the grass seed. From all that we have heard of this article as a fertilizer, it is certainly worthy a trial, and we hope that some of our readers will experiment with it the coming season and report results. Wheat bran also may be quite as valuable for this purpose and may be tried in the same manner. A tablespoonful of corn meal may be applied to a hill of corn, or three hundred pounds to the acre on wheat or other broadcast crops.—It is said to answer quite as well on potatoes and other root crops.

What They Drink.—The New York *Witness* tells the following: A gentleman settled the estate of a wine dealer in New York. Having access to his books, he examined the accounts of what was bought and sold, and was surprised to find that, while for years he had sold large quantities of wine, there was no indication on his book that he had ever bought any.

Not a gallon purchased, but thousands of gallons sold for the juice of the grape, when, in fact, it was his own infernal concoction of drugs and poisons, on the sale of which he grew rich at the expense of the lives of his fellow-men.

Two Irishmen, lately landed, were boarding at a hotel where they were sorely troubled with mosquitoes, and could hardly obtain sleep enough to satisfy nature.

"Put your head under the blankets," said Mike, "an' thin they will not bite yees."

Pat did as requested, but scarcely had he found himself free from the mosquitoes when he was attacked by the bed-bugs, that he had failed to notice.

"Bad luck to me, Mike," said he, here's another kind widout wings an' fiddles; but, begorra, they bite us as hard as the others.

An industrious citizen of San Juan arose a few mornings ago, while the festive lark was still snoring, and with a tin bucket under his arm went to the barn to milk the family cow. It was dark and rainy, and in fumbling about for old Brindle he got into the wrong pew and began to pail the off mule of his wagon team. He can't remember which side of the roof he went out at, but his recollection of alighting on the picket fence is very vivid. He expects the bucket down in a few days.

A Texas man standing in a hotel gallery, smoking, who had the cigar shot out of his mouth, was not disposed to gumble until a fellow rushed up to him and offered to bet two to one that he could do it again.—Then he took off his coat and vest and mauled that man and stepped on him and rolled him over, and finally jammed him in to a post hole, where he left him, and when he got out he didn't want to shoot at any more cigars.

A negro dialogue, as reported by the "Vicksburg *Herald*:" "How do you do, Sallie, how do you do? I ain't seed you in such a time. How is you no how?" Sallie, grasping the old darkey's corn stealer, and giving it a hearty shake. "I'se still a kicking, thank you, Uncle Tom, but I ain't a kicking high. How you getting on?" Uncle Tom, deliberately, "Well, Sallie, I'm still sticking together—in spots.

Never set your feet in a dirty and crooked path for the love of money. It is a work that will bring bad interest if you wish to suck honey of thistles.

You will need a long spoon if you wish to eat with the devil out of the same dish.

When a Tennessee husband will horsewhip his wife for washing potatoes in his Sunday plug hat, it is time to inquire whether this generation of men isn't getting to be too confounded hightoned for the age of the country?

When they tried to force Miss Gray, of Independence, Missouri, into marriage against her will, she kicked the minister's hat off, knocked the young man down, rode off on a mule, with one foot on each side of him.

A dear old Yankee lady being asked if she had ever had her ears pierced by the wail of distress, said she couldn't just exactly remember, but she believed it was done with a shoemaker's awl.

An Iowa father, who has succeeded in raising seventeen of the worst children in his neighborhood, says he is bound to have a representative in Heaven if it takes seventeen more.

A hint to clergymen whose congregations are sensitive: "If you don't mend your ways, my hearers, you will finally bring up where everybody belongs to a fire company."

MISCELLANEOUS.

1875 THE 1875
BALTIMORE WEEKLY SUN,

A FIRST-CLASS FAMILY JOURNAL.

NEWS, AGRICULTURE AND LITERATURE COMBINED.

UNEQUALED IN EXCELLENCE AND CHEAPNESS.

SUBSCRIPTION PRICUE NCHANGED.

POSTAGE PREPAID BY PUBLISHERS AND FREE TO ALL SUBSCRIBERS.

The Baltimore Weekly Sun has successfully stood the test of time, and is not found wanting in any of the essentials of a first-class paper for the home circle. A strict adherence to conservative principles and truth has rendered the journal a sort of

"HOUSEHOLD WORD,"

and as such it has become a necessity wherever it is known.

As a Literary Paper it is entertaining and instructive to all classes, its contents being always of high tone and scrupulous morality.

The Weekly Sun's Market Reports are especially valuable giving the latest prices of all kinds of Produce in Baltimore and the principal cities of the Union, for the latter the telegraph being availed of up to the date of publication.

TERMS—CASH IN ADVANCE.
POSTAGE FREE TO SUBSCRIBERS:

ONE COPY, six months	$1 00

THE BALTIMORE SUN.

A DAILY MORNING JOURNAL.

FULL OF NEWS—SOUND IN PRINCIPLE.

FIRST-CLASS AND INDEPENDENT.

ITS PAST THE INDEX OF ITS FUTURE.

CHEAPEST AND BEST PAPER KNOWN.

POSTAGE PREPAID BY THE PUBLISHERS AND PRICE UNCHANGED.

PROSPECTUS FOR 1875.

THE SUN, throughout all the many years of its existence, was never more widely circulated and more popular and prosperous than is at this time. Its usefulness and strength have increased with its years, till now it is indispensible to individuals of every class and to every interest in the community.

Being concise, yet comprehensive, there is no other medium by which people can be so conveniently and fully informed of all that is transpiring in the world of news, Political, Social, Moral, Commercial, Financial, &c. as through

THE SUN.

Its independent character and elevated tone in the treatment of all subjects insure confidence, and render it potential for good and acceptable in all circles.

AS AN ADVERTISING MEDIUM

The Sun, by reason of its immense circulation, which is far greater than that of all the other city morning papers combined, affords an especially valuable medium of exchange for all the forms of business and in all the walks of life, and at rates that are insignificant in view of the wide diffusion of its announcements.

PATENT MEDICINES.

VINEGAR BITTERS
VEGETABLE FREE FROM ALCOHOL
PURELY
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of Vinegar Bitters?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of Vinegar Bitters in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases

The properties of Dr. Walker's Vinegar Bitters are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sadorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim Vinegar Bitters the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. Walker's Vinegar Bitters, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with Vinegar Bitters. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, Walker's Vinegar Bitters have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of Walker's Vinegar Bitters occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ringworms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelminities will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
