American Union

Thursday Morning April 29 1875

The Orphans' Court of Caroline county will meet on Tuesday, 11th of May, 1875.

THE *Union* will not be sent to any subscriber living outside the county unless paid for in advance.

The Editor's Hash.

—Peaches are now in bloom.

—Our farmers are engaged in corn planting.

—The cold weather has backened the wheat crop.

—We were visited with a heavy rain storm on Tuesday night.

—It is expected that travel over Denton Bridge will be resumed on Saturday next.

—This is the last of April and shade trees are just beginning to show their leaves.

—Returns from the recent town elections in Illinois are in favor of the Temperance ticket.

—Snow fell in Philadelphia on Saturday last, and in Northern New York it was three inches deep.

—Next Saturday is license day. Don't forget to call at the Clerk's office on that day and procure a license.

—It is easy enough to make the acquaintance of apple dealers. "Buy their fruits—ye shall know them."

—A whole spelling bee at Easton, the other night, collapsed on "bachelor;" they would have too much "t" in it.

—Reports from all parts of the Peninsula give promise of more than an average crop of peaches the coming season.

—Our fishermen are still doing a poor business. Thus far it is the poorest fish season ever known on the Choptank.

—The deaths in Baltimore last week numbered 113. Scarlet fever 8, pneumonia 10, consumption 18. Males 59, females 54.

—Mr. Geo. W. Barnes, who fishes off Carpenter's Point, on the Susquehanna, caught 1200 shad at one haul, one day last week.

—The spelling bee out West is about to be utilized to a good purpose. A girl in Illinois offers herself as a prize to the fellow who outspells all competitors.

—Col. (Rev.) J. M. McCarter has been sent by the authorities of the Wilmington Conference to take charge of the church upon Chincoteague Island, Va.

—Gen. Frank P. Blair, who has been prostrate for some time caused by a paralytic attack, has improved recently by the transfusion of blood into his veins.

—B. Gratz Brown and ex-Representative Stanard, of Missouri, practiced in a spelling match held recently in St. Louis.—They both went down on "bamboozle."

—The people of Louisiana have evaded another partizan broil by the final adjournment of both Houses of her State Legislature. How long peace will prevail it is hard to conjecture.

—The first installment for indemnity of $30,000 for the Virginius massacre, although not due from Spain, yet $45,000 has been handed to Minister Cushing, who has forwarded it to Washington.

—A very religious old lady being asked her opinion of the organ of a church, the first time she ever heard one, replied: "It is a very pretty box of whistles, but, oh! it's an awful way to spend the Sabbath!"

—Miss Julia Park has just returned from the city with an assortment of fashionable millinery and notions to which she invites the attention of the ladies generally. They are of the latest styles and at prices to suit the times. See advertisement.

—An exhibition of the Denton amateur Dramatic Association will take place at the Court House in Denton on Thursday evening next, 4th of May. Of the programme we are not advised. An admission fee will be charged, the proceeds to be applied to the purchase of street lamps for the town.

—The attention of the reader is invited to the advertisement of J. M. Horning & Co., photographers, to be found in another column. Their pictures are life-like, and from their long experience in the business, they cannot fail to give satisfaction. Persons desiring pictures should call early.

—We tender our heartfelt acknowledgements to the Harmony Lyceum for a large sized delicious cake sent us on Tuesday last. Such large hearted individuals do not do things by halves, but when they remember the Printer, their gifts are large and spontaneous as the promptings of their warm and generous hearts. Long life to the Harmony Lyceum.

—We pity the writer of the article in the last number of the Denton *Journal* over the signature of "W." Hope the young man may recover from his laborious effort. He needs some one to instruct him in the common courtesies of life, before he attempts to instruct others of age and experience. "Beardless boys" should not speak until called upon.

—Miners in the Pennsylvania coal regions work about 240 days in the year; receive 51½ cents per ton and average each eleven tons per day. After deducting wages of a laborer, powder, oil, cotton, tools, &c., his net earnings amounts to $825.60 per anum, and yet they are on a strike for higher wages. There is not a farmer in this region of country but would make money by turning minor.

—The worldly minded and even some divines, attribute the success of Moody and Sankey in their great revival work whereby thousands are turning from their sinful course, to magnetism, nervousness, excitement, &c., and as being the work of the evil one, but when a Cardinal or a Bishop manages to convert a dozen or more, it is regarded as the legitimate work of christianity. Such religious exclusiveness would close the gates of Heaven upon all mankind who dare oppose the bigotry of sectarian creeds.

Appointment of Collectors.

The following named gentlemen were appointed last week by the County Commissioners as collectors of State and County taxes for the ensuing year: First district—Thomas L. Day. Second district—George W. Porter, Third district—Wm. B. Stevens. Fourth district—J. P. J. Hubbard. Fifth district—Elijah Hignutt.

The Peach Crop.

The cold spell of last week aroused the fears of our fruit growers as to the fate of the peach crop and many believed it was entirely destroyed. Up to that time but comparatively few buds had expanded into bloom. This was a fortunate circumstance for the safety of the crop. All the buds that had fully opened of all kinds of fruit are destroyed. But from recent and pretty thorough examinations it is believed that if all the buds left uninjured should come to perfection we will have the heaviest fruit crop in this section that has been produced for years. There are more fruit buds than usual this season, and if one half should mature the crop of peaches would be the largest known for several years past. If the prospect in other localities is as good as with us, and should no disaster occur to them hereafter, all fears as to a failure of the crop may be abandoned at once.

A Grand English Invasion on Thursday, May 13th, in Denton.

Start not peaceful reader at the ominous and powder-smelling character of the introductory heading. "Cousin John" is not coming with Enfield and iron clad to test our metal, but in a very amusing manner, and represented by what he can do in the way of conquering savage nature and muscular art, to edify and delight the people of the New World. His special embassador on this occasion is Mr. A. B. Rothchild, who it will be seen by the proclamations of the advertisements and programmes is empowered to make a grand internal tour with his colossal menagerie and combined circus companies, previous to taking up superb quarters in Philadelphia as one of the English features of our forthcoming grand Centennial Celebration.

Certainly the most ample reasons are presented why "the stranger should be taken in and cared for." First, it is an honest show, honestly advertised and distinctly resting its claims to recognition on the good old fashioned and only legitimate features possible to be presented in an exhibition of its kind. Second, in the resources claimed it is "almost as big as all out doors," and lastly it is backed up by that liberality and true nerve to which we Americans always instinctively pay tribute. Its animals, from that phenomenal and altogether novel feature, the mastodonic performing Rhinoceros, "Himalaya" are of the rarest species and in the most perfect condition, while in daring, grace, sensation and fun, its circus promises a programme of unequaled brilliancy and innovation.—That most undeniable element of human character, "curiosity," is evidently so profoundly stirred by the advent of this distinguished stranger from o'er the seas that overflowing houses may be depended upon as the order of the eagerly looked for day.

IS YOUR LIFE WORTH TEN CENTS?

Sickness prevails everywhere, and everybody complains of some disease during their life. When sick, the object is to get well; now we say plainly that no person in this world that is suffering with Dyspepsia, Liver Complaint and its effects, such as Indigestion, Costiveness, Sick Headache, Sour Stomach, Heart burn, Palpitation of the Heart, Depressed Spirits, Billiousness, &c., can take GREEN'S AUGUST FLOWER without getting relief and cure. THE PEOPLE WANTS PROOF.

There is no medicine prescribed by Physicians, or sold by Druggists, that carries such evidence of its success and superior virtue as BOSCHEE'S GERMAN SYRUP for severe Coughs, Colds settled on the Breast, Consumption, or any disease of the Throat and Lungs, a proof of that fact is that any person afflicted, can get a sample bottle for 10 cents and try its effect before buying the regular size at 75 cents. It has lately been introduced in this country from Germany, and its wonderful cures are astonishing everyone that use it.—Three doses will relieve any case. Try it—Sold by Dr. Fisher and Chas. Stevens, Denton Md.

NICHOLS.—At his residence near Cabin Creek, Dorchester county, Md., on Tuesday, April 19th, 1875, Mrs. ELENOR NICHOLS, widow of the late James Nichols, in the 65th year of her age.

It is but seldom that the pen is required to record the death of an individual whose earth-work was more completely finished than the subject of this brief memoir. In the fullest sense of the term, she became a Christian in early life, and through all the weary years of her pilgrimage she never lost sight of the Cross. As a mother, she was affectionate and indulgent; as a friend, firm and steadfast. To do good unto others seemed to be her chief aim in life. Her last illness was painful and protracted; but she murmured not. The tears of affection will water her grave; but her influence will manifest itself in the life-walk of many she has left behind. She doubtless accomplished her mission on earth, and will as certainly enjoy the blissful inheritance of the redeemed in Heaven. L. P. W.

Hair Vigor,

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, fallen hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning grey or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.
