American Union

Thursday Morning Feb. 3. 1877.

THE Orphans' Court of Caroline county will meet on Tuesday, 13th of Feb., 1877.

The Editor's Hash.

—Next Wednesday is St. Valentine's day.

—In the lower counties, south of us, truckers are planting peas.

—The School Board will meet at their office in Denton on Tuesday 27th instant.

—The first trip of this season was made to Cambridge yesterday by the steamer Champion.

—Mr. Chas. W. Arringdale has been appointed postmaster at Cardova Station, Talbot county.

—Dr. Isaac Jump, of Dover, was thrown from his carriage last week, and badly cut and bruised about the face.

—The entertainment at the Court House on Saturday evening will begin at 7 o'clock. Proceeds to buy books for public library.

—The Sheriff of Sussex county, Del., has advertised twenty-six different properties for sale. Times are hard down there too.

—The assessable property of Talbot county amounts to $8,836,826, being an increase over the old assessment of $863,961.

—Some of our merchants can truthfully sing, if not in the spirit of that old hymn, yet with pathos—"A charge to keep I have."

—A large schooner went ashore on Bar Neck Sands, at the mouth of the Choptank river, during the first of the freeze. She is now a total wreck.

—Remember the Dramatic Entertainment at the Court House on Saturday evening next, 10th inst. The Denton Brass Band will be in attendance.

—The Rev. Mr. Mitchell, of Centreville, will preach in Christ Church, Denton, (D. V.) next Sunday, (Feb. 11th,) at 10½ o'clock, A. M., and at 3 P. M.

—Richard Harrington, of the "Washington Safe Burglary fame," is one of the converts at the recent religious revival at the M. E. Church, Dover, Del.

—Wanted immediately—a good wood stove, suitable for a small room. Apply to J. W. IRVING,
Opposite Brick Hotel.

—Rev. Clement F. Jones, formerly rector of the Protestant Episcopal Church at Chestertown, died at his residence in South Carolina on the 23d of January.

—Tickets for the Dramatic entertainment may be obtained at Stevens' Drug Store. No extra charge for reserved seats. Admission 25 cts. Children under 12, 15 cts.

—Capt. Corkran and the crew of the ill fated schooner Richard Rhodes, who were taken from the wreck and carried to Liverpool, were expected to arrive in Philadelphia on Tuesday last.

—Some 200 or 300 canvass back ducks were caught fast in the ice in Choptank river, nearly opposite Cambridge, during the late freeze, and were captured without difficulty.

—Joshua Spurry, a carpenter by trade, and years ago a citizen of Denton, was severely injured on the 1st inst., by falling from the roof of Hall's canning establishment at Frederica.

—A stray dog which had wandered into the Court room at Elkton last week, bit a lawyer quite severely on the calf of the leg. That lawyer ought to prosecute the dog for an assault and bite.

—Over one hundred persons have been received into the M. E. Church at North East, Cecil county, as the result of the recent protracted effort in that place. Wish we could say as much for Denton.

—"*Angel of Night*" is what Dr. Bull's Cough Syrup has been termed by parents, whose worrying and coughing children have been soothed and cured, and secured sweet slumber by using this excellent remedy.

—It is rumored, but by what authority is not known, that Edward Dolby, formerly a mail driver at this place, froze to death some two weeks ago, between Dover and Clayton, on the line of the Delaware Railroad.

—At the sale of the real estate of the late Jas. W. Robbins, at Dover, last week, the canning establishment was bought by Mr. A. B. Richardson, the surviving partner, at $16,000. He also purchased the gas-works at $15,000.

—Lost on Thursday last, between Denton and Greensborough, on the east side of the river, a cloth driving glove, lined inside with buck skin. The finder will please leave it at this office or with Mr. Wm. F. Cook at Greensborough.

—Last week the liquor distillery at Moorton, Kent county, Del., was seized by U. S. officers and the proprietor, Henry Gerker, conveyed to Wilmington for a hearing before U. S. Commissioner Smith. He was released on $1,000 bail for his appearance at the April term of Court.

—A colored boy about 12 years of age, living with Mr. John Primrose, nearly opposite Chestertown, attempted to cross the river on the ice the latter part of the week, and when near the channel the ice gave way and broke through and he was drowned.

—Mr. Samuel M. Carter, residing at Greensborough, lost a valuable carriage horse a few days ago, of disease known as Farcy. This is the third horse Mr. Carter has lost in the past six months, one of which was a valuable two year old colt.

—The weather for the past week has been etheral and Spring-like. The warbling of the forest songsters are again heard in our midst—the icy fetters that have bound the earth have been dissolved and the swelling fruit buds give evidence of returning life to suspended vegetation. Happy Spring-time! We greet the joyfully.

—The Hillsborough Dramatic Association will give an entertainment this evening and to-morrow evening at the Academy in Hillsborough. The proceeds are intended for benevolent purposes and a crowded house is anticipated.

—Up to Saturday last 85 conversions are reported at the M. E. Church at Chestertown, while at the M. P. Church a large number profess a change of heart, yet the number is not definitely known. These meetings are still in progress.

—The steamer Geo. Law resumed her trips from Baltimore to Chestertown on Monday last. She leaves Chestertown at 8 o'clock, A. M., every Monday, Wednesday and Friday for Baltimore. Leaves Baltimore every Tuesday, Thursday and Saturday at 9, A. M.

—There is no excuse for those who drag their weary and disordered bodies into our company, when a few doses of Ayer's Sarsaparilla would cleanse their murky blood and restore their health and vigor. Ye muddy victims of billious disease, have some regard for your neighbors, if not for yourselves.

—The Greensborough Brass Brand will give an evening entertainment at the Town Hall, Greensborough, on the 22nd inst.—The exercises are to consist of music, dramas, farces, comedies, &c. The proceeds are for the benefit of the Brass Band and those friendly to the development of musical talent are desired to exert their influence to make the entertainment a success.

—This has been an unusually severe winter on the wheat crop. It has been encased in an icy shroud for near two months and at times greatly exposed to the intense cold weather and the stormy winds that swept over it. A covering of snow would have been a great protection. It is too early yet to venture any remarks as to a prospective yield of this crop.

—A gentleman residing a short distance from St. Machael's recently rode into town in his wagon and taking from it a coal oil can and a basket of eggs, proceeded to Mr. Harrison's store which he found closed.—After some inquiry he was informed that Mr. H. always closed up on Sunday. He left town in a hurry declaring he had somehow "lost a day." Here is an opening for the missionary.

—The Hillsborough Dramatic Association have made arrangements with the Denton Literary Association to give an entertainment at the Court House in this place on Monday evening next, (12th inst.) The proceeds derived from the entertainment will be equally divided between the Associations and are to be devoted to praise-worthy objects and, hence the necessity of liberal patronage.

—A member of the Delaware Legislature a short time since proposed to make it a misdemeanor for parties of that State to be married beyond its limits, and now the Dover *Sentinel* proposes that this bill be supplemented by two others. The first to protect midwifery, by making it a penal offence for a child to be born out of the State, and another to protect undertakers by making it a penal offence for any citizen to die out of the State.

—Our market was supplied last week with fresh fish taken from the Choptank, near town; the chief variety being white perch. The first in the market sold 16 for 25 cents. Later in the week, however, being more plentiful, they sold 30 for a quarter. Should this mild weather continue, we may expect to see very soon, what is known in our midst as "*small bone bacon*,"—fresh herring.

—The bids for the Spring mail lettings for thirteen States were closed at the contract office in Washington on Saturday afternoon at 3 o'clock. Maryland is included in these States and has to let 133 routes. Bids by several parties here have been forwarded to Washington to secure mail routes in this vicinity. The Second Assistant Postmaster General and his assistants commenced opening the bids on Monday and the contracts will be awarded about the 1st of March.

—We tender our congratulations to Mr. John Skinner and lady of Queen Ann's county, for the half of the bride's cake sent us a short time since, although by a mishap it never came into our possession, but found its way to the *Journal* office where we presume it was devoured with great gusto. Mr. Skinner's intentions were good and we therefore return our thanks. The old adage, "there is many a slip between the cup and the lip," in this instance may be paraphrased thus—"there was a slip between the cake and the lip."

The Bradley Promethor.

THE SUBSTITUTE FOR STEAM THAT IS TO REVOLUTIONIZE THE WORLD'S MOTIVE POWER.

The Philadelphia *Sunday Press* of a recent date contains the following article on the subject of the new motive power, invented by Rev. R. D. Bradley, of Preston, in this county.

The scientific world will soon be surprisprised by the promulgation of an extraordinary discovery in natural science, which will exalt the reputation of our city, and confer distinguished honor upon the inventor's name. Whilst experimental science has been laboring for many years to develop a new power in mechanics, simple in its management and less expensive than steam, a citizen of Maryland, Robert Dines Bradley, has solved the difficult problem, and has invented and completed a simple machine which controls a well-known natural agent, and makes it at once responsive in action and limitless in power. The invention is conceived and the machinery constructed upon the best established principles of natural and physical science, and will receive the cordial and spontaneous approval of all men. The power utilized is of the most subtle and positive character, and one that has always to be watched by the operator of the steam engine. This great power Mr. Bradley, an experienced mechanician and scientist, has, after several years of untiring application and study, brought under complete subjugation to the will of man. By a novel machine of marvellous simplicity, he obtained, with the aid of heat, a power which is only limited in intensity by the strength of the resisting material. It is managed so as to be harmless against accident or explosions; occupies but small space comparatively, and is practicable at moderate expense for all uses where steam is now employed. If this statement seems to be extravagant, its verity will soon be made manifest before a commission of experts, composed of some of the best scientific minds of the country, and Mr. Bradley will be glad to meet all persons interested in the progress of mechanical science, practical engineers or theorists, professors of experimental or positive science, skeptics or critics. His invention is its own advocate, and needs only to be "investigated" to establish its integrity before the workl.

It is perhaps remarkable that so many tomes should have been written to teach mankind how to prevent explosions in steam boilers, and that so little should have been attempted towards economizing the destructive power itself. The late Joseph Harrison, Jr., as is well known, expended large sums of money in constructing steam boilers that would not explode, as many other experimenters have also attempted, but no one seems to have matured any intelligent theory for reducing or economizing the radical forces which are the immediate cause of explosions, and subverting them to a useful purpose. In other words, in converting to practical uses that undefined, if not indefinable, energetic agent, so often found the unwelcome guest of the steam boiler.

We are quite aware that the Franklin Institute has long since declared that the explosive power in the steam boiler is only steam superheated, but science is progressive, and we propose to show that even so respectable an institution as the Franklin Institute may err, in the light of demonstration, and that we can and do produce an all powerful gas by changing the form of water by decomposition. With this very general statement we will reserve for one or two future articles a fuller account of this crowning invention of the century, and will only add that letters patent have been obtained in twenty-four countries of Europe and America, to secure its benefits to the inventor.

We may also add, to prevent misapprehension as to the true object of these articles, that the invention is not and will not be presented as an object for public competition in any form until it shall be proven upon its merits to be what it professes to be, the coming substitute for steam power; a period which is very near at hand. The proprietorship is in the hands of only a few persons, who already control the necessary means for its introduction to the world, so that the public will be asked for neither subscriptions nor subsidies.

Federalsburg Items.

The protracted meeting is still in progress at the M. E. Church; quite a number have professed conversion and the alter is full every night with anxious penitents. Strange the *Courier* had not heard of it.

The oyster *men*, referred to in items of last week, arrived here Thursday night in the sloop Kate with a cargo of very fine oysters. Early Friday morning the good people of the village began to patronize these enterprising young men, and oysters sold readily at 35 to 50 cts. per bushel, for *cash* or *order* on the merchant that furnished the grub for the trip. Taken altogether the trip was a success, and promises to be remunerative if they succeed in collecting bills for oysters sold for cash or on order.

Prof. Davis applied for the use of the Dorchester School house to hold his singing school in, but the majority of the local trustees voted no; then a large majority of the patrons of the school petitioned the County School Board for the use of the house believing they had authority to grant it; but they decided not to go behind the *returns*, as there was no warrant in the law for it—the action of the *Returning Board* being final.

Murder Confessed.

On February 12, 1869, Hon. Murray McConnell, one of the wealthiest citizens of Jacksonville, Ill., was found lying dead in a pool of blood in the private office of his own residence, his head crushed in, apparently by repeated blows from an iron poker, which was found lying on the floor beside the ghastly corpse. From that day to this no light has been shed on the question of who was the perpetrator of the horrible deed. One Robinson, a hotel clerk, of Jacksonvile, was arrested and tried for the crime, but was acquitted by the jury, the evidence proving utterly insufficient to fix the offence upon him. On the 1st inst., a prisoner in the McLean county jail, at Bloomington, named John Pierson, who was arrested for swindling, and who has served at least five terms in the Illinois Penitentiary, confessed to the State's Attorney, that he is McConnell's murderer. He relates that he went to McConnell's office to ask him for money to leave the city with; that McConnell called him vile names and ordel him out of the house, whereupon he picked up the fire poker and struck him several blows with it. He then fled, and did not stop on his travels until he had reached Scdalia, Mo. Pierson is about 50 years old and is known as a desperate character.

RATLIFF.—At Greensborough, on the 17th ult., Mrs. Sarah E. Ratliff, in the 38th year of her age.

Spots upon the Sun do not visibly diminish its brilliancy, but spots, pimples or blotches upon the face, neck or arms seriously detract from female beauty. They may, however, be completely removed by the daily use of Glenn's Sulphur Soap, Depot, Crittenton's 7 6th Ave., N. Y. Hill's Hair & Whisker Dye, black or brown, 50 cts. [feb1-4w.

Scarcity of Money.

There is no doubt but the present condition of all kinds of business and industry is fearfully depressed, and it behooves every family to look carefully to their expenses.—Winter is coming on when children are liable to Croup, Whooping Cough, etc. Coughs and Colds will prevail everywhere, and Consumption, with other throat and lung diseases, will carry off many. These diseases should not be neglected. Doctor's bills are expensive, and we would advise our people to use BOSCHEE'S GERMAN SYRUP. It never has failed. One bottle at 75 cents will keep your whole family well during the winter.—Two doses will relieve any case. Sold in all towns in the United States, and by your Druggists, Dr. Fisher or Chas. Stevens.

MANY thousands of dollars has been spent in distributing, *free of charge*, Sample Bottles of BOSCHEE'S GERMAN SYRUP to all parts of this country, to those suffering from Coughs, Asthma, Hemorrhages, Consumption, and other Throat and Lung Diseases, that the afflicted might satisfy themselves, that this remedy would save them from those fatal diseases. No person has ever used this medicine without getting immediate relief, yet there are a great many poor, suffering, skeptical persons going about our streets with a suspicious cough, and the voice of consumption coming from their lungs, that will not try it. If you die, it is your own fault, as you can go to your Druggists, Dr. Fisher or Chas. Stevens, and get a Sample Bottle for 10 cents and try it; three doses will relieve any case. Regular size only 75 cents.

A TIME-HONORED SPECIFIC.—The long and successful career of Dr. WISHART'S PINE TREE TAR CORDIAL, as contrasted with the speedy collapse of nostrums devoid of efficacy which have from time to time been puffed into a brief notoriety during the twenty odd years that this celebrated medicine has been sold, affords a proof that the American public *continues* to repose its confidence in deserving articles only. The PINE TREE TAR CORDIAL has long been recognized as the leading specific for Consumption, Bronchitis, Coughs, Colds, Asthma, Diptheria, and all other diseases of the breathing organs. It is, moreover, a certain, speedy, and safe batonic remedy for Dyspepsia, Liver Disorders, Scrofulous Affections, Urinary Troubles, Gravel, Dropsy, Debility, Constipation, and Female Complaints. Constantly accumulating evidence of an unimpeachable character establishes the fact that it not only entirely eradicates the diseases to which it is adapted, but also that its action is remarkably prompt and thorough. The crucial test of experience has demonstrated its reliability in every particular. Sold by all druggists. Principal Depot, No. 916 Filbert Street, Philadelphia. [nov23-4w.

1877 THE SUN, BALTIMORE, MD. 1877

The Sun, from the geographical position occupied by Baltimore and its proximity to the National Capital, presents unusual advantages to all classes of readers, not only in the city of its publication, but in the surrounding States. It is emphatically a newspaper, and its reputation has been built up by the acknowledged excellence and variety of its news, both local and general. From its fairness and impartiality in discussing public questions, its circulation extends among men of all political parties, and has become, from the thoroughness of its information on all current subjects engaging popular attention, the favorite paper of the people. Everything worthy of special notice or record in the State of Maryland, the District of Columbia, and the States adjacent, will be found from day to day in a compact and readable form in its columns. During the session of Congress it gives special attention to the subjects under discussion, the introduction of important bills, and the pith of the debates. Its special correspondence embraces not only daily but letters and telegrams from Washington, but covers all the most prominent points in the Union, from San Fransisco to New York, and the Eastern cities beyond. Its foreign news is the very latest received from day to day by cable. In its Commercial and Financial Departments the utmost pains are taken to secure perfect accuracy in the quotations, the fluctuations in all classes of public securities being carefully noted. Special attention is also given to the Breadstuff and Provision markets and particularly to the current prices each day, not only in Baltimore, but in other cities of the Union and abroad. For all the principal matters that enter into the business of the country it may be consulted with safety, both by producers and dealers But aside from its political, financial and commercial features, the Sun has an established reputation as a family paper. As such the information it imparts, in the way of general news, is of interest to all classes of readers, nothing being admitted into its pages that may not be read by any member of the household. In religion its position is non-sectarian, with charity towards all; and in local as in federal affairs it regards an honest and economical administration, dealing justly by the people and respecting their rights, to be paramount to all other considerations. To those who desire a first class newspaper, up to the times, and sparing no expense to keep it so. The Sun will recommend itself; while to advertisers it offers the advantages of a large and widely extended circulation among all classes of readers

TO THE WORKING CLASS.—We are now prepared to furnish all classes with constant employment at home, the whole of the time, or for their spare moments. Business new, light and profitable. Persons of either sex easily earn from 50 cts. to $5 per evening, and a proportional sum by devoting their whole time to the business. Boys and girls earn nearly as much as men. That all who see this notice may send their address, and test the business we make this unparalleled offer: To such as are not well satisfied we will send one dollar to pay for the trouble of writing. Full particulars, samples worth several dollars to commence work on, and a copy of Home and Fireside, one of the largest and best Illustrated Publications, all sent free by mail. Reader, if you want permanent, profitable work, address, GEO. STINSON & Co.,

Ayer's *Hair Vigor,*

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre and a grateful perfume.
