American Union

Thursday Morning Feb. 15. 1877.

THE Orphans' Court of Caroline county will meet on Tuesday, 27th of Feb., 1877.

The Editor's Hash.

—Lenton services commenced yesterday.

—Our farmers are engaged in ploughing their land for the corn crop.

—Try it, for it never disappoints. Dr. Bull's Cough Syrup. Per bottle, 25 cts; large size, 50 cts.

—The proceeds from the Denton Dramatic entertainment at the Court House on Saturday evening amounts to near $43.63

—Mr. Peter Carroll, residing near Preston, caught at the mouth of Cabin Creek, on Choptank rivet, on Thursday last, three herring.

—Mr. J. W. Bryant, of this place, obtained a decree in the Circuit Court for Talbot county last week to sell the property of Mrs. Thomas, at St. Michael's.

—The Maryland Steamboat Company have resumed their trips to Easton, Oxford and Cambridge, and in a short time, hope Denton will be included in the route.

—The official board of the Millington Circuit will ask of the Wilmington Conference the return of Rev. Wm. M. Warner to that circuit. He has already labored two years with that people.

—Rev. Dr. A. S. Eversole, a well known minister of the M. P. Church, died at Seaford, Del., on the 3d inst. He was advanced in years and held supernumary relations with the Conference.

—The Denton Literary Association will meet at the Court House on this (Thursday) evening at 7 o'clock. As business of importance is to be transacted a full attendance of the members is requested.

—The religious revivals at the two Methodist churches at Chestertown still continues with unabated interest. Up to last Thursday night 94 conversions were reported at the M. E. Church and 81 at the M. P. Church.

—Capt. R. S. Emory, of Quaker Neck, Kent county, last week shipped several boxes of pears of the Benore Eastern variety which has been preserved through the past severe winter, by a simple process known to himself.

—The first fresh herring of the season was caught in the Choptank, near this place, on Thursday last. Our fishermen will now begin to hurry up their nets, so as to be in readiness for the fishing season, which is close at hand.

—A vessel belonging to Capt. John W. K. Cummings, while lying at Cambridge during the late freeze, with material on board for new dwelling houses on Tilghman's Island, was robbed. There was nothing left but a few shingles. Several parties lose by the robbery.

—Capt. Platt Titus, near Milford, caught in Johnson's mill pond last week the king of pikes. This fish measured two feet four and a half inches in length, fourteen inches and a half around it, and weighed eight pounds.

—Habit, if not necessity, makes a hair dressing indispensable to many. The new "vigor," which Dr. Ayer's laboratory issues, is one of the most delightful we have ever used. It restores not only the color, but gloss and luxuriance, to faded and gray hair.

—Mr. Luther W. Jewell on Monday last, while driving his wagon loaded with lumber, was thrown or fell in front of the wheels, which passed over his left arm and leg, buising him to some extent, but not seriously. He was able to get about the next day.

—Mrs. Fanny Hamilton, who for the last 23 years has resided with her youngest son, Daniel P. Hamilton, Wilmington, Del., was born in this county, February 8th, 1780, and is now in the 97th year of her age. She can see how to thread a needle and is quite active. She is the mother of fifteen children.

—Mr. Levin W. Poole, near Andersontown, has exchanged his ten horse power engine for a twenty horse power and is now enabled to keep pace with the demands of his customers in the manufacture of lumber. His saw mill is now in the best of order, having plenty of power, he is ready at any time to fill all orders at short notice.

—A Mr. Hawkins, Collector of taxes for Kenton Hundred, Kent Co., Del., is a defaulter to the amount of $1,800, and his securities, D. S. Spruance, Frederick Knotts, Benj. Hurlock, Wm. Hutchinson, and the estate of the late John Green, are called upon to make good the deficiencies. Collectors in other Hundreds are said to be even further behind than Hawkins.

—The Chester River Steamboat Company are having built, at Wilmington, by the Harlen & Hollingsworth company, a new side wheel steamer to ply between Crumpton and Baltimore. This new steamer is to be 165 feet in length, 29 feet breadth of beam, 45 feet breadth over guards and 9 feet hold. She will be an iron hull steamer and is to be put on the route by the 1st of August.

—In consequence of the unsafe condition of the bridges over Tuckahoe Creek and Lloyd's Branch, on the line of the Md. & Del. railroad, the question of discontinuing the running of the cars to Easton has been mooted. At a meeting of the Directors of the road held last week in Easton, an experienced bridge builder was employed to examine the trestle work and report forthwith. The road is soon to be sold and there will be but little expenditures of monies for improvements until it shall pass into other hands. If the bridges are in a safe condition we hope the running of the cars may continue, but if danger is apprehended the bridges should be repaired or the cars cease to run over that part of the road.

—Our exchanges are publishing at the request of Hunt & Co., Chatanooga, Tenn., a prolific variety of corn said to yield from 5 to 12 years of corn to the stalk. These parties sent to us a short notice of this variety of corn, but as we have no desire to humbug our readers or to be instrumental in fleecing them of their hard earned dollars, we declined to become a party to the swindle. We warn our readers to beware of the humbug. Don't touch it. It would be just that much money thrown away.

—This is the season for Dramatic entertainments, and the Denton Literary Association concluding not to be laggards in the race for Dramatic honors, gave an entertainment at the Court House on Saturday evening last. They had a crowded house. The Denton Coronet Band furnished music for the occasion. "The Train to the town of Mauro," "Woodcock's Little Game," and "My Wife's Visitors," were selected for the evening's entertainment and were rendered with happy effect. The audience were well pleased with the entertainment. The proceeds of the evening are to be applied toward purchasing a library for the association.

—The Hillsborough Dramatic Association gave an entertainment at the Court House in this place on Monday night last. They had a good house and the proceeds of the evening were satisfactory. Dr. W. J. F. G. Young, as Claude Melnott, and Mrs. S. J. Young, as Pauline, sustained their *roll* admirably in the character of Lady of Lyons. Mr. G. Hendly Beaven, as Beauseant, and Dr. P. S. Reynolds, as Land Lord, represented their characters to life and afforded no little amusement to those fond of fun. All the characters were well sustained, and judging from the short time which the association had to prepare for the exhibition, they performed with admirable effect.

Fire Near Ridgley.

On Sunday afternoon last the carriage and wagon houses of Mr. Wm. T. Swann, near Ridgley, were consumed by fire, with all their contents except one cart. Mr. Swann lost a carriage and harness, buggy and harness, sleigh, one hog and many of his farming implements. The origin of the fire is unknown but it is supposed the building caught from ashes that were placed near. Mr. Swann, but one hour previous to the discovery of the fire, was within a few feet of the ashes and cannot think the fire was communicated from them. Himself and family had walked over to a neighbor's and in their absence the fire was discovered. The dwelling and meat house was saved by the timely help of the neighbors.

Bradley's Promethor Again.

Last week we published an article from the Philadelphia Sunday *Press* noticing this new motive power, and now we have an article from the Philadelphia Evening *Herald*, giving a discription of the machine, its power, heating apparatus, the space occupied and other facts relative to the new discovery which is expected to revolutionize steam power. The machine is a simple framework with stationary pistons fixed in chambers corresponding to the auricle and ventricle of the human heart; the heart shaped cylinder moving upon the pistons and not the pistons through the cylinder. This movement measurably represents the action of the heart, and is not fanciful, but essential to the strength and perfect working of the machine. Small, spherical, heated cells or generators, corresponding to the human lungs, receive jets of water, reduced by pressure to a delicate spray; creating instantaneously an all powerful and steady force, regulated in quantity by the number of generators employed. The power is an undefined, vaporous decomposition, produced by the action of water in contact with dry heat; the water in the operation being perfectly decomposed and effecting a chemical phenomenon difficult of designation. The heating apparatus is enclosed in an airtight chamber, the smoke being returned and consumed. There is consequently no discharge of smoke or cinders. Locomotives will no longer discharge their offensive burdens into the eyes and ears and laps of travelers, nor the escape of the steam boiler drown the voice of conversation.

A machine of one hundred horse power does not occupy a greater space than six feet square and as many in height, and thrice that room will suffice for a machine of the power of three thousand horses, and so on to any requirement whatever.

While there is scarcely any limit to the power of this King of Forces, it is so disposed as to be perfectly harmless in the use. There can be no rupture further than the possible cracking of one or more of the generators, which are of very small size and nearly independent of each other. Mr. Bradley has purposely ruptured them under a pressure of many thousand pounds but there is no flying off, and they are so constructed as to be removable at will.

The comparitive consumption of fuel to produce the same amount of force may be estimated generally at less than one-fourth of that required by steam power. The saving cannot be stated with entire exactness until proven by use; but the consumption cannot exceed in bulk a fourth of that required by the steam engine, and the cost of the Promethor as an engine, is in still less proportion, there being no bulky boilers, smoke-stacks or other heavy adjuncts. This inventor does not believe that any useful power can be developed from any natural element without external aid or heat in some form, and thinks that he has economized that important element so that no machine can be simplified below the standard he has obtained in the consumption of fuel.

In a few weeks the public will have an opportunity of seeing in operation a Promethor of the power of fifty horses which is now nearly ready for exhibition.

Flowers are the alphabet of angels scattered over hills and dales, and speaking what the tongue cannot express.

A Surprise Party.

The congregation of the Rev. E. P. Aldred, of the M. E. Church of this place, to the number of about one hundred and twenty-five, came down upon the Parsonage in solid phlanx on Tuesday evening last, stormed the castle and held the fort until about 11 o'clock, P. M. The passage way, parlor and the entire ground floors of the building were literally packed with his parishioners and delicious cake, in great abundance, prepared for the occasion, ice cream and other delicacies, were indulged in to a liberal extent by the entire company. The Cornet Band at an opportune moment put in their appearance, and in strains of appropriate and enlivening music, serenaded the pastor and party.—They were invited into the building, and it is needless to add, done ample justice to cake, ice cream and other good things.—The party was gotten up as a surprise party to the minister, in token of esteem and good will which his congregation entertain for him, and as an appreciation of his labors for the past three years in our midst. Brother Aldred will soon leave us for another field of labor, but he will ever be kindly remembered throughout Denton Circuit, for his untiring zeal and ministerial labors in our midst.

Nasby on the Situation.

Nasby's faith in the Electoral Tribunal received a severe shock by the appointment of Judge Bradley. As long as there was a prospect that Judge Davis would be the fifth arbitrator, the hopes of the ex-reformer for a decision favorable to Tilden were high. Now, however, his only resource is war. He finds vent for his disappointment in this plaintive way. "With Bradly on the Commission, the Corners is clearly uv the opinyun that it is unconstooshnel. Sich a thing was never contemplatid by the fathers, it was never done afore, and there ain't no precedent for it. The idee uv havin a compermise in which the Dimocrisy didn't git more than twice what they claimed, is sumthin new in Amerkin history. I don't comprehend it. Ef this commishun wuz to give Hayes a chance, wat did he want it fur? He had 185 votes, and wat is the yoose uv goin thro all this formality, onless the objeck is to hist him?—When I play I want the keerds properly put up—ef I want to make a livin by work ther ain't no yoose in playin it at all. It wrencht my moral back to acksede to a violashun uv the constooshen when we wuz to make sumthin by it—but to violate that sacred instroument, and then lose the postoffises by it, is too terrible. The Dimocrisy mite ez well prepare for war to wunst, and be done with it. I see nothin else. It is impossible that I shood live four years longer, and see all the offises filled with Ablishnists, and we out uv place, and have em flaunt their commishns in our faces and taunt us with holdin uv em by virchoo uv a commishen wich we urged."

Marriages.

CADE—PARK.—On the 7th inst., at the M. E. Parsonage, Denton, by Rev. E. P. Aldred, Mr. Henry M. Cade and Miss Georgia E. Park, all of this county.

HARRINGTON—LANGRELL.—On the 8th inst., at the same place, by the same, Mr. Samuel Harrington and Miss Annie E. Langrell, all of this county.

HICKS—FLEETWOOD.—On the 13th inst., at the residence of the bride's father, by Rev. E. P. Aldred, Mr. James Hicks and Miss Annie Fleetwood, all of this county.

Spots upon the Sun do not visibly diminish its brilliancy, but spots, pimples or blotches upon the face, neck or arms seriously detract from female beauty. They may, however, be completely removed by the daily use of Glenn's Sulphur Soap, Depot, Crittenton's 7 6th Ave., N. Y. Hill's Hair & Whisker Dye, black or brown, 50 cts. [feb1-4w.

Scarcity of Money.

There is no doubt but the present condition of all kinds of business and industry is fearfully depressed, and it behooves every family to look carefully to their expenses.—Winter is coming on when children are liable to Croup, Whooping Cough, etc. Coughs and Colds will prevail everywhere, and Consumption, with other throat and lung diseases, will carry off many. These diseases should not be neglected. Doctor's bills are expensive, and we would advise our people to use BOSCHEE'S GERMAN SYRUP. It never has failed. One bottle at 75 cents will keep your whole family well during the winter.—Two doses will relieve any case. Sold in all towns in the United States, and by your Druggists, Dr. Fisher or Chas. Stevens.

MANY thousands of dollars has been spent in distributing, *free of charge*, Sample Bottles of BOSCHEE'S GERMAN SYRUP to all parts of this country, to those suffering from Coughs, Asthma, Hemorrhages, Consumption, and other Throat and Lung Diseases, that the afflicted might satisfy themselves, that this remedy would save them from those fatal diseases. No person has ever used this medicine without getting immediate relief, yet there are a great many poor, suffering, skeptical persons going about our streets with a suspicious cough, and the voice of consumption coming from their lungs, that will not try it. If you die, it is your own fault, as you can go to your Druggists, Dr. Fisher or Chas. Stevens, and get a Sample Bottle for 10 cents and try it; three doses will relieve any case. Regular size only 75 cents.

A TIME-HONORED SPECIFIC.—The long and successful career of Dr. WISHART'S PINE TREE TAR CORDIAL, as contrasted with the speedy collapse of nostrums devoid of efficacy which have from time to time been puffed into a brief notoriety during the twenty odd years that this celebrated medicine has been sold, affords a proof that the American public *continues* to repose its confidence in deserving articles only. The PINE TREE TAR CORDIAL has long been recognized as the leading specific for Consumption, Bronchitis, Coughs, Colds, Asthma, Diptheria, and all other diseases of the breathing organs. It is, moreover, a certain, speedy, and safe batonic remedy for Dyspepsia, Liver Disorders, Scrofulous Affections, Urinary Troubles, Gravel, Dropsy, Debility, Constipation, and Female Complaints. Constantly accumulating evidence of an unimpeachable character establishes the fact that it not only entirely eradicates the diseases to which it is adapted, but also that its action is remarkably prompt and thorough. The crucial test of experience has demonstrated its reliability in every particular. Sold by all druggists. Principal Depot, No. 916 Filbert Street, Philadelphia. [nov23-4w.

1877 THE SUN, BALTIMORE, MD. **1877**

The Sun, from the geographical position occupied by Baltimore and its proximity to the National Capital, presents unusual advantages to all classes of readers, not only in the city of its publication, but in the surrounding States. It is emphatically a newspaper, and its reputation has been built up by the acknowledged excellence and variety of its news, both local and general. From its fairness and impartiality in discussing public questions, its circulation extends among men of all political parties, and has become, from the thoroughness of its information on all current subjects engaging popular attention, the favorite paper of the people. Everything worthy of special notice or record in the State of Maryland, the District of Columbia, and the States adjacent, will be found from day to day in a compact and readable form in its columns. During the session of Congress it gives special attention to the subjects under discussion, the introduction of important bills, and the pith of the debates. Its special correspondence embraces not only daily but letters and telegrams from Washington, but covers all the most prominent points in the Union, from San Fransisco to New York, and the Eastern cities beyond. Its foreign news is the very latest received from day to day by cable. In its Commercial and Financial Departments the utmost pains are taken to secure perfect accuracy in the quotations, the fluctuations in all classes of public securities being carefully noted. Special attention is also given to the Breadstuff and Provision markets and particularly to the current prices each day, not only in Baltimore, but in other cities of the Union and abroad. For all the principal matters that enter into the business of the country it may be consulted with safety, both by producers and dealers But aside from its political, financial and commercial features, the Sun has an established reputation as a family paper. As such the information it imparts, in the way of general news, is of interest to all classes of readers, nothing being admitted into its pages that may not be read by any member of the household. In religion its position is non-sectarian, with charity towards all; and in local as in federal affairs it regards an honest and economical administration, dealing justly by the people and respecting their rights, to be paramount to all other considerations. To those who desire a first class newspaper, up to the times, and sparing no expense to keep it so. The Sun will recommend itself; while to advertisers it offers the advantages of a large and widely extended circulation among all classes of readers

TO THE WORKING CLASS.—We are now prepared to furnish all classes with constant employment at home, the whole of the time, or for their spare moments. Business new, light and profitable. Persons of either sex easily earn from 50 cts. to $5 per evening, and a proportional sum by devoting their whole time to the business. Boys and girls earn nearly as much as men. That all who see this notice may send their address, and test the business we make this unparalleled offer: To such as are not well satisfied we will send one dollar to pay for the trouble of writing. Full particulars, samples worth several dollars to commence work on, and a copy of Home and Fireside, one of the largest and best Illustrated Publications, all sent free by mail. Reader, if you want permanent, profitable work, address,

CHOPTANK

HOTEL,

Denton, Maryland.

HAVING leased the Choptank Hotel property, formerly occupied by Capt. Thos. E. Heather, I am prepared to accommodate boarders by the day, week or month, on reasonable terms.

LIVERY STABLE.

I also keep horses and carriages to hire on very moderate terms.

I hope by strict attention to business to receive a liberal share of patronage.

This standard article is compounded with the greatest care.

Its effects are as wonderful and as satisfactory as ever.

It restores gray or faded hair to its youthful color.

It removes all eruptions, itching and dandruff. It gives the head a cooling, soothing sensation of great comfort, and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing, nothing has been found so effectual or desirable.

A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."

Price, One Dollar.

Buckingham's Dye
FOR THE WHISKERS.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being in one preparation, and quickly and effectually produces a permanent color, which will neither rub nor wash off.

Manufactured by R. P. HALL & CO., NASHUA, N.H.
Sold by all Druggists, and Dealers in Medicines.
