Rum and Ruin.

FACTS WORTH CONSIDERATION.

STATISTICAL INFORMATION NOT TO BE GAINSAYED.

It is not generally conceded that the general decay of the world, so far as humanity is concerned, is brought about by and through excessive luxury, the wine cup and inordinate pride. But such is the fact; and principle among these agencies we find the wine cup, with its incalculable train of evils, the worst generator and supporter of mental, physical and national decay.

Some enthusiastic temperance lecturer has asserted that this nation is one of drunkenness; one of drunkards. But I cannot admit for a moment that this assertion contains enough of truth to leaven it. And yet there appears to be but very little reason why it should not be so, if we are to judge by the enormous expenditure for liquor in each succeeding year. We have statistics to prove that the sum of $616,000,000 are expended annually for the liquor traffic, and with a population of little less than 44,000,000 souls, to annually throw away this collossal sum in the promotion of vice and drunkenness, it is indeed almost a miracle that we are not a nation of drunkards. $616,000,000 for liquor—and $905,000,000 for the absolutely necessary and useful articles of a nation like this—only one-third less for liquor than for all the necessary articles of our existence.

Why is it? The liquor traffic is a licensed evil, and nothing but the lessening of the demand for it will have a tendency to abate it. This the Religio-Temperance Crusade is now successfully doing. Suppose we compare the opposites, and permit the reader to judge for himself of the enormity of the evil of intemperance in the United States to-day.

There are to-day in the Union of our States over 140,000 drinking places, as against 142,000 of all kinds of schools for learning—only 2,000 more schools of learning than schools of intemperance. It is estimated that there are 8,000,000 of pupils in our schools, and 5,000,000 of people who patronize drinking saloons. Just think of it for a moment; $100,000,000, for education, and $616,000,000 for rum.

There are twelve times as many persons engaged in the liquor traffic in this country as in preaching the Gospel; four times the number of those teaching schools and nearly double all the ministers, teachers, lawyers and physicians combined.

If it were asserted that we pay five and a half times as much for the evils of liquor as we do for preaching the Gospel it might be doubted, and yet such is the fact. Just $10,000,000 for prisons and criminals, evils not heard of but for rum. We pay $35,000,000 to lawyers, and $55,000,000 for the bulk of their clients.

But few would believe that the amount expended for liquors in 12 years, from 1860 to 1872 was $6,800,000,000, and yet the statistics of our Government show it. Take the cost of the Government for the war, from 1861 to 1866, and we have its footing up placed at $6,200,000,000—just $600,000,000 less than for liquor—or $300,000,000 less than for liquor in the same space of time. To support this traffic in alcohol we consume and destroy over 100,000,000 bushels of grain. If this amount of grain was turned into flour or meal, who among us would say there could be starving women and children to be cared for by public charities in all the great cities of the land? Would there be rumors of bread riots in any section of our country?

Our national wealth to day is computed at $30,000,000,000. Suppose our people had always been a temperate people, this wealth would have been $40,000,000,000, making a difference of $10,000,000,000. Take this amount which would have been saved, and it would have given $500 each to 20,000,000 of the poorer people, or $2,500 to each family. We would have had no poor people in America to-day, and truly it would have been the best country the sun ever shown upon. But the effects of alcohol have destroyed our wealth, our morals, and is now destroying our life.

There are in New York city, that assylum, that Mecca of the unterrified, four hundred and eighty places of worship, and eight thousand drinking places. One drinking saloon to every one hundred and twenty-five men, women and children.—Think of it, Crusaders, 8,000 SALOONS AGAINST 480 PLACES OF WORSHIP. The Churches of New York cost $5,000,000 annually. The cost of liquor is $60,000,000. The license fees paid the city for liquor amounts to $500,000 annually, and for this amount the city annually pays out $8,000,000 directly chargeable to the licensed sale of alcohol.

Should not these figures alarm the people of America? Should they not alarm the citizens of Gotham, and urge them to be up and doing in the cause of temperance? Such figures show an evil power in the very heart of the nation, and every good citizen should pledge no rest to himself until it is removed. This alcoholic traffic is the parent of LUXURY, and this so called Luxury is the parent of crime, penury and impiety, the trinity of furies that march in its train. They fill our almshouses; they fill our jails. They are indifferent to their country's welfare, and indulge to excess the baser passions of a depraved nature. We have the remedy. Apply it! TEMPERANCE WILL REGENERATE AND REJUVENATE THE LAND.

In two years the jails and almshouses of Kent, Dorchester and Talbot Counties of this State have been emptied through and by the power of "Local Option." The people have been awake, and tried the remedy of temperance to cure the evil that leaned so heavily upon them. The result has been marvelous, and the effects will be the same wherever the test is tried. How long will it be before the citizens of Baltimore are brought to a realization of the fact that Rum is the evil spirit that impoverishes them; that Rum is the demon that is destroying them, and how long shall it be before this demon will be destroyed by the strong arm of Temperance? Answer!

Fraternally, S. J. WATKINS.

A Babe Born in the Cars.

The Snow Hill *Messenger* says: The passengers on the morning train of the Worcester Railroad, on Tuesday, the 16th inst., were called upon to witness an incident of an unusual character, the particulars of which are of a rather delicate nature. At Stockton, a woman accompanied by several small children, boarded the train; shortly before reaching Selbyville, she was seen to enter the private apartment of the car, and when the train reached that place she was found to be in an insensible condition, and upon further investigation it was ascertained that she had just given birth to a child, which was missing. Search being instituted the newly born babe was found lying upon the track, where it had fallen from the car; the little one was still alive, but the shock of the fall proved too great for its delicate organization, and it expired a few moments after being found. Dr. Bishop, who was fortunately aboard the train, attended to the wants of the poor woman and had her left at Frankford, where she is now being kindly cared for. We are informed that the woman is the daughter of wealthy parents residing in New York; that against their wishes she married a dissipated young man who has recently been employed in the romantic occupation of wood-chopping in the lower end of this county, whether the wife had but recently come to share his humble lot; his appetite for rum leading to his spending nearly all his earnings for drink, she was compelled to solicit aid to return to her friends in New York; it was cheerfully given by kind hearted neighbors, and at the time of the circumstance above alluded to she was returning to New York. At last accounts she was said to be in a very critical condition.

CUTTING OUT A NERVE TO CURE NEURALGIA.—For several years Judge Bay, of St. Louis, has been a great sufferer from facial neuralgia, and to avail himself of any benefit that might possibly result from a change of climate spent most of 1873 in California and the last part of 1874 in Colorado without any material benefit, and on his return from Colorado Dr. Hogden cut out a little over one-half inch of the fifth facial nerve, and for seven or eight months the Judge experienced entire relief from the disease, but at the expiration of that time it gradually returned upon him with increased severity, until life was almost unbearable. Dr. Hodgen became satisfied that the separate parts of the nerve had united, and he determined to perform a second operation, and on the 7th inst. cut out two inches of the nerve and removed several collateral branches. The operation lasted fifteen minutes, was exceedingly painful, and though the judge declined to take chloroform or any opiate he stood the knife without flinching. The judge has had no return of the neuralgic pains, and all the indications are that the operation will prove eminently successful.

PLAIN TALK TO A GIRL.—Your every day toilet is a part of your character. A girl who looks like a 'fury' or a sloven in the morning, is not to be trusted, however finely she may look in the evening. No matter how humble your room may be, there are eight things it should contain, viz: a mirror, washstand, soap, towel, comb, hair, nail and tooth brushes. Those are just as essential as your breakfast, before which you should make good and frequent use of them. Parents who fail to provide their children with such things not only make a great mistake, but commit a sin of omission. Look tidy in the morning, and after dinner work is over improve your toilet. Make it a rule of your daily life to "dress up" in the afternoon. Your dress may or may not be anything better than calico, but with a ribbon or flower, or some bit of ornament, you can have an air of self respect and satisfaction invariably comes with being well dressed.

BROTHERS in toil, in trial, in reverses, and exposures to the loss of fortune, of health and of every earthly good, let us rejoice that our riches of hope, of faith, our wealth of spiritual consolation in Jesus Christ, are inalienable; that there is not power enough on earth, nor malice enough in hell to defraud us of this incorruptible, unfading, eternal inheritance.

AN exchange says: "We have found that hogs' lard is the best thing to mix with the dough to give hens to make them lay. One cut of this fat, as large as a walnut, will set a hen to lay immediately after she has been broken up from setting, and by feeding them with the fat occasionally the hens continue to lay through the winter.

THE greatest wonder of all ages, is the wonderful love of Christ. Its manifestation was seen in his personal assumption of our sinful nature and in his willing submission to the death of the cross. While living in expectancy of his own sufferings, the main thoughts that occupy his mind was the salvation of lost humanity.

THIS WORLD.—"It is many things to its many dwellers, this world is. It is a home; it is a workshop; it is a place of amusement; it is a school, with trouble and pain for teachers; for the devout, it is a church to worship in; and for those that have eyes to see, it is the wisdom, and the glory, and the love of God.'

A certain preacher having changed his religion, was much blamed by his friends for having deserted them. To excuse himself, he said "he had seven reasons, and being asked what they were, replied, "a wife and six children.'

"WHY,' asked a governess of her little charge, "do we pray to God to give us our daily bread? Why don't we ask for four days or five days?' "We want it fresh,' replied the ingenious child.

To the Public.

IN looking over the "Union" of July 26th, I find a notice forwarning all persons from paying any money due the firm of T. D. Case & Co. to myself. Feeling aggrieved, or that great injustice has been done me by this publication, I herewith transmit the facts, as the public may understand my position.—Some time in the year 1875, T. D. Case, J. B. Draper, J. T. Sangston and myself entered into a copartnership to transact the boating business, and at their request, I did take charge of the books of said firm, (T. D. Case & Co.) When this firm was dissolved, I proceeded to collect the bills and liquidate the debts of said firm, and applied out of my individual funds, seven hundred and fifty dollars, to assist in same, which amount is still due me. T. D. Case overdrew his account three hundred and two dollars and ten cents. After finding he could get no more of said funds he caused this notice, through malice, to appear, I conjecture, to injure me. As far as the old firm of Case & West is concerned, I will state that T. D. Case, some time ago, applied for the benefit of the Bankrupt law, and I as the only partner left, presume I have the privilege to close up the same, which I shall proceed to do in case of both the firms referred to.

SULPHUR SOAP.

THOROUGHLY CURES DISEASES OF THE SKIN, BEAUTIFIES THE COMPLEXION, PREVENTS AND REMEDIES RHEUMATISM AND GOUT, HEALS SORES AND ABRASIONS OF THE CUTICLE AND COUNTERACTS CONTAGION.

This Standard External Remedy for Eruptions, Sores and Injuries of the Skin, not only REMOVES FROM THE COMPLEXION ALL BLEMISHES arising from local impurities of the blood and obstruction of the pores, but all those produced by the sun and wind, such as tan and freckles. It renders the cuticle MARVELOUSLY CLEAR, SMOOTH and PLIANT, and being a WHOLESOME BEAUTIFIER is far preferable to any cosmetic.

ALL THE REMEDIAL ADVANTAGES OF SULPHUR BATHS are insured BY THE USE OF *Glenn's Sulphur Soap*, which in addition to its purifying effects, remedies and PREVENTS RHEUMATISM and GOUT.

It also DISINFECTS CLOTHING and LINEN and PREVENTS DISEASES COMMUNICATED BY CONTACT with the PERSON.

IT DISSOLVES DANDRUFF, prevents baldness, and retards grayness of the hair.

Physicians speak of it in high terms.

Prices—25 and 50 Cents per Cake; per Box (3 Cakes), 60c. and $1.20.
