J. H. EMERSON, Editor.

DENTON, MARYLAND:

THURSDAY MORNING, NOV. 22, 1877.

JOHN F. WILEY, a printer by trade, and recently elected a member of the State Legislature, died in Baltimore city, on Sunday afternoon last.

JAMES GARDNER and John W. Grove, charged with the murder of Rev. Mr. Friday at Harper's Ferry in June last, are on trial before the Circuit Court of Washington county.

JUDGE Armstrong, of West Virginia, recently decided that a railroad company, like an individual, are liable to indictment for laboring at their usual calling on Sunday. But it has been said that corporations have no souls. How about that?

A colored man near Berlin on Saturday accidentally shot and killed himself while gunning. The oft repeated careless mode of handling fire-arms was adopted—that of climbing a fence—the accidental discharge of the gun—the result—a dead darkey.

ALEX. B. SAYERS, walked up to his wife during the religious services at the Church of the Ascension, Philadelphia, on Sunday morning last, drew a pistol and shot her in the back. She died from the effects of her wounds the next morning. She had not lived with her husband for two years.

MAYOR KANE, of Baltimore city, has put his new broom at work and is using it lively in brushing out the rubbish and filth which he finds accumulated in the city offices. The tax-payers of Baltimore will rejoice thereat, but old political hummers will raise a howl of indignation and refuse to be comforted.

THE anxious Presidential candidate, especially if he be a Democrat, has to spread himself carefully over a good many issues now. He must go very softly over the silver question, be careful about taking sides in regard to subsidies, speak gently and sympathetically of the wrongs of the workingman, be against resumption in the West and in favor of it in the East, and, in short, straddle with discrimination and scientific accuracy upon every subject of public importance. The small army of Democratic aspirants are all doing very well under this ordeal, but long practice enables Mr. Hendricks to put the most grace into his attitude.

WE notice that some of our exchanges are exceedingly severe upon Robert Smalls the colored Congressman who was recently convicted in South Carolina for receiving a bribe while a member of the Legislature. While we do not attempt to justify the conduct of Smalls or in any manner palliate his crime, we believe those newspapers who are struck with holy horror at Smalls corrupt practices might save some of these ebullitions of their virtuous feelings for conspicuous cases nearer home and which send up their stench right into their own nostrils.

When we ask did we ever send a Congressman from this district that he did not buy his election? and we believe we might extend this answer to every Congressional district in this State, and it would be pointed and truthful. The dominant party in Maryland to-day holds its power almost exclusively by corrupt and disreputable means. The well informed and those who are in the party secrets know these facts and are as conversant with the means used to carry elections as they are of the facts of their own existence. In fact the whole system by which the political machinery of Maryland is conducted is one stupendous system of fraud and corruption, making our popular elections a mere farce. True, we have laws on our statute books punishing offenders, but when those chosen to make the laws and those selected to enforce its penalties wink at and participate in its violations there is but little hope of a remedy. When an impartial judge would administer the law in its spirit and letter, there is always a grand jury, an attorney or others whose hearts overflow with the milk of human kindness and by the laws delay or some other means brought to bear in some shape, the case ends in a failure to convict. Thus things are suffered to continue and grow worse year by year. Where this thing will end no prophetic eye can discern. Voters are bought and sold in this State like cattle in the market. Candidates for public offices are called upon to contribute to a corruption found with the same boldness that a business man would demand the payment of a bill by his creditor. These things are a burning shame to this age of progress and a stigma upon our independent manhood. If nothing else, a sense of public shame, should cause all honorable men to frown upon and discountenance this growing evil. The law has failed to put a check to these evil practices and there is but one hope left by which to effect a cure. It is to arouse public sentiment against it, and for the good and virtuous, to raise the cry and sound the alarm. A wholesome moral sentiment can do more than inefficient and ineffectual laws.

If, therefore, the newspaper press of this State would cease to notice the faults which exist elsewhere, and apply their efforts to correcting evils of greater magnitude at home, they would find a field large enough to occupy all their talent, and at the same time, add greatly to the moral improvement and social condition of our own people. What honorable or upright citizen will respect a man who sells his vote or his influence for either money or office? Yet it is done at every recurring election. The evil is widening and expanding. If the public press of this State were but half unanimous in denouncing this partizan corruption, or would but do its duty in this regard, the evil might be checked. The question is will they do it?

The Fargo Farm.

A DAKOTA AGRICULTURIST—FURROWS SIX MILES LONG—THE MINNEAPOLIS FLOUR MILLS.

The following statements taken from a letter published in the Friends' Intelligencer, written by E. P. Marshall, who is well known to some of our citizens, will be found interesting. After remarking the appearance of bountiful harvests in passing through Pennsylvania, Ohio, Indiana and Illinois, and that travelers from the Southern States reported the same abundance there, he says: "At Fargo, in Dakota, situated on the west bank of the Red river on the North, we conversed with a man named Dalrymple, who told us he raised and threshed this summer, one hundred and eighty-five thousand bushels of wheat on eight thousand acres. He had used forty-two harvesters, all self binders, and nine steam threshers;—was done threshing when we last saw him. He used six teams to each thresher hauling the grain from the shock. As we went out we saw them at work, the road passing directly through the farm, which contained eleven thousand acres. The wheat was raised on two farms, the other embraces forty thousand acres, and is thirty miles down the river, and north of Fargo. We heard the neighbors say the workmen on the last mentioned farm were plowing furrows six miles long. We counted twenty three plows following each other on the Fargo farm. Mr. Dalrymple told us he intended to grain thirteen thousand acres next spring. We went through the great flour mills of Minneapolis, where the premium patent flour of the eastern cities is manufactured. Ex Gov. Washburne told us his large mill, which is considered the most perfect one in the world, was grinding five thousand bushels of wheat a day, and turning out one thousand and fifty barrels of flour. All these mills there were grinding a total of five thousand barrels daily."

One Cent a Day.

Economy is the order of the hour, and every expenditure, however small, is expected to give a return in full value. Every family requires one good, reliable family newspaper. If such an article can be procured for less than one cent for each working day of the year, we are not aware of it. *A Family Newspaper* should contain a carefully-prepared summary of all the news of the day, both *Religious* and *Secular*; and if arranged so that the two departments may be separated and read by two individuals at the same time, so much the better. *The Family Newspaper* should have attractive reading and information for the various members of a household. Some portion of the paper should be devoted, every week, to religious and moral improvement, to current secular news, to agriculture, commerce, markets, finance, to general literature, &c., with a special department for the young. Above all, the *Family Newspaper* should be perfectly *pure* and free from any contaminating influences in its reading matter or in its advertisements. Too much attention cannot be paid to this feature, when the press is flooding the country with so much that is vile and pernicious. To crown all, the *Family Newspaper* should be untrammelled by any affiliation with sect or party, and should be free to give all the good news from and about all the world. If such a *Family Newspaper* can be had for *one cent a day*, it should be taken by every family in the land.

Such a *Family Newspaper*, in every respect we find in the NEW YORK OBSERVER, now commencing its fifty-sixth volume. Progressive, comprehensive, sound, reliable, pure, it is just what is needed in your household. Send $3.15 for a year to THE NEW YORK OBSERVER, 37 Park Row, New York. Sample copies are sent free.

A New Swindle.

In Maryland the School Book swindle has been brought to light. It is done in this wise:

If one publisher offered to supply $12 dictionaries for $1, and 65-cent arithmetics for $1.50, his average was $1.25 for each of the two books; and another publisher charging $12 for a $12 book and 75 cents for a 75-cent book would be held to average $6.37½ for each of the two books, the first would get the contract. If the successful bidder supplied a school he would furnish say—

1 dictionary,	$1
2000 arithmetics,	$3000
Total,	$3001

Whereas the one whose average was honest would have furnished—

1 dictionary,	$12
2000 arithmetics,	$1500
Total,	$1512

Amount of swindle on that school $1489. And thus the school money is wasted.

ORANGES IN FLORIDA.—A correspondent of the *Floridian* estimates the orange product of that State for the year 1877 at 17,000,000 oranges, of which Indian River produced 536,000, Sumpter county 1,000,000, Orange 1,000,000, Liberty 225,000, Franklin 200,000. Calhoun and Jackson 400,000. The writer also thinks that ten years hence the principal cities of the North and West—Chicago, New York, Philadelphia, Baltimore and Boston—will derive their principal supply of oranges from Florida instead of the West Indies. If the estimates of the orange lands in Florida which have from time to time been published be true, the writer may be correct. Nevertheless, there are, it is believed, other Southern States, and California besides, which in ten years from now will come in for a fair share of the profits from this fruit, at least so far as the West is concerned.

SMITHVILLE.—The same party of rioters who exhibited their manly prowess (?) and *cussedness* at Concord, about noon on Wednesday last, visited this place in the afternoon, either for the purpose of giving a similar exhibition to the 'Squire and others, or, for the purpose of lecturing us upon the error of our ways, in supporting the second ticket at the recent election.—Either because their scout was unceremoniously kicked down the mill steps, or from the sight of guns and axes in the mill house, or the determined looks of the 'Squire and a son of Vulcan with sleeves rolled up and sledge-hammer in hand, or for some other cause, they passed on, having already supplied themselves with a sufficient quantity of new brandy to harden their hearts for the arduous duties of the night meeting which they afterward held at Concord.—*Courier.*

THE action of the Court at Dover in making the sale of whiskey as free as it was in its power to do does not satisfy either the temperance people or the liquor sellers. It breakes the hopes of the former and the desired monopoly of the latter while the public at large will derive no benefit to say the least, from the wholesale licensing. The liquor venders did not desire such liberal-handed "justice" for their own good; other people did not want it, for the public's good. No one was asking for what the Court gave.—*Dover Sentinel.*

A LIVELY SCENE.—A Chesapeake City man put on a pair of pantaloons a few mornings since in which a festive wasp had taken refuge from the blasts of approaching winter. The wasp did not realize its situation until after the man had his suspenders buttoned, but when it did fully recover its wonted activity it stirred that Chesapeake City man up in such a lively manner that he upset the washstand, knocked everything off the bureau and turned the room into chaos before he fully got out of that garment. And just at that very moment five of his female neighbors rushed into the room in an excited manner under the impression that he and his wife were engaged in a deadly combat. In the excitement of the moment the wasp escaped, and the man crawled under the bed till the room was cleared.—*Middletown Transcript.*

HOGARTH.—Hogarth's line of beauty was the curve, which in all material structure breaks monotony of effect and pleases the eye. Compared with the grandest monuments of architecture man's frame is supremely beautiful; but when the "human form divine" is all contorted and angular with Rheumatism and other painful diseases of similar nature, admiration is lost in pity for the sufferer. All afflicted with such terribly painful complaints as Rheumatism, Sciatica, etc., should use Keller's Roman Liniment, and be relieved and cured.

DOCTOR PIERCE'S

ALT EXT OF

Golden Medical Discovery

CURES DISEASES OF THE

THROAT, LUNGS, LIVER & BLOOD.

In the wonderful medicine to which the afflicted are above directed for relief, the discoverer believes he has combined in *harmony* more of Nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple,** or **Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.

If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver,** or **"Biliousness."** In many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

This Cut Illustrates the Manner of Using

DR. PIERCE'S

Fountain Nasal Injector,

OR

DOUCHE.

This instrument is especially designed for the perfect application of

DR. SAGE'S CATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicine can be carried *high up* and *perfectly applied* to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting cures is entirely overcome by the invention of the Douche. Its use is pleasant and so simple that a child can understand it. **Full and explicit directions** accompany each instrument. When used with this instrument, Dr. Sages' Catarrh Remedy cures recent attacks of **"Cold in the Head"** by a few applications.

CATARRH

SYMPTOMS—Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucus, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, stopping up, or obstruction, of nasal passages, ringing in ears, deafness, hawking and coughing to clear throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any case at one time.

Dr. Sage's Catarrh Remedy, when used with **Dr. Pierce's Nasal Douche,** and accompanied with the constitutional treatment which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect specific for this loathsome disease. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. The Catarrh Remedy is sold at 50 cents, Douche at 60 cents, **by all Druggists.**

THE object of this organization is to keep the low prices *long since* established by us, down *so low* that the "weepings, wailings, and gnashing of teeth of *all* foreign competition can be distinctly heard, and to permit the troops in their march to the front to stop under the shade of the willows and regale themselves, as I have to give *a-weigh* 10 barrels of Sugar, 6 bags of Coffee, 5 barrels of Flour within the next thirty days. Come—delays are dangerous.
