Public Schools.

…rds, ex-Superintendent of the
…s of Washington, D. C. deliv-
…nteresting lecture at the Nor-
…building Baltimore city, one
…st week, in which he gave his
…ome very plain and practical
…elementary education. He com-
…his lecture with the inquiry:
…ur methods of elementary instruc-
…d training need any improvements?
…id that he could take it for granted
…hey do, as from a careful examina-
…it will be ascertainted that four-fifths
…ll the children in our public schools do
…attend school four years, and that one-
…f of these children do not attend over
…o years; that the most superficial school
…achers are employed to instruct this large
…portion of our children; that this large
…class of scholars have generally the poorest
…facilities for learning; that a large portion
…of the pupils in our public schools are con-
…fined in close school rooms, without proper
…means of ventilation, and without proper
…employment; that but one fifth of all the
…children who attend our schools are receiv-
…ing the proper training to fit them for any
…business in life; that there is a general dis-
…satisfaction existing in all parts of our
…country as to the general system of our in-
…struction and training, and that the defects
…which exist in our system of education
…arise from the erroneous methods of in-
…struction in use in our elementary schools.

The Professor closed his lecture by say-
…ing there are altogether too many text
…books used in our public schools. One
…would think that our schools were run in
…the interest of the publishing houses, in-
…stead of the people who patronize them.
…In Washington we have nine different
…"readers," three "grammars," five "arith-
…metics," and two "geographias," and in
…some instances a servant has to be employed
…to accompany the children to school to
…carry their books.

A Cruel Act.

A case of fiendish cruelty occurred at Elizabeth City, N. J., at the residence of John Reilly on Thursday last. Reilly is a man of considerable means and is well known throughout the county. His wife is a woman with an ungovernable temper, and frequently abuses her adopted children to the verge of cruelty, necessiating the interference of neighbors. About noon Fannie, a girl of about fifteen years of age, from some cause spilled some hot water, which so incensed Mrs. Reilly, that she took up the vessel containing the hot water and threw its contents upon the girl, scalding her in a dangerous and perhaps fatal manner. The girl took refuge in the house of a neighbor, John Earle. A physician was summoned and her wounds dressed. Notwithstanding the positive instructions of the physician to the contrary, she was afterwards removed to the residence of Reilly and exposed to the cold air, which, it is feared, will greatly lessen the chances of her recovery. The treatment of these adopted children has frequently been of a revolting nature. The standing of Mr. and Mrs. Reilly in the community, and the fatal results likely to ensue, cause no little excitement. The matter has been brought to the attention of the authorities, and a warrant has been issued for Mrs. Reilly's arrest.

Excitement Among the New York Liquor Dealers.—There was a great consternation among the New York liquor dealers on Thursday evening. The excitement began at about six o'clock, when saloons were entered by the officers of the law, and licenses were inquired for. If none were shown the proprietors were respectfully informed that they must close up their bars, and after such warning if they were seen selling liquors they were promptly taken into custody. Very few licences were presented, and receipts for deposits on application were of no use whatever. The raid was not confined to any particular section of the city nor to any particular class of saloons. Hotels only unmolested, but all over town the keepers of saloons, from the lowest grade to the highest, were called upon to cease business. In the majority of instances the demand was tacitly complied with, but in many cases efforts were made to evade the vigilance of the police and about two hundred arrests were made. Such an attack along the whole line was not at all expected by dealers or drinkers. The special police orders, published the day previous, denoted an intention of strict enforcement of Sunday prohibition, but that the "no license law" should find such sudden execution was little expected.

In consequence of the wholesale arrests Thursday night there was a great rush of the New York liquor dealers to the board of excise for licenses.

Democratic Officers in Trouble.—The Democrats have had bad luck with their officers ever since they obtained a majority in the House. Fitzhugh had to retire on account of his being "a bigger man than old Grant," and now the present incumbent of the position of Doorkeeper, Col. Polk, is in hot water. The fault with Polk is that when he was canvassing for the place he promised positions under him everybody by way of making friends, and he has gone too far in carrying out his pledges. It is said that he has some forty men on his rolls over the number he is authorized to appoint or there is money to pay for. He has exceeded his fund by $4,000, and the Democrats must do something with him. Mr. Potter has on hand a resolution which he will offer before the holiday recess, directing the Committee on Accounts to investigate the Doorkeeper's department, and some of the gentlemen who were Col. Polk's competitors at the time of the election are renewing their claims, in the hope that he may be obliged to step down and out. Mr. Adams, the Clerk of the House, has roused up the New England Democrats by removing W. H. French, the talley clerk, and appointing Albert Lamar, a Georgia ex-Confederate, and they are asking if he means to have none but Southern Democrats around him.

Shipments of Grain.—Grain is being poured into the Eastern seaports at the rate of 30,000,000 bushels a month. It is therefore no wonder that prices are depressed. The surprise is that it keeps up as well as it does. The crops of both corn and wheat in the West are very large, and while the canals remain open the supply will be equal to, if not in excess of the demand. Under such circumstances, with the large crops that will still be unmarketed at the West, it will probably be wise for Peninsular farmers to hold back their grain until cold weather closes the canals, and big snow-storms obstruct the railway transportation. If we can catch a time during winter when the supply from the West is thus seriously obstructed we may be able to obtain better prices.

…ut the amount of the loss is not stated.

Another Life Lost.

On Saturday evening, another of those fatal accidents, caused by the careless handling of fire arms, occurred at Philadelphia. Miss Pauline Streitcher aged fifteen and a-half years, living with her uncle, was shot and instantly killed by Henry Russell, aged nineteen, who with a companion, Lewis Myers, had called upon the young lady. Myers had previously been ordered not to go to the house, as he carried a revolver. He went there with his pistol, and it was taken from him by Russell. While the latter was removing the cartridges from the chambers one of them exploded, and the ball entered the breast of Pauline, killing her instantly. The affair was accidental, but both Russell and Myers were arrested.

The Denton *Journal* wastes another column of its last issue in its controversys with the *Union*. The readers of both journals, no doubt, are heartily tired of such mud throwing. Do stop it, brethren, for the credit of the *fraternity*.—*Kent News*.

This controversy was not of our seeking and to say the least, it is to us distasteful. But is a man to sit quietly and have his name and reputation blasted by the vile touch of a slanderer, and that too by a mere stripling, who for want of sense or better judgment is scarcely competent to judge of the import of his own language? We had sought the only rational and legitimate remedy, and there intended to let the matter rest, but to display his superior wisdom, or write himself down an ass, we know not which, the controversy, begun without cause or provocation on our part, has been continued week after week.

This is the season for swindlers to ply their vocation. We did not believe that any sensible man would ever consider us "greeny" enough to be taken in by a lottery swindle. But last week a reputed firm at New York by the name of Russell & Co., informed us that we were the lucky holders of a prize and that we had "drawn a lot of jewelry, valued at $280;" "that the same would be forwarded to our address marked C. O. D., and by the payment of $14, to cover express charges forwarded to them at New York, the goods would be forwarded. We never were fop enough in our younger days to decorate our person with gold or costly apparel, and now that the evening shades of life, with its sombre hues, are closing around us were we to do so with this cheap trash, we are quite sure, our most intimate friends would conclude, at once, that we were a fit subject for a lunatic asylum. No! We are not taking any jewelry at any price—have no manner of use for it, and hope Russell & Co. will excuse us. If they have more of this article than they can dispose of, and it is of real value, they can dispose of our

Easy Under Debt.—"No blister …er than does the interest. Of all industries, none is comparable to that of interest. It works all day and night, in fair weather and in foul. It has no sound in its footsteps, but travels fast. It gnaws at a man's substance with invisible teeth. It binds industry with its film, as a bound fly is bound in the spider's web. Debts roll a man over and over, binding him hand and foot, and letting him hang upon the fatal mesh until the long-legged interest devours him. There is but one thing on a farm like it, and that is the Canada thistle, which swarms new plants every time you break its roots, whose blossoms are prolific, and every flower the father of a million seeds. Every leaf is an awl, every branch a spear, every plant like a platoon of bayonets, and a field of them like an armed host. The whole plant is a torment and a vegetable curse. And yet, a farmer had better make his bed of Canada thistles than to be at ease upon interest."

The Baltimore *Saturday Post* is cruelly sarcastic on our wounded statesman of the Choptank. It says of him: "Of one thing we may be thoroughly assured, viz: that the President of the Senate will not be the Hon. Daniel Fields, of Caroline. We base our opinion upon the fact among other things, that the Honorable Mr. Fields has been invited by his constituents to retire awhile from active politics, and in such a manner, too, as to leave him no option. We know of no man who could have been better spared—and that is saying a very great deal."—*Centreville Observer*.

Ex-Governor Hendricks, in an interview at Indianapolis in reference to rumors that Mr. Tilden took the oath of office last year and would soon begin a contest for the Presidency, said: "I know nothing whatever about the statements; of course I cannot know Mr. Tilden's actions, what he has been doing or what he intends to do. So far as I am concerned, Mr. Wheeler has been sworn into the office of Vice-President, and he will stay there for four years. When he was sworn in that ended it."

A Church Burned.—*Cambridge, Md.* December 5th.—The Union Bethel A. M. E. Church took fire to night at seven and a-half o'clock and burned to the ground. The parsonage, which stood within ten feet of the church, was saved. The loss will be about $3,000. The insurance is $1,200.

As Words are the bodies in which ideas live, and their appropriate use creates the grandeur of language, so Keller's Roman Liniment is the body in which is carried more remedial efficacy than in any other preparation of its nature known. Rheumatism, Neuralgia, Tooth-ache, and all that vast host of nervous and painful diseases yield at once and finally to its wondrous powers.

IMPORTANT DISCOVERY! DR. ARTHUR MITCHELL'S VEGETABLE AMERICAN SOAP!

For Removing all kinds of Stains, Grease, Tar, Pitch, Ink Spots, Tobacco Stains, &c., &c.

THIS is truly a wonderful discovery, patented in 1875.

The Soap is purely vegetable, containing no acids, alkalies, or chemicals of any kind, and is made without Lye or Grease.

For Laundry purposes it is unequalled.—Clothes can be washed perfectly clean in thirty minutes with this Soap, without the use of a washboard or washing machine.—Thousands have used it, and given their indorsements of the value of the discovery.

It is the cheapest soap used. It can be made in two minutes for less than half a cent per pound. The material can be bought at any grocery store.

Every family should secure the right to make and use it. Family Rights can be bought for $2.00. It saves labor, and saves money.

It does not injure the colors of cotton or worsted goods, but rather improves them.—This is an important consideration with those who wear Calico.

Call at the Union Office, in Denton, and secure the great secret of making the American Soap.

Dr. Mitchell will remain in Caroline county only a short time; do not therefore delay the purchase, as the opportunity may never occur again. ARTHUR MITCHELL, M. D.

TESTIMONIAL:

Easton, Nov. 15, 1877.

Dr. Arthur Mitchell last week made for my family 54 pounds of his American Soap. The materials were bought at retail, and cost but 50 cents. It was made in less time than it would take to make a pot of tea — My family has since been using it; and my wash-woman says it is the best soap she ever used. I cannot too strongly recommend it, and would not be without the secret of making it for twice the cost of ten family rights.

nov29-tf. Frank G. Wright.

BEST,	6 1-2 " "
LONSDALE CAMBRIC,	12 1-2 " "

These goods are cheap and sold for cash *only*. Call for our $1 Cassimere and lament over what you have been gone and done.

GENTLEMEN'S WEAR.

It is *absolutely* surprising how very cheap we can offer these things to our customers.—Our cheap prices and pretty styles cause an unconcious smile as the buyer hurries off to h… home, fearing some mistake has been made, be called back to arrange it. We can give y… a nice Cassimere for 50 cents per yard, and other inducements to cash buyers.

Harness.

Both Carriage and Cart, Bridles, Collars, and *all* articles in that line, we offer at figur… that suit the times. We will sell you a suit of new bgggy harness for $10. They are be… for you—*come get them*.

Hardware.

Nails from 2d to 40. Carriage bolts all sizes. Plow bolts. *A gimlet you cannot bre…* Best Hickory Felloes and Spokes, Carriage Shafts and Hubs all sizes, Carriage ar… born Arms and Axles. The best Rowland Shovel and Spade, $1 each. Hay an… Forks. Trace, Back and Tug Chains. Knives and Forks *very* low, odd forks. The… ted "Emerald Cook" Stove, sold at less than city retail prices, also the "Virginia"… Bird," and "Welcome" in store, and sold cheap for cash. Stove pipes and elbows 20 … cents a joint. Stoves and fixtures for your stoves furnished at short notice. Canvass … Carriage tops, good and common, Oil Cloth Matting, and everything you want can be ha… at figures to suit the times.

☞ Wheels of every description ready made to fit Carriages, Dearborns, &c.

NOW COME ONE, COME ALL,

And bring any kind of trade you have—*we take all*, and would be pleased to have th… portunity of convincing you that all is as we represent.
