The Good Time Coming. Talks on the firm, in the March number of the Agriculturist, makes the following comforting prediction

We are going to have bette . Fas just returned from the city with a well s times for farmers in the near future. And now is the time to prepare for for the winter trade, consisting of them. Get the land ready. Make DRY GOODS, it clean, and get it into clover and grass It will then be gaining in fertility, and when the good times come—as come they certainly will -this land can be plowed with a reasonable prospect of producing a a fine lot of Ladies good crop. But if you continue to plough as many acres and under-take to work it with less labor, the chances are that you will get meager In fact, a general assertment of all kinds of good crops, and the land will become suitable to the trade and useful to families or individuals. If you are in want of goods call more and more weedy, and when the good time comes for corn to bring a dollar a bushel where it now sells to do the best we can to please you.

After thirty-five years experience in buying and selling goods, we ought to thoroughly understanding the business, and we intend to do instice to all of 10 cents per pound, live weight, our customers. Nearly all kinds of where they now bring 3 cents, you will have little to sell. It will rain taken in exchange for Goods. porridge, but your dish will not be ready to catch it History, expe- WM. J. KELTON. rience, observation, and common KELTON & THOMPSON, sense all demonstrate that good sense all demonstrate that good times never come to poor farmers. Wholesale Dealers in All Kinds of If you can not do anything else to- COUNTRY PRODUCE, FRUIT, POULTRY, wards improving your farm the com ing season, let me urge you at any rate to make an carnest effort to kill the weeds. This alone would add millions to the wealth of the count-

## Whitewash.

Take a clean, water tight barrel, or other suitable cask, and put into it half a bushel of lime. Slake it by WATTSON & CLARK, pouring water over it, boiling hot and in sufficient quantity to cover it five inches deep, and stir it briskly till thoroughly slaked. When the slaking has been affected, dissolve it in water, and add a solution of two | The best and cheapest fertilizer. For sale by all pounds sulphate of zinc, and one of dealers. common salt. If desirable, a beautiful cream color may be communicated to the above wash, by adding feb10-y. to three pounds of yellow ochre; or a good pearl or lead color by the addition of lamp, vine, or ivory black. CENERAL PRODUCE For fawn color, add four pounds umber-Turkish or American (the latter is the cheapest)-ore pound Indian red, and one pound common lampblack. For common stone color, add four pounds raw umber and two pounds lampblack. The value of the sulphate of zinc is that wm. P. Francis. it is put on. Some also put in a half-pound of common alum; others Commission Merch'ts, substitute the alum for the zinc .--There is no mode of making farm buildings attractive so cheaply as with whitewash, and at the same time of adding greatly to the presert try produce on Consignment. [ag31-1y. vation of the wood. The above wash cannot cost over fifty cents, and liberally used, it will add five BOPP & RINEHARDY. hundred dollars to the market value of a farm. We can conceive of but few things more beautiful than clean, Ready-Made Clothing, Cloths, Vestwhite farm buildings and fences, in contrast with rich green of budding Spring.

Number of Eggs that a Hen'can Lay. We copy the following item, which has been, for a long time, going the rounds of the agricultural press, showing how little scientific attention has been ordinary bestowed line, Talbot and adjacent counties that he is preupon the subject of poultry-keeping. pared to execute the above business by contract or otherwise. It has been ascerteined that the ovarium of a fowl is composed of Agent for the Sale of Mill Furnishings. 600 ovules of eggs; therefore a hen, during the whole of her life, cannot |possibly lay over 600 eggs, which ind the natural course are distributed W.S. PREPARED BY LOWELL, MASS., U. S. A.

ty of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPA-RATION for its intended purposes."
