Co-operation Among Farmers.

In a late number of the report from the long talked of Ship Canal through this Penland last having created some excitement, alas, has changed, and truisms are presented:-

The word "combination" seems to have acquired a wicked significance, in view of some farmers. Let them use in- I have bought my entire Spring Stock of stead "co-operation" if they prefer it; CLOTHING, BOOTS, SHOES, HATS but they must remember that there is no human being entirely independent government nor social institutions. In | Shoes are decidedly cheaper than have ever been offered to the market. The largest and best stock of other industries a large portion of the work done and profits made are through associated effort. There may be asso- ever offered for sale in this county. The styles cannot be surpassed. My prices will not be underciation for duty as well as for deviltry. sold. There is no reason why comparative isolation should lead to positive hermitage. A great enlargement of American dairying has come from association; the monthly gatherings for sales of farm the monthly gathering for sales for sales of farm the monthly gathering for sales for sales of farm the monthly gathering for sales for sales of farm the monthly gathering for sales fo animals in Madison county, Ohio, have saved immense sums from the clutches | Chewing, Fine Cut and Smoking Tobacco, the of middle men; the inauguration of mar-ket fairs should be general; association

best grades. The finest brands of Cigars in town, FOURTEEN years experience in testing it side by Side with other popular fertilizers, that an application of the popular is equal to from 200 others. I most respectfully ask you to call and exfor importing or buying animals of the amine my stock. best blood should be more numerous; there should be a farmer's library in

every township in the land. SAVE THE BEST FOWLS FOR BREED-ING .- It is the worst possible policy to kill all the best and handsomest fowls, and save only the mean and seruggy ones to breed from. This is precisely the way to run out your stock; for like Pvines, &c., for tends to breed like, and the result is, that by continually taking away the one, two and three year old best birds, and using the eggs of the poorest, your flock will grow poorer and poorer every succeeding year.

It would seem as though this was too thirty varieties, obtained from Georgia, North plain to be insisted upon, but, in fact, climate. Carolina and Virginia, and by test, will keep in this "line upon line" is needed. It is the crying want of the poultry upon the farms the country through, this careful tested market varieties-grown from Natural Seed, and intelligent selection of the best for grown from Natural Seed, guaranteed free from

Nothing is lost by a little self-denial to start with. The extra pound or two of poultry flesh that you leave on its legs, instead of sending it to market, is good seed, and will bring forth tenfold and twentyfold in your future broods. Save your best stock for breeding .-Poultry World.

TURKEY RAISING.-Farmers who live in sparsely settled districts, abounding in large dry pastures, can afford to give the time of a faithful and intelligent lad the whole summer through, to be devoted exclusively to rearing turkeys. The young broods must be watched as constantly as ever a shepherd watches sheep in a region infested by wolves. Every night, or during the day, on the approach of rain, they must YARD AND SHADE TREES, extra be driven to a roomy shed with a tight roof. The mother birds, and the young, EVERGREENS & ORNAMENTAL can be soon trained to being driven as easily as cows are driven to pasture. Give good forage ground, and keep out of rain and dew, and success is almost certain .- The Poultry World.

CATERPILLARS .- Now is the time to look out sharply for caterpillars. They are busy weaving their nests and stripping the leaves of the apple trees. It Concord, Clinton, Taylor's, Bullet, &c., is the best way to take them while they are young and small, for if neglected till the leaves are fully grown there is necessarily greater injury to the tree, Public patronage solicited, and all to say nothing of the destruction they orders by letter guaranteed to receive cause in the process of growth. Fix same care as when given personally. a brush upon the end of a long pole and go at them. If the trees are kept Feb. 1, 1873. 1y. perfectly clear of them this year, you will have less next, unless some careless and slovenly neighbor lets all his go to seed. Caterpillars are a sign of careless

ment is on foot in Iowa and Illinois for Farm, near Denton, Caroline county, formerly octhe appointment of some competent cupied by Wm. Williamson, and is the same land described in said Mortgage, recorded in Liber J. J. and responsible person in every county No. 31., Folio 446 and 447, one of the Land Reco to assume the task of gathering infor- This Farm contains mation on the condition of the crops as 200 Acres, more or less, they progress through the season, say and is situated on the county road from Denton to every six weeks or two months, and Bursville, about three miles from Denton, and is have the facts published, so that all buildings. The tract can be divided, without excan judge for themselves. It is expect- pense, into two farms of about 100 acres each, and will be sold separately, or in one Farm. ed this plan will save the farmers from | The owners have instructed me to sell this propthe crop humbugs and the swindling that accrues through their false representation.

ly, of Balto. Co., Md., has a common or jan25-tf native cow, now about five years old, which has within three years produced seven living calves. On April 18th, 1871, she dropped two calves, of fine GOULD, DUKES &CO size and vigor; April 20, 1872, she gave birth to three, and on the 8th of April, of this year, she dropped two more, and also a body which seemed to be a mal- Buy and Sell Exclusively on Comformed or imperfect fœtus. Of these seven calves, all lived but one. The cow is reported as a very great milker. Amer. Farmer.

CLOVER.-Cut for hay as early as feb22.y. possible after it comes in bloom. It is then, when properly cured, green, fragrant and nutritious. It may be allowed to lie in the swarth four or five hours, then put up into small cocks, which next meaning, when the dew is WARRANTED THE BEST GOODS off, may be turned over and lightly spread out, then made into larger cocks and, no rain having fallen on it, secured the next day. Clover allowed to get black and dry, loses it leaves and does not possess half the value of well

cured hay. MANY fortunes, like rivers, have a pure source, but grow muddy as they | DLOWS and PLOW CASTINGS at
