To Have a Good Milker.

Joseph Allen Lane, of Bourbon county, Ky., writes to the Kentucky Home Journal his views how the above end should be accomplished as follows:

The milking qualities must be in the animal, but liuman skill and management have much to do with IN THE MARKET, its development. The best milkers, by far; I have ever owned, have been bred early. A heifer calf that came so early as March, and had leen well cared for, might with safety be THOMPSON & KERSEY. coupled with a bull near her own age, and not too heavy, in August after she was one year old. Her calf would come, if impregnated, the ensuing May-a pleasant season here, and when the grass is abundant. When she brings her calf, my course has been to get them into a convenient and comfortable stable, GREAT BARGAINS! and as soon as I was satisfied that the calf had sucked, and this is gen. erally before removing from the Line of very cheap place of calving I have her bag en. tirely emptied by very careful and gentle milking. To do this she must be kindly approached and treated; first midst and all the way through be kind and gentle with them. Af- Just received by Rail from ter milking thoroughly and sloping, leave the door open and let the cow where there is plenty of good water, Thompson & Kersey, Easton, Md. Ammoniated Bone Super-Phos. and no other stock that would disturb or injure them. If the weath. er is too bad for the calf to be out, keep both cow and calf housed and see that she has plenty of water and stock of assorted goods, consisting of food, but no corn or other food that DRY GOODS, is too sumulating. See that the udder is effectually emptied three times a day—that is, early in the morning at noon, and at night, as the calf will take for a while but a little at a time. After ten days, if the bag ap. QUEENSWARE, and a wood of pears to be in good condition, I turn the cow, after the morning away in fact, almost everything that is useful in a family from her calf on pasture; she is if you are in want of anything in my line just walk in and we will take pleasure in showing them to you. brought up at noon, and after the calf sucks, is thoroughly milked, the clsewhere, in or out of the county. same process being repeated late in the evening. I suffer her to remain and do not send your money out of the county when you can do as well at home. with her calf at night for a while after the first separation. This course is best to guard against inflamation of the udder; when this is all right, and the danger is past say when the and the danger is past, say when the may24-tf calf is about two weeks old or more V.O. EARECKSON, the milkings to two each day, morn' LUMBER DEALER, ing and evening.

calf, let it have all the milk it will suck before any is milked; but be FLOORING, PARTITION, PAIL SHINGLES, Never let a calf run with the cow after the first week or ten days-if feb22-y. you desire a good milker. The ud. NOVELTIES! NOVELTIES! NOVIL TIES der must be enlarged by distention from day to day, and the milk vessel excited to their greatest production in order to have an abundant milker. When the calf runs with the cow all the time, sucking, it may be every two or three hours, she will very soon only secrete what the calf No. 40 North Sixth St., (below Arch,) draws or less at one time, the udder will remain small and contracted, N. Iron in the Blood

42 Pratt St., Belt,

MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protected Solution of the Protoxide of Iron, is so combined as to have the character of an aliment, as casily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "athousand ills," simply by Toning up, Invigorating and Vitalizing the System. The en-riched and vitalized blood permeates every part of the body, repairing damages and waste, searching out morbid secretions, and leaving nothing for disease to feed upon. This is the secret of the won-

derful success of this remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrheea, Boils, Nervous Affections, Chills and Fevers, Humors, G. BOPP, Loss of Constitutional Vigor, BOPP & RINEHARDT, Diseases of the Kidneys and Bladder, Female Complaints, and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system,

and building up an Iron Con-stitution. Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.
