LOCAL INTERESTS.

DENTON, MARYLAND:
SATURDAY,.....MAY 13, 1882.

New Passenger Cars.

On Friday of last week, to the agreeable surprise of all, two handsome new passenger cars came down the Chesapeake and Delaware Railway, which have replaced the old rattling affairs that we have heretofore been compelled to ride in. These cars were ordered to be built by the road when under the old management, and not by the Pennsylvania Railroad, as has been stated.

Large Dealers in Machinery.

Messrs. Emerson & Evitts, Denton's hardware men, are dealing largely in agricultural and other machinery. They have already received eight car loads of machinery, have ordered three car loads of drills, and one car load of pumps will be here in a day or two. The greater part of these will be disposed of in this county. Read their new display on our second page this morning.

$10,000 More for the Choptank.

The appropriations for Maryland rivers and harbors have been made out by the Congressional committee. The bill will be ready to come before Congress in a few days, and as the outlook seems favorable an attempt will be made to pass the bill under a suspension of the rules. Choptank river between Denton and Greensborough is allowed $10,000. Representative Covington appeared before the committee and asked for this amount, which there seems to be no doubt about being appropriated.

Levy Court.

Regular meeting last Tuesday, full board being present. The only matter transacted except of a routine order such as passing road accounts and hearing cases of transfers and abatements, was the awarding of what is called the county printing to the *American Union* and the *Caroline Democrat*. The contract was made jointly to these two papers, and they get $500 for the work. The Board also announced the following appointments of tax collectors, previously determined upon. First district—I. J. Melvin. Second district—Jos. B. Orrell. Third district—Daniel Todd. Fourth district—Curtis A. Wright. Fifth district—Jno. H. Stack. Sixth district—Wm. F. Towers.

Making Ice by Steam.

A block of artificial ice about 18 inches long, 9 inches wide and half as thick was on exhibition in town on Saturday last. It was frozen at Shannahan's ice factory in Easton, where it is made by steam. Sounds ridiculous, doesn't it? but it's a fact. They do things that way down at ambitious Easton. The frozen block we had up here didn't look like the old time ice in color, being of a marble or milky appearance; but it was cold all the same: too cold, many said, for steam to have had anything to do with the temperature of it. The freezing is done by a chemical process well known to science. Mr. Shannahan has facilities for cooling off three counties. The ice is retailed at a cent a pound.

Result of an Elopement.

An altercation occurred near Dover Bridge on Saturday between Nathaniel Legates and Captain Newton Andrew which resulted quite seriously. In January last Andrew, it will be remembered, eloped with Legates' wife, but both parties returned shortly afterward, and Mrs. Legates has since been living with her husband. Saturday last Andrew was passing the farm of Legates, and the latter meeting him fired at him, it is charged, with a shotgun, the load entering Andrew's legs and inflicting serious injuries. It is thought, however, that the wounded man will recover. Legates's side of the affair is that Andrew came by whistling and trying to entice the quondam paramour off again; while Andrew says he was stopped in the public road and abused and then shot by Legates. Legates has not been arrested.

A Remedy for Potato Bugs.

A reliable exchange tells of a farmer who has tried a new remedy for potato bugs with success. He procured a number of boards and placed them here and there among his potatoes, and on the boards placed sliced potatoes. At noon on the first day of the experiment he found every piece of potato covered with bugs. The men killed this crop and at night another crop was killed, though not so large, and in a week's time not a bug could be seen and his trouble with bugs after this was comparatively small. In the spring, he says, is the best time to attend to the bugs, as a spring bug he understands, breeds from 300 to 500 durthe potato season. He thinks it would be a good plan to dip the piece of potato in Paris green, as it would save the work of killing them.

Personal Mention.

—Charles H. Gibson, Esq., was in town on Monday.

—Mr. T. D. Larrimore of Easton was in Denton Thursday.

—Mr. Wm. M. Tylor, now of Philadelphia, was down this week.

—A. A. Christian, Esq., of the Greensborough *Free Press*, was in town on Tuesday.

—Caroline county will be represented at Gov. Hamilton's banquet to be given in Baltimore on the 17th inst. by Col. J. W. Bryant.

—Ridgely now has a constable, Mr. Charles E. Sigler; the late Legislature empowering the county commissioners to make the extra appointment for the second district.

—A dispatch from Mr. Wm. Fell, of Lebanon, Pa., to friends in this county, announces the serious illness of his wife. It was thought Wednesday she would die. Mrs. Fell was well known in this county, Mr. Fell having for a number of years, until 1874, kept the Brick hotel in this town.

Steamboating.

The new steamer Avalon, built by the Harlan & Hollingsworth Company for the Maryland Steamboat Company made a trial trip on the Delaware, Monday, and left for Baltimore Tuesday last. She is one of the best equipped and handsomest vessels in the Baltimore harbor. The Avalon will be commanded by Captain Richard Smith, now of the Enoch Pratt, and will be placed on the Piankatank route, the Pratt being taken off this route and placed on the Choptank route in place of the Ida, which is to undergo some repairs. Captain Kirwan, of the Ida, takes command of the Pratt, and will return to the Ida when ready for service. Captain Crosby, of the Highland Light, will then take command of the Pratt, and his present vessel, the Highland Light, will be withdrawn from the route and used for special freights. The Pratt made her last trip on the Piankatank yesterday.

Local Brevities.

—The Rev. Dr. Guard is to lecture in the M. E. Church on Monday evening, the 15th instant.

—Thawley & Ghinger this week bought another one of Mr. Wm. C. Satterfield's big beeves, which weighed about 2,000 pounds. It will be on the market in town this morning.

—Trout fishing has commenced on the Delaware. But few have been caught up to the present time. They command a good price. The trout vender is now abroad in the land, and the first one visited Denton Tuesday.

—The JOURNAL was in error in stating that the canning house in Denton was about to be sold. It has not been disposed of as yet in any way, but is offered for sale for $2,500. This amount is not half of the original cost of the establishment.

—The election for a new board of town commissioners takes place at the office of Magistrate Hutson on Monday. The new board can consider nothing more timely than making some provision for putting out the fire which we are likely to have at any time.

—The prices of beef in this market have been on the rise since February, notwithstanding the falling off in its use consequent upon the use of fresh fish. There are very few beeves to be had. The butchers say that last year's drought is the cause of the scarcity of fat cattle at this time. Prices now range from 8 to 16 cents per pound for beef.

County Items.

—The registers of voters recently appointed for this county have all qualified,

—A protracted meeting has been held at Sheppard's Chapel and five persons have professed conversion.

—The Dorchester and Delaware Railroad, which runs from Seaford, Del., to Cambridge, Md., 33 miles, will be transferred to the management of the Pennsylvania Railroad on May 17.

—The teachers of Caroline county will hold their second meeting at the court house on Saturday next. The programme promises to be even more interesting than that of the first meeting.

—The Cemetery Company of Hillsborough have bought 14 acres of land from Mr. John W. Knotts, for $1,000. This land adjoins the railroad station, and adjoins the present cemetery which contains two acres.

—There promises to be no scarcity of camp meetings hereabout the coming summer. Denton is to have one, as announced last week. Greensboro' heard of it and didn't want Denton to get ahead, and so they determined to have the usual camp at Oakland; so they decided last Monday. There is also to be a camp at Camden, Del., which is much frequented by people of this county.

Store Architecture.

To the Editor of the JOURNAL:

Allow me to suggest to store keepers, some of whom are so fastidious about the building of their dwelling houses, the mutual advantages to be enjoyed by patronizing the architect in the erection of stores in general. In these small country towns the stores at night and all through winter are converted into meeting rooms for newsmongering and gossiping, so much so that it is impossible to transact business comfortably; hence, take it as we may, business suffers. Now, for the same cost, by consulting a competent architect, an office and also a reception room could be made—warm in winter and cool in summer—so that all customers and gossipers would be just as well pleased as if they had a palatial reading room with a free county barber shop adjoining. Yours truly,

GOTHIC.

Ridgely.

Correspondence of the JOURNAL.

Our enterprising and accommodating station agent, Thomas A. Smith, has purchased several thousand acres of timber from Mr. Wm. S. Ridgely, and is now at work with several hundred teams and men—be the same more or less—cutting and hauling railroad ties or sills; and this is the cause of the great activity at the saw-mill. I may be slightly in error in regard to the number of acres of timber and the number of men and teams; but, be this as it may, the fact remains that Mr. Smith has purchased timber and is handling it in his usual vigorous and decisive manner, working it into gold as fast as possible. Success to him and his undertaking; also to everything and everybody who strikes a blow or turns a furrow to help build up business at our beautifully located village.

SAM NEVERFORGET.

P. S.—The hardware men have taken possession of the northwest corner of their new store, and are happy. Their room is 22x40, and when finished will be a commodious as well as pleasant business location. I learn that owing to their not being able to make satisfactory arrangements with merchants at Ridgely in regard to hardware they intend to put in a line of groceries. They are also under request to put in a stock of drugs, as one of them knows something of that business. S. N—T.

Over in Talbot.

—The May term of Talbot court commences next Monday. The outlook now is for a short term, although it is said the criminal docket is larger than usual.

—The railroad company has planted a large number of shade trees in what was known as Chamberlaine's field, Oxford, on the river, and about 200 yards from the depot, as the beginning of a park. The trees were set out by the chief horticulturist of the Pennsylvania Railroad Company, in an artistic manner. They were bought at Mr. Charles E. Jarrell's nursery at Hillsborough.

—A new freight and telegraph office for the Delaware & Chesapeake Railroad has been built at Clayton.

—At last the "hoping against hope" is over and the news comes that DeLong and those of the crew of the ill-fated Jeannette who were in his boat are surely dead. "Found DeLong and party dead," tersely telegraphs Engineer Melville from Irkutsk to the Navy Department at Washington. After all it is doubtful if the utmost that can be gained by these terrible Arctic expeditions are worth the fearful sacrifice of human life they involve.

Spring Madrigal.

Fresh flannels for me, mother,
New woolen stockings buy;
Let Ann rebuild the furnace fire,
And pile the coal on high.

There's ice by all the streamlets,
The buds shrink in the blast,
I'm nearly frozen, mother dear,
For spring has come at last.

—James Cooper, of North East, one night last week, while fishing in the North East river with his gill net, caught 784 shad in one drift, and but for timely assistance the boat would have sunk by the great number of fish taken. This is the largest haul with a gilling net that we have ever heard

—During last summer John Horine, residing near Burkittsville, Frederick county, Md., procured ten small carp from the fish commissioner of this State and placed them in a small pond on his farm, but two of them subsequently escaped into the Broad Run creek. A few days ago Mr. Horine drew the water from the pond and found, besides the eight large fish, over a thousand smaller ones of various sizes. He put the eight large carp on the scales and their aggregate weight was eighteen pounds.

Baltimore Markets.

Thursday's Report.

Wheat in fair request, long-berry selling at $1.40 to $1.44, and fultz $1 31 to $1.40. Southern corn is in moderate demand and rather easy; white sold at 89 and 90 cents and yellow at 87. Oats are selling at 61 cents for Western. About 1,200 bushels white in job lots sold 82 and 83 cents. Rye, 95 to 98.

Literature.

J. S. Ogilvie & Co., 31 Rose street, New York, send us a book entitled "Miss Slimmen's Window," a story written by the author of "A Bad Boy's Diary" which is very popular for its wit and humor. The price is 25 cents.

Our Continent has become well established now as one of the leading publications of elegance in this country. Its literature and art are of the most advanced character. *Our Continent* is published in Philadelphia by Judge Tourgee, of "Fool's Errand" fame.

We have received from the publishers a copy of "Scribner's Geographical Reader and Primer," a book intended mainly for schools, but is really a valuable and interesting book to possess. The well known publishers, Chas. Scribner's Sons, New York, have the credit of introducing this novel and common-sense method of teaching geography. The matter contained in this book is valuable to the pupil and the manner of its arrangement is so fascinating that he is equally profited and delighted by it. This is an entirely new work, and from its reception by the press it is likely to be brought into extensive use. This book is well printed, bound in cloth and sells at 60 cents. Sample copies will be sent teachers and others with a view of introducing them into schools, at 40 cents each.

A HISTORY WORTH HAVING.

The new and charmingly beautiful, as well as wonderfully cheap edition of "Green's Larger History of the English People" which is being published by the Useful Knowledge Publishing Company, New York, is most deservedly finding a place in thousands of home libraries. No history is better worthy of a place in even the smallest library, and, though formerly published by the Harpers at $10 it is now easily within the reach of anyone, the prices varying in the several forms, from 65 cents in one volume, octavo, Utility binding, to $2.35 in 5 vols Elzevir edition, half Russia binding. It also forms a part of the first volume of the Cyclopedia of History which is shortly to appear. The editions are for sale by enterprising booksellers, and club agents and canvassers are wanted, everywhere by the publishers, to whom are offered very unusual inducements and facilities.

THE NEW LIGHT OF ASIA.

"The Iliad of India" some call it, and others liken it to Milton's 'Paradise Lost.' Whatever terms may be used to describe it, Edwin Arnold's remarkable poem, "The Light of Asia" has certainly won a place among the classics in literature, and the best edition will be wanted in every home library. Related to the religion of India it is not unlike Milton's immortal poem as related to the Christian religion. The new edition just issued by the Useful Knowledge Publishing Company, New York, is perhaps the most beautiful, typographically, which has ever appeared, and is of course far lower in price than any other edition published, which will compare with it, being only 20 cents for the Utility binding, 30 cents for cloth, and 40 cents for the half Russia, or for the extra cloth gilt edges. This edition is especially valuable, and for that reason will displace every other, and cause those who are already supplied with other editions to put them aside and take this, because of the sketches of the lives of Edwin Arnold, the author, and of Buddha, the subject, and the numerous illuustrative notes explaining the many references to persons, places, customs, etc., which are necessariiy enigmatical to any one not deeply versed in the history, religion, and literature of India. These valuable additions are from the pen of Mrs. I. L. Hauser, a most competent writer, who was for many years a resident in India, and is known as the author of "The Orient and Its People." Enterprising booksellers will supply this edition, and canvassers and club agents are wanted everywhere, to whom very unusual terms and facilities are offered by the publishers.

Women Everywhere use Parker's Ginger Tonic, because they have learned by experience that it overcomes despondency, indigestion, weakness in the back and kidneys, and other troubles of the sex. —Home Journal.

RESERVED FOR ADVERTISEMENT OF

T. DAWSON LARRIMORE'S

MARKET SPACE CLOTHING HOUSE,

EASTON, MARYLAND.

J. J. JUMP & COMPANY'S

BULLETIN No. 2.

We desire to thoroughly advertise our splendid new stock of Spring Goods, but we find it impossible to itemize and enumerate the very choice things in every department. Each and every department of our entire establishment receives our own special attention, and is made as complete as long experience can make it.

LADIES' COLUMN.

Over $2,000 in SILK GOODS just added to the large stock of Silk Dress Goods advertised last week.

New novelties in Moire and Satin stripes for Overdresses, Waists and Skirts.

New Watered Silks at $1 per yard. Baltimore Wholesale Houses ask this price for them.

One piece of very handsome, vine figured, all Silk Brocade, at $1; usually sold at $1.50. It won't stay with us long.

One piece Brown and one piece of Green Dress Silk, at $1.25; splendid value for the money.

Three pieces Black Silk at $1, $1.25, $1.40, better value for the price than we have ever sold.

One piece very wide pure Silk-Satin Surah at $1.40.

J. J. JUMP & CO.

We frequently have samples of Silk from New York compared at our store, and we beat every time. Reason why—we buy as cheap as they can; our expenses are light, theirs are enormous.

The demand for Laces is greater this season than has ever been known before. We have just added to our previous magnificent assortment, extra fine Italian Laces in narrow, medium and wide.

The very desirable Milacourt in choice designs, only 20 and 25 cents a yard.

The new Maline, from 15 to 25 cents; Brabrant, Cream, Spanish, and Maltese Laces. The exquisite Edelweiss at 50 cts. These, with our previous purchases, give us the choicest showing.

New additions in Dress Ginghams and White Goods.

Ribbons are to be so extensively used as Dress Trimmings, that we have added them to our business, and show a nice line of fine goods only.

GENTLEMEN'S COLUMN.

All over the country the sale of Ready Made Clothing is assuming vast proportions. This is the result of perfection of system by which the fit is positive and perfect; the using of choice patterns and good material in the suit, and good solid work. Our sales in Clothing are very large and constantly growing. Every suit is marked plain, and sold at the price marked. As we make no reduction from price marked, of course we make it so low it cannot be sold for less.

In the show windows of one of Baltimore's big houses, we saw two suits (the same as we have) marked $9 and $12; our prices net $8 and $11.40. The reason why—we buy as cheap as they do, and labor under so much less expense.

J. J. JUMP & CO.

234 New Spring Suits now on exhibition, and more still coming. Little Boys' Pleated Jacket Suits, School Suits, Church Suits, Gentlemen's Fine Frock Suits, Chesterfield and Sack Suits in splendid designs, and at bottom prices.

SUITS TO ORDER.

We have just added another lot of Coatings, Suitings and Pants patterns, in English, French, Scotch and Domestic Fabrics, very choice in design. We ask only an examination. We have made special arrangements to have suits made by Elston, Satterfield or Antoine De Pasquale; also by a first-class tailor in Baltimore. We take the measure here for the Baltimore tailor, and in every case guarantee a perfect fit.

Gentlemen's Laundried and Unlaundried Shirts from 65 cents to $1.25. Underwear all sizes. New Lisle Thread and British one half Hose in plain and fancy styles. New Neckwear, new Collars in latest styles, splendid Linen Cuffs, Handkerchiefs, &c.

HOUSEKEEPER'S DEPARTMENT.

New Table Linens at unusually Low Prices, in Bleached and one-half Bleached, Turkey Reds, &c.

A few left of our 60 dozen Napkins, bought so we can sell them at wholesale prices. Towels so cheap they go rapidly.
