

LOCAL INTERESTS.

DENTON, MARYLAND: SATURDAY, SEPTEMBER 16, 1882

Baltimore Markets. The prices of grain do not improve, but continue about the same as quoted last week.

Mercantile. Mr. William A. Stewart will remove his stock of dry goods, etc., on Wednesday to the large and commodious house occupied recently by Mr. Emmett Downes as a hardware store.

One Way to Escape. A "great camp-meeting" of the colored people is advertised to be held at Smyrna, Del., to-morrow, and the A. M. E. Church of this town will run a special railroad excursion.

A Curiosity. Mr. Frank E. Connolly, residing near Hillsborough, has a three-legged sheep. One of his eyes had twins last spring, one a perfect lamb in every respect, the other differing from it only in that it had only three legs.

Death at Advanced Age. Mr. James Roe, whose recent illness was mentioned in the JOURNAL a week or two ago, died somewhat unexpectedly last Thursday morning.

Collision in the Bay. The steamer Minnie Wheeler, while bound up the bay Friday night, was run into by a three-masted schooner. The collision occurred off Poplar Island about 10 o'clock.

Cruikshank vs. Stump. From the Baltimore Herald. The judicial fight in the second circuit continues with great virulence. Crimination and recrimination are lavishly used.

Eastern Shore Republicans. The Republican Congressional Convention which met at Easton on Wednesday last nominated Col. James C. Mulliken for Congress.

Refused License to Sell Whiskey. Mr. John H. Holt, by his attorneys, Messrs. Powell & Martin, has petitioned the Circuit Court for a writ of mandamus, requiring Mr. J. Frank Turner, Clerk of the Circuit Court for Talbot county, to issue a license for him to sell spirituous and fermented liquors in Chapel district of that county.

Death of Samuel Zacharias. On Kent Island, Mr. Samuel Zacharias, a well known citizen of this county, died suddenly Tuesday last, at the residence of his son-in-law, Dr. Lewis, on Kent Island, Queen Anne's county.

Trustees sold a Tompely on Saturday last forty acres of land, at \$5.00 per acre, to C. W. Smith; fifty-seven acres, at \$6.50 per acre, seventy-two acres, at \$16.00 per acre, to Wm. H. Ware, and eighty-six acres, at \$13.20, to Isaac S. Joslin.

Personal Mention.

Mr. Wm. F. Murphy is home from Wilmington. Misses Ella and Annie Lord, of Tuckahoe Neck, last week were visiting at Farmington, Del.

Mr. Lewis H. Jarman left home for the West on Monday last, and will settle in Illinois and practice his legal profession. Mr. William Gilbert, of New Garden, Pa., has been in this vicinity for two weeks buying cattle for the Wilmington market.

Dr. C. B. Mason, our clever young dentist, requests us to say that he will be at Cohe's Hotel, Greensboro', on Monday, 18th inst., until Saturday, when he will be at the service of those wanting dentistry done in that town and vicinity.

The Small-Pox Cases Near Town. Two new cases of small-pox are reported, both in the family of the colored man Robinson, who lives a short distance north of Denton, whose wife died of that disease on Tuesday of last week. The new cases have caused considerable alarm and the physicians are vaccinating the people.

See advertisement of Mr. Edgar J. Hulse. The martens have taken their flight southward. See postponement of the sale by Mr. John Kendall.

The "last rose of summer" will soon be in bloom. Dog days have ended and cat naps have commenced. The mornings and evenings begin to show the approach of autumn.

Very truly and fraternally, EDWIN EARECKSON, Supt. Sec'y. To the officers and members of Chesapeake Conclave No. 30, Improved Order of F. & M. S.

THE FESTIVE CABBAGE WORM. The editor of the Hagerstown Odd Fellow has been having a big tussle with the cabbage worm, and says he came out second best. We publish below his experience for the benefit of our agricultural readers and hope they have met with better success in getting rid of them.

THE GRAND NEW BOOK. Theatrical and Circus Life! OR THE SECRETS OF THE STAGE. GREEN LAM AND SAWYER'S ARENA. AGENTS WANTED.

THEATRETT'S. BEATTY'S. I have on hand a good assortment of Mixed Paint, in Pints, Quarts and One-Half Gallons. All work in this branch will be done with despatch and in a good manner by myself or my son Charles.

The Centreville Fire.

The store of Mr. James Bramble, in Centreville was burned to the ground last Sunday night. A few nights previous an attempt was made to fire this building by some unknown party entering the store and overturning a coal oil lamp, but it was saved by the bravery of Mr. Winder Goldsborough.

Mr. T. S. Kianamon, formerly employed in the store of Mr. James N. Smith, in this place, has gone to Dover to resume the mercantile business with Mr. Frank M. Dunn.

Mr. Lewis Church has left at the JOURNAL office a mammoth stack of sugar cane, raised on his farm near Melville. It measured sixteen feet from top to bottom, saying nothing about the two or three feet of tassels to which it would have been entitled when matured.

Mr. James Roe, whose recent illness was mentioned in the JOURNAL a week or two ago, died somewhat unexpectedly last Thursday morning.

and if we have lost our kraut we have at least had revenge on our enemies. Alas! we were mistaken again. An inspection of the plant revealed the worms in apparently increased numbers, from the tiny little thing of the thickness of a pin up to the robust worm of an inch in length—well and apparently unharmed by the scalding bath we gave them.

TO THE FARMERS OF CAROLINE COUNTY.

We desire to call your thoughtful attention to the superior merits of ORCHILLA GUANO AS A FERTILIZER FOR—

WHEAT & GRASS!

The advantages resulting from its use are not only an increased yield, but the permanent improvement of the soil from the abundant growth of grass which is sure to follow. ORCHILLA GUANO has been used extensively in Maryland, Pennsylvania and Virginia for several years, and from its abundant success every where, especially among the farmers of your section, we are justified in recommending it to you as being well adapted to your soil. No fertilizer offered for your use has such unvarying success and continued popularity. Some of the largest and best farmers in these three States use it almost exclusively.

It is Successful because it is nature's own provision for her exhausted fields. It is Low Priced because we have none of the expense of manufacturers, and regarding its high grade of phosphates, have based our price upon its actual cost to import.

We refer you below to some of your people who have used it, and ask you to inquire of them as to its merits. Wooldbridge, Travers & Co., Importers, BALTIMORE, MD.

Read the following testimonials: WM. C. SATTERFIELD, Greensborough, Caroline county, Md., Aug. 2, 1882, says: "I have been using Orchilla Guano for fifteen years largely. I have frequently tried other fertilizers, but fell back on Orchilla. I believe it a good, permanent improver of poor lands."

BERNARD SPICER, Taylor's Island, Dorchester county, Md., Aug. 2, 1882, says: "I used Orchilla Guano last fall on my corn land, at the rate of 170 pounds to the acre, and the result was entirely satisfactory. The land yielded more bushels per acre than it ever did before. I expect to use it again this fall."

THOS. H. TRAVERS, Taylor's Island, Dorchester county, Md., June 22, 1881, says: "Our harvest is upon us, and Orchilla is master of the situation. It has done all you claim for it, and has triumphantly won its way to public favor in this locality. Splendid crops of wheat and grass are the results of its application in every instance that has come to my knowledge and observation. Its patrons are all well pleased, and the doubling Thomas has convinced of its wonderful power. I have personally inspected many fields of growing wheat and clover, within the past week and they are simply grand. Along side of other fertilizers in the same fields, Orchilla plainly shows its superiority in grain and grass; the wheat being much heavier with larger and more perfectly developed heads, whilst the clover admits of no comparison whatever."

I have upon my own premises the finest stand of clover that I have ever seen in my twenty-four years experience as a farmer, and that too on a field that never has been known to produce good clover before. This convinces me thoroughly that as a grass producer, Orchilla is absolutely without a rival. My wheat is all that I could reasonably expect from this soil and late following, and I am well pleased with the result—the stand of clover alone being worth more than the Guano cost. When the Thresher begins work, I confidently predict a more marked difference than is even now manifest."

JESSE HUFFINGTON, of Eden Station, Somerset county, Md., July 31, 1882, says: "I have been using Orchilla Guano for a number of years. I have tried it carefully on my own land, and have seen its results on my neighbors' lands also, and I assure you I cannot say enough in its praise. From the condition my land is in now, I am free to say that if I had given away the first crop I raised from Orchilla, I would have been well repaid by the improvement to my land, and the crops I got now. If I could get any fertilizer in the market at the same price as Orchilla, I would rather take Orchilla, because I have proved to my satisfaction that it is not only good for one crop but it is a permanent improver of the soil, and will ensure five grass crops to come. I don't care how poor the land is I believe Orchilla will bring it up. I have seen it do it. My neighbors think so, too, and there will be twice as much sold in this neighborhood this fall, as was last fall. I am sure I will have nothing else."

JOHN M. SMITH, Sandy Spring, Montgomery county, Md., August 1, 1882, says: "I used Orchilla Guano on a barren hill-side, the soil having been so washed off as to leave the ground pretty much clear of signs of vegetation. It brought pretty fair wheat, where there was no soil, I find the timely and clover well set, satisfying me that there is virtue in it. I purpose using it again."

WASHINGTON D. WATERS, Goshen, Montgomery county, Md., July 3, 1882, says: "Orchilla seems to have given general satisfaction in this neighborhood. My wheat is better than I have had for a long time."

JESSE W. DOWNS, Dayton, Howard county, Md., July 19, '82, says: "I sowed Orchilla last fall on wheat, by the side of two high-priced fertilizers, about 450 pounds of each per acre. I could see no difference at all in the wheat. I also sowed it on rye, and made a fine crop. The farmers speak well of it. I shall use it again this fall."

THEO. T. SPICER, Taylor's Island, Dorchester county, Md., Aug. 7, 1882, says: "I applied Orchilla Guano to my wheat last fall at the rate of 250 pounds to the acre. The result was very satisfactory, the yield being much larger than the yield of any former year. The land was thin, and I consider the land paid me well. I believe it to be an excellent fertilizer, and shall use it again this fall."

SOLOMON F. KIRKMAN, Taylor's Island, Dorchester county, Md., Aug. 9, '82, says: "I used Orchilla Guano last fall on wheat, and made about twenty-five bushels of wheat for every bushel seeded. It had also a striking effect on the young clover. I am much pleased with the Orchilla, and expect to use it this fall."

E. L. GRIPPETH, Taylor's Island Dorchester county, Md., Aug. 8, 82, says: "I used Orchilla Guano last fall on loamy, sandy soil from which I never before reaped more than 8 or 9 bushels to one seed. This crop yielded 18 for 1. Part of the field was dressed with good compost, and while the straw there was a little heavier, the grain from the Orchilla was heavier and plumper. I am satisfied it will be 100 per cent. I shall want considerable this fall for wheat seeding."
