Pungent Paragraphs.

The good that men do may be interred with their bones, but the coffins of some men are not crowded.

A woman has to settle a man's coffee with the white of an egg, but she can settle his hash with a look.

A philosopher says this world belongs to the energetic." Thank 'you; but how can you get possession of it?

When a woman wants to get rid of her husband for an hour she sends him up stairs to get something from the pocket of one of her dresses.

Said a loving wife to her husband: "Do you know, dear, that butterfly ornaments are very fashionable?" "Perhaps so," he gruffly replied; but grub is the great desideratum."

Absent-mindedness has been considered the mark of a great man, but a fellow never feels very big about it when lugs a napkin away from the table in his hankercheif pocket.

An Effectual Excuse.—I should like to be excused from jury duty, your honor," said an old gentleman in the Criminal Court yesterday.

"What excuse have you to offer?" asked Judge Phelps.

"I'm not in good health."

"I'm not in good health."

"Have you a physician's certificate to that effect?"

"No, your honor."

"Then you'll have to serve."

"But, Judge, there's another reason.'

"What is it?"

"I often get cranky."

"Strike off his name," commanded the court, amused.

The old gentleman hobbled out and there was a titter in the court-room.—*Balto. Sun.*

The late Artemus Ward, illustrating to his English reader the practical character of the American mind and its passion for political oratory, tells a story of an execution in Ohio where the sheriff, having led the doomed man on to the scaffold paused just before putting the rope around his neck and asked him the customary question whether he had anything to say before being swung off. The man hesitated a moment probably to collect his thoughts when a local orator pushed his way to the front of the crowd and said: "If our ill-stared fellow-citizen don't feel inclined to make some speech, and ain't in a hurry, I should like to avail myself of the present occasion to make some remarks on the necessity for a new tariff."

PATENTS.

Send a rough sketch or a model of your invention to GEORGE E. LEMON, Washington, D. C., and a Preliminary Examination will be made, without charge, of all United States patents of the same class of inventions and you will be advised whether or not a patent can be obtained.

If you are advised that your invention is patentable, send $20, to pay Government fee of $15 and $5 for drawings required by the Government. This is payable when application is made. When allowed, the attorney's fee ($25) and the final Government fee ($20) is payable. An attorney whose fee depends on his success in obtaining a Patent will not advise you that your invention is patentable unless it really is, so far as his best judgment can determine; hence, you can rely on the advice given after a preliminary examination is had. Design Patents and the Registration of Labels, Trade-Marks, and Re-issues secured. Caveats prepared and filed. Applications in revivor of Rejected, Abandoned, or Forfeited Cases made. If you have undertaken to secure your own patent and failed, a skilful handling of the case may lead to success. Send me a written request addressed to the Commissioner of Patents that he recognize George E. Lemon, of Washington, D. C., as your attorney in the case, giving the title of the invention and about the date of filing your application. An examination and report will cost you nothing. Remember, this office has been in successful operation since 1865, and reference can be given to actual clients in almost every county in the U. S. Pamphlet relating to Patents free upon request.

PATENTS

CAN I OBTAIN A PATENT?

Send a rough sketch or (if you can) a model of your invention to GEORGE E. LEMON, Washington, D. C., and a Preliminary Examination will be made of all United States patents of the same class of inventions and you will be advised whether or not a patent can be obtained.

FOR THIS PRELIMINARY EXAMINATION NO CHARGE IS MADE.

What will a Patent Cost?

If you are advised that your invention is patentable, send $20 to pay Government application fee of $15, and $5 for the drawings required by the Government. This is payable when application is made, and is all of the expense unless a patent is allowed. When allowed, the attorney's fee ($25) and the final Government fee ($20) is payable. Thus you know beforehand, *for nothing*, whether you are going to get a patent or not, and no attorney's fee is charged unless you do get a Patent. An attorney whose fee depends on his success in obtaining a Patent will not advise you that your invention is patentable, unless it really is patentable, so far as his best judgment can aid in determining the question; hence, you can rely on the advise given after a preliminary examination is had. Design Patents and the Registration of Labels, Trade Marks and Re-issues secured. Caveats prepared and filed. Applications in revivor of Rejected, Abandoned, or Forfeited Cases made. Very often valuable inventions are saved in these classes of cases. If you have undertaken to secure your own patent and failed, a skillful handling of the case may lead to success. Send me a written request addressed to the Commissioner of Patents that he recognize George E. Lemon, of Washington, D. C., as your attorney in the case, giving the title of the invention and about the date of filing your application. An examination and report will cost you nothing. Searches made for title to inventions, in fact any information relating to Patents promptly furnished. Copies of Patents mailed at the regular Government rates, (25c. each.) Remember this office has been in successful operation since 1865, and you therefore reap the benefits of experience, besides reference can be given to actual clients in almost every county in the U. Invitation.

Strangers are invited to visit our store, when in Philadelphia, to leave packages there, and to make a convenience of it generally. It is a handy place, right by the new City Hall, at the very center of the city. It answers our purpose to welcome you, and to provide for such of your wants as we can.

The store is about twice as large as it was two or three years ago; made so by digging under ground and building overhead, and by extension on Chestnut street. Parts of the store are about as comfortable as any place can be; and one of the most comfortable parts is now being got ready for the rest and refreshment of strangers.

One of the pleasant things about the store always has been the fact that you can walk all over it, either alone or with a guide, without ever being asked to buy a thing. We know very well that most of you come to us for a good share of your supplies; why should we spoil your visit by intruding goods upon your attention, when you come to see the place?

But perhaps you are not coming to Philadelphia just now. Very well; take a cooler time. It's cool enough in the store, when you get here. You can write for any goods that you may happen to want; and get them, probably, just as well as if you were on the spot. Any how, you know, you can return whatever you get that you don't like.

We sell more sorts of things than we can put into an advertisement. So, whatever you want, suppose you drop us a line. We'll help you if we can.

THE SUN.

NEW YORK, 1883.

More people have read The Sun during the year just now passing than ever before since it was first printed. No other newspaper published on this side of the earth has been bought and read in any year by so many men and women.

We are credibly informed that people buy, read, and like The Sun for the following reasons, among others:

Because its news columns present in attractive form and with the greatest possible accuracy whatever has interest for humankind; the events, the deeds and misdeeds, the wisdom, the philosophy, the notable folly, the solid sense, the improving nonsense—all the news of the busiest world at present revolving in space.

Because people have learned that in its remarks concerning persons and affairs The Sun makes a practice of telling them the exact truth to the best of its ability three hundred and sixty-five times in the year, before election as well as after, about the whales as well as about the small fish, in the face of dissent as plainly and fearlessly as when supported by general approval. The Sun has absolutely purposes to serve, save the information of its readers and the furtherance of the common good.

Because it is everybody's newspaper. No man is so humble that The Sun is indifferent to his welfare and his rights. No man is so rich that it can allow injustice to be done him. No man, no association of men, is powerful enough to be exempt from the application of its principles of right and wrong.

Because in politics it has fought for a dozen years without intermission and sometimes almost alone among newspapers, the fight that has resulted in the recent overwhelming popular verdict against Robesonism and for honest government. No matter what party is in power, The Sun stands and will continue to stand like a rock for the interests of the people against the ambition of bosses, the encroachments of monopolists, and schemes of public robbers.

All this is what we are told almost daily by our friends. One man holds that The Sun is the best religious paper ever published, because its Christianity is undiluted with cant. Another holds that it is the best Republican newspaper printed, because it has already whipped half the rascals out of that party, and is proceeding against the other half with undiminished vigor. A third believes it to be the best magazine of general literature in existence, because its readers miss nothing worthy of notice that is current in the world of thought. So every friend of the The Sun discovers one of its many sides that appeals with particular force to his individual liking.

If you already know The Sun, you will observe that in 1883 it is a little better ever before. If you do not already know The Sun, you will find it to be a mirror of all human activity, a storehouse of the choicest productions of common sense and imagination, a mainstay for the cause of honest government, a sentinel of genuine Jeffersonian Democracy, a scourage for wickedness of every species, and an uncommonly good investment for the coming year.

TERMS TO MAIL SUBSCRIBERS.

The several editions of The Sun are sent by mail, postpaid, as follows:

DAILY—55 cents a month, $6.50 a year; with Sunday edition, $7.70.

SUNDAY—Eight pages, $1.20 a year.

WEEKLY—$1 a year. A COMMON SENSE REMEDY

SALICYLICA!

No More Rheumatism Gout or Neuralgia.

Immediate Relief Warranted & Permanent Cure Guaranteed,

Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET:

The only dissolver of the poisonous Uric Acid which exists in the blood of Rheumatic and Gouty persons.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifis and supposed panaceas only treat locally the effects. It has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments and soothing lotions, will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.

REMEMBER!
