LOCAL INTERESTS.

DENTON, MARYLAND:

SATURDAY.....JULY 28, 1883

Correspondence upon matters of local interest desired. Sign your name, as anonymous communications will not be inserted.

Simple notices of marriages and deaths inserted free. Obituary notices will be charged at the rate of five cents per line.

Correspondents and advertisers are requested to send in their favors as early in the week as possible, and in any case not later than Thursday.

When subscribers fail to receive the Journal regularly, they will please notify the publishers.

The foundation for the new Denton academy has been laid and the work of mortising the frame and putting it in place goes rapidly on.

B. W. Jones on Monday last threshed for Thos. F. Jackson with a 28-inch Buffalo Pitts thresher, 187½ bushels per hour, or 3⅛ bushels per minute. Let the next man step up.

Wm. S. Byrd, of the well-established commission house, corner Camden and Lights streets, Baltimore, solicits trade from the Choptank. The stand of this house is an excellent one, and fruit growers will do well to give Mr. Byrd a trial.

Subscribers who paid in advance for the religious paper several years ago published by the Rev. J. D. McFaden have had the subscription returned to them. In a notice in THE JOURNAL Mr. McFaden requests acknowledgments of the sums returned.

Town Ordinances.—The revised ordinances for the government of Denton were printed at THE JOURNAL office this week, and people and property are now effectible by them. Town bailiff Pearce is engaged in collecting the corporate tax, which is 25 cents on the $100.

Barn Burned by Children.—Monday morning two or three little boys were seen scampering away from the vicinity of Mr. T. W. Smith's barn at Ridgely. Mr. Smith thinks they set fire to the building, which was soon enveloped in flames and burned to the ground. The loss is about $150.

Mr. J. Hall Barton, of Queen Anne county, while taking a drive in Tuckahoe Neck Thursday last was painfully hurt in trying to stop his horse from running away. His injuries were at first thought to be internal and and of a serious character, but upon examination by Dr. T. B. Saulsbury they were pronounced not dangerous.

The Balloon at Tolchester made another ascension on Wednesday at about 5 o'clock in the presence of 5,000 people. Profs. Wise and Elliott, the latter the oldest aeronaut in the world, went up together. When cut loose the balloon rose 3,000 feet, settled for a moment, then sailed toward the Chester river. The balloon was seen about 6.30, and settled on Kent Island.

Accident to a Young Lady.—Miss Laura Clark, daughter of Mr. John W. Clark of Tuckahoe Neck, went with her sister, Mrs. B. F. Townsend, to attend the funeral of Mrs. John Bloxsom last Monday morning. When the ladies were about to alight from the carriage Miss Laura fell out on the ground head foremost. It was found that she had fallen from exhaustion from heat, and besides the bruises sustained was in a very critical condition. Dr. Downes was called, but not until the evening did consciousness return to the young lady. Her face is very much bruised.

How a Town Gets the News.—Preston receives its postal matter from both Baltimore and Philadelphia via Federalsburg. Under the present schedule, the Preston mail leaves Federalsburg before the cars arrive on the Dorchester and Delaware road with the city mails, which puts the town 24 hours behind with the news, working great inconvenience to the merchants and other business men of the town. An effort is being made to get the schedule changed, so that the Preston mail shall not start from Federalsburg until after the arrival of the mail train, so that the morning city papers may be read at Preston in the evening of the day of the publication.

Care During Thunder Storms.—The number of deaths by lightning are more than usually numerous this season. The storms are unusually frequent and of great severity. During the prevalence of a thunder storm great care should be exercised, not to expose oneself to danger. Sitting at an open window or door, near a chimney, or in a draft should be avoided, as they are always attended with more or less danger. In time of a storm, whether at home or in a public building, it is best to close up the windows and doors, so as to avoid a draft even if one has to undergo some of the inconveniences of excessive warmth. If out doors, it will be better to get a drenching in the rain than to take shelter under a tree or any exposed place, as there is very great danger attending it. It will be found on investigation that very many of the fatal results of lightning are due to a careless exposure during the prevalence of storms.

Stonewall Beats Jaybird—The match race for $500 between Israel Rosenfeld's chestnut gelding Stonewall and E. B. Emory's bay mare Jaybird was trotted Tuesday at Bishop's Herring Run course, Baltimore county, and was won by Stonewall in two straight heats. Before the race began it rained, causing the track to be heavy. The judges were Mr. Burrough, of Kentucky; Mr. Phillips, of Baltimore, and Dr. Carroll, of Queen Anne county. The betting before the start was slightly in favor of Jaybird, but Stonewall had many friends. The first heat was won by Stonewall in 2:33, and the second in 2:28¾. Jaybird was distanced in the second heat and the race awarded to Stonewall. After the race Stonewall was given a chance to exhibit his speed. He was to trot a mile and beat 2:27. J. H. Phillips drove him, and he made the mile easily in 2:25½. A great many Queen Anne men lost on the race. The attendance was very large.

Reliable Peach Reports.—The Philadelphia Times publishes despatches from the principal points in the peach-growing sections of Delaware and Maryland, which are almost unanimous in saying that while the crop this year will be smaller than last year, yet the fruit will be of much finer quality. The correspondent at Dover, Del., says the crop in Kent county promises a large yield. About Kenton, on the Chesapeake and Delaware railroad, the crop will be fair. In Duck Creek Hundred there will be about half a crop. Along the bay the crop will be lighter than last year. All along the western part of the county the crop will be large enough, and in the centre of the county the yield will be larger than last year. There will be a general scarcity of the yellow fruit, except the Smock, which is about the last crop. From Felton to the Maryland line on the west, and from Frederick to the Bay Shore on the east, is a belt of peach orchards which will yield the growers handsome profits.

Free Scholarship.—The school commissioners give notice of the free scholarship to Baltimore Female College.

Prices of Grain.—Good to choice fultz wheat on Thursday sold at $1.15 and $1.18; longberry, $1.16, $120. Corn is rather scarce in the Baltimore market and has advanced about one cent since our last quotation. Good white sold at 61 to 63 cents. Bright oats sold at 42 to 44 cents and rye at 58.

Mr. Lowe's Loss.—When Mr. Esma Lowe was in town last Tuesday attending the Democratic central committee meeting, he heard for the first time of a heavy loss that had befallen him the day before by fire. On his farm near Bridgetown, the dwelling house, barn and three stacks of wheat, besides other property were burnt up. All a total loss, there being no insurance.

Disgrace and Shame long dogging the heels of the Rev. George R. Bristor, D. D., once the pet and adoration of Peninsular Methodism, have at last caught and overwhelmed him. The eloquent young doctor of divinity has for a year or more preached to the congregation of St. Luke's Methodist Episcopal Church at Newark, N. J. On Sunday last, however, to the surprise of his congregation, he failed to appear in the pulpit, and now the sequel of his mysterious absence is found in a series of inexpressibly vile charges.

Plenty of pure water has always been one of the blessings of Denton. Its good qualities are remarked by visitors, who find it not too soft or too hard, yet cool and salutary. To make it still more desirable and to prevent any impurities whatever getting into their drinking water, a number of citizens have in use the driven iron wells. The earth below town suits these pumps exactly. A two-inch galvanized pipe, with close wire screen at the lower end, driven from fifteen to thirty feet in the ground, with a small iron pump, affords a never-failing well of water. Driven wells are the thing, is the verdict of those using them.

Central Committee's Proceedings.—Pursuant to notice the Democratic County Central Committee of Caroline county met at the Court House in Denton on Tuesday last, the following members being present: 1st district, John S. Walters; 2nd, B. C. Silverthorn; 3d, Dr. Enoch George, Thomas F. Johnson and George T. Melvin; 4th, Dr. H. F. Willis, S. H. Fluharty and E. M. Towers; 5th, Elijah Hignutt and E. C. Feilds; 6th, Sylvester Smith. On motion the delegations were filled as follows: 1st district, John Daily and Dr. Alex. Hardcastle; 2d, George H. Moore and Esma Lowe; 5th, not filled; 6th, Beniah Kinnamon and George W. Spurry.

On motion of Dr. Willis the following resolution was adopted:

Resolved, That the Democratic conservative voters of Caroline county be requested to assemble in primary meetings at their respective voting places on Saturday, August 25, 1883, to elect eight delegates to meet in Denton on Tuesday, August 28, to nominate a county ticket to be supported by the Democratic conservative voters at the November election: the election of delegates to be by ballot and the polls to be open from 2 to 5 P. M.

On motion the following was adopted by the committee:

Whereas, good feeling and unity of purpose is essential to the success of all parties, we the Democratic Central Committee for Caroline county in session, hereby resolve that we condemn the practice of the use of money at primary or other elections.

Condition of the Crops in Maryland.—The report from the Agricultural Department at Washington for July thus sums up the condition of the crops in Maryland: "In the present year there has been planted in this State, in round numbers, 700,000 acres in corn, and although planted unusually late, the season has been favorable to its growth, and it is looking well and healthy. The wheat crop has been nearly all reaped, and it proves very satisfactory, although not equal to the crop of last pear. While much was winter killed and lost by storms and other accidents, the spring was favorable, and it recuperated rapidly, so that the crop will be an average one. The same statements apply to rye as to wheat. Oats, though sown late, will yield above the average crop of last year to a small extent, though the acreage is not quite up to last year. This year not more than 24,840 acres were planted in tobacco—a reduction of about one-third as compared with the area planted in 1879. The cut-worm proved very destructive to the early planted crop, but the hot days in June destroyed them, and the general rains of the last week of that month enabled the replanting to be done, and at present the condition of the crop is rather better than usual. Clover, timothy and other grasses have been unusually good. Pastures are flourishing, with the exception of a small portion of the State where drouth has occurred. The sweeet potato crop is promising, and largely on the increase as to its former limited area. Irish potatoes have increased in area at least twenty per cent. over former years, and the present condition is flattering. The early crop was good and very prolific. The peach 'fall' this year was later and greater than usual, which will reduce estimates made at the time of the heavy bloom. The actual product of the crop may be set down at 2,000,000 baskets. There will be less canning than last year, owing to the large stock left over in first hands. Probably not over 500,000 baskets will be canned. About 250,000 baskets will be dried or evaporated—an increase over last year. There will be sold in the markets, in and out of the State, for eating fresh, 1,000,000 baskets, and the balance of the product wasted or consumed at home by the producers. The prospect for all other fruits and nuts is very good."

Heart affections, kidney and liver troubles affect nearly one-half of all mankind. Yet how many heedlessly pass through a shortened life giving no care to these complaints which cause the human family such great distress. Does your heart beat violently from the least excitement? Have you fits of dizziness? Does your back ache? Are your bowels constipated? These symptoms are the first warnings. Delay is dangerous. Be wise in time. Regain perfect health by using Brown's Iron Bitters.

—Samuel Collins lived with the Rev. Mr. Brindell at Jarrelltown until he was detected in forgery, when he fled to Delaware. Collins started back to the scene of his crime, and he was lodged in jail at Easton.

Schroeder's Corn Solvent for the complete cure and removal of Corns, Bunions and Warts. Price 25 cents.

—Rock fish and spots are unusually abundant this year in the Lower Choptank, around the Chesapeake bay shore of Talbot, in the Eastern bay and in Miles river.

Mr. L. A. Spelhouse, 17 Frederick avenue, Baltimore, Md., says: "I used Brown's Iron Bitters for malarial sickness, and have derived great benefit."

THE WAY POINTED OUT.

JACOB GHINGHER.

I am in favor of giving Gov. Hamilton another term to enable him to continue his reforms. He is the people's choice.

G. FRANK AYERS.

Mr. Hamilton I think is the strongest and best man the Democrats could take up for Governor this fall. He is a faithful officer.

ROBERT S. CLARK.

I don't suppose we could get a better man for governor this time than Hamilton. He should be renominated to complete reforms he has begun.

JAMES H. HORSEY.

I am a Hamilton man and believe in giving him another term. If ever the people had confidence in a man's word they have it in what the old Governor has promised about reform.

WM. SETH EVITTS.

I think nearly every body but the politicians are in favor of the renomination of Governor Hamilton. He is honest, and just such a man as will inspire the people with perfect confidence in what he says and does.

BENJ. F. TOWNSEND.

I want a man for governor who cannot be controlled by cliques or rings, and I am satisfied Hamilton is such a man. He has made a good record and I should like to see him renominated.

ELISHA P. RINGGOLD.

I am a Governor Hamilton man over anybody else. If we turn him down we turn down and condemn his course and any man we take up over him will be in danger of being beaten at the polls. He is the people's choice.

DANIEL STEVENS.

Gov. Hamilton, I think, ought to be renominated, and if the party should take him up he will get a big majority in November. The people are for him because he prevents the dishonest use of their money. He will lower the taxes by stopping the extravagance and waste.

DR. P. S. REYNOLDS.

While I am decidedly in favor of the Democratic doctrine of rotation in office, and especially as to executive affairs, I am heartily in sympathy with the reforms that have been proposed to the legislature by Gov. Hamilton.

CHARLES W. DIGGANS.

I believe Gov. Hamilton to be an honest and safe man, and one who can be trusted by the peodle. He has done much toward reforming abuses and he ought to be renominated to give him an opportunity to complete measures of retrenchment he has begun.

JOSHUA L. BEACHAMP.

I am satisfied that we could not get a stronger man for our next nominee for governor than Hon. William T. Hamilton. No other man is so well fitted for the work now remaining to be done. No other man is so well prepared to enforce economy in the State's financial affairs, and to stop the waste of the people's money.

WALTER BOOKER.

I am in favor of reducing expenses in State and county affairs and I know of no better way of doing this than to renominate Gov. Hamilton, who has done so much in the last four years to do away with useless offices and to stop wasteful expenditures of the people's money. The politicians may be against him but the taxpayers should stand by him.

WESLEY ROE.

Gov. Hamilton has conducted the State's affairs in a business-like way since he has been in office, and has looked out for the people's interests. He has not allowed the politicians to misuse the public money and they are said to be opposed to him. The taxpayers support the government and should be consulted as to the choice of officers. If they are permitted to select a candidate for governor he will be Hon. William T. Hamilton.

WILLIAM E. LORD.

I believe the Democratic party should ask Governor Hamilton to be a candidate for another term. Politicians have prevented his carrying out measures promised the people when he went into office, and there is no way by which he can have the opportunity to fulfill its pledges except by his renomination and the election of a legislature in harmony with his reform ideas. He is the friend of the taxpayers and they know it.

DR. WM. H. DOWNES.

So far as my information goes a large majority of the people are favorable to the renomination of Governor Hamilton, and if the party managers are allowed to defeat him at the primaries and in the nominating convention, I believe we shall lose the State so far as the governor is concerned. Hamilton was very popular four years ago, and his unswerving firmness in pushing the reforms he promised has only increased his strength among the taxpayers. The bitter fight being made against him by the politicians is not a sufficient cause to turn him down.

ARTHUR J. GREENLEE.

Gov. Hamilton has done a great deal for honest administration of State affairs since he has been in office, but nothing like what he would have done if he had not been checkmated by politicians. Though not half of the reform measures pledged when Hamilton was nominated have been carried out, we can not blame him for the failure. He has made manly efforts to do what was promised and and a brave defense of the people's rights. The experience he has had would be especially valuable to the State if he could be Governor another term. Having done his duty why should the party turn its back on him? Why not give him another term to complete his reforms? If our party makes the mistake to reject the great reform leader who will believe we are in earnest about reform?

Denton-Ridgely Passenger Line.

Hacks leave Denton for Ridgely at 6.45, and 12 noon, connecting there with the north-bound passenger train at 7.59 A. M. and south train at 1.20. Leave Ridgely at 8 A. M. and 1.25 P. M. for Denton. Comfortable hacks, good horses and pleasant drive. JOHN T HARRIS.

PERSONAL MENTION.

—Mr. Howard Bryant will not return from Ocean City till August 10.

—Mr. George A. Deakyne, of the Clerk's Office, is at home in Smyrna, Del.

—Miss Effie Pearson, of Chestertown, is a guest of the Misses Saulsbury at Ridgely.

—Mr. Richard Allee, law student of Dover, is spending a few days with his father in Tuchanoe Neck.

—Mr. S. D. Gordon of the Newark Ledger has resumed the publication of the Maryland Courier of Federalsburg.

—Editor Robson drove over to Preston last week to feel the Caroline pulse on the Governorship, and to get a good watermelon.

—Rev. R. A. Tuff occupied the pulpit of the M. E. Church last Sunday evening. The effort gratified his friends and impressed the whole congregation.

—Among the visitors in town are Mrs. Nicholson and son, Miss Ida Blackiston and Miss Rena Skinner, of Baltimore; Miss Frankie Temple, Templeville, Mrs. Braly, Hagerstown.

—Some of the Talbot county young gentlemen and ladies are forcing the season by indulging in the winter sport of fox hunting. The days are too warm for them and the bright moonlight nights are "just lovely" for fox hunting, the young folks say. A party composed of Louis Levering, C. Levering, J. Pascault, D. Hayward, the Misses Tilghman, Mr. and Mrs. Owen Norris, C. Grogan, W. Bateman and J. Jenkins took a hunt the other night after Reynard.

OUR NEIGHBORS.

—Shipments of peaches in small quantities have commenced.

—A convention of the bank cashiers of the peninsula at Ocean City is talked of.

—The Delaware output this year of canned fruit and vegetables is estimated at 4,000,000 cans.

—Wye camp meeting will be inaugurated on the morning of the 31st inst. It promises to be very largely attended.

—U. S. Senator Groome is making a vigorous canvass of his county—Cecil—looking after his interests in the coming Democratic primaries.

—William Warner of Queen Anne county, who lost his foot by being caught in a thresher at the Cedar Dale farm in tenancy of William Boyles, has since died from his injuries.

—The Agricultural Society of Delaware offers a silver medal and fifty dollars in cash to that Farmer's Grange which makes the most meritorious exhibit in the several departments at the next annual State Fair, and a bronze medal and twenty-five dollars in cash to the one making the next best showing.

—The Peninsular Agricultural and Pomological Association of Middletown will hold their annual exhibition September 18th, 19th and 20th. An entrance fee of $1 will be charged each exhibitor without regard to the number of his exhibits, but this will entitle him to free admission to the grounds during the fair. Single admission 50 cents; children under 12 years of age, 25 cents; season tickets, $1, and admission to the grand stand 25 cents extra. Saddle horses and single and double teams will be admitted for 25 cents. Wm. R. Cochran is president and W. Scott Way corresponding secretary.

Deaths.

BLOXSOM.—In Tuckahoe Neck, on Saturday last, Mrs. Belle Bloxsom, wife of John Bloxsom, and daughter of George W. Collison.

JUMP.—At Matthewstown, Talbot co., on Monday last, Mr. Edwin P. Jump, formerly of this county.

IMPROVED
DRIVE
WELLS

A FULL and unfailing supply of good water guaranteed, or no pay. For terms address
M. L. BLANCHARD,
P. O. Box 44. Bridgeville, Del.

C. P. P. MATTHEWS, EDW. J. BIERY.
NEW FIRM
AT THE
OLD STAND

We, the undersigned, having associated ourselves in business under the firm name of
MATTHEWS & BIERY,
adopt this means of informing the public that we have rented the Machine Shops that for many years have been conducted by Tuthill & Avery, and more recently by D. C. Avery & Co., where they are now prepared to take orders for new work, such as
CARRIAGES, CARTS, WAGONS, DRAYS, TRUCKS AND AGRICULTURAL IMPLEMENTS
in general. Having requisite tools and machinery, strict attention will be given for all repair work, especially
FARM ENGINES, AND GRAIN THRESHERS AND SAW MILLS.
This branch of the business will be attended to by E. J. Biery, in person, whose long experience in handling the Wood, Tabor & Morse, Watertown, Nichols & Shepard, and all other engines used in this and adjoining counties gives him a thorough knowledge of them, a trial of which will be convincing proof of what we assert. We have also in our Smith Department a first-class Horse-Shoer, who will give this grade of blacksmithing his particular attention. The
CARRIAGE DEPARTMENT
will be under the sole supervision of C. P. P. Matthews, whose long experience in building fine Carriages, Dearborns, Sulkys, and all repair work in connection with trade, justifies him in saying that he will give satisfaction to each and every customer who may favor him with orders. In our
PAINT ROOMS
we have the facilities for doing the finest of work, having in our employ a skilled mechanic, who thoroughly understands his business. Old carriages repainted and made to look as good as new. We extend a general invitation to all to call and see us, and we will prove what we say.
Public's Obedient Servants,
MATTHEWS & BIERY.
6 30 Easton, Md.

NOTICE.

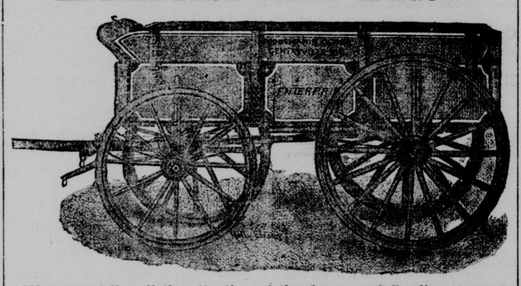
Teachers wanted to take charge of the public schools Nos. 3 and 4, at Hillsborough, for the next scholastic year. Applicants must be qualified according to law, and apply to the undersigned on or before the 4th day of August, 1883.
Dr. T. HACKETT,
Rev. G. F. BEAVEN,
7-14 3 w. HENRY S. FISHER.

Thompson, Kersey & Co.
ARE THE SOLE AGENTS FOR THE NEW
PANNER SKIRT!
THE LADIES ALL DELIGHTED WITH IT!

THE ONLY PANNIER WHICH FOLLOWS EVERY POSITION OF THE WEARER WITHOUT CHANCING ITS SHAPE.
THE ONLY SKIRT WHICH COMBINES BUSTLE, HOOPSKIRT AND UNDERSKIRT.

We cordially invite our Caroline lady friends to an inspection of this indispensable article as well as our mammoth display of Summer fabrics especially selected for this season's demands.
Your friends,
THOMPSON, KERSEY & CO.,
Easton, Maryland.

ENTERPRISE FARM WAGON.



We respectfully call the attention of the farmers of Caroline county to our new Farm Wagon, which we are now selling largely on the Eastern and Western Shores of Maryland. They are all made to order after our own patterns—well ironed—all iron work being wrought with no welds. The running gear is made from young white oak seasoned six years, and thoroughly soaked in oil. The wagons are closely coupled, and in every way suitable to our farmers. Over 100 were sold in Queen Anne county in six months. Every wheel guaranteed five years. No cutting of tires. If you want a wagon write to us. Sold on easy terms where reference is satisfactory. FEDDEMAN & CLASH, Centreville, Md.
7 21 3m.
