## A Good Chance.

The vicissitudes of fortune have rendered it necessary for the subscriber to withdraw from business; consequently he will sell on accommodating terms, the entire stock of Goods which he now has in trade at Church Creek. He will also let for one or more years at a low rent the Store House which he at present occupies.—The Store House is new and large, equalled by few and surpassed by none on this shore for comfort and convenience. To a man with moderate capital and reasonable industry, this chance offers inducements which are seldom to be met with. Any person disposed to purchase can have any information they desire relative to the probable chance of success.

All persons indebted for store dealings, or for tan-yard account, are peremptorily called upon to come forward and make immediate payment. He candidly assures his friends, and others indebted, that this call is the result of necessity, and earnestly hopes a due sense of their own interest will not suffer them to impose upon him the further necessity of resorting to legal measures to insure speedy and punctual payments.

*REMOVAL.*

The subscriber would inform the public that he has removed his manufacturing establishment from the head of Market st. to No. 36 Pratt st. between Charles and Hanover streets, where he will keep constantly on hand for sale, his patent CYLINDRICK STAW CUTTER at the following prices, viz:—The smaller sizes with a permanent bottom (but self feeder) at $45, the same size with a revolving bottom 50, extra knives 5 a pair. His 2d size with a revolving bottom 55, extra knives 6 a pair; his largest size with two balance wheels (one on each side) $85, extra knives 10 a pair; these last machines are capable of cutting from 150 to 300 bushels per hour. He has also on hand and will constantly keep for sale, *Brown's Vertical Spinner for Spinning Wool* these machines run six spindles at the same time, and with much less labour than a common one spindle wheel, and do from 3 to 5 times as much work in a given time, and do it better and more evenly than it can be done in any other way. The art of using them is also very readily acquired, and they occupy only about one third of the room of a common wheel, price 25.—He would likewise inform the public, that he is just commencing the manufacturing of *Gideon Davis's highly improved Patent Ploughs*; these ploughs have recently been tested with five others of the most celebrated ploughs in this country by the engineer department at Washington, their report published from under the hand of the Hon. John C. Calhoun, Esq late Secretary of War, in the 50th No. of the 6th vol. of the American Farmer, copies of which can be had by calling at my shop in Pratt street.

These ploughs, besides making the almost incredible saving of 40 per cent in draft, are so simple in their construction, that they may be repaired on any farm without the assistance of a mechanic.

The subscriber being the only agent that Mr. Davis has in this city, confidently expects a liberal patronage from the public.

All communications (post paid) will meet with due attention, and orders enclosing the money promptly executed.

JONATHAN S. EASTMAN.

## *Self-Sharpening*

## PLOUGH.

The Subscribers have made arrangements for procuring from Philadelphia, 100 sets of castings for the Self-Sharpening Plough, of the smaller size, suitable for the ordinary cultivation of corn and seeding wheat. These castings will be from a new Foundery, erected for the express purpose, and the metal of the best Albany composition—The sockets will be made larger, longer and thicker, and the point supported by the coulter in such manner as to render them able to stand the shock of stumps, roots or rocks, as effectually as any other plough of their weight in use. The ploughs Nos. 2 and 3, sold from the first sets of castings, heretofore advertised, have been found to work well, break the ground effectually and to require less horse power than any other plough of their weight, but the No. 2 owing to a defect in the metal, will not stand the shock of stumps or roots—of No. 3 (several of which have been in operation for some months) we have had no complaint of breaking—We have just received 48 wings and points which will be furnished gratis to those who have or shall purchase the Self-Sharpening Plough to make good any breakage.

As the season for ploughing fallow is approaching and the subscribers are anxious to dispose of the remainder of their ploughs have determined to reduce the price to $10 for No. 3 and $8 for No. 2—At these prices they will be the cheapest ploughs of their weight ever offered in this market.

### BARREN CREEK SPRINGS.

The subscriber begs leave to inform his friends and the public that the above establishment is now open for the reception of Company. Having undergone considerable repair during the last and present season it is rendered much more commodious and pleasant than heretofore. This in conjunction with the well known virtue of the water & a pledge on the part of the incumbent to pay the strictest attention to furnishing his table and bar as well as a due regard to the internal regulations of his house, encourages a hope that he will meet with a liberal share of patronage.

An ample supply of provender has been purchased which the subscriber feels confident will be equal to the immergency of the season—consequently no fears need be entertained by those desirous of visiting the Springs of a scarcity of fodder.
