and particularly with the beauty, depth, capaciousness and extent of the bay, from which the river flows and pours its great volume into the Chesapeake, at the distance of about ten miles.

One gentleman expressed the common idea of the party, that Round Bay only wanted to have its numerous surrounding eminences crowned with columns, spires, arches and ruins, to make it as celebrated as the Bay of Naples. With reference to the depth of the water, the width of its surface, its susceptibility of defence, its exemption from the influence of storm and tempest, its vicinity to the Seat of Government and to the necessary supplies, it is said, no scite, can be better suited for a Naval Academy and Depot. It was doubtless a sense of feeling for the wishes of the citizens of Annapolis and of the Legislature, as expressed at the last session, and his active regard for all that concerns the best administration of his Department, that prompted the Secretary to make a personal visit to, and inspection of, Annapolis and its neighboring waters.

We understand that he was urged to remain one day longer to partake of a public entertainment, expressive of the high sense entertained of the worth of his public character and the esteem inspired by his personal urbanity, yet he felt himself constrained to decline it, on account of some public business requiring his attention at Washington.

It is to be expected that Annapolis will yet be benefitted by a practical development and application of all her natural advantages.

The President had, we learn, intended a friendly visit to the Governor, but was prevented by indisposition. His presence would doubtless have enhanced the gratification of all parties, and it must ever be gratifying to see frank and unreserved private intercourse maintained between the people and their highest public agents, when the relaxations of public duties, will permit.

We learn from the Raleigh Register, that the Society of friends of North-Carolina have determined on manumitting and removing all the coloured people held by them, that are willing to leave the country. On consulting this description of colored people, it appeared that 120 of them were desirous of going to Hayti; 316 to Liberia; and about 100 to the non-slaveholding states of Ohio and Indiana. Those who wish to emigrate amount to nearly the whole number over which the Society exercise control.

*Robbery Discovered.*—Some time in February, last, a trunk containing upwards of $2000 in bank notes, together with some articles of clothing, was stolen from one of the line stages on its passage from Philadelphia to Baltimore, $1760 of the money in notes (marked on the back "FEB. 9th,") belonged to the Messrs. Cohen's of Baltimore. No trace of the trunk or its contents could be found until a few days ago when suspicion fell on a black man of this place, named *Andrew Brown*. Mr. Ross, High Constable of Baltimore, and some other gentlemen searched his house on Tuesday last, and found $1000 of the money, the notes marked as above. Brown said he had given some of the money to another black man of this place named *Freeman*—his house was searched and one $5 note of the money and some of the lost clothing found. None of the unmarked money has been found; it is presumed they passed it first.—They were both committed to prison to await their trial, which will take place in September next.

## IMPORTANT DISCOVERY.

Mr. Aaron Hannum, a respectable citizen of the County, has discovered a sovereign remedy for the expulsion of Worms from children—the remedy is simple and one that can be obtained at all seasons of the year. The following are a few of the particulars as related to us. He says, while several of his children were going to their grand-mother's in April last, on a visit, they for amusement took from the limbs or twigs of the Cedar-trees, what is generally called the Cedar Apple or Knot. One of them who had been always very much afflicted with worms, since the age of two years old (now between six and seven) and every thing had been done for her in the power of a skilful physician for their expulsion, but all to no effect, and was in a very delicate state of health, eat several of the Apples—the consequence was, that several Worms were expelled from her—the remedy was again administered, and in twelve hours *three hundred and upwards* came from her. Mr. H. to be satisfied as to its efficacy, gave the Apples to five of his children, who were all in good health—it had the same effect as upon the first—he also eat several of the Apples himself, and the effect was the same. Thus through the medium of mere chance, perhaps one of the best remedies, and the most simple has been discovered. Mr. H. makes the above public with a view to benefit his fellow citizens, an act in our opinion truly praise worthy and magnanimous. He recommends to those who feel disposed to try the experiment, that the Apples should be eaten nine mornings in succession, fasting—if dry to be pounded fine, and taken in Molasses—or eat them just as they come from off the tree. At this season of the year, the Apple or Knot are to be found in great abundance on the Cedar trees.

*Cure of Deaf and Dumb Child.*—A boy ten years old, who has been completely deaf from infancy, has been cured by Dr. Deleran, of Paris, by simply injecting air through the Eustachian tube which leads from the throat into the cavity of the tympanum or drum of the ear. This is an operation which might probably succeed in similar cases; and from the account given of it, it appears to have been accomplished without any inconvenience.

NEW-YORK, June 19.

We have been favored with Paris papers to the 5th of May, inclusive, brought by the Isabella Henderson They contain letters from Missolonghi to the 6th of April which confirm the accounts of the repulse of the Turks on the 24th of March, but it does not appear to have been known with how much loss. One of the letters is from a Greek General, who states that the Pacha of Pleva, Sadick Bey and Aidin Bey, were killed, and estimates the whole loss of the Turks at 3000. The place was still invested by the Turks. The Turkish fleet had also been repulsed in an attempt to take possession of a small Island and fortress in the neighborhood of Missolonghi.

A report had reached Corfu, that the Greek fleet arrived at Missolonghi with supplies between the 6th and 9th of April.

THE THOROUGH BRED STALLION,

RINALDO

By Sir Archy—bred by the Hon. John Randolph, of Roanoke, Virginia, will stand the present season at one of the subscribers' stables in EASTON, at the low price of Fifteen Dollars the spring's chance, which Ten Dollars will discharge paid by the first of October next—$5 the single leap, and $20 to insure a mare with foal—25 cents in each case to be paid to the groom. The season will be extended to the first of August, or longer if required.

RINALDO is fifteen and a half hands high, and 5 years old this season, is a horse of uncommon bone and muscular powers. He is a deep or blood bay with black mane, tail, and legs—has never covered a mare, having just arrived from Roanoke in Virginia. He was got by Sir Archy, (who is now covering at $75 the spring's chance:) his dam Miss Ryland, by Gracchus, Duste by Silvertail, Vanity by Celer, Mark Anthony, Jolly Rodger—see American Farmer of April 9, 1824. Although a train of fortuitous circumstances enable the subscribers to offer the services of Rinaldo unprecedentedly low, yet it is a fact, susceptible of proof, that he cannot be purchased for less than $2,000. We are mainly indebted to J. S. Skinner, Esq. to whose care and direction Mr. Randolph entrusted this noble animal, for enabling us to offer his services at a price within the reach of every farmer, and so much below the price now paying by citizens of other states for the services of horses from the same stud. Good pasturage may be procured in the neighbourhood of Easton for mares from a distance; and as *Rinaldo* will not travel, all mares must be brought to his stable.

The following extract from the advertisement of Roanoke, a brother to Rinaldo, now covering in Virginia, will be found applicable to him:—

"Like his sire, he is fit for the dray, waggon, or coach, as well as the turf, the field, and the road, in short for every purpose to which this noble animal can be applied, but that of a shooting poney."
