We observe that the Delegates from Maryland appointed by the Legislature of this state during its last session, on the subject of *fugitive Slaves*, have presented their claims to the Legislature of the State of New Jersey. *Balt. Chron.*

Colonel Taylor has been elected Governor of South Carolina; he received 113 votes, and General Carr 49. J. H. Witherspoon is chosen Lieut. Governor.

At the Court of Sessions in New York, sixty three cases were tried of which there were twenty five convictions. The following is a notice of one case.

John Limbert, the person who robbed Mr. Boggs a few days since, indicted for robbery, but convicted of petit larceny, penitentiary three years. This man's acquittal of the robbery, turned on a nice point of law. It is a principal of law to constitute a robbery, that the person shall be put in bodily fear. It appeared from the testimony of Mr. Boggs, that the watch was first snatched and the blow immediately followed. Had the blow preceded the snatching, the robbery would have been complete.

The President and Secretary of the U S. Lombard Association of the city of New York, have been arraigned before the bar of the court of oyer and terminer, under an indictment for a conspiracy to defraud. In opening the case the District Attorney was very severe upon the parties. Among other things he averred that but only ten per cent of a capital of $300 000 was originally paid in, and that within the first year upon the strength of this, bonds were issued to the amount of more than a million of dollars. He concluded by observing, that of all the enormous frauds that had been committed by the broken monied institutions in New York, this was by far the worst in its character.—*Amer.*

The corporation of Philadelphia has adopted a resolution authorising the purchase of Sully's full length portrait of Lafayette. The artist had been offered one thousand dollars for it by a private citizen.

Washington Irving.—Until a day or two since, the last that we heard of our countryman Irving, was that he had gone to Spain for the purpose of examining the manuscripts still extant among the archives of that nation relating to Christopher Columbus, preparatory to writing a history of his life, but that he had afterwards adandoned the project. The latter is so far true that Mr. Irving, at first placing his principle dependence upon the ancient manuscripts of Navarette, and those falling short of his expectations, for a time gave up his researches. But we are now happy to have it in our power to say, that he has since discovered other and important manuscript documents, which have encouraged him to recommence the highly responsible work of presenting to the world a biography of the discoverer of the Western Continent, and that he is prosecuting it with all diligence. His opportunities are propitious as he forms a part of the diplomatic family of Mr. Everett, our Minister at Madrid and we understand has the facilities necessary for his undertaking.

We congratulate our countrymen upon the prospect, and that a history, of which we had despaired, is likely to devolve upon one who has acquitted himself so creditably in whatever he has thus far undertaken.—The Life of Napoleon, by Scott, and of Columbus, by Irving, if well executed will form two of the most interesting features in the literature of the present century. *N. Y. Times.*

Trade of the Susquehanna.—A correspondent of the American Farmer states, that according to the account kept by a keeper of a toll-gate, who resides immediately upon the margin of the Susquehanna river, about a mile above Columbia, of the several descending arks, boats and rafts, that passed his residence between the 3d of March and the 3d of July last, the total estimated value of the products contained in them exceeded a million and a half of dollars. His calculation is as follows:—

1037 arks,	average value	$1,000	$1,037,000
164 keel boats,	do	1,000	164,00
1090 rafts of lumber,	do	300	327,000
Total estimated value,			$1,528,000

To be satisfied (continues the correspondent,) that this estimate is not exaggerated, and of its being, in great probability, below the real value of the produce seeking a market, it is only necessary to advert to the fact, that the produce which is entrusted to arks and boats consists, in a great degree, of wheat, flour, whiskey, iron & coal —that an ark full freighted is capable of carrying—

In wheat, from 1600 to 2000 bushels— value,			$1600
In flour,	400 to 450 barrels	do	2000
In whiskey,	100 to 120 hhds.	do	3000
In iron,	50 to 60 tons	do	4000
In coal,	50 to 60 tons	do	360

The above may be considered as the amount that an ark is capable of carrying with safety, when the waters are in good *arking* condition; of course many cargoes are of less value. A keel boat usually carries from 1000 to 1500 bushels. From these facts you will perceive that the estimate is probably greatly below the real value. This produce, with the exception of a portion of coal and lumber which is purchased at Columbia for the supply of the back country in Lancaster and Chester counties, descends to tide—a great portion of which is ultimately deposited on our wharves, having received an accession at Columbia from the surrounding country it is believed, to a much greater amount than that which has been purchased and detained there. The verity of the conjecture that the property descends the river, is supported by the fact that upwards of 800 arks have passed through the Maryland canal during the present year; and it is a fact notorious to those acquainted with the trade of the Susquehanna, that a very considerable number of arks seek the tide over the bed of the river, without recurring to the canal, when the waters are at a sufficient elevation to enable them to do so.

From the Canandaigua N. Y. Repository.

The women of Wheatland, Monroe county, have had a meeting about the *Morgan affair*. An address was delivered by one of the number, after which several spirited resolutions were passed, among which are the following:—

Resolved, That the time and money spent in Masonic orgies, is robbing their families and connexions of their natural and just claims, and is calculated to excite distrust and create discord in families.

Resolved, That every Mother should duly consider the degrading disadvantages and unmerited contempt to which they consign their daughters by their union with Free Masons—men arrogating to themselves light and knowledge with which *our sex may not be entrusted!*

There are many indications that a powerful current has passed over the continent of America from north to south, and the author of this article accounts for these appearances, by supposing that a change has at some period taken place in the velocity of the earth's motion on her axis. The surface of the earth at the equator revolves at the rate of more than 1000 miles per hour, or 1500 feet per second, which is about the velocity of a cannon ball We have no idea of circular motion like this. A wheel of wrought iron, of three feet in diameter, will fly in pieces before it reaches a velocity of 400 feet per second. Supposing the earth should be slightly checked in her daily motion—the Pacific ocean would in a moment rush over the Andes and Alleganies into the Atlantic—the Atlantic would sweep over Europe, Asia and Africa—and in a few hours the entire surface of the earth would be covered with rushing torrents, excepting the vicinity of the poles. The appearances on the surface of the earth are precisely such as we would expect after such a catastrophe. *Silliman's Journal.*

A Giant.—The Utica Sentinel states that there is now living in Western Oneida county, a farmer who is *seven feet four inches and three fourths* in height!
