e case of Sieur Druon, a

Catholic Priest, as plaintiff against the civil officer who had refused to acknowledge his right to the marriage ceremony. At the opening of the hearing, M. Leroy, council for the plaintiff, in reply to the public ministry, maintained that the marriage of priests was not opposed to the good of society nor to the doctrines of the Church. "He said that although it was forbidden by the council of Trent, it might be allowed by another council.—The celibacy of priests, therefore," he continued, "is not as has been erroneously asserted, a doctrine of our religion. The doctrines of faith are immutable—it is merely a regulation, the work of men, which men can change."

In the judgment pronounced by the court they stated, "that the civil law regards marriage only as a civil contract; that it recognizes no obstacle to except such as it has formally expressed; that an engagement in sacred orders is not at the present day an obstacle to marriage; that if the laws of the Church prohibits the marriage of its ministers, they are addressed only to the conscience," &c. &c. and decided in his favor.

"Thus," remarks the editor, "within a few months three tribunals have successively decided this great question in the same manner. They are those of St. Menehould, Nancy and Cambrai.—[N. Y. Daily Adv.

EASTON GAZETTE

EASTON:

Saturday Evening—Oct: 18, 1828.

FRIENDS OF THE ADMINISTRATION,

The success which has lately attended you is the result of sound sentiments backed by manly exertions—you have one more effort to make before you relax, which if made with becoming energy, will give you a title to the name of Patriots, and will enable yourselves and your opponents to sleep in quiet and in safety. Remember the second Monday of November—He who sustains the Administration Candidate on that day adds his influence to the triumph of just principle and the preservation of Constitutional liberty. Remember, your fathers revolted against the tyranny of a British Ministry, because they had attempted to *erect the military over the civil power*—will the friends of the Administration—the friends of rational liberty and social happiness agree to have Andrew Jackson as their Chief Magistrate, who, whenever he has had an opportunity has always *erected the Military power over Civil Authority?* Come forth then every man of you to assert your rights & to sustain the cause of your fathers that gave birth to our glorious revolution—Le ve not a man at home for in a contest like this, he is no man who stays at home. Make no false calculations, depend upon no man—Let every man do his duty, and law and liberty will triumph—Stamp this upon your Banner, and every man of you go forth with ardent impatience to save the Country.

FIRE!—The Barn, Stables, and a large quantity of Wheat in the straw was destroyed on Monday last, by fire, at the residence of Dr. Harriss, near Queenstown, Queen Ann's county—We have not learned how the fire originated.

PHILADELPHIA ELECTIONS.

The Philadelphia Aurora of Wednesday furnishes the following details respecting the elections which took place on Tuesday last:

CONGRESS.

	Administration.	*Jackson.*
First district.	Browne. 1038	Sutherland. 3076.
Second disirict.	Sergeant. 3010	Hemphill. 3567
Third district.	Harvey. 2133	Miller. 4512

In the Philadelphia Sentinel, received last night, we find the following statement:

The Congressional district composed of Lancaster, Delaware and Chester counties, now represented by Messrs. Miner, Anderson and Buchanan, has been heard from. In Lancaster county, Buchanan, Evans and Leiper, the Jackson candidates, have upwards of 1500 majority. In Delaware, the administration candidates have an average majority of 315, which leaves 1185. We have just heard that our Congress ticket has received a majority in Chester county of about 50, which gives a majority rising 1200 in the district.

The Jackson Sheriff in Chester county is carried by a majority of about 150.

Extract of letter to gentleman, dated Lancaster, Oct. 14th.

"I give you to-night the returns so far as received, and hope to be able to give you the entire state of the vote throughout the country by to morrow. The city district gave Buchanan a majority of 1058, Leacock, 63, Strasburg 100.

Columbia has given an administration majority of 47, and Lampeter, 123.

Heister had but 170 votes in the city of Lancaster.

Buchanan will leave the county with more than 1500 of a majority."

From the Philadelphia U. S. Gazette of Thursday.

Extract of a letter to the editors, dated

CHESTER, (Del. county) Oct. 15.

"Messrs. Hart & Chandlers:—The following is the result of the Election of the Congress Ticket in Delaware county, and supposed to be nearly correct.

Administration.		Jackson.	
Anderson	1315	Buchanan	988
Hiester	1286	Evans	930
Haines	1293	Leiper	975

Election returns to be depended upon from the country, are quite limited. We hear that Mr. Buchanan received a majority of 1050 in Lancaster city.

Norristown gave 5 majority for Jackson. The Adams paper of that borough, on the day of the election, conceded 80 to the opposition.

The Annual Fair of the Marylapd Agricultural Society for the Western Shore, was held on Thursday the 16th inst. at Carroll's Point in the vicinity of Baltimore. From gentlemen who were present, we learn that the collection of Cattle was numerous, and comprised a variety of the finest breeds. The exhibition of domestic manufactured articles was more limited than on previous similar occasions. A number of visitors, attracted either by curiosity, or a desire to promote the interests of agriculture, were on the ground throughout the day.

A letter from Edinburgh, received by the editor of the New York Albion, says:—The author of Waverly began a new novel on the first of September. He is in great health and spirits. The second series of *Tales of a Grandfather*, is completed. He has paid off £40,000 of his debt, and in a year or two will liquidate the whole.

COLOMBIA.—The packet brig Athenian, arrived at New York, sailed from Carthagena on the 20th ult. Capt. Sullivan has furnished the editors of the Mercantile Advertiser with copies of a decree and proclamation of Bolivar, dated at Bogota on the 21st of August, establishing a New Constitution or form of Government, under his Dictatorship. Bolivar retains the title of President and Liberator, but exercises absolute power. The Constitution merely establishes the different offices which are to administer the Government viz: Secretaries for the Home, Foreign, War, Treasury, Marine and Justice departments, and a Chief for each of the Departments of the country. It is declared that the Government shall be thus administered until January 1830, when a General Congress shall be called, and if the state of the country will permit, or it shall be deemed advisable, the Dictator will renounce his extraordinary powers, and restore the people to a free government.

The promulgation of this Constitution, as it is called, (subject, however, to any modification or alteration that may suit the will of the Dictator) was attended with great rejoicing at the capital, and at Carthagena, where it was formally declared on the 12th. The rejoicings at the latter place were continued for three days, and closed by a grand fete and ball at the palace of Gen. Montillo, the Intendante.

Bolivar remained at Bogota at the last dates. Neither the papers nor letters that we have seen make any allusion to the war that was threatened with Peru.—*American.*

The Norfolk papers informs us that the frigate Guerriere, now preparing for sea, is to proceed to the Pacific, and that Commodore WARRINGTON will go out in her to take command of the U. S. Squadron on that station.

Mr. HAILE, Representative in Congress from the State of Mississippi, has sent in his resignation to the Governor. The reason is contained in the introductory paragraph of his letter to the Governor, which runs thus: 'The result of the late election has indicated to me the course which every independent man ought to pursue under similar circumstances." Mr. Haile was a violent member of the Jackson party.—

We are informed that late despatches have been received, at the Department of State, from Mr. TUDOR, our Charge d Affaires at Rio de Janeiro, stating that the case of the Spark (which our readers will recollect was that which induced Mr. *RAGUET* to demand his passports and return to the United States,) has been arranged by a satisfactory provision for the payment of the sum (35,000) demanded by the owners; and that Mr. Tudor was engaged in negotiations for obtaining indemnity in all other cases of injury to our commerce.

Nat. Jour.

It would appear from the following article which we copy from the Washington, D. C. Chronicle, that a second Zera Colburn has sprung up in that city:—

SINGULAR MENTAL ENDOWMENT.—A Lad in our city, (Edward Ord, son of James Ord,) now in the 10th year of his age, possesses the uncommon faculty of making calculations & answering difficult arithmetical questions with the operations of his mind, without the aid of figures. He has been repeatedly examined, by different persons, and has uniformly excited the admiration and surprise of those who have witnessed the readiness and correctness with which he answers questions that are proposed to him. On a recent occasion, happening to be in company with several gentlemen who had heard of his possessing this singular talent, for the purpose of exercising it, the following question was submitted to him for solution:

If I give away ½ ¼ ⅛ and 1-5 of a bushel, what will I have left of 2 bushels from which I made the distribution?

After a few moments he answered correctly, 43 60ths of a bushel.

An arithmetician who was present when the question was submitted, undertook to solve it by the use of figures, which he effected, but not until after the answer had been given by the boy.

For the purpose of hearing him converse which he does with considerable readiness for so young a boy, he was then asked--

If a pair of boots cost six dollars, what will a hat cost?

He answered--different prices; and, in his turn, submitted to the gentleman with whom he was speaking, the following:

If a bushel of coal cost 6¼ cents, what will a cord of wood come to?

The gentleman answered--I don't know. *It will come to ashes*, said the boy.

The following was then propounded to him:

If 7-10ths of a yard of cassimere cost $2,25, what will one yard and a quarter cost?

He answered with his usual precision, $4 2 cents and 12 28ths of a cent.

SINGULAR DISCOVERY.—Mr. Horton, a gentleman who has been engaged in boring for water in Providence has presented to the public some remarkable results. In his second experiment in boring, he selected the extreme point of a wharf, many yards from the original land. He bored through the artificial soil—then through a stratum of mud—then through bog meadow, containing good peat—then through sand, pebbles and quartz gravel. At this point water impregnated with copperas and arsenic broke forth, but determining to proceed farther, Mr. Horton next struck a vineyard and drew up vines, grapes, grape seed, leaves, acorns, hazel nuts, pine burs and the seeds of unknown fruits, together with pure water. This was 35 feet below the bed of the river! *Balt. Gaz.*

Only hear how prettily our friend Noah talks about *infants*, their schools, &c. since he has become a Benedict. "Infant schools are admirable nurseries; and if a lady of character, experience and tenderness, was to establish one in every ward in the city, they must be profitable An infant carried to school, where it could without danger amuse itself, where its manners might be formed, its little errors kindly corrected, and a mere show of instruction adopted, would relieve parents from much care and going and returning from school would form daily epochs of interest."
—*Boston Statesman.*

REMARKABLE SAGACITY OF DOGS — A short time back, a gentleman residing in the upper part of Carnarvonshire, received an invitation from a gentleman residing in Middlewich, to spend a month with him. The gentleman accepted the invitation, & took with him a favorite greyhound. The next day after their arrival, a mastiff, belonging to the inviter, attacked the greyhound an gave him a good drubbing. The greyhound immediately took to his heels, and fled home to Carnarvonshire, a distance of about ninety miles, and the family there were surprised to see the dog return without his master. Next day the greyhound and a remarkable small bull and mastiff dog, belonging to the same gentleman, disappeared, and no trace could be found of either of them until a few days afterwards, when a letter was received from the Welsh gentleman saying that his bull-dog and greyhound had arrived in Cheshire, and both had attacked the mastiff belonging to his friend, and destroyed him before they could be separated.

WARTS AND CORNS.—It is stated that the bark of the willow tree, burnt to ashes, mixed with strong vinegar, and applied to the parts, will remove all warts, corns, or excrescences on any part of the body.
