scriptions of English Grain last week were moderate; the quantity of oats however had a good addition by an arrival from Ireland. The foreign supplies of wheat and flour continues very large. This morning the quantities of English grain, fresh up, were again small, but the millers purchased wheat so sparingly that the trade must be reported 1s a 2s. tendance of country buyers being very short. Barley for malting is scarce, and considering the time, dear; but grinding parcels are very dull at last quotations. The flour trade remains excessively dull but the top price is unaltered. The weather, though dry, has, within these

LIVERPOOL CORN EXCHANGE Tuesday May 10 .- The arrivals of foragain been large, and the trade has continued in so very depressed a state that sales, except the merest retail extent, could not be made, although many of the holders would have submitted to a considerable reduction. At Manchester on Saturday a few forced sales were effected at a decline of full 6d per bushel on foreign Wheat, and 2s per bbl. on flour. Irish wheat continues almost unsaleable. There has been very little inquiry for oats during the week and they have been offered on lower terms. Oatmeal was offering 1sper load cheaper, and every other article in the trade might have been bought at lower prices. At this day's market there was a better attendance than had been generally expected particularly of country dealers but they purchased very sparingly. The principal business that was transacted was in barrel flour which was in moderate request at 34s a 35s per bbl. for the best, bethis day week. The holders of fine wheat did not evince so much anxiety to press sales as at the close of the past week. But the decline since our last may be considered 4d a 6d per bushel on foreign wheat, and full 6d to 9d per bushel on Irish. Oats were full 2d per bushel lower and in very limited demand. Average of grain for the week ending

About twenty miles from Mount Hora, New York, there is a house which is built in two States, three counties, and four towns. The States are New York and Vermont; the counties are Rensselaer, Bennington, and Washington: and the towns are Bennington, Shaftsbury, White Creek, and Housac. The "Temperance Advocate" gives the following history of it .- It was built by a Mr. Mathews, who, through some freak of fortune, became subject to those unwelcome visiters yelept sheriffs. On one occasion the Sheriff of Bennington county, Vermont, called at the house, and on inquiry, found that Mr. M. had gone to the state of New York. division line of the States running longitudinally through the centre, he, with his
