POETRY.

BEAUTIFUL EXTRACT.

From the Rebel—By E. L. Bulwer.

Oh! in our sterner manhood, when no ray
Of earlier sunshine glimmers on our way,
When girt with sins and sorrows, and the toil
Of cares which soar the bosom that they soil;
Oh! if there be in Retrospection's chain
One link that knits us with young dreams again,
One thought so sweet we scarcely dare to muse
On all the hoarded raptures it reviews,
Which seems each instant in its backward range
The heart to soften, and its ties to change;
And every spring untouched for years to move
It is the memory of a mother's love.

Collector's Second Notice for 1834.

The subscriber being desirous of completing his collections for the year 1834, earnestly requests all persons who stand indebted to him for county taxes to come forward and settle them without delay; as he must if possible settle with all those who have claims upon the County in the time specified by law which will expire on or about the 1st of March next, and it is impossible for him to pay them unless he is first paid; therefore all those that do not comply with this notice on or before that time may certainly expect the letter of the law enforced against them, without respect to persons; as his duty as an officer will compel him to this course. Persons holding property in the county and residing out it will please pay attention to this notice and save themselves trouble.

THE SILK CULTURIST.

THE Executive Committee of the Hartford county Silk Society, have commenced a monthly publication, called the Silk Culturist and Farmers Manual.

The object of the publication is to disseminate a thorough knowledge of the cultivation of the Mulburry Tree, in all its varieties—The rearing of Silk Worms—The production of Cocoons and the Reeling of Silk, in the most approved method The importance of this knowledge will appear from the fact that the nett profit of land devoted to the culture of Silk, is double, if not triple, to that derived from any other crop which can be put upon it. It is also a fact, that every moderate farmer can raise several hundred dollars worth of Silk, without interfering with his ordinary agricultural operations. But in order to avail himself of this facility to obtain competency and wealth, which our soil and climate have given him, he must possess himself of information on the subject—for without it his attempts will be fruitless. It is, therefore, the object of the Committee to diffuse this information as extensively as possible, and at the cheapest rate. The publication will contain a complete manual or directory from sowing the seed to reeling the Silk, together with such facts and experiments, as will enable farmers to raise Silk and prepare it for market, without further knowledge or assistance. It will also contain interesting matter on agricultural subjects in general.

TERMS—The Culturalist will be published in monthly numbers of Eight Quarto Pages. at FIFTY CENTS a year. No subscription will be received unless paid in *advance*, and for not less than a year.

Subscriptions received by F. G COMSTOCK. Secretary, Hartford, Conn., to whom also. Communications may be addressed, which, if post paid, will be attended to.

New Improved Patent
THRASHING MACHINE.

THE SUBSCRIBERS having purchased the right of the Eastern Shore of Maryland of S. S. Allen's Improved Thrashing Machine, respectfully ask the public to suspend the purchase of any machine until they shall have an opportunity of seeing theirs, as they think it will give more general satisfaction than any thing of the sort yet offered to the public, as regards its thrashing, cheapness and convenience. It thrashes rapidly with one horse, and requires but two for any speed, and so completely portable that the whole ready for use may be easily taken from barn to barn in a light waggon with one horse, and with the improved Concave Hopper and Wind Mill is an excellent machine for getting out clover seed.

☞Machines can be seen at their shop in Elkton, where they are now building them.

To the Farmers and Gardeners

The undersigned having made arrangements for disposing of the valuable SHELL MARL which exits on her estate in Talbot county, informs the agriculturists on and near the navigable waters of the Chesapeake Bay that her agent, Mr. Thomas Martin, is prepared to deliver the above article, in any quantities that may be required.

A platform or stage has been run out into de water, where vessels of 12 feet draft of wat may lie in safety. The Marl may be tak rom the banks at the price of one cent ushel cash.

The fertilizing properties of calcareous marl are now so well known, that it is unnecessary to advert to the subject—in reference to this deposit it may be stated that it consists of Sea shells, with very little admixture of earth, and contains from 2 to 4 times the quantity of lime that is contained in the best English Marl.—Those wishing to purchase will please address Mr. Thomas Martin, Trappe, near Easton, Md. or the undersigned, Baltimore.—Vessels going for it will pass up the Great Choptank until the Dover bridge appears in sight—they will then come to Barkers landin where they will find the lands of the undersigned on the west bank of the river Samples of the marl can be seen at Messrs. Tyson & Fisher's, Market street.

ISABELLA SMYTH.

Baltimore, may 30

The following is an extract from the report of the Geologist appointed by the state of Maryland to make a minute geological survey of the State.

"But perhaps the most valuable beds of shell marl in this part of Talbot county, inasmuch as they may be made extensively available to the public demands for the article, are those which were fully described in the preceding report. They occur three miles below Dover bridge, forming the high bank from fifteen to twenty feet above tide, being one compact mass of fossil shells, and extending nearly a mile along the river, on the farms of the late Col. Smyth and Mr Atkinson. These beds are in contiguous strata, apparently successive, and consist of vast accumulations principally, in the ascending order, of oyster shells succeeded by clam shells intermixed with other marine shells, scollop, clam and scollop, and uppermost principally of collop. Endeavor was made to bring these beds into notice, with a view of enlisting them into the public service, by giving to their proprietors what was deemed proper directions for extracting the materials, and salutary advice as to a just estimate of its value, in order to secure a constant and permanent disposal of it. The subject is now in progress of xperiment. South of these banks on the Chop tank, no other deposite of marl is known to occur."

TO OUR FRIENDS AND THE PUBLIC.—The public journals have, no doubt, already conveyed to you the disastrous intelligence of the total destruction by fire, on the morning of the 9th inst., between the hours of one and two o'clock; of the STEAM MILL, erected by us for the purpose of grinding *Thomsonian Medicines*. The Dyeing Establishment of Ward Sears, the Last Factory of the Messrs. Larrabees', and their Dwellings, shared a similar fate.

Amidst the havoc made by the devouring element, we have reason to rejoice that our *Medicine Depot*, in which the pulverised and compounded articles were kept, was a considerable distance from the scene of conflagration; consequently, we are still in a condition to fill, with promptitude, and upon our usual accommodating terms, any orders which our friends and a generous public may be pleased to forward; and the confidence we repose in the punctuality of our patrons; affords us reasonable assurance, that our establishment wil have risen, Phœnix-like, from its ashes, and be in full operation before our present supply shall have been exhausted.

We now have on hand, at wholesale and retail, the largest and most valuable collection of BOTANIC MEDICINES, in the U. States, comprising all the various compounds and crude articles recommended by Dr. Samuel Thomson

MARYLAND HOSPITAL

This Institution has recently undergone extensive alterations, which have materially improved its condition and is now open for the reception of patients. Continuing to be recognized as a general Hospital, (exclusive of contagious diseases only,) its various departments have been revised with a careful reference to the purposes they are severally designed to fulfill.

In the changes effected in the Lunatic Department, attention has been directed no less to matters bearing upon the comfort of its inmates than to the introduction of such plans of medical & moral treatment as are sanctioned by the experience of the most popular foreign Asylums

The department, destined for the reception of ordinary diseases, has likewise undergone important improvements. Its Fever Wards are capacious and well ventilated, and are capable of accommodating comfortably a large number of patients. Rooms have been fitted up specially for the treatment of diseases of the Eye. Distinct apartments have likewise been appropriated for diseases of a Syphilitic character. The Surgical ward has in like manner, received due attention.

Gentlemen of professional ability have been appointed to take charge of the Medical and Surgical departments, but under circumstances where there exists a preference for any Physician or Surgeon, not connected with this institution, the privilege of election will be permitted the patient. There is at all times present a Resident Physician.

The terms vary according to the circumstances, &c. of the patient. the lowest charge being two dollars a week, Comfortable private rooms can always be had at a moderate advance. For information apply to Dr R. S. Steuart, President of the Board of Directors, or to the Sister Superior of the house.
