Poetry.

THE BAPTISM.

BY N. P. WILLIS.

She stood up in the meekness of a heart
Resting on God, and held her fair young child
Upon her bosom, with its gentle eyes
Folded in sleep, as if its soul had gone
To whisper the baptismal vow in *Heaven*.

The prayer went up devoutly and the lips
Of the good man glowed fervently with faith
That it would be even as he had prayed.
And the sweet child be gathered to the fold
Of Jesus.

As the holy words went on
Her lips moved silently, and tears, fast tears,
Stole from beneath her lashes, and upon
The forehead of the beautiful child lay soft
With the baptismal water.

Then I thought
That to the eye of God, that mother's tears
Would be a deeper covenant, which sin,
And the tempations of the world, and death,
Would leave unbroken, and that she would know,
In the clear light of heaven, how very strong
The prayer which pressed them from her heart had been
In leading its young spirit up to God.

THE SILK CULTURIST.

THE Executive Committee of the Hartford county Silk Society, have commenced a monthly publication, called the Silk Culturist and Farmers Manual.

The object of the publication is to disseminate a thorough knowledge of the cultivation of the Mulburry Tree, in all its varieties—The rearing of Silk Worms—The production of Cocoons and the Reeling of Silk, in the most approved method The importance of this knowledge will appear from the fact that the nett profit of land devoted to the culture of Silk, is double, if not triple, to that derived from any other crop which can be put upon it It is also a fact, that every moderate farmer can raise several hundred dollars worth of Silk, without interfering with his ordinary agricultural operations. But in order to avail himself of this facility to obtain competency and wealth, which our soil and climate have given him, he must possess himself of information on the subject—for without it his attempts will be fruitless. It is therefore, the object of the Committee to diffuse this information as extensively as possible, and at the cheapest rate. The publication will contain a complete manual or directory from sowing the seed to reeling the Silk, together with such facts and experiments, as will enable farmers to raise Silk and prepare it for market, without further knowledge or assistance. It will also contain interesting matter on agricultural subjects in general.

TERMS—The Culturist will be published in monthly numbers of Eight Quarto Pages, at FIFTY CENTS a year. No subscription will be received unless paid in *advance*, and for not less than a year.

Subscriptions received by F. G COMSTOCK, Secretary, Hartford, Conn., to whom also, Communications may be addressed, which, if post paid, will be attended to.

☞Editors who will copy the above, shall receive the publication for one year.

FOR SALE.

IN consequence of a settled disease, I have had for more than two years, deprives me of paying that attention to my farms, that is necessary to my interest, and I have come to the conclusion of disposing at private sale my farm, lying within four miles of the Trappe and about one mile from Great Choptank river containing 484 1-2 acres of land—this farm is now laid off in three lots, and three fields, the former is well improved, and the latter can be made so, as the soil is chiefly white oak land; there is a new brick well of first rate water in the yard, and also a fine Mineral Spring with in 300 yards of the dwelling, this tract of land was formerly in two farms, and can be made so again, if persons should be disposed to purchase together—the TIMBER is very abundant, being much more than is necessary for the farm, which could be disposed of to great advantage by a person living on the estate. The timber consists chiefly of white oak. The situation is considered healthy Persons disposed to purchase, will of course view the property.

Terms of sale—On the delivery of the estate, one fourth of the purchase money must be paid in cash, and the balance in 1, 2 and 3 years, equal payments with approved security, interest from the date until paid—and on the payment of the whole purchase money, and not before, a good and sufficient Deed will be given. Apply to the subscriber, residing on his farm in Oxford Neck, Talbot county.

To the Farmers and Gardeners

The undersigned having made arrangements for disposing of the valuable SHELL MARL which exits on her estate in Talbot county, informs the agriculturists on and near the navigable waters of the Chesapeake Bay that her agent, Mr. Thomas Martin, is prepared to deliver the above article, in any quantities that may be required.

A platform or stage has been run out into deep water, where vessels of 12 feet draft of water may lie in safety. The Marl may be taken from the banks at the price of one cent per bushel cash.

The fertilizing properties of calcareous marl are now so well known, that it is unnecessary to advert to the subject—in reference to this deposit it may be stated that it consists of Sea shells, with very little admixture of earth, and contains from 2 to 4 times the quantity of lime that is contained in the best English Marl.—Those wishing to purchase will please address Mr. Thomas Martin, Trappe, near Easton, Md. or the undersigned, Baltimore.—Vessels going for it will pass up the Great Choptank until the Dover bridge appears in sight—they will then come to Barkers landing where they will find the lands of the undersigned on the west bank of the river Samples of the marl can be seen at Messrs. Tyson & Fisher's, Market street

ISABELLA SMYTH.

Baltimore, may 30

The following is an extract from the report of the Geologist appointed by the state of Maryland to make a minute geological survey of the State.

"But perhaps the most valuable beds of shell marl in this part of Talbot county, inasmuch as they may be made extensively available to the public demands for the article, are those which were fully described in the preceding report. They occur three miles below Dover bridge, forming the high bank from fifteen to twenty feet above tide, being one compact mass of fossil shells, and extending nearly a mile along the river, on the farms of the late Col. Smyth and Mr Atkinson. These beds are in contiguous strata, apparently successive, and consist of vast accumulations principally, in the ascending order, of oyster shells succeeded by clam shells intermixed with other marine shells, scollop, clam and scollop, and uppermost principally of collop. Endeavor was made to bring these beds into notice, with a view of enlisting them into the public service, by giving to their proprietors what was deemed proper directions for extracting the materials, and salutary advice as to a just estimate of its value, in order to secure a constant and permanent disposal of it. The subject is now in progress of experiment South of these banks on the Choptank, no other deposite of marl is known to occur."

MARYLAND HOSPITAL.

This Institution has recently undergone extensive alterations, which have materially improved its condition and is now open for the reception of patients. Continuing to be recognized as a general Hospital, (exclusive of contagious diseases only,) its various departments have been revised with a careful reference to the purposes they are severally designed to fulfill.

In the changes effected in the Lunatic Department, attention has been directed no less to matters bearing upon the comfort of its inmates than to the introduction of such plans of medical & moral treatment as are sanctioned by the experience of the most popular foreign Asylums

The department, destined for the reception of ordinary diseases, has likewise undergone important improvements. Its Fever Wards are capacious and well ventilated, and are capable of accommodating comfortably a large number of patients. Rooms have been fitted up specially for the treatment of diseases of the Eye. Distinct apartments have likewise been appropriated for diseases of a Syphilitic character. The Surgical ward has in like manner, received due attention.

Gentlemen of professional ability have been appointed to take charge of the Medical and Surgical departments, but under circumstances where there exists a preference for any Physician or Surgeon, not connected with this institution, the privilege of election will be permitted the patient. There is at all times present a Resident Physician.

The terms vary according to the circumstances, &c. of the patient, the lowest charge being two dollars a week, Comfortable private rooms can always be had at a moderate advance. For information apply to Dr R. S. Steuart, President of the Board of Directors, or to the Sister Superior of the house.

New-Ark College.

THE Summer Term of this Institution will commence, both in the Preparatory and Collegiate Departments on Wednesday, the 27th of May, and will continue 17 weeks, after which there will be a vacation of 5 weeks. The Bill, which is to be paid for each term in advance, is for the

Summer Term 17 weeks	$34 50
Winter Term 25 weeks	58
Total per annum	$92 50

This includes Board, Tuition, Room rent, Fuel for private and public rooms, Janitors wages, use of Library and incidental expenses. Washing is matter of private contract. Students furnish their own rooms, and find their own Books. The latter however can be purchased here.

To show the flourishing state of the Institution, it is only necessary to state that it has had 94 students in its first year; and from applications and annunciations already made a large addition is anticipated the next term The College Edifice being already nearly full it will be necessary hereafter that all pupils under 14 years of age should board in private families. There expenses in this case will be nearly the same as if in the college edifice.

The Institution has now 5 Teachers whose whole time is devoted to the business of instruction, viz a President, 3 Professors, and one tutor, to which it is probable, there will this summer be added a Lecturer on Chemistry.
