FOR SALE.

IN consequence of a settled disease, I have had for more than two years, deprives me of paying that attention to my farms, that is necessary to my interest, and I have come to the conclusion of disposing at private sale my farm, lying within four miles of the Trappe and about one mile from Great Choptank river containing 184 1-2 acres of land—this farm is now laid off in three lots, and three fields, the former is well improved, and the latter can be made so, as the soil is chiefly white oak land; there is a new brick well of first rate water in the yard, and also a fine Mineral Spring within 300 yards of the dwelling, this tract of land was formerly in two farms, and can be made so again, if persons should be disposed to purchase together—the TIMBER is very abundant, being much more than is necessary for the farm, which could be disposed of to great advantage by a person living on the estate. The timber consists chiefly of white oak. The situation is considered healthy Persons disposed to purchase, will of course view the property.

Terms of sale.—On the delivery of the estate, one fourth of the purchase money must be paid in cash, and the balance in 1, 2 and 3 years, equal payments with approved security, interest from the date until paid—and on the payment of the whole purchase money, and not before, a good and sufficient Deed will be given. Apply to the subscriber, residing on his farm in Oxford Neck, Talbot county.

To the Farmers and Gardeners

The undersigned having made arrangements for disposing of the valuable SHELL MARL which exits on her estate in Talbot county, informs the agriculturists on and near the navigable waters of the Chesapeake Bay that her agent, Mr. Thomas Martin, is prepared to deliver the above article, in any quantities that may be required.

A platform or stage has been run out into deep water, where vessels of 12 feet draft of water may lie in safety. The Marl may be taken from the banks at the price of one cent per bushel cash.

The fertilizing properties of calcareous marl are now so well known, that it is unnecessary to advert to the subject—in reference to this deposit it may be stated that it consists of Sea shells, with very little admixture of earth, and contains from 2 to 4 times the quantity of lime that is contained in the best English Marl.—Those wishing to purchase will please address Mr. Thomas Martin, Trappe, near Easton, Md. or the undersigned, Baltimore.—Vessels going for it will pass up the Great Choptank until the Dover bridge appears in sight—they will then come to Barkers landing where they will find the lands of the undersigned on the west bank of the river Samples of the marl can be seen at Messrs. Tyson & Fisher's, Market street

ISABELLA SMYTH.

Baltimore, may 30

The following is an extract from the report of the Geologist appointed by the state of Maryland to make a minute geological survey of the State.

"But perhaps the most valuable beds of shell marl in this part of Talbot county, inasmuch as they may be made extensively available to the public demands for the article, are those which were fully described in the preceding report. They occur three miles below Dover bridge, forming the high bank from fifteen to twenty feet above tide, being one compact mass of fossil shells, and extending nearly a mile along the river, on the farms of the late Col. Smyth and Mr Atkinson. These beds are in contiguous strata, apparently successive, and consist of vast accumulations principally, in the ascending order, of oyster shells succeeded by clam shells intermixed with other marine shells, scollop, clam and scollop, and uppermost principally of scollop. Endeavor was made to bring these beds into notice, with a view of enlisting them into the public service, by giving to their proprietors what was deemed proper directions for extracting the materials, and salutary advice as to a just estimate of its value, in order to secure a constant and permanent disposal of it. The subject is now in progress of experiment. South of these banks on the Choptank, no other deposite of marl is known to occur."

MARYLAND HOSPITAL.

This Institution has recently undergone extensive alterations, which have materially improved its condition and is now open for the reception of patients. Continuing to be recognized as a general Hospital, (exclusive of contagious diseases only,) its various departments have been revised with a careful reference to the purposes they are severally designed to fulfill.

In the changes effected in the Lunatic Department, attention has been directed no less to matters bearing upon the comfort of its inmates than to the introduction of such plans of medical & moral treatment as are sanctioned by the experience of the most popular foreign Asylums

The department, destined for the reception of ordinary diseases, has likewise undergone important improvements. Its Fever Wards are capacious and well ventilated, and are capable of accommodating comfortably a large number of patients. Rooms have been fitted up specially for the treatment of diseases of the Eye. Distinct apartments have likewise been appropriated for diseases of a Syphilitic character. The Surgical ward has in like manner, received due attention.

Gentlemen of professional ability have been appointed to take charge of the Medical and Surgical departments, but under circumstances where there exists a preference for any Physician or Surgeon, not connected with this institution, the privilege of election will be permitted the patient. There is at all times present a Resident Physician.

The terms vary according to the circumstances, &c. of the patient, the lowest charge being two dollars a week, Comfortable private rooms can always be had at a moderate advance. For information apply to Dr R. S. Steuart, President of the Board of Directors, or to the Sister Superior of the house.
