POETRY.

For the Easton Gazette.

IN MEMORY OF THE LATE

MISS H M. G.

The flow'r is wither'd, and faded and gone,
And they that fondly watch'd it, sad and lone;
And melody no more their bosom's thrill,
For Oh! the Peri's song is hush'd and still

The "*Myrtles*" that flourish'd, now droop, for lo!
The songster on their boughs, vain, lists, the "*Echo!*"
He waits till the sun tinges the far West,
And oh! the song of the Peri's at rest.

The voice that tunefully fell on the ear,
And harmony's sweetest touch, soft, loud, clear,
No more may breathe beguiling minstrelsy,
For oh! the Peri's song is lost to thee!

Oh! who shall tell *her*, now cold in the grave,
The murmuring lays that over her wave!
'Tis the lorn warbler; unanswered his woes,
For the Peri's song is hush'd in repose.

Thy youth and beauty sleep under the sod,
Near to the "Grove" where thy footsteps have trod;
Now Music's true shrine will burn far away,
The Peri has sung her last fairy lay!

Then strew her o'er with white roses that bloom,
Pure emblem of her slumb'ring in the tomb;
Come twine her a wreathe of friendship and love,
The Peri's song is hush'd in the "*Grove.*"

From Moore's New Series of Melodies.

LET'S TAKE THIS WORLD AS SOME WIDE SCENE.

Let's take this world as some wide scene,
Through which, in frail but buoyant boat,
With skies now dark and now serene,
Together thou and I must float,
Beholding oft, on either shore,
Bright spots where we should love to stay
But Time plies swift his flying oar,
And on we speed, far, far away.

Should chilling winds and rains come on,
We'll raise our awning 'gainst the shower,
Sit closer till the storm is gone,
And smiling wait a sunnier hour,
And if that sunnier hour should shine,
We'll know its brightness cannot stay,
But happy, while 'tis thine and mine,
Complain not when it fades away.

So reach we both, at last, that fall
Down which life's currents must go;
The dusk, the brilliant, destined all
To sink into the void below.
Nor ev'n that hour shall want its charms,
If, side by side, still fond me keep,
And, calmly in each other's arms,
Together linked go down the steep.

TO THE PUBLIC, AND HAT-MANUFACTURERS IN PARTICULAR.

WILLIAM CLAYTON

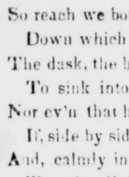

Takes this method to inform them that he has, at a very considerable expense, erected, & has now in full operation on an improved plan, an establishment for the manufacturing of HAT BODIES in a superior manner to any thing now in use in the United States, as his work will abundantly show—this establishment is within ten miles of Baltimore, near Ely's Ville, on the Baltimore and Ohio Rail Road, a place of easy access—where hatters by forwarding their wool and orders, will receive immediate attention, and at prices which will be accomodating —Or if the wool is left in Baltimore with Jacob Rogers, in South street, it will meet with like attention.

New Improved Patent

THRASHING MACHINE.

THE SUBSCRIBERS having purchased the right of the Eastern Shore of Maryland of S. S. Allen's Improved Thrashing Machine, respectfully ask the public to suspend the purchase of any machine until they shall have an opportunity of seeing theirs, as they think it will give more general satisfaction than any thing of the sort yet offered to the public, as regards its thrashing, cheapness and convenience. It thrashes rapidly with one horse, and requires but two for any speed, and so completely portable that the whole ready for use may be easily taken from barn to barn in a light waggon with one horse, and with the improved Concave Hopper and Wind Mill is an excellent machine for getting out clover seed.

☞ Machines can be seen at their shop in Elkton, where they are now building them.

To the Farmers and Gardeners

The undersigned having made arrangements for disposing of the valuable SHELL MARL which exits on her estate in Talbot county, informs the agriculturists on and near the navigable waters of the Chesapeake Bay that her agent Mr. Thomas Martin, is prepared to deliver the above article, in any quantities that may be required.

A platform or stage has been run out into deep water, where vessels of 12 feet draft of water may lie in safety. The Marl may be taken from the banks at the price of one cent per bushel cash.

The fertilizing properties of calcareous marl are now so well known, that it is unnecessary to advert to the subject—in reference to this deposit it may be stated that it consists of Sea shells, with very little admixture of earth, and contains from 2 to 4 times the quantity of lime that is contained in the best English Marl Those wishing to purchase will please address Mr. Thomas Martin, Trappe, near Easton, Md or the undersigned, Baltimore.—Vessels going for it will pass up the Great Choptank until the Dover bridge appears in sight—they will then come to Barkers landing where they will find the lands of the undersigned on the west bank of the river Samples of the marl can be seen at Messrs. Fyson & Fisher's, Market street

ISABELLA SMYTH

Baltimore, may 30

The following is an extract from the report of the Geologist appointed by the state of Maryland to make a minute geological survey of the State.

"But perhaps the most valuable beds of shell marl in this part of Talbot county, inasmuch as they may be made extensively available to the public demands for the article, are those which were fully described in the preceding report. They occur three miles below Dover bridge, forming the high bank from fifteen to twenty feet above tide, being one compact mass of fossil shells, and extending nearly a mile along the river, on the farms of the late Col. Smyth and Mr Atkinson. These beds are in contiguous strata, apparently successive, and consist of vast accumulations principally, in the ascending order, of oyster shells succeeded by clam shells intermixed with other marine shells, scollop, clam and scollop, and uppermost principally of scollop Endeavor was made to bring these beds into notice, with a view of enlisting them into the public service, by giving to their proprietors what was deemed proper directions for extracting the materials, and salutary advice as to a just estimate of its value in order to secure a constant and permanent disposal of it. The subject is now in progress of experiment South of these banks on the Choptank no other deposite of marl is known to occur."

FOR SALE.

IN consequence of a settled disease, I have had for more than two years, deprives me of paying that attention to my farms, that is necessary to my interest, and I have come to the conclusion of disposing at private sale my farm, lying within four miles of the Trappe and about one mile from Great Choptank river containing 484 1-2 acres of land—this farm is now laid off in three lots, and three fields, the former is well improved, and the latter can be made so, as the soil is chiefly white oak land; there is a new brick well of first rate water in the yard, and also a fine Mineral Spring within 300 yards of the dwelling, this tract of land was formerly in two farms, and can be made so again, if persons should be disposed to purchase together—the

TIMBER is very abundant, being much more than is necessary for the farm, which could be disposed of to great advantage by a person living on the estate. The timber consists chiefly of white oak. The situation is considered healthy Persons disposed to purchase, will of course view the property.

Terms of sale —On the delivery of the estate, one fourth of the purchase money must be paid in cash, and the balance in 1, 2 and 3 years, equal payments with approved security, interest from the date until paid—and on the payment of the whole purchase money, and not before, a good and sufficient Deed will be given.
