EASTON, (MD.)

Saturday Morning, April 22.

NEW YORK ELECTION.

GREAT AND GLORIOUS VICTORY.

Aaron Clark has been elected Mayor of the City of New York, by more than three thousand majority! The Whigs have carried fifteen out of seventeen wards. Twelve Whig and five Van Buren Alderman are elected, eleven Whig and six Van Buren Common Council men. Twenty three to eleven—more than two to one on joint ballot.

PAY FOR YOUR PAPER.—If you do not pay, the editor cannot pay—the publisher cannot pay—the printer cannot pay—the paper maker cannot pay; the men employed in the paper mill cannot pay—the stationer cannot pay—the merchant will suffer loss—the taylor will be injured—the shoemaker may fail; the butcher and market man will be disappointed, &c. All these will be injured—their engagements will be broken—their credit be lost—their characters will be tarnished—their feelings must be wounded; their families suffer—their business will be ruined—the paper must cease—and the community remain in ignorance for the want of it—and all because you would not pay for your paper.

From the Nashville Banner and Whig.

FAIR WARNING!

To Proprietors of News paper Establishments in Tennessee.—If no step is taken for an advance of prices equivalent to the increase of the cost of every article of consumption we use; and for more regular collection of our dues, we must all *'go to ruin.'*

Let us have a convention and 'lock the door before the steed is stolen,'

We go for Weekly paper—$5 a year.

Triweekly—$8.

Full prices for advertising—no discounts on yearly advertisers.

Payments always in advance and publishing the names of all delinquents who neglect to pay one month after being requested so to do; with a positive pledge of honor from all to do no work for those thus published, unless paid for in advance.

Movements to this effect are being made in all quarters of the Union, and while our expenses are double or triple what they were when our present prices were fixed we cannot make a living unless we advance.

W. H. H.

PRINTERS.—We see it stated in the Charleston papers that the publishers of morning papers in that city, 'have come to the conclusion not to receive any mercantile advertisers by the year, and to make no deduction upon any bill, which does not exceed 50 dollars in six months, and all papers to be paid for besides the advertising bill all marriage and obituary notices, and all calls for meetings and advertisements of candidates to be paid for. Ordinary mercantile advertisements would be about 200 dollars per year.

In New Orleans the price of the Daily papers has been raised from $10 to $12 per an. and advertising in proportion.

THE FAILURES IN NEW YORK.—The Journal of Commerce of Monday says, 'The whole number of failures in this city within the last two months, is *upwards of a hundred*, without including sundry small dealers whose misfortunes attract no public attention. An intelligent friend who has taken pains to inform himself as to the facts, is of opinoin that the aggregate liabilities of the suspended houses is more than FIFTY MILLIONS. It should be observed, however, that most of the houses in question will be able ultimately to pay all their debts.'

MAJOR GATES.—We are much gratified to learn, that this excellent officer—who was struck from the rolls of the army by Gen Jackson, for alledged misconduct in the Florida campaign, and who was afterwards re-instated for the purpose of giving him a trial—has been most honorably acquitted of the charges preferred against him. It is stated in the Alexandria Gazette, that the decision of the Court has been sent to the President for his approval.

BY SOUTHERN EXPRESS MAIL.

Our New Orleans slips are to the 6th inst inclusive.

TEXAS BLOCKADED.

The schr. Ringleader, at New Orleans from Tampico, brings advices to the 26th ult. The following summary of news we find prepared to our hands in a Mobile Register slip of the 7th instant.

The Mexican Government has issued an order declaring a Blockade of all the ports of Texas. These ports are enumerated in their order; they are—Matagorda, La Baca, San Louis, Galveston, Brarrori, Harrisburg, Goliad, Anahuac, Copano, and all other ports that line the coast of Texas, from longitude 94 50 to 101 10 west of London. The blockade is to take effect from and after the 30th day of publication in the city of Mexico, which was on the 9th of February. It has therefore nominally been in force about four weeks.

The naval squadron designed to maintain this blockade, consists of five vessels, four brigs, Libertad Alamo, General Baraga, and Fama, and the schr. Hidalgo. They were off Tampico at the latest dates from that place, and were to sail for the Texan coast on the 27th ult.

The Mexican Government has also passed a decree, closing a number of ports on both sides of the continent against foreign commerce. The decree is to take six months after its publication, which was on the 2d March. The ports on the Gulf of Mexico, Bacalar Tuxpan, Alevorado, Matagorda Galveston. On the Pacific—Huatulco, Manzanillo, Natividad, Mazatlan, La Paz, Loreto, San Diego, San Francisco. There are extensive symptoms of internal disorder and pending revolution in Mexico. The New Orleans Bulletin of Wednesday contains several letters from the City of Mexico, received by the Ringleader via Tampico. They are of the dates between the 8th and 15th of March and they exhibit a very troubled state of the Capital.

The government had by a decree depreciated their copper coin to the amount of 50 per cent. and in consequence riots took place, which were only quieted by the military. The houses of the foreigners were attacked, the government being anxious to turn excitement from themselves against strangers. The difficulties were not quieted on the 15th. *Puebla* was also in a state of insurrection.

On the 14th, the troops in the City, offered the Dictatorship to Bustamente, which he declined They demanded the resignation of *Carro* the President *pro tem.* He sent it to Congress on the 14th, but they had not yet accepted it

Foreign embarrassments too, thicken upon the Government. The French Minister has received instructions from his Government, to demand immediate restitution from Mexico, of the amount taken from the French citizens under the decree of the Force Loan, and an adjustment of all other matters in controversy, he has not yet received his answer.

The English Minister, it is said, received similar instructions. On the night of the 4th ult the Message of the President of the United States, was received by express from Vera Cruz, via New Orleans. It produced a great sensation. Congress was convened the next day in Secret Session. As far as learned, their action was any thing but favourable to an amicable adjustment of the difficulties between the two countries, as the Chambers were discussing the propriety of issuing Privateer Licences, and sending them up the Mediterranean, by an agent, for sale.

Santa Anna was still at his plantation, waiting the turn of affairs. The tide of public feeling is said to be turning in his favor.

MEXICO.

We learn from the correspondence of the New York Courier & Enquirer that on the 1st of March Santa Anna wrote to Governor Castro, commanding at Vera Cruz, stating that, to put an end to all doubt, whether he was or was not President of the Republic, under the new constitution, he wished the discussion to cease, and merely desired that Governor Castro would receive his oath as General of the Mexican Army, he (Santa Anna) believing that none would dispute his claim to that station.

The Governor appointed the 9th of March for the ceremony, and gave at the same time information to the Government of Santa Anna's letter, and his own proceedings.

Santa Anna arrived at Vera Cruz from his farm on the 9th, at 9 o'clock in the morning, accompanied by his friends and was enthusiastically received. The ceremony took place one hour after his arrival, in the town hall, which was crowded to excess with people of all classes and ranks. After taking the oath to the constitution, Santa Anna addressed the spectators in the following terms:

'On returning to my country, which I found governed by a new constitution, I feel bound to respect its will, and this I have just sworn to do. Let God be a witness of the pledge I have given to fulfil my duty, and let my oath serve as the best pledge to Mexicans, and may the constitutional code secure forever, peace and happiness to the nation.'

Governor Castro replied—'I congratulate myself, your Excellency, the Supreme Government, and the nation at large, on this happy moment, because the sacred oath which your Excellency has just made, will at once destroy the vain hopes and intrigues of those enemies of good order, who thought to find in your return an opportunity to involve the country in anarchy and ruin.'

Santa Anna partook of a splendid dinner prepared for the occasion, received the compliments of thousands of Vera Cruzans, and departed in the evening, for Manga de Clavo the whole town resounding with acclamations of Viva Santa Anna! Santa Anna for ever!

'I may be mistaken, but I think that Vera Cruz, with its Governor and castle, are already in the hands of the prisoner of San Jacinto.

SIX DAYS LATER FROM EUROPE.—The packet ship Sheridan, at New York, brings Liverpool papers to the 18th March, inclusive, and London to the 17th. We extract the following items of intelligence.

The London papers note that the money market had obtained a temporary relief, and that about the 14th of March money could be obtained at 3 per cent per annum. At the last dates, however, it had relapsed to nearly its previous state.

From Friday the 10th to Friday the 17th, cotton experienced a further decline of 1-2d a 3-4 per pound.

Resolutions favorable to the commutation of Church rates, were carried in the House of Commons, March 15th, by a vote of 279 to 250. The Tories considered this a triumph, presuming that with so small a majority, Ministers wou'd not press the measure.

On the 17th Mr. Roebuck in the House of Commons moved for a copy of all the correspondence between the government of England and the government of Russia and Turkey relative to the treaty of Adrianople and the occupation of the shores of the Black Sea by Russia. The motion was negatived without a division.

In the House of Commons, on the 10th, a debate commenced upon the subject of intervention in Spain, which occupied the whole of that and the next session. Lord Palmerston vindicated and justified the conduct of the government, and the right and propriety of assisting the constitutional cause, even to a greater extent than it had been done

In the Commons House, on the 16th Mr. Clay brought forward his motion for the substitution of fixed duties, instead of the present graduated scale, on the importation of grain. He stated his proposition to be, 10 shilling per quarter on wheat, 8 on barley and 6 on oats, until June 1840; and after that just half the same rates.

The motion was lost, only 89 voting for it, and 238 against.

Mr. Davidson, the traveller in Africa has been murdered by a party of the tribe of El Hareb at Sheh Kevah, twenty days journey from Wednoon, and twenty seven from Tumbuctoo. Mr. Davidson is author of Travels in Mexico, Egypt and the *Holy Land.*

Death of Mrs Canning.—The Liverpool Mail of the 19th March announces the death. She was the Viscountess Canning, wife of the former Prime Minister George Canning. Her death raises to the Peerage her son Charles John Canning, who was recently in the House of Commons.

The Boston Courier of Friday morning contains the following: 'In this city we have had some failures, within a few days, for very large amounts, which affect also the New York houses, and yesterday the extensive house of Crocker and Richardson, at Taunton, was reported to have failed for six hundred thousand dollars; they have had dealings to a very heavy amount in this city. The shoe dealers in some of the neighboring towns are expected to be great sufferers by the failures at the South.'

Valuable Farm

FOR SALE.

By virtue of a decree of Queen Ann's county court the subscriber as trustee will offer at public sale on THURSDAY 1st day of June at Centreville at 12 o'clock, the farm known by the name of Prospect Bay, situated in Piney Neck, Q. A. County.

This farm is beautifully situated on Eastern Bay and Greenwood's Creek—where the various luxuries of the water can be had in great abundance, the shores afford a quantity of sea ooze and some shells, which make the farm very susceptible of improvement. The farm is of a sandy quality, and adapted to the growth of corn, is well divided with fencing principally of Chesnut. There are about 25 acres of Marsh, about 250 acres of arable land, and the residue in

WOOD LAND:

containing in the whole, by late survey

375 Acres and 1 Rood.

The improvements consist of a small

Two story frame Dwelling

Kitchen, meat house, Quarter, Windmill, Corn house, Stable, and a large Barn, embracing two corn cribs, granary, carriage house and two sheds. To a person in want of a farm this cannot fail to please, as for beauty of situation and general advantage, it is surpassed by few.

It is presumed persons wishing to purchase will view the premises which will be cheerfully shewn them by W. A. G. Hobbs residing thereon.

The terms of sale as prescribed by the decree are, that the purchaser or purchasers shall give bond with approved security for the payment of the purchase money in three equal instalments of six, twelve and eighteen months from the day of sale. Upon the payment of the money and the ratification of the sale by the court, the trustee will execute a good and sufficient deed to the purchaser free of all incumbrances.

ED. F ROBERTS & SADNS & NEILSON

Having purchased the Establishment of the

FARMER & GARDENER.

Successor to the

AMERICAN FARMER,

And being desirous to place it within the reach of every agriculturist in the United States, have concluded to *reduce its subscription price from five dollars, to two dollars and a half,* per year, from and after the beginning of the next volume, which will commence in May next.

It is now nearly eighteen years since the American Farmer was first established. Prior to its institution, there were no paper exclusively devoted to agriculture in the country, and it will not be arrogating any thing but what it deserves, to say, that, as it was the pioneer in the good work, the labors of its former conductors must have been productive of much solid advantage to those for whose benefit it was established. In continuing its publication, the present proprietors flatter themselves that its pages will be found to contain matter at once calculated to instruct & interest the agricultural reader. So far as they are concerned, they are determined to conduct it with industry, unflinching perseverance, & with undivided attention to the great and important purposes which called it into existence. They feel certain that none of its patrons will have cause to complain, at the end of their subscription year, that they have left any effort unessayed to render it worthy of their confidence and support.

In reducing its subscription price, they have ventured upon an experiment full of risk and responsibility, and as they have done so under the influence of motives which they must be permitted to say should commend it to a greatly increased subscription—as they can allone look to *that* as the source of their remuneration—and as in so doing, their labor will be much increased—they appeal to its present patrons to aid them in giving it an extended circulation. They are confident that those who now honor them with their support, can, without personal inconvenience, in their own immediate neighborhoods, and among their persons' friends, by using their deserved influence, procure such an addition to their present list of subscribers, as will not only realize their fondest expectations; but place them under renewed obligations of interest and gratitude, to render the *Farmer and Gardener* a welcome visitor to the fireside of every farmer and planter.

The farmer and Gardener will at once be a faithful repository of original communications from practical agriculturists and horticulturists and of judicious selections from every other available source. Foreign, and domestic agricultural, and scientific works, will be constantly resorted to, for the purpose of furnishing materials calculated to advance the prosperity and happiness of the country, and of adding to the intelligence of the American husbandman.

In fine, whatever concerns the business, of the *farm, domestic animals of all kinds, newly invented implements of husbandry, those of approved utility now in use,* together with the principles and practice of agriculture, horticulture, and gardening generally, will be regularly and conscientiously noticed. The *prices of produce* in this market, and the value of *bank notes* will be weekly laid before its readers.

With a view of keeping their patrons advised of all superior breeds of animals already introduced of which may be hereafter imported, they will seize the earliest opportunity of translating all such information to the columns of their journal.

TERMS, &c.

Price two dollars and fifty cents per annum for all subscriptions paid in advance, or within one month from the date of subscription—all subscriptions which remain unpaid beyond that period, will be charged at the rate of three dollars per year.
