—and at *least* twenty five per cent. increase, it is supposed, may be fairly expected, when fully matured.

The National Intelligencer announced that Mr. Thomas Ritchie, editor of the Richmond Enquirer, 'put forth, some days ago, a proposition for a convention of the Banks of the United States, to be held on the 13th of September next; requesting those who approved of the proposition to copy it. Not approving it, because we are jealous of *Bank Legislation*, we did not insert it.' Nor did we, not that we were jealous of Bank Legislation, or feared the combination of which our worthy friends speak, but because we do not recognize Mr Ritchie's authority to put *forth* his proposition for convening the directors of the Banks of the United States. Considering the agency he has had in producing the present state of things, we think it would become him to be less dictatorial. He may be a great man in Virginia; but as we issue no mandates even in the humble form of propositions—we cannot consent to give publicity to those of others, having no greater power than ourselves. Laboring in our vocation we seek not to dictate or encourage others to do so. For aught that appears, the Editor of the Richmond Enquirer has not the authority of a single Bank.

RETURN OF COM. DALLAS

The Pensacola Gazette of the 15th ult says 'Last night, after our paper was made up, the Frigate *Constellation*, bearing the broad pendant of Com. Dallas, appeared in sight off the Bar. She is accompanied by the Sloop of War *St. Louis*. The *Concord* and *Natchez* are also on their way to this port—The *Boston* had been ordered to communicate with our Consul at Tampico, and the *Vandalia*, with Mr. Greenhow on board, was to remain at Vera Cruz for a few days. We understand they are all well on board the ships.

CROPS IN MISSISSIPPI.—The Vicksburgh Sentinel, of July 11, says: 'So far as we have heard, the memory of the oldest inhabitant cannot furnish a season when the crops of cotton and corn in the south-west promises as abundant a harvest as the present.'

Money Brought out by emigrants.—The Liverpool Mail states that the number of emigrants to New York is ten thousand per month. The expense of passage is 5*l*. each, making 600,000*l* annually—about two-thirds of which go to American ship owners, which are preferred for speed. A good deal of hard money is carried out of the country by them, the largest sums by the Irish, the smaller by the English. The average is 15*l*. each, making nearly 2,000,000 in specie carried to America every year. The English paper says 'It is so much gold drawn from the producing capital of the country—so much thrown into the recources of America.

STEAM BOAT EXPLOSION.

The Steamboat Union blew up at Hull, England, about the 8th ult., causing the destruction of the boat and the loss of many lives. The persons on board of the Gazelle, which was passing at the time, say that immediately after the explosion, the sky was covered with fragments of the ill fated vessel, & from 70 to 80 persons were blown into the air. There were about 60 persons, including many ladies, in the cabin at the time of the accident, and this part of the vessel was seen to fill with water immediately after the explosion, which carried away the remainder, and before assistance could be rendered, sank with all its unfortunate inmates. A lad only out of the number escaped, by crawling out of the cabin window, and swimming on shore.

The following is from the London Morning Chronicle, which makes itself merry at our expence.—Whether Miss Martineau or Basil Hall, or the Rev. Mr. Fidler gave the information does not appear:

'The New Orleans papers have a very business like way of inserting a death as the following will show:—'Died, at his house in Cotton street, Jonathan Smith, storekeeper. *He* was a very well doing citizen, and deservedly respected. *His wife carries on the store*—Surgeon physician.' The name of the doctor renders the affair complete.'

Great excitement prevails in the Canadas against the Government. A person of the name of Papineau is leader of the opposition. *He* is marching in triumph through the country with a train of 1500 or 2000 followers, having several artillery pieces. His precise object does not appear. He was received at St Thomas with acclamation, and salutes from cannon and escorted through the streets by a large company of men on horseback carrying flags and a long procession of gentlemen in carriages. *He* is styled 'the great Papineau—the Saviour of Canada.'

From the New Orleans Courier.

New Orleans, July 27.

Provisions, with the exception of vegetables are exhorbitantly high, Beef, of good quality, is selling at 18 1-3 cents per lb. and other meats in proportion. Flour, at 14 a 15, and potatoes at $7 per bbl. If we have not shortly a supply of provisions there are many of the industrious poor, who may undergo a great deal of suffering.

Office of the Georgian,
Savannah, July 29.

FROM FLORIDA:—From an officer, a passenger, on board the Steamer Cincinnati, Captain Currey, arrived yesterday from St. Augustine we learn that the Indians remain quiet, although little dependence was to be placed upon them, it being considered and probably is the calm which precedes the coming storm. Orders had been received to have the invalid soldiers, transported to old Point Comfort, and Steamboats were at St. Augustine, for the purpose of bringing them to this place, with the view to forward them to the Point.

FROM NASSAU.—By the Br. sch Milo, Capt. Prudden, arrived yesterday from Nassau, we have received regular files of the Royal Gazette and Bahama Argus to the 22d inst. inclusive. The Gazette of the 19th inst. says.

About a fortnight ago the Portuguese schooner, Escuna Esperance, Capt Sadanda, from the coast of Africa, with a cargo of 203 slaves, was wrecked at the north east point of the Caicos. She had when she left the coast 250 on board 74 of whom died on the passage. On the the slaves and crew landing at the Caicos, it produced great excitement and uneasiness and a boat was immediately sent to Turks Island to make application to the authorities there; in consequence of which, Lieut. Tew. with the detachment of the 2d W. Regiment, proceeded thither and seized them with the hull and materials of the vessel, and brought the Africans & crew, with the master to this port, where they arrived yesterday, in the sloops Feronia, Jane, and Shepherd, belonging to Turks Island. Eleven of these Africans escaped at the Caicos.

A private Letter from Turks Island mentions that, that Island is in great distress for want of Provisions, and indeed almost in a state of starvation. Salt was selling at the reduced price of 8 cts per bushel in consequence thereof.

Picking One's Company.—A waggish rascal who has been confined in jail at Natchitoches on a charge of passing counterfeit money, on having three or four persons put in the same room with himself, convicted of stealing, sent a note to the jailor stating that he has some notion of *leaving* as the company was too low for him to associate with. The fellow acknowledged that he had made and issued paper money in violation of the law, but that *stealing* was an occupation he despised. Petition granted and he is now at Baton Rouge.—*Picayune*.

Balancing Accounts.—The ship Ann McKim brought thirty-two boxes of bullion, for the Major. This will indemnify him for his recent outlays.—Chron.

In the Packet ship Ontario, which sailed from New York for London on Tuesday, went passengers, Mr. and Miss Harrison, Mrs. and Miss Oliver, Master R. & H. Oliver, infant and 3 servants, and Gen. Emory, of Maryland.

Office of the Journal of Commerce,
NEW YORK, August 2 2 P. M.

SPECIE — The exports by the packet of the 1st prove to be quite large, being considerably over a million of dollars. We hope it will do them much good in Europe. It certainly does us no harm, for we have plenty left, and the current outward has produced a current inward which keeps up the supply. We would not however, that the Bank of England should think too much of its success in getting our specie.

She is getting our cotton and tobacco, and whatever else we have to spare, and the time is not very distant when we shall not only redeem our character for honesty by paying off our whole debt, (except where from individual misfortunes it is impossible,) but shall probably go on until we put boot upon our own leg, and possibly free trade may set the specie current within twelve months in the other direction.

situate in the town of Easton, on the Eastern Shore of Maryland, at present, and for some years past, occupied by Mr. Solomon Lowe. This establishment is universally admitted to be the largest and most convenient for a Public House, of any on the Peninsula, and to a man well calculated to conduct it, an opportunity will be offered for doing a very extensive and profitable business, more especially if he has a sufficient capital to carry it on advantageously.

Easton is known as a town of considerable trade, and the Steam Boat Maryland, which plies twice a week between Baltimore, Annapolis, and this place considerably increases the business, and of course adds very much to the value of this establishment, by the constant intercourse of travellers from the different counties on the Western and Eastern shores, and elsewhere with these places.

Possession will be given on the first day of January next. Persons wishing to rent are invited to come and view the premises. The terms, which will be moderate, will be made known by application to the subscriber.
